

1958

EPITOME

# THE 1958

LEHIGH UNIVERSITY

# EPITOME

BETHLEHEM, PENNSYLVANIA

# DEDICATED TO

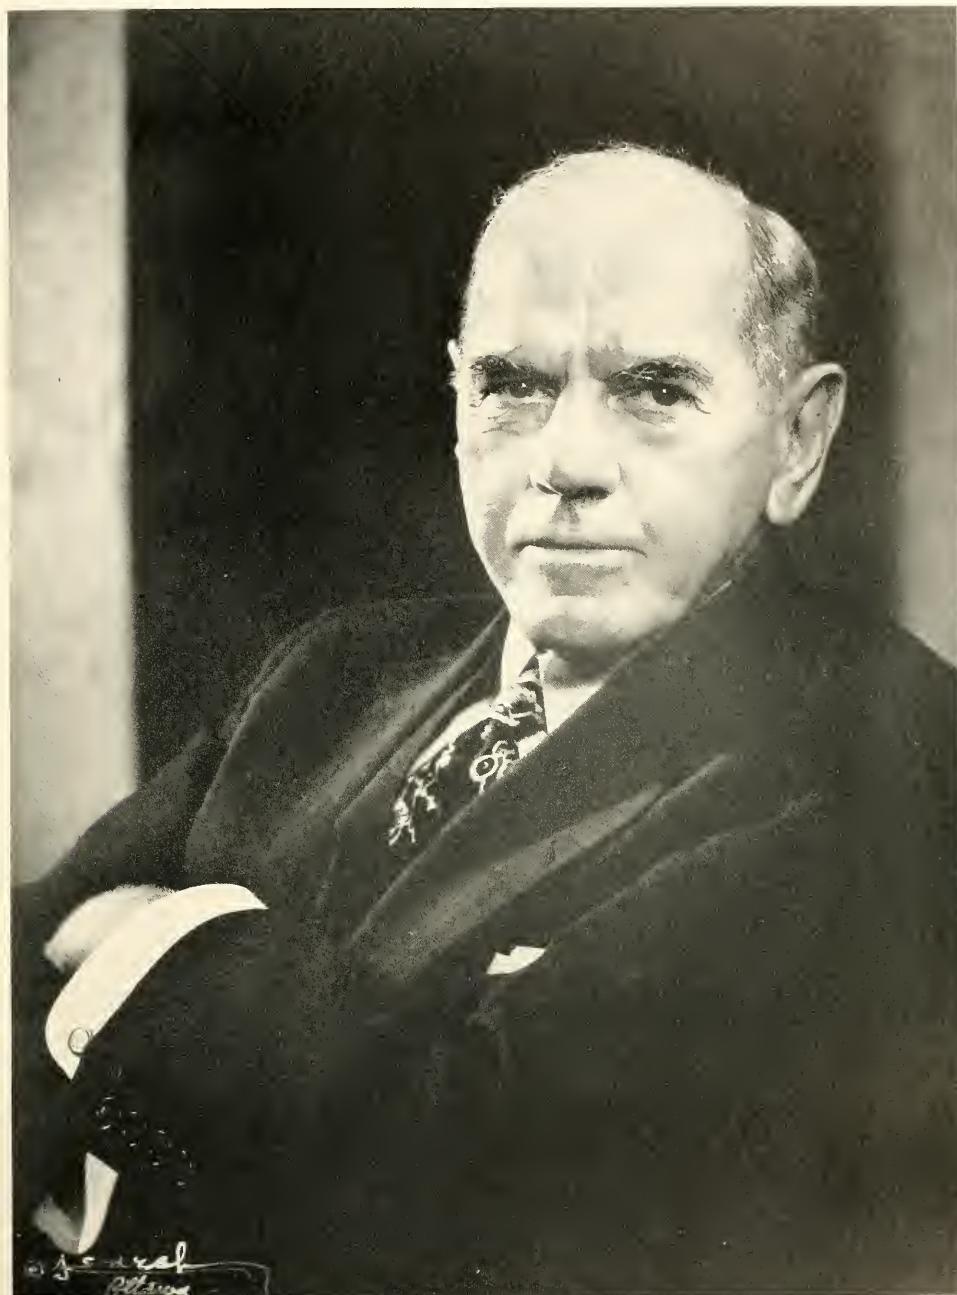

## EUGENE GIFFORD GRACE

who symbolizes the man as an aspiring Lehigh graduate pictures himself at the pinnacle of his career. If one wishes to cast his life in this mold, he must be cognizant of one of the dedicatee's guiding principles that rich satisfaction is derived from service that benefits one's fellow man.

For thirty-four years Eugene Grace served as a trustee of Lehigh, and always gave unstintingly of his vast energy in behalf of community activities. He has been a stabilizing influence in industry, and an active advocate of expanding educational horizons.

It is in recognition of his contributions to his community, to industry, to education, and, most of all, to Lehigh University, that the 1958 *Epitome* is dedicated to Eugene Gifford Grace.

Joseph  
Glaser

# THE YEAR'S

A university is many things—a faculty, a student body, sciences, humanities, hundreds of courses, laboratories, and many other tangible and intangible things. At a glance, however, the most impressive part of a university is the physical plant—the buildings that house the colleges, the departments, and the administration of the university.

The 1958 *Epitome* has chosen the Lehigh University buildings as the medium through which to review the activities of the

past year. These structures are the centers of university life; in them one can relive the events of the year.

# STORY

# ALUMNI MEMORIAL

MARTIN D. WHITAKER

*President*

# Administration

Lehigh University's administrative headquarters are in the Alumni Memorial Building. Herein lies the heart of the large, complex operational machinery. The offices of the President, his assistants, and two Vice-Presidents maintain close contact with all phases of University life in coordination with other staff members. All aspects of a student's career, from his admission to his final ceremony, are guided by the decisions of these men.

The additional responsibilities of this upper echelon range from fiscal control to the vital area of contacts with other educational institutions, business and industry, and alumni and parents.

It is here, too, that the physical aspects of Lehigh's development are mapped and guided to fruition. The impressive list of recent results of their efforts includes the renovation and expansion of Packer Hall, and the additions of a residence hall, a modern civil engineering laboratory, and a student health service.

Samuel Peters, Roy Steyers, Stephen Baize,  
Roland Bauer, Harry Klase.

The Admission office, vital to the educational progress of the University, operates a year-round campaign to attract a high calibre of student. In succeeding years, the record of each freshman class overshadows that of its predecessor, a credit to the Admission personnel.

The offices of the Dean of Students, the Registrar, the Treasurer, and the Bursar have a more clearly delineated responsibility. Their functions—housing and feeding of students, course registration, processing of grades, receiving and dispensing of funds—keep full-time staffs working in each of these areas.

Also housed in this headquarters are the Alumni and Information offices. Through the former, contact is maintained with alumni by personal and printed means, and from the latter emanates word of Lehigh activities which finds its way into many newspapers and magazines.

## Buildings and Grounds

Howard J. Wiegner, Andrew W. Litzenberger, Frank R. Weaver,  
Charles L. Anderko.

Registration of the Freshmen by Cyanide, the junior class honor society, took place in the lobby of the Alumni Building on the day preceding Freshman Week.

Before the book store was opened in the University Center, students purchased books and other supplies in the basement store of the Alumni Building.

Registration for courses is so speeded by the use of IBM cards that all a student has to do is pick up an ID card and sign his name on the proper line.

JAMES D. MACK  
*Librarian*

## Library—*research in science*

The University Library, originally built in 1877, was dedicated by Lehigh's founder, Asa Packer, in honor of his daughter, Lucy Packer Linderman. The structure was enlarged many times when in 1929 gifts from alumni enabled an addition to be built.

The library has over 400,000 volumes available for the use of Lehigh students. Convenience in using these books is assured by the library's adequate facilities, which include seating for three-hundred persons, complete cataloging, and extensive reference services.

Special instructions are given to freshmen and other groups to better enable them to use the library's facilities. Trained librarians are on duty seventy-seven hours a week, to answer the thousands of questions which arise during the course of a year.

The University Library is considered second to none in the Keystone State. One of the reasons

The University Library, now many times its original size and containing over four hundred thousand volumes, was constructed by Asa Packer in 1887.

## *and the humanities*

for this preeminence is the rare book collection. Dr. William Chandler, the first director of the library, used his yearly allowance to good advantage in a successful attempt to give Lehigh a library of distinction. The rare book collection, initiated by Chandler, was augmented by the Honeyman Collection, the gift of a graduate of the class of 1920. This collection is particularly strong in voyages and travels, history of science, Shakespeare, and ornithology.

The reserve book collection is one of the most useful facilities provided for students. Texts and references collateral with particular courses are reserved for students enrolled in the subject, thereby relieving them of the problem of searching out needed material.

The library maintains the Music Department's record collection and conducts bibliographical research for the various departments that request this service.

## Institute of Research

Director*

## LIBRARY

### STAFF

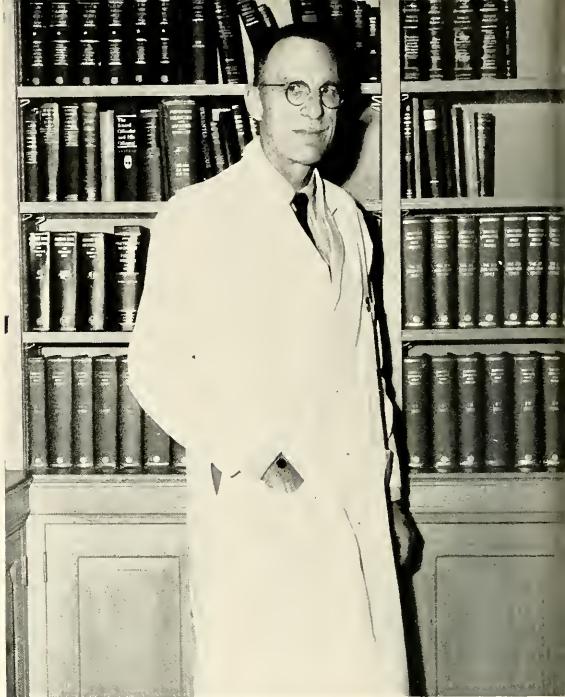

*First Row: James D. Mack, Michael G. Hitchings, William W. Kenawell.  
Second Row: Patricia Weitzel, Ruth C. Pace, Margaret M. Caffrey, Mary E. Gruber, Katherine T. Emerson, Edward G. Rankey, Margaret L. Dennis, Robert S. Taylor.*

## Health Service

The University maintains a dispensary which is equipped and staffed for routine medical and minor surgical care. Hours include all-day availability on weekdays, with limited facilities available on weekends. A night medical attendant is on duty from 5 P.M. until 8 A.M. as well.

Five beds are available for short periods of observation, and patients requiring regular bed care are sent home or, if necessary, to a local hospital.

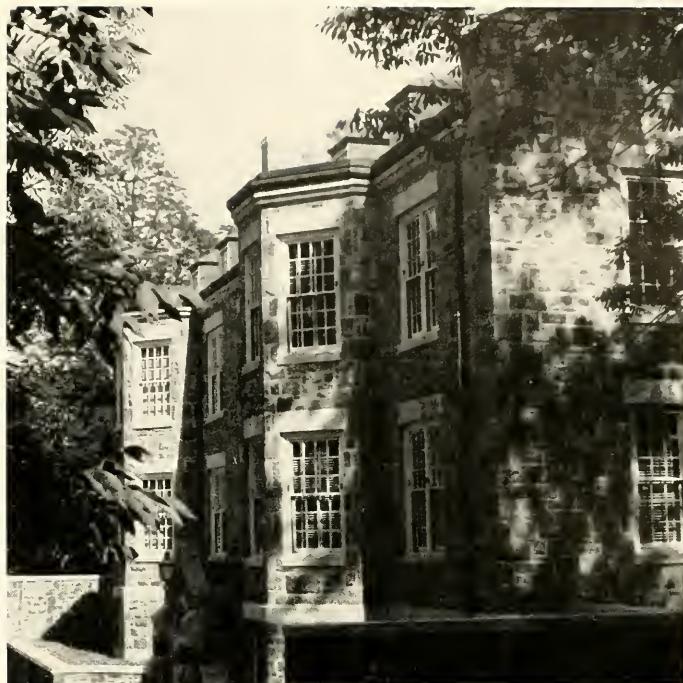

The Health Center building is located across University Avenue from the University Center. It is one of the newer structures on campus, having been erected in 1955. The main floor contains a waiting room, examining offices, record offices, a clinical laboratory, a dispensary, x-ray machines, observation rooms, and an ear, nose, and throat room. On the ground floor are the physiotherapy department, the library, and a conference room. The second floor contains inactive medical records as well as two physicians' apartments.

GLENN J. CHRISTENSEN  
*Dean*

## College of Arts and Science

The College of Arts and Science was a part of the original plan for the University, and its aims have remained constant to the present day. The purpose of the College is to prepare men for the exercise of individual responsibility in later life. This purpose recognizes three distinguishing characteristics of an educated man: the ability to think in a disciplined manner, the willingness to make discriminating judgments, and the capacity to apply a creative imagination.

In order to achieve its purpose, the College shares with the student the whole range of human knowledge—the world of fact as well as the world of ideas. The fundamentals of this experience remain what they have been for generations: the Humanities, the Natural and Physical Sciences, and the Social Sciences.

The College provides preliminary training necessary for admission to graduate schools, and, in many cases, prepares a student directly for a profession. Since a large proportion of the students advance to graduate training, the College offers a number of course combinations designed to give preliminary instruction in such varied fields as medicine, public service, law, and theology.

### Placement, Testing, and Counseling Services

Everett Teal, *Director*; Helen Fry,  
Evelyn Nitti, Andrew Edmiston.

J. BURKE SEVERS  
*Head of Department*

H. BARRETT DAVIS  
*Speech Division*

## English and Speech Division

The Department of English embraces three divisions—Speech and Dramatics, Journalism, and English Composition and Literature. The latter two offer well-developed major programs which each year are elected by a number of students in the College of Arts and Science.

Each college, however, requires all freshmen to take English; this means that more than one quarter of all students in the University are enrolled in the department each semester. Thus, this is one department which will increase in size with the University, regardless of the relative sizes of the colleges.

The department's biggest job is the administration of the freshman courses. After the place-

ment tests during Freshman Week, all of the seven hundred and some odd themes, written impromptu, must be read two or three times by different members of the staff to assure a just and reliable placement. To add to the difficulties, the results must be in the hands of the registrar within a few days.

After classes start, the work of the supervisors of the freshman courses—English 0, English 1, and English 11—begins. These men meet with their instructors in staff meetings during the year to plan course work and to discuss common teaching and grading problems.

Toward the end of the regular freshman courses the instructors are just as busy as they were dur-

Joe Gratto, co-winner in the Williams Debate Contest, accepts the trophy from Dr. Severs of the English Department.

ing Freshman Week. A series of three impromptu themes, written by each of the English I students must be graded within a few days.

In addition to the standard courses, the department has special sections in which a relatively few students with individual difficulties receive individual attention. One of these is a Remedial Section, to which are admitted students who have failed Freshman English badly but whose good marks in other subjects justify such special attention. Individual remedial instruction is not confined to freshmen. Backsliders in the College of Arts and Science—upperclassmen who grow careless in composition—are assigned to the department for re-training until they have won back a respectable competence in writing.

The Department of English also serves the College of Business Administration and the College of Engineering with advance courses like Business Letters, Communications in Industry, and

#### FACULTY

*First Row: Franklin A. Behrens, Albert E. Hartung, Paul C. Shen, Edgar H. Riley, J. Burke Severs, Head of Department; S. Blaine Ewing, John A. Hertz, Ernest N. Dilworth, Louis F. Thompson, Albert A. Rights. Second Row: Walton H. Hutchins, E. Wallace McMullen, John R. Schug, William A. Neville, Bernard J. Paris, Frank S. Hook, Eugene Vasilew, H. Barrett Davis, Carl F. Strauch, Cloyd Criswell. Third Row: Jasper J. Collura, William P. Keen, John R. Gustavson, Ray L. Armstrong, Calvin Israel, Thoburn V. Barker.*

## Technical Writing.

Courses in literature also are open to qualified students in the Business and Engineering Colleges. This is one great advantage that technical students at Lehigh have over students at some otherwise excellent technical schools, namely, that Lehigh's well-developed College of Arts and Science is at the service of the professional students for their general cultural development.

However, most of those electing courses in literature are from the College of Arts and Science, and usually they are majoring in English. To each major student is assigned one of the professors in the department who, in conferences, learns just what the student has read and counsels him on filling the gaps. The student in this manner gains a wider knowledge of literature and is able to prepare for his final comprehensive examination in a more leisurely and confident manner when he reaches his senior year.

The Williams Extempore Speech Contest was presented this year in the all-purpose room of the University Center.

## Delta Omicron Theta

*First Row: Ziegler, Secretary; Gilhool, Vice-President; Prestia, President; Connor, Treasurer; Eugene Vasilew, Advisor. Second Row: Livdahl, Jablon, Freeman, Martindale, Olson, Sumner.*

# Mathematics

The Department of Mathematics and Astronomy, which was previously quartered in the old Health Center building, has now been moved to more spacious quarters in Christmas-Saucon Hall. Like English, math is required of every student in varying degrees according to which course of study the student follows.

The differentiation is made even before the freshman year begins between students in the various colleges. All Engineering students begin at once in Analytic Geometry and Calculus, which continues for two years. Students in the College of Business take courses designed for their future use in this field, while Arts students in the Biology, Geology, and Psychology Departments take a two-semester course in Mathematical Analysis.

All Engineering students, following their two years of Analytic Geometry and Calculus, take courses in Applied Mathematics and in the Principles of Analysis. Beyond these courses, work taken depends on the individual and his particular faculty advisor.

GEORGE E. RAYNOR  
*Head of Department*

This structure stands as it appeared in the fall of 1957; it has since been torn down and the Department of Mathematics and Astronomy, which it once housed, has moved to more permanent quarters in Christmas-Saucon Hall.

### FACULTY

*Seated: Howard J. B. Ziegler, Head of Department. Standing: Thomas M. Haynes, Nicholas Rescher, Adolf Grunbaum.*

## Philosophy

The educational objectives of the Philosophy Department are three-fold. The first is that the staff strives to teach basic rules of modern scientific approach, presenting them in such a manner that they become a part of the student's thought process.

In the second instance the department strives to impart to the student an understanding of the major role played by the social, scientific, and moral philosophies found in a study of the historical development of civilization.

The third and last objective is focused on the development of good citizenship. The student's attention is directed to the issues that complicate public and private life, emphasizing the methods of arriving at a clear and reasoned decision.

The general purpose of the department, then, is to educate the student to form balanced opinions and judgments. The staff does not attempt to graduate majors from its program as philosophers, but rather as clear and logical thinkers.

The college education consists of a number of different factors, of which scholarship is the most important. To achieve a high scholastic standing even the best student must have an adequate background, which is the result of the secondary school education, and he must also have the necessary motivation to work unceasingly toward the goal of excellence in scholarship. There is no better time to inculcate in the student the need for scholastic achievement and provide the necessary motivation for this achievement than in the freshman year.

It is in pursuit of these aims that Phi Eta Sigma directs its efforts.

The freshman scholastic honorary was brought to Lehigh in 1930 by Dr. H. V. Anderson, who

resigned only two years ago as faculty advisor to the group. The Lehigh chapter was established by Dr. Anderson eight years after the first chapter was organized at the University of Illinois. Realizing the need for an honorary society that would recognize achievement in freshmen, Dr. Anderson believed Phi Eta Sigma to be the answer. After the chapter was founded Dr. Anderson was selected as advisor and in this capacity directed the honorary on its path to success.

Throughout the ensuing years Dr. Anderson's interest never faltered. His efforts transformed Phi Eta Sigma into the active honorary it is today and were responsible for the organization of two new chapters, one at Newark College of Engineering and the other at the University of Massachusetts at Amherst.

## Phi Eta Sigma

*First Row: Wagner, Pepper, Treasurer; Shabaker, President; Fisch, Vice-President; Fowler, Secretary. Second Row: Niiler, Adams, Fisher, Clausen, Bailey, Kurtossy. Third Row: Suna, Roglieri, Hutchinson, Armstrong, Walendziewicz.*

Coppee Hall, once a gymnasium, has for many years been the administrative center for the College of Arts and Science. It will be replaced in the future by a new structure on the northwest edge of the campus.

## Fine Arts

Courses offered by the Department of Fine Arts involve such subjects as the History of Architecture, Architectural Design, Art Appreciation, Free-hand Drawing, and Advanced Drawing and Painting. Every student is required to complete three credit hours work in either Fine Arts or Music, and many Lehigh students are first introduced to great art works or to the principles of architecture through the Fine Arts Department.

Under the supervision of this department is the Lehigh Art Gallery on the second floor of the University Library. Here are held receptions for visiting artists on the average of one Sunday each month. Drawings, paintings, prints, and sculpture by contemporary artists are exhibited continually. In addition, the Memorial Portrait Gallery, containing a number of portraits presented by alumni and friends, and located in the Alumni Memorial Building, is open to the public, as is the Gallery of American Art, also in the same building.

### FACULTY

Daniel Loomis, Francis J. Quirk, *Head of Department*.

## Religion

Although the Department of Religion was founded at Lehigh University only ten years ago, it has continually played an important part in the cultural background supplied to the student. The department hopes to establish the quality of religion as an independent intellectual discipline which demands the same rigorous standards of inquiry and research that are found in any other subject. The subject matter is not limited to one particular tradition, but crosses cultural and religious lines, and challenges students' ignorance of religion.

The field of religion may be divided into four areas: Biblical studies, which include the Old Testament, New Testament, and Biblical theology; History of Religions, sometimes known as Comparative Religion; Religious Ideas, such as theology and the philosophy of religion; and Applied Religion, the implications of religious views for personal, social, and cultural life.

### FACULTY

Rev. Raymond E. Fuessle, A. Roy Eckardt, *Head of Department*.

## International Relations

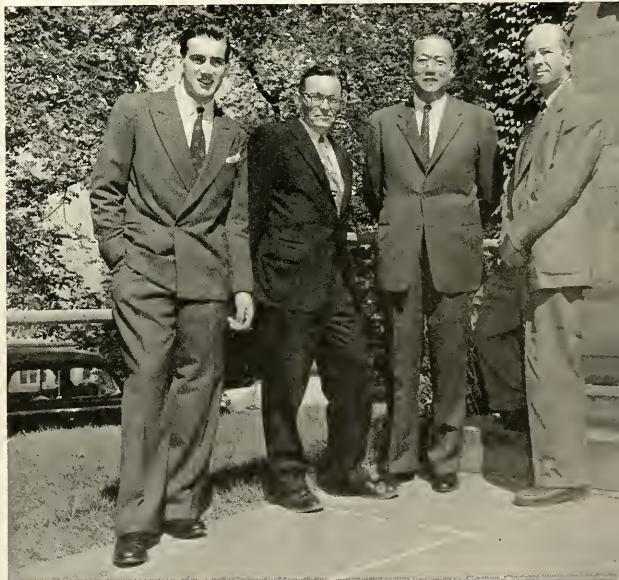

The aim of the Department of International Relations is two-fold: first, to train those persons especially interested in international relations to become specialists in the field, and secondly, but by no means second in importance, to help the ordinary student, regardless of curriculum, to understand the issues of foreign policy which the United States faces.

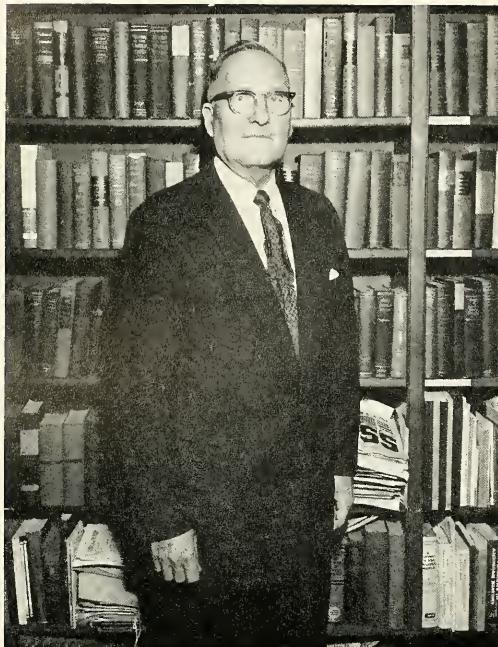

In all of the classes in this department an effort is made to tie in the regular course of study with current developments. When a significant event takes place a detour is made from the scheduled work to discuss it. In all the classes given by this department class discussion is particularly encouraged.

Throughout the year the Department of International Relations sends student delegations to intercollegiate conferences on world affairs. These delegations are of great value, not only to the students, but to the University.

### FACULTY

Michael H. Banks, Aurie N. Dunlap, Tich-Tseng Li, Henderson B. Braddick.

GEORGE D. HARMON

*Head of Department*

## History and Government

The Department of History and Government has as its aim the development of methods of approach and thought which will provide a reasoned and broad-minded viewpoint toward the political and human problems that face the citizen of our age.

Four majors are offered by the Department: Government, American History, European History, and English History. These courses provide a foundation from which a student can branch out to law school, government service, teaching, journalism, or graduate work.

The department sponsors two societies for its undergraduates, giving them an opportunity for discussion and service to the University. Phi Alpha Theta, honorary history society, bases membership on a student's total of credit hours in history and his average. The Political Science Assembly, perhaps one of the most active course societies, is the second group.

### FACULTY

*First Row:* George W. Kyte, William R. Yates, Ernest B. Schulz, George D. Harmon, *Head of Department*; Lawrence H. Gipson. *Second Row:* Raymond G. Cowherd, Charles A. Hale, Edward O. Smith, William L. Quay, Rocco J. Tresolini, John McV. Haight.

# Political Science Assembly

Second Row: Pieski, Topping, Brown, Ringenbach.*

The Chemistry Building, frequented by nearly every student sometime during his stay at Lehigh, received an interior face-lifting, including the redecorating of offices and classrooms.

Students in an advanced chemistry laboratory perform a series of operations during an experiment in quantitative analysis.

# Chemistry

One of the finest departments on the Lehigh campus is the Department of Chemistry. A large staff made up of twenty-eight professors, teaching assistants, and instructors guide the men of Lehigh through the mysteries of chemistry. Much of every student's class time is spent in the chemistry labs, recitations, and lectures. During the fall semester of 1957-58 over 8,150 hours were spent in this way.

The Chemistry Department is no stranger to Lehigh, but its present organization is in its infancy. In the autumn of 1866 the Department of Chemistry came into being. At that time there was only one professor and a handful of students. The department grew rapidly and soon was bestowing not only the B.A. in chemistry, but the B.S. in chemical engineering. In 1952 it was split into the Departments of Chemistry and Chemical Engineering.

A degree in chemistry is not a terminal of a man's education, but a stepping stone to advanced studies. To fill this need the Chemistry Department has a large graduate school. There are four classifications of students in this curriculum. The first is those students who pay their own tuition.

EARL J. SERFASS

*Head of Department*

## FACULTY

*First Row:* Donald L. Courtney, Robert Rehwoldt, Robert S. Sprague, Earl J. Serfass, *Head of Department*; Velmer B. Fish, William E. Tyler. *Second Row:* John J. Surash, Robert S. Rouse, Henry Frankel, Richard M. King, David M. Hercules, Raymond R. Meyers, Thomas J. Dignan. *Third Row:* Edward D. Amstutz, Allan H. Laufer, James E. Sturm, Edward S. Gregorek. *Fourth Row:* George L. Brownell, Richard Wantman, Jerome J. Hertz.

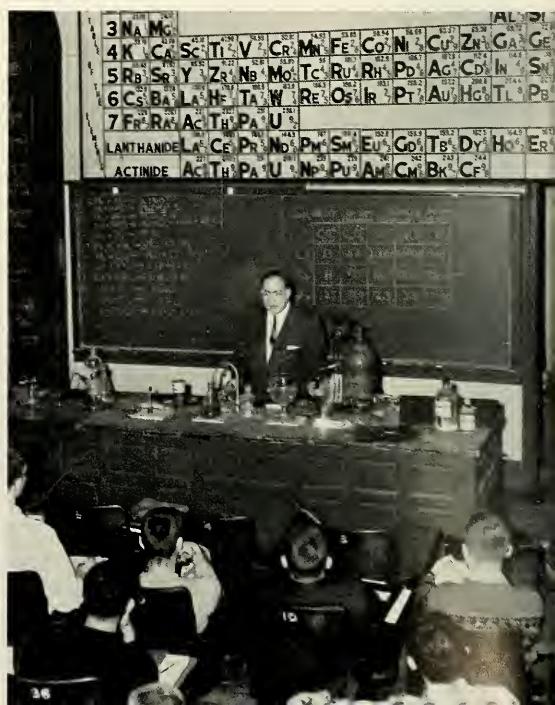

This group is small. The second group is made up of those students who are classified as Teaching Assistants. Such students receive remuneration for assisting in the teaching of the undergraduates. They spend one-half their time studying and one-half their time teaching. The third classification is the Research Assistant. He receives the same remuneration as the Teaching Assistant, but divides his time between classes and a research project. The final classification is the Research Fellow. He has a separate project of his own which is usually sponsored by some corporation. Such corporations as U.S. Steel, Armstrong Cork, Squibb, Sinclair, Union Carbide and the U.S. Government grant the Chemistry Department \$350,000 per year to carry out research projects.

This year saw significant improvements in the chemistry building. One wing of the second floor was completely refinished to accommodate a new instrument laboratory. The laboratory is used for undergraduate and graduate research. Plans were formulated this year for an addition to the building for a high pressure hydrogenation room. The future also sees the construction of a new wing to give needed extra space.

Dr. Earl J. Serfass, one of the most popular lecturers among the freshmen, conducts an experiment in Chem. 5.

## Student Chemical Society

*First Row:* Henry Frankel, David Hercules, Robert Rouse, Schaufler, Remphrey, Davidson, Fish, Mirow, Wantman. *Second Row:* Sprague, Stubbings, Harold Anderson, Earl Serfass, Robert Billinger, Alpha Diefenderfer, Harvey Neville, Judson Smull, Pierce, Graves, Hartman, Alan Foust, Raymond Myers, Schmoyer. *Third Row:* Rehwoldt, Gregorek, Hansen, Marsh, Robertson, Perlmutter, Alspach, Godleski, Campbell, Dickie, McCain, Bonney, Ward, Strepelis, Litoff, Clump, DeBussy, Danzi, Edward Amstutz. *Fourth Row:* King, Schmauch, Petfield, Shabaker, Besso, Laslo, Sobyak, George, McClurg, Gold, Richardson, Davis, Broad, Glauner, Jenkins, R.A., Jenkins, M.R., Schaeffer, Owens, Dignan, Hertz, Messler.

One of Lehigh's larger laboratories, is this one in freshman chemistry, which can accommodate better than one hundred students.

*Seated: Robert Smith, Harold P. Thomas,  
Head of Department; George C. Ackerlund.  
Standing: Robert Bream, Albert Mazurkiewicz.*

## Education

The Department of Education has two main functions: that of preparing the undergraduate students for teaching positions in secondary schools, and preparing graduate students to be school administrators, guidance counselors, master teachers, and reading specialists. In addition, through the Reading and Study Clinic, the Department of Education offers Lehigh men an opportunity to develop satisfactory reading and study habits.

Finally, through the Bureau of Educational Service the Department of Education coordinates the many educational services rendered by the University to the public and private schools and provides professional assistance to educational agencies in the cooperative study of their problems. Under this function several meetings are held each year, one for all secondary school principals of the Lehigh Valley, another for Public School Boards of Education, and another for Guidance Counselors.

The Education Building, a "temporary" structure and the only one of its kind left on campus, houses classrooms and offices of the Department of Education.

This aging structure, once the home of Sigma Chi, has become the temporary location of the Psychology Department. This arrangement will be terminated when the proposed Arts Building undergoes construction.

## Psychology

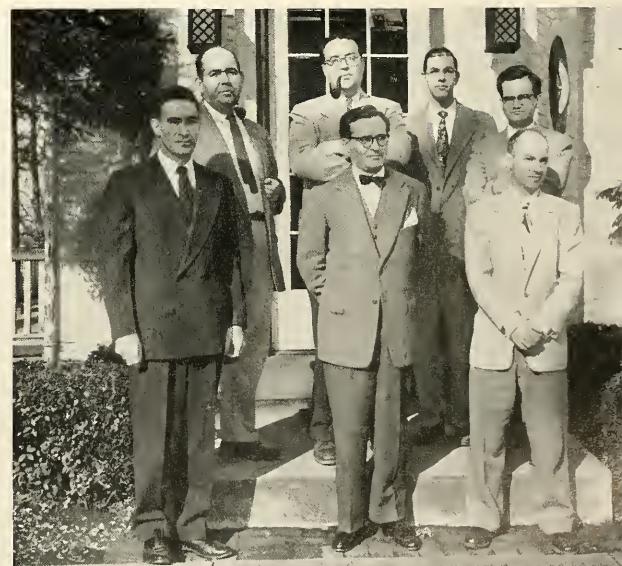

The prime responsibility of the Department of Psychology is to teach the undergraduate courses leading to a B.A. degree in psychology. The department's second responsibility is the instruction of those men working for their Master and Doctorate degrees in the various areas of psychology.

Many colleges in the University recommend that their students take courses in psychology. Through such courses the student can gain a general understanding of the world around him, and of the cultural mean beyond the purely applied mean.

The Department of Psychology has its courses divided into three main classifications. The first is General Psychology which is designed for majors with an intention of continuing with graduate work in general or clinical psychology. Industrial Psychology, the second classification, is for majors who expect to seek positions in business or industry upon graduation. The third, and by no means least, is Premedical Psychology.

### FACULTY

*First Row: Edward C. P. Stewart, Nathan B. Gross, Head of Department; Arnold M. Small.  
Second Row: Solomon Weinstock, Theodore Millon, Arthur Brody, Shelby J. Harris.*

The Physics Building becomes a "home away from home" to the hard-working students in Lehigh's Engineering Physics program.

Lightning, a phenomenon usually found only under natural conditions, can be produced artificially in the Physics laboratory.

# Physics

One of the largest and most highly regarded departments at Lehigh is the Department of Physics. Its staff is more than thirty strong, and its reputation is widespread. If the Lehigh student's curriculum is in any of the engineering fields he will spend many hours in physics classes learning the basic principles of mechanics, electricity, magnetism, heat, light, and sound.

The department is not only well staffed, but its laboratory facilities are unexcelled. Each year sees new improvements and additions. The science advances so rapidly that constant re-evaluations must take place or the department will fall behind. Some of the more unusual facilities offered include elaborate glass-blowing apparatus, constant-temperature rooms, and a completely soundproofed room.

## FACULTY

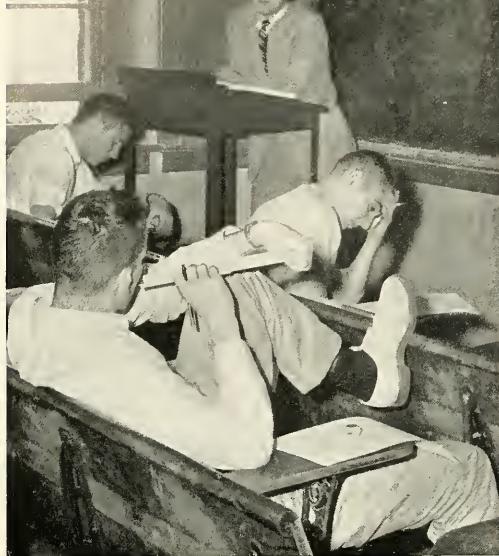

*First Row: Frank E. Meyers, Head of Department; Donald B. Wheeler, Raymond B. Sawyer, Elliot W. Cheney, Raymond J. Emrich. Second Row: Robert Jahn, James W. Hyatt, Wilber D. Spatz, Peter Havas, J. Alan McLennan, Cassius W. Curtis. Third Row: William F. Braerman, Theodore G. Elser, Mason L. Fisher, John Krizan. Fourth Row: Richard M. Elrick, Robert D. Hensel, George Roemheld, Joseph R. O'Donnell, Jay Chivian, Philip De Nee, Fred A. Gross, Lawrence Altman.*

FRANK E. MEYERS

*Head of Department  
Dean of Graduate School*

As if seeking the answer from the jumble of mathematics on the blackboard, this student ponders a difficult question.

The department offers degrees in physics through both the College of Arts and Science and the College of Engineering. Lehigh is one of the few schools in the nation to give a degree in Engineering Physics. Courses offered in the department's extensive program range from general studies in the science to the more advanced investigations in the fields of thermodynamics and nuclear physics.

This year the department experienced a great loss in its teaching staff. Dr. Frank E. Myers, Head of the department, announced his resignation to accept the position of Associate Laboratory Director of the Argonne National Laboratory. Dr. Myers has been a member of the science faculty since 1946. During that time he was presented the Hillman award for the member of the faculty who had done the most toward advancing the interests of the University. His position will be filled by Professor Raymond J. Emrich in the fall of 1958.

Douglas Feaver, Joseph Maurer. *Head of Department.*

## Classical Languages

One of the University's smallest departments, Classical Languages, has a staff of two, but thirty-one separate courses are offered. All of these are encompassed by the two general divisions of Greek and Latin, but not all are directly involved with the study of these languages.

Students who desire a broad base in the humanities may sign up for courses in this department. Several of these topics, concerned with the life and times of the Greeks and Romans, do not require any knowledge of the Greek or Latin language.

The department offers courses of study in three main groups: study of the language itself; study of the literature of Greek or Latin; and study of the customs of the people of the time. Two years of Greek and one of Latin are offered, in which the student may learn the rudiments of a second foreign language. The literature courses cover a wide range of subjects.

Lamberton Hall, Lehigh's onetime cafeteria, will soon undergo a complete interior renovation to house the Department of Classical Languages and several Civil Engineering drawing rooms.

## German

A large percentage of all Lehigh students enrolled in language courses are those studying German. Many scientific and technical journals are written in German and for this reason, many engineering students, as well as Arts students majoring in physics or mathematics, take courses in the language, with particular emphasis on German 7, Scientific German. This course, as its title implies, is especially designed to give training in reading German as the language is employed in science, with particular emphasis on chemistry and physics.

The department offers a variety of courses of interest to students of varying majors. There are eight literature courses, each well-defined and covering a definite amount of material. In addition, two courses in conversation and composition—of a type offered only by this department—and four in elementary and intermediate German round out the list.

FACULTY

John S. Tremper, *Head of Department*; Ulrich W. Weisstein, M. Candler Lazenby, William V. Glebe.

The German Department, in addition to filling the language requirements of Arts College students, also provides technical studies for engineers who must have a vocabulary for chemistry and physics.

Professor Barthold, Head of Romance Languages, makes arrangements to use the department's tape recorder to improve this student's pronunciation.

Head of Department; George D. Farne. Second Row:  
Victor M. Valenzuela, Herbert E. Isar, Herbert duChé.*

## Romance Languages

The Department of Romance Languages serves two related functions. It provides a wide variety of language courses for students in the College of Arts and Science, where a language is required, and it also affords interested students the opportunity to make brief studies of one or more of the world's most-used languages. Courses in French, Italian, Spanish, and Portuguese are attended by graduate students planning to work for doctorates and also by undergraduates who expect eventually to do so. Language classes are limited in size to permit oral instruction.

All Arts students are required to have three years of a language on a college level. This requirement may be met with only two years of language study in college, provided the student has had two or three years in high school. Also, those students who show a proficiency in a foreign language on the freshman week tests may eliminate two years of their language requirement.

## Biology

Students who choose to study a major program in biology at Lehigh find that they are offered two alternatives in the Biology Department.

The first of these is directed at those students whose purposes tend toward dental or medical school. Required courses in this particular area include zoology, comparative anatomy, botany, genetics, bacteriology, and physiology. Students who have achieved high scholastic standing in the study of zoology are admitted to Alpha Epsilon Delta, the national pre-medical honorary society. The department also sponsors a course society for all those who are interested in learning more about the medical profession. The R. W. Hall Pre-Medical Society meets regularly and invites members of the medical profession to speak on subjects of interest.

For those whose interests are directed along lines of bacteriology, sanitation, and public health, the department offers a program in bacteriology. Graduates of this program enter advanced study

**BASIL W. PARKER**

or are employed by industry and governmental organizations. Collateral courses for both fields include lengthy preparation in chemistry, and selected courses in physics and mathematics. Students who are interested in conservation development may take an option in natural resources.

Recently the department began a cooperative effort with the Geology Department and the Institute of Research. The problem concerned the possible effective uses of the Delaware River, with regard to industry, reclamation, and water supply. The group conducting the investigations is known as the Water Resources Research Council, and it is primarily concerned with biological activity in the river. Several of the more specific problems that will be considered include the recovery of acid water in the Poconos, development of automatic equipment for the recording of variables in the river water, and the problems created by heated industrial water being present in the river.

A whole new world of microscopic organisms is revealed to the student through the magic of a few polished lenses.

*First Row: Groff, Treasurer; Shekletski, President; Friedman, Secretary; Kurtz. Second Row: Thomas Grainger, Advisor; Hoch, Swire, Smith.*

# Geology

Occupying the third floor of Williams Hall and presided over by Professor Bradford Willard is the Geology Department. Although the classrooms are tucked away, the laboratory is the great outdoors.

Begun in the 1870's, the geology curriculum was killed by World War II as were many other courses. However, the post-war years have seen this science rise to its well-deserved place of honor among the University's curricula.

In a field such as this, undergraduate specialization is neither required nor feasible. The department gives an undergraduate thorough instruction in elementary and historical geology along with mineralogy, petrology, and many other fields which give the student a broad knowledge in order to prepare him for work in any field.

Nor are the arts forgotten. Languages and other such courses are prerequisites for graduation and must be met. French and German are essential if the student wishes to continue in advanced work.

The Greek words Phi Beta Kappa have become synonymous with the highest standard of scholastic achievement at the college level. The first Greek-letter fraternity, it was founded in 1776 at the College of William and Mary, and is the mother of all fraternities. Its purpose now is to honor those men who have gained outstanding stature in fields devoted to the understanding of man and his world. Most members, consequently, are found in liberal arts colleges; however, at Lehigh engineers and businessmen who meet the scholastic qualifications are also honored with membership.

On our campus, the Beta chapter of this national group was organized in 1887, and has contributed a great incentive toward excellence in studies since that time.

Members take an active and integral part in Lehigh campus life, the climax of their activities occurring in May at the initiation banquet. New members who are eligible for the famous "key" of Phi Beta Kappa are recognized at that time.

# In Respectful Remembrance

Professors William L. Jenkins and W. Appleton Aiken will long be remembered for the outstanding contributions each made to his professional field.

They will also live on in the memories of their students for a more personal reason. Each had the rare ability to feel the student's achievements and failures as keenly as the student himself and thereby to share them, engendering a feeling of security through heartfelt interest treasured by the student.

Their presence will be missed, but to Lehigh students they left a rich heritage.

W. APPLETON AIKEN

WILLIAM L. JENKINS

*Professor of Psychology*

# DROWN HALL

# College of Business Administration

CARL E. ALLEN  
*Dean*

Dean Allen spends much of his time advising students whose major programs are in the College of Business Administration.

The College of Business Administration provides its students with a systematic and thorough training in all fields of business by developing an understanding of business principles as well as habits of thought which will enable them to meet the problems of later life. The College stresses building a sound foundation, since no substitute can be found for the training and experience provided by the actual contact with modern business. Therefore, each student is required to learn the basic principles underlying all facets of business.

Although the emphasis is on broad training, rather than specialization, the College recognizes that some degree of concentration is desirable once the student's main interests have crystallized. In the junior and senior years, every student is required to pursue a series of related courses in some particular field. Six fields of concentration are offered: accounting, economics, economic statistics, finance, marketing, and general business.

The curriculum permits no student to devote himself exclusively to business subjects. Each student must acquire at least a rudimentary knowledge of the cultural aspects of the world around him and at least a brief contact with science.

#### FACULTY

Leon E. Krouse, Frederick A. Bradford, *Head of Department*; Eli Schwartz.

## Finance

The Department of Finance serves to elucidate the economic principles of wealth, money, and banking. The leading course in this series is Money and Banking, in which the business student becomes acquainted with the mechanisms and problems of commercial banking as well as with the functions of international exchange. Also covered are monetary and banking development in the United States. The course most beneficial to engineers is Corporation Finance.

Other important courses deal with investments — a study of the various types of corporation and government securities with reference to the machinery of investment, including stock exchange operation. Securities of industries, railroads, public utilities, and municipalities are covered later. International trade and finance are the subjects of further courses, as are public finance, government expenditure and taxation, as well as budgeting policy.

*First Row: Weinberg, Stenger, Treasurer; Grimm, Applegate, Secretary; McCloskey, President. Second Row: Lynn, Sarine, Kiley, Schantz. Third Row: Dennis, Sullivan, Smith. Fourth Row: Max D. Snider, Advisor; Long.*

## Accounting Society

*First Row: Carl E. Allen, Tellini, Carl L. Moore, Scarlett, Thunberg, Rush, Gingery, Hough, Eckert, Hamblin, Ostarticki. Second Row: Mercy, Johnson, Ferdinandsen, Cooke, Stapleton, Claiborne, Widmayer, Muhr, Zvitkovitz, McMullan, Sauerbray, Carr.*

## Accounting

Edification of the Lehigh man in the intricate art of accounting is the efficiently performed task of the Accounting Department.

Business students are required to take the elementary courses in accounting, all of which are designed to teach basic principles and develop a knowledge of accounting methods and practices. Intermediate courses are concerned with such matters as assets, liabilities, and capital stock; advanced courses involve federal tax accounting, auditing, and economic statistics.

Accountancy, indispensable to the business student, also attracts many Engineers who register each semester for courses in the department.

The College of Business Administration, considered by the leading law schools of the country to be among those college units whose curricula meet their admissions requirements, offers a firm foundation for those men who aspire to one of the many fields which fall within its extensive scope.

Modern, labor-saving business machines ease the work of these accounting students.

HERBERT M. DIAMOND  
*Head of Department*

## Economics and Sociology

Courses presented by the Department of Economics and Sociology are designed to enable the business student to enter the business world with a sufficient background of knowledge to be able to predict, using the present and the past as a basis, what the future will hold for his firm and for the economy as a whole. The basic courses cover the fundamental forces governing the production, distribution, and consumption of goods.

The problems of moving the manufactured product to the consumer are described in marketing and its related courses, retailing, advertising, and transportation.

The Sociology Department endeavors to acquaint the business student with social organizations and patterns of thought which will be useful to him later in dealing with people. Included subjects are the mechanisms of group behavior, processes of social interaction, social structure, social institutions, and the individual in society.

The main objective of Beta Gamma Sigma is "to encourage and reward scholarship and accomplishment in the field of business studies among students and graduates of collegiate schools of business".

Beta Gamma Sigma, then, is the national scholarship society for candidates for a bachelor's or graduate degree in commerce or business administration. The constitution limits the junior election to the highest three per cent of the junior class and the senior election to the highest ten per cent of the graduating class.

Nationwide, there are over fifty active chapters of Beta Gamma Sigma, of which Lehigh's is among the newest. After the society's founding, the growth in membership was slow until the end of World War I. Then more schools joined the American Association of Collegiate Schools of Business, Beta Gamma Sigma's parent organization, and thus more students became eligible.

The society is further dedicated to promoting the advancement and spread of education in the science of business, and to foster principles of honesty and integrity in business practice.

# PACKARD LABORATORY

LOYAL V. BEWLEY  
*Dean*

## Electrical Engineering

JOHN J. KARAKASH  
*Head of Department*

# College of Engineering

In 1865, when Lehigh was founded, the emphasis in education was on engineering. At that time the profession was small in numbers; the teaching force consisted of only five instructors. From these humble beginnings, Lehigh's Engineering College has grown to its present high standing.

The engineering curriculum in the freshman year is uniform, with all students registering in the same courses. The technical subjects comprise only one half the required hours, with liberal arts subjects completing the program. It is only in the junior year that an engineering student begins to specialize in his chosen program.

At present a student may study one of eleven separate branches in the Engineering College. Each curriculum emphasizes the specific sciences of the major as well as additional courses from other curricula to provide a broad background.

To further aid the student on his studies the college offers summer courses, employment opportunities, and industrial inspection trips.

A number of the curricula are so related that electives of one course can be used to fill the requirements for a second degree. Thus, for five years of study, a student can receive two degrees.

**FACULTY** Joseph Teno, Edward E. Gardner, Loyal V. Bewley, Leslie G. McCracken, Gadi V. Venkatesulu, John J. Karakash, *Head of Department*; Begamundre R. Das, Arthur I. Larky, Hu-Hsien Hwang.

## Eta Kappa Nu

*First Row: Geesey, President; Archie R. Miller, Faculty Advisor; Walendziewicz, Corresponding Secretary. Second Row: Hughes, Harris, Recording Secretary; Gucker, Treasurer.*

The Electrical Engineering Department is comprised of ten professors who instruct approximately 300 electrical engineering students. The staff is also responsible for the 200 non-electrical engineering students who take background courses in electrical engineering each semester.

The year saw the installation of two immensely complicated machines for undergraduate and graduate work. The first, an electronic analogue computer, is used in the study of the response of linear systems. The second is an A.C. Network Analyzer to simulate an electrical power system and permit the solution of complicated problems. These two new machines are added to the many others to make up some of the most complete elec-

tronics facilities in an Eastern college.

A departmental innovation this year was made in the undergraduate and graduate seminars. Guest lecturers from General Electric, Bell Telephone Laboratories, and Philadelphia Electric Company led the discussions in these seminars, which proved of great value to the students.

The principal aim of the Electrical Engineering Department is the education of its students; however, a limited number of significant research projects for private industry are carried out each year. This year the major project was in the field of transistor circuits, contracted by the U.S. Signal Corps. In conjunction with General Electric studies were made on mercury rectifier problems.

## American Institute of Electrical and Radio Engineers

### FACULTY

*First Row: Arthur F. Gould, Head of Department; Wallace J. Richardson, William A. Smith, Jr. Second Row: Robert E. Heiland, George E. Kane, Charles W. Brennan.*

Lehigh was one of the first schools in America to offer a degree in industrial engineering, introducing the curriculum in 1925. Since then, in an effort to keep abreast of the rapid changes in industry, the program has been revised repeatedly.

The facilities of the Industrial Engineering Department are as modern as its curriculum. The new LGP-30 electronic computer, which Lehigh acquired this year at a cost of \$49,000, was put under the department's supervision. This high-speed device is a great aid in industrial computation work. Since the machine is also very useful in research projects and in computer operation training, the I.E.'s proudly share it with the rest of the University.

## American Institute of Industrial Engineers

Similar in organization and purpose to the other engineering course societies at Lehigh, the American Institute of Industrial Engineers strives to give members a better understanding of their place in industry upon graduation, of current advances in the industrial engineering field, and the problems which will confront them when they receive their degrees. During its regular meetings the student can get an idea of the usefulness and applicability of the courses which he takes during his undergrad-

uate years. He may also speak with his instructors on an informal plane away from the academic atmosphere of the classroom. The trend toward an informal atmosphere is carried even further in the social functions which the society sponsors, whether they be the annual picnic or the joint gatherings with other course societies. All of the activities of the AIIE are pointed toward graduating well-rounded engineers better fitted to take their place in the profession.

*First Row:* Norlander, Olson, Wolbach, Davidson, J., Steward, Charles Brennan, *Advisor*; D'Augelli, *Vice-President*; Weiss, Miller. *Second Row:* Yates, Lichtenwalner, Dube, Kashden, Davidson, T., Strickman, Lohr. *Third Row:* Shah, Hanson, Rosenberger, Karsten, Lipton, Jacobo, McCarthy, Fresoli. *Fourth Row:* Anisko, Callahan, Briden, Armstrong, Dimmick, Kissinger, Dawes, Loper. *Fifth Row:* Marquard, Gates, Rodin, Daniel, Fenner, Graham, Gyauch, Voelker, Lewis, Helmus, Reller.

The curriculum of Engineering Mechanics is designed to prepare men for careers in engineering research and development. The courses taught stress the theoretical side of engineering rather than the designing and architectural side. The graduates are then prepared to go right into any company which has or needs a research program.

The courses are difficult and the prerequisites for graduation include many courses that other engineers do not receive until they begin advanced work. A design sequence is required to bridge the gap between graduate's theoretical training and the designing engineer's practical application.

The department's quarters in Packard Laboratory are gathering places for those who wish to discuss or argue the relative merits of one field of engineering over any other. For such a new curriculum, engineering mechanics has come a long way, all of which is to the betterment and advancement of Lehigh.

FERDINAND P. BEER  
*Head of Department*

### FACULTY

*First Row:* Chetlan Karna, Leon Bahar, Ferdinand P. Beer, *Head of Department*; David M. Parke, Karim W. Nasser, Sami Kurban. *Second Row:* Samuel Kaplan, Joseph C. Osborn, Albert de Neufville, Robert J. McGrattan.

JAMES B. HARTMAN  
*Head of Department*

## Mechanical Engineering

The Department of Mechanical Engineering was one of the first established at Lehigh University. In fact, it has been a part of Lehigh since the institution was founded in 1865. The curriculum was distinguished by having one of its members in the first graduating class, and although this may not seem astounding, there were only three members in the class of 1869.

The following statement, quoted from a recent publication, gives an excellent description of the work of a mechanical engineer. "Mechanical engineering deals with the design, construction, installation, and operation of machinery necessary for the economic and advantageous use of power, and with the management of industries manufacturing and using power-driven equipment."

**FACULTY** *First Row: Michel A. Saad, James B. Hartman, Head of Department; James V. Eppes, Frank Krieth. Second Row: William G. Harrach, Hwa-Ping Lee, Philip Olear, Hans Renner, Michael A. Yatsko, Bruno Pagnani, Thomas E. Jackson, Theodore A. Terry.*

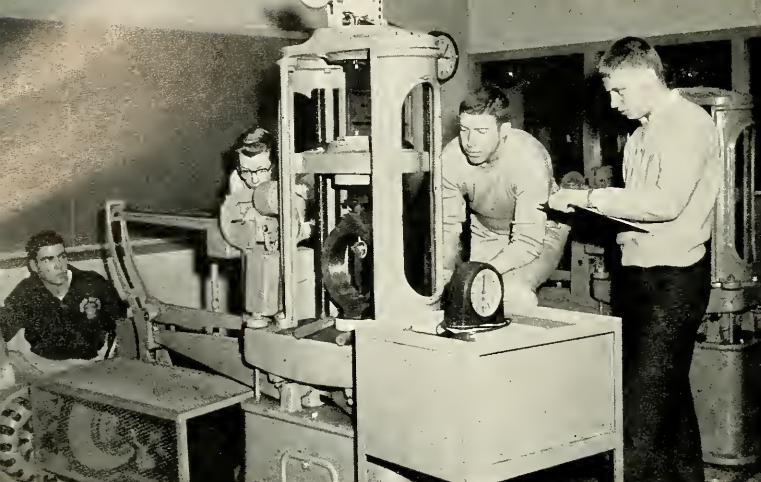

## Pi Tau Sigma

*First Row: Parmet, President; Foulke, Recording Secretary; Hartman, Second Row: Bechtel, Treasurer; Flynn, Vice-President; Swingle. Third Row: Bakonyi, Blackler. Fourth Row: Cazer, Setzer. Corresponding Secretary, Fifth Row: Humphrey, Fisch, Schulz.*

Once these M.E.'s have completed the compilation of their data, which may take but a small portion of the time spent on the problem, they begin the arduous task of computing the correct answers.

A number of exercises are so complicated that it requires several students to successfully complete the lab.

The department tries to prepare courses for the student which are fundamental to engineering, with a sound background in mathematics, physics, and chemistry. It also finds it necessary to constantly revise the material in courses whose study matter is subject to change with the numerous advances made in science. This policy is maintained primarily to influence the student to become aware of the need for periodic re-evaluation of professional standards, in order that one need not

fall behind in scientific advancements.

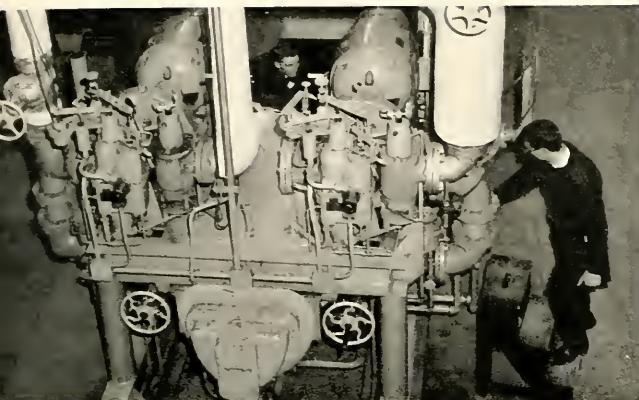

In order to round out the student's education, the department provides the opportunity to elect courses in the Arts and Business Colleges.

For the purpose of maintaining their widely recognized reputation, the Mechanical Engineering Department is supported by a strong teaching staff, an integrated curriculum of courses that have lasting value, and the most modern facilities, all directed at teaching the student to think, not be-

## American Society of Mechanical Engineers

*First Row:* Sawyer, Canning, Rinaldi, Bayles, President; Frank Kreith, Advisor; Visbisky, Secretary; Bechtel, Treasurer; Swingle, Vice-President; Stiles, Hibbsmann, Minnich. *Second Row:* Freidman, Maroti, Craft, Hartmann, Leach, Clark, Fisch. *Third Row:* Foulke, Bianco, Beach, Ballard, Humphrey, Setzer, Sachse, Elsner. *Fourth Row:* Minnich, Baker, Hulse, Wismer, Doll, Groo, Phillips, Wingate.

Working in this jumble of pipes teaches competence in steam power to this group of mechanical engineering students.

come a walking book of formulae.

During the senior year three broad fields, power, design, and basic sciences are offered for specialization. A more highly specialized program is frowned upon since industry usually provides adequate training for research, design, or construction and operation. Lehigh's program for undergraduates is primarily concerned with providing a firm basis upon which a student may confidently enter industry or compete successfully with other graduates

for acceptance in graduate schools and institutions for advanced study.

The department sponsors a student branch of the American Society of Mechanical Engineers, whose executive secretary, appropriately, is a Lehigh graduate.

In order to recognize excellence in scholarship an honorary society, Pi Tau Sigma, is also sponsored by Lehigh. This group stimulates the undergraduates to maintain a maximum standard.

## Mining Engineering

The Coxe Mining Laboratory houses offices and equipment for the Department of Mining Engineering, but like many campus structures, its facilities are taxed heavily, and expansion is planned for the future.

FACULTY Arthur W. Brune, Lawrence Adler, Robert T. Gallagher, *Head of Department.*

The Coxe Mining Laboratory houses the Department of Mining Engineering. Founded shortly after Lehigh's inception in 1865, the department was given further impetus by Eckley B. Coxe, a trustee after whom the laboratory was named. This building is one of the two endowed buildings on campus. Mr. Drinker, who later became President of the University, was one of the students in the first graduating class in mining engineering.

A small department, graduating only ten to fifteen each year, it has specialists to cover each of the fields offered. The options are Mining Engineering and Geophysics, which include such specializations as mineral preparation, fuel technology, ventilation, and rock testing. The courses include many inspection trips to nearby quarries and mines where classroom lessons can be applied to practical situations.

Although it is a small building, Coxe Lab is extensively equipped with the best apparatus available. Many new machines have been ordered and will be put into use as soon as installation is completed.

Mining engineering students gain experience through practical application of techniques studied in the classroom.

An instructor makes periodic checks of laboratory apparatus to aid the students in correctly completing the exercise.

WILLIAM J. ENEY  
*Head of Department*

## Civil Engineering

Since Lehigh first opened its doors in 1865, the Civil Engineering Department has done much to spread the University's fame throughout the world. The individual contributions of the civil engineering faculty and alumni, as well as its modern curriculum and splendid equipment, have helped to make the name of Lehigh almost synonymous with first-rate engineering.

The headquarters for the Civil Engineering Department is Fritz Engineering Laboratory. Professor William J. Eney, director of the department, proudly reports that this is the best equipped C.E. research lab in a privately supported American university. Its fame is worldwide. Just this year thirty of the top materials testing experts of Europe came to view it. They were naturally impressed with the universal hydraulic testing machine, the world's largest, which is housed in the relatively new seven-story wing. There they also saw the Amsler repeated load equipment,

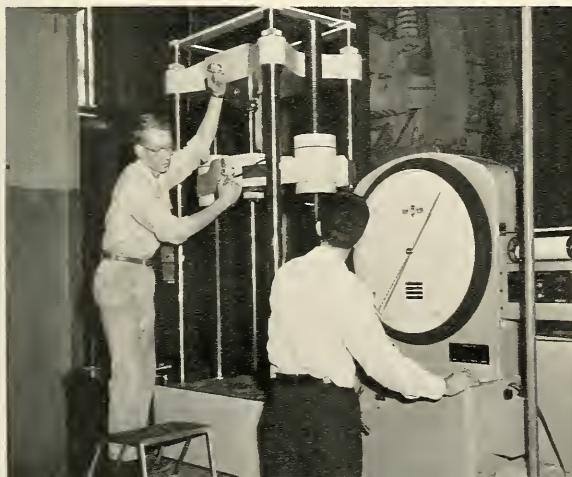

FACULTY

*First Row: Vedat A. Yeolin, Frank Vickress, John W. Fisher, William J. Eney, Head of Department; Raymond H. Snyder, Edward C. Sword, George A. Dinsmore, John O. Liebig. Second Row: Diethelm K. Feder, Samuel J. Errera, George C. Driscoll, John B. Herbig, Third Row: Jose A. Santos, Robert R. Regl, Robert J. Carle, Kenneth R. Harpel, Thor L. Anderson, Lambert Tall, Roger G. Dittig, Carl E. Ekberg.*

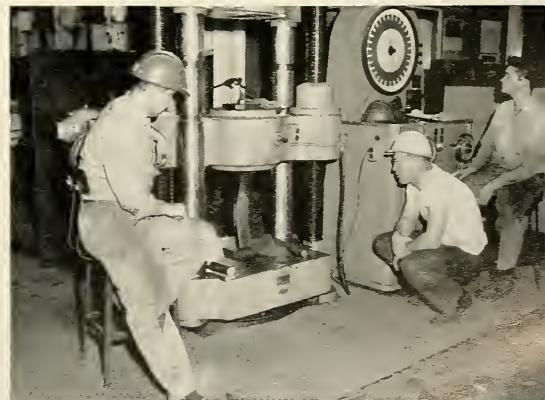

Fritz Laboratory, housing the world's largest universal testing machine, has contributed not only to the science of Civil Engineering, but to the University as a whole through the widespread publicity accorded its spectacular achievements.

Civil engineers run through a final check of their equipment before beginning a laboratory exercise.

Industrial testing such as this comprises but a small portion of the entire experimental program of Fritz Laboratory.

## Chi Epsilon

Culver, McNeill, Weiss, Miller, Vice-President; Maberry, Treasurer; Riffell, President; Feeser, Secretary; Reimer, Sousa, Walton, Kramer, Schneck.

A professor of Civil Engineering controls the mighty five-million-pound universal testing machine from this panel during one of its highly publicized operations.

which is unsurpassed by any other American school. They toured the individual labs, and were told of Lehigh's nationwide industrial testing projects, which this year ranged from the determination of the cause of a failure in a Mississippi coffer dam to the calibration of load measuring devices for the launching of guided missiles.

An important project carried on in Fritz Lab this year was the testing of members that were made by the prestressed concrete design method. The program at Lehigh had the main purpose of evolving design criteria for concrete bridge members. When the project was first begun in 1951, prestressed concrete design was relatively unknown in this country. Now, thanks to the work done at Lehigh, about 1000 prestressed concrete bridges are part of the Pennsylvania highway system.

The Civil Engineering Department continues to make its contributions to the University, to the community, and to the world. Pride in past achievements, however, does not quench the continuing desire to better the department. This year drastic revisions were made in the undergraduate curriculum. The twenty separate changes in the schedule now make available to the class of '60 and all succeeding classes one of the most modern C.E. programs in the country. The stress, as always, is on principles and theory, rather than on specific applications.

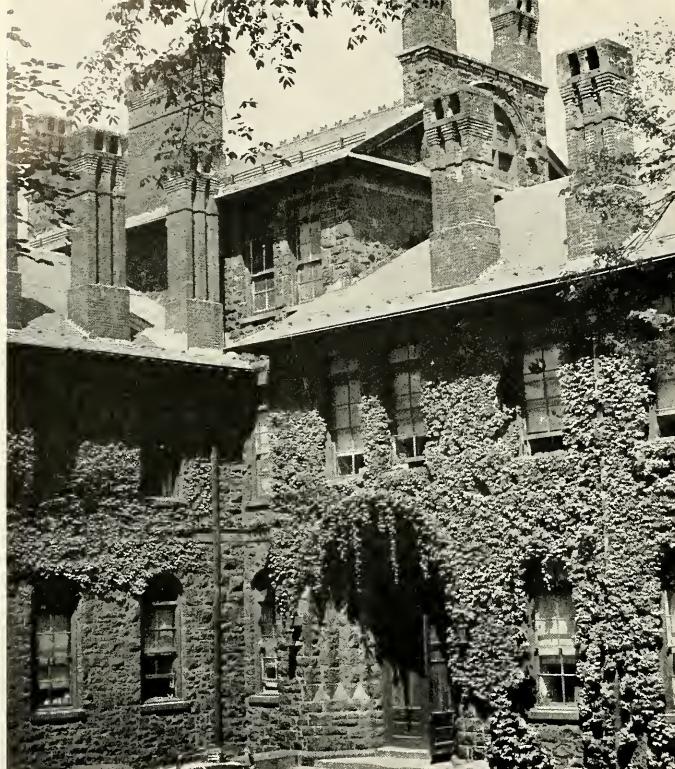

Testing machines, capable of exerting forces ranging to many thousands of pounds, have recording mechanism which notes minute changes in test material.

# Metallurgical Engineering

The backbone of American industry has been said to be steel, and this fact alone would justify the demand for men trained in the science of metallurgy. However, the increasing demand for new and improved metals and alloys other than those of iron has created an unlimited opportunity and need for metallurgists.

The Department of Metallurgical Engineering trains its graduates in the fundamentals of engineering—mathematics, chemistry, and physics. It also offers the essential courses in metallurgy which provide for advancement in industry, as well as background in the other fields of engineering and the necessary courses in the humanities.

The Metallurgy Department also conducts extensive research activities for various groups. Research is now being done in the fields of welding and mechanical metallurgy, magnetic materials, and embrittlement.

The science of metals is an exacting one requiring extensive training in the operation of specialized testing apparatus.

## Metallurgical Society

*First Row:* Latanision, Perry, *Secretary*; Menninger, *Vice-President*; Millane, *President*; Smith, *Treasurer*; Pops, Kahler. *Second Row:* Walton, Interrante, Long, Keenan, Contey, Homsher. *Third Row:* Horvath, Beattie, Proctor, Donaldson, Podgursky, St. Clair.

Lehigh's freshmen in the uniform engineering curriculum will at one time or another, either in the first or second semester, spend nine hours a week laboring over drawing boards.

When completed, Lamberton Hall's facilities will include modern conveniences for instruction in engineering drawing.

Tau Beta Pi is the zenith of success for the engineering student, and its qualifications for membership are consequently high. Only students who are working for bachelor of science degrees in the engineering college are eligible. The candidate must be in the upper fifth of his class if a senior, and the upper eighth of his class if a junior. In addition to this primary requisite of high scholarship, selection for membership is based on character, personality, breadth of interests and achievements.

During the late Fall of the year, Tau Beta Pi held its pledge week. The pledges were easily identified by their coats, ties, and brown and white pledge ribbons. These pledges were especial-

ly found congregating in the vicinity of the traffic circle at the entrance to the campus. Here they constructed a large white "Bent". The "Bent" is revered by the pledges, who carefully file and polish a smaller version which they wear around their necks during the society's pledge week.

Men of Tau Beta Pi are active in the campus life for the remainder of their stay at Lehigh. Each year a class is given to teach the new freshman engineers the mysteries of the slide rule. The members are always available for tutoring if any Lehigh man needs help.

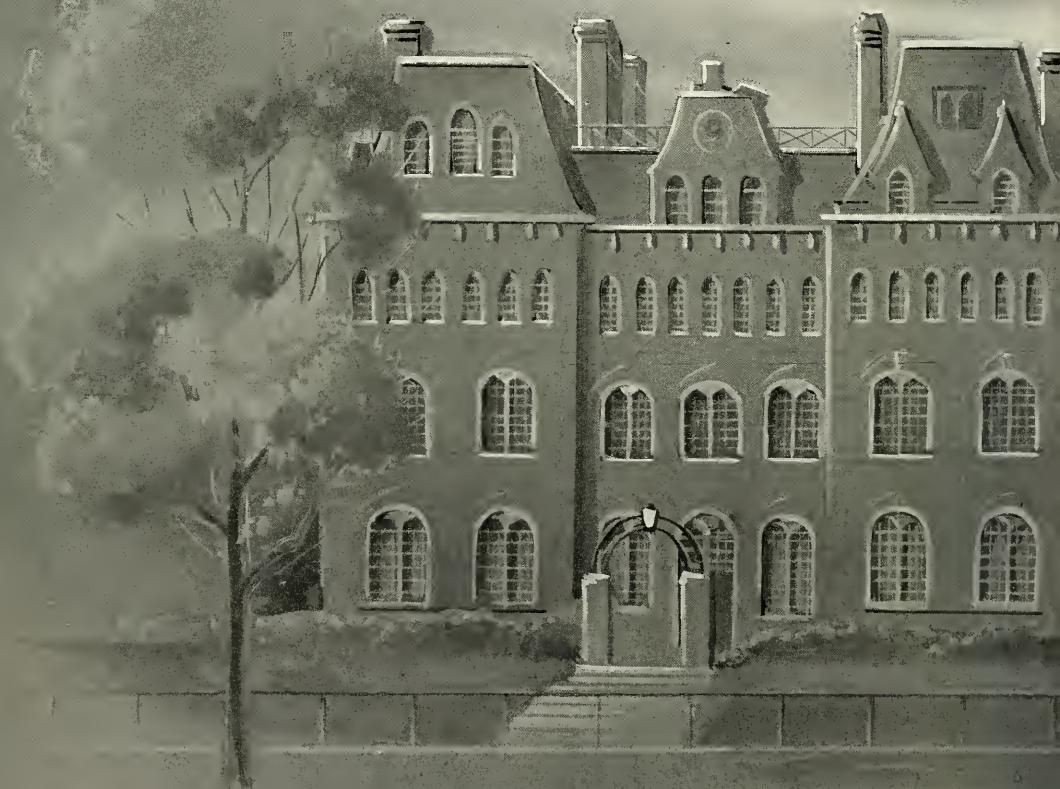

A member of Tau Beta Pi will be found to be the personification of the honor and constancy of the engineering profession.

# UNIVERSITY CENTER

**PRESTON PARR**  
*Associate Dean of Students*

Associate Dean Parr is often faced with the problems of fraternities and residence halls, particularly those pertaining to scholarship and social activities.

## University Center

With the long-awaited completion of the new University Center, a new way of life came to Lehigh. All of Packer Hall was renovated and additions doubled the floor space, at a cost exceeding three million dollars. The Center is a place to bring students and faculty together, other than in the classroom. It provides a center for student activities, a place to entertain parents, and a pleasant setting for general recreation. It is also a home away from home for the students.

The lower floor, which, along with the rest of the building is air conditioned, was opened during the first semester. It has offices for the *Epitome*, *Brown and White*, and WLRN, and game rooms, kitchen facilities, a photo lab, and auxiliary rooms.

The second semester saw the opening of a new era in Lehigh dining. Breakfast and lunch are served cafeteria style, with dinner served family style. To cope with the between-meal snacks, a new coffee shop was opened. The faculty has new dining facilities, along with new lounges and meeting rooms. There are also several small dining rooms for section, club, or society banquets.

No other school in the East can boast a building that can match the facilities of our new University Center.

DOROTHY D. MORAVEC  
*Director of Housing*

Mrs. Moravec is the coordinating agent for most of the organizations on campus, and all University Center activities are scheduled through her office.

W3AEQ. Lehigh's "ham" radio station, operates from quarters in the basement of the University Center with equipment built by the members themselves.

## Arcadia—student government at Lehigh

Schools throughout the country have recognized the need for an official and representative student council and legislative group. Here at Lehigh, Arcadia assumes this function. The council consists of fifteen members, seven of whom are elected by the student body, and eight chosen from IFC, RHC, and other important groups. Thus representation of the students in general, and of specific facets of campus life is achieved and the position and aims of Arcadia are well defined. The primary

function is, of course, to let the student have a voice in governing himself. It is its task to consider student problems, and to do its best to come to a satisfactory solution.

Arcadia has many responsibilities, and its contribution to Lehigh can be seen in many areas. Perhaps foremost in memory is the Campus Chest. Lehigh's version of the Community Chest. Donations from the student body are applied to various charities and, closer to home, to the support of

## Discipline

## Arcadia Associates

Webb, *President*; Waldron, Koppenhofer, Bran-  
ning, Wilson, *Secretary*; Gamble, Schneck,  
Kurtossy, Hutchinson, Drosnock.

Hungarian students in college. More of the activities and responsibilities undertaken by the solons are indicated by their sub-committees—the Discipline Committee, Student Concerts—Lectures, Student Club Finance, Student Activities, and the Board of Publications. Arcadia is also the parent organization of Arcadia Associates. Composed of sixteen men its functions are to aid Arcadia in its many duties.

A representative sample of the business taken up in its meetings could include an investigation and report on the Supply Bureau; a request that the Library remain open later at night to provide

more study time to anyone who needs peace and quiet; a request for more definite excused-cut system; and the question of proper dress for the University Center.

The percentage of eligible voters participating in this year's elections showed some improvement over last year, but more effort and support by the student body is necessary if Arcadia is to reach the position and influence asked by this same student body. The only complaint that can soundly be brought against Arcadia is this lack of interest on the part of Lehigh men.

## Seniors

The Cabinet of the Class of 1958 was organized in May, 1957 shortly after the officers for the senior year had been elected. These officers then picked forty-six classmates to serve on the Cabinet for the coming year.

The Cabinet began work immediately on Fall Houseparty and before the summer recess work on the senior assessment was also completed. The assessment was for each senior's *Epitome*, the Class Plaque to be hung in the Chapel, and part of the cost of Senior Weekend.

Shortly after returning to classes in the Fall, the senior class suffered a severe loss in the death of Dr. William A. Aiken, the advisor since the sophomore year. It was through his foresight and guidance that the class was able to accomplish as much as it did.

Despite the "flu vacation" of two weeks, the Houseparty dance with a "Manhattan Towers" theme was a great success. Richard Maltby in the lower part of Grace Hall was the main attraction, while Bob Harry provided music on the upper floor. The financial success of the Friday night

Vice-President Jack Hobby reviews a tentative budget for the forthcoming senior weekend.

### OFFICERS

Hobby, Vice-President; Tillinghast, President; Scarlett, Treasurer; Helfrich, Secretary.

# The Class of 1958

dance was an indication of the capabilities of the class officers and cabinet.

The outstanding achievement of the Class of 1958 was the response to the Class Memorial Gift Program. Co-chairmen of the Class Gift Committee were selected and the campaign proper was kicked off at a dinner early in December. At that dinner, 100 workers selected prospects and the campaign was on. In a short while it became evident that the class was going to establish a new record, percentagewise, for subscription to the plan.

As the class approached the long-awaited graduation day, the committee in charge of Senior Weekend completed arrangements for one of the most notable events of the year. As a finale to college a combination picnic-clambake was held where one could listen to jazz, drink beer, play softball or just relax. Lobster, chicken, and clams were served to the many couples attending, followed in the evening by a formal dance with a midnight supper at the Hotel Bethlehem.

## CABINET

Charlie Tillinghast, Senior Class *President*, and Joe Gratto, Chairman of the Class Gift Committee, count pledges after the banquet kicking off the drive.

*First Row:* Ferdinandsen, Ginocchio, Scarlett, *Treasurer*; Hobby, *Vice-President*; Tillinghast, *President*; Helfrich, *Secretary*; Myers, Schollenberger, Gorman. *Second Row:* Holt, Biehl, Minnaugh, Steinbrunn, Burdash, Sawyer, Astarita, Voss. *Third Row:* Hughes, Goldman, Funk, Mulley, Rousseaux, Morgan, Fawcett, Thunberg, Rod. *Fourth Row:* Kaufmann, Cuddeback, Sauerbrey, Laisen, Bredimus, Gott, Comber, Faote. *Fifth Row:* Hummers, Hofmann, Briggs, Close, Franco, Sonntag, Walsky, Stone, Berrien, Sassman, Bechtel, Boyce.

Treasurer George Jennings and *Epitome* editor Dick Bernard estimate the number of seniors for the 1959 *Epitome* and the probable cost to the Class.

The Class of 1959 will always be remembered as the class that brought Duke Ellington to entertain at Spring Houseparty. "The Duke" lived up to his fabulous reputation and helped the Class of 1959 give Lehigh men and their dates a night to remember. The smooth rhythms of Walt Simpson and his Orchestra provided the dream music on the upper floor of Grace Hall. Both floors were handsomely decorated in a Show Boat motif.

To facilitate the sale of tickets, a new plan was put into operation at the suggestion of the faculty advisor, John McV. Haight. The plan was patterned after one used by numerous alumni groups and the class insurance program. It called for the appointment of group captains to be responsible for several living groups and to appoint members of each group to assist in ticket sales. It was a huge success and can be credited with helping to swell the attendance.

This year saw the arrival of the often-promised Class of 1959 News Letter. Through it the members were able to learn of the efforts of their class

#### CABINET

*First Row: Harbold, Weisberg, Lipton, Walton. Secretary; Schier, President; Hamer, Vice-President; Jennings, Treasurer; Rojahn, Steinman, John McV. Haight, Advisor. # The Class of 1959

cabinet and its achievements. This measure helped solve the problem of communication between cabinet and class members.

One of the many innovations of this active class was in the preparation of its records. They were accurately and clearly compiled so that they could be presented to the incoming junior class. It is hoped that through these records the new class will gain valuable information of such things as Houseparty.

Early in the Spring the annual class banquet was held. It too was a resounding success. At the same banquet certificates were presented to the members of the Class Cabinet for their participation during the year.

The Class of '59 has always felt great pride, and justly so, in their class spirit. They were the first class to have separate dorms as freshmen and they are living exemplars of the benefits of such an arrangement. Their participation in class elections has been higher than any other class in recent years.

Certainly the achievements of the Class of 1959 are exceptional.

George Karr, Tickets Chairman, Paul Prestia, Houseparty Chairman, and John Canova, Program Chairman, discuss plans for the forthcoming Spring Houseparty.

Paul Franz, Assistant to the President, addresses the Class of 1960 at their banquet in Hungarian Hall.

The Class of 1960 came into 1957-58 with high esprit de corps, as was evident by their record on campus this year. The first act of the class was to welcome the men of the Class of 1961 to Lehigh with the annual Dink Hop, at which 430 couples were in attendance. The first of many new innovations of the Class of 1960 were the punch parties for the Dink Hoppers and their dates that followed dinner in Lamberton Hall. The parties were held in Richards and Drinker lounges. The dance was successful, not only as far as the freshmen were concerned, but to the treasury of the Class of 1960.

December saw the Class of 1960's "little house-party" come and go in a blaze of glory. This year even the weather cooperated for the Snowball. The campus experienced one of the heaviest snowfalls in years during the week preceding the dance. On Friday and Saturday nights Mustard and Cheese presented the Broadway drama "The Caine Mutiny Court-Martial". On Saturday after-

## The Class of 1960

noon a jazz concert was held on the upper floor of Grace Hall. The concert featured the Christmas City Six, who rocked the hall for two hours. Saturday night the Snowball Dance was held with Walt Simpson and His Orchestra. Finally, on Sunday the Lehigh University concert band held the William A. Aiken Memorial Concert, in honor of the late professor of history. As if all of this was not enough, the Class of 1960 arranged with the Dean of Students to allow the members of the class of 1961 to bring their cars to school for the weekend.

The Class of 1960 did not limit themselves to the already mentioned functions, but was working throughout the remainder of the school year. It was one of the first organizations to come to the aid of the Campus Chest when it fell short of its goal. The Class was brought closer together by the Class Banquet held in early spring and by the monthly bulletins prepared by the Cabinet.

Members of the Class of 1960 enjoy a hearty meal at the annual class banquet.

Once the station wagon is unpacked and his parents have left, this freshman will be left alone to ponder what is to come in his first semester at Lehigh.

#### OFFICERS

Williams, Vice-President; Rogers, President;  
Hodge, Treasurer; Bennett, Secretary.

## Freshmen

This year's freshmen can consider themselves luckier than any of their predecessors. They were selected from the largest group of applicants in Lehigh's history—3,492 prep school and high school graduates. These young men of Lehigh have proven themselves during this year.

Many freshmen were real assets to organizations around campus, including: *Brown and White*, *Epitome*, WLRN, A.P.O., band, orchestra, and glee club.

One of the highlights of the freshman year was the Lehigh-Lafayette weekend. Although hampered by restrictions imposed because of the flu recess, the class can be proud of its accomplishments. Several days before the pep rally members of the class achieved the impossible, when they lit the Lafayette bonfire! This event gave additional cheer to the already "mad" weekend. The *Brown and White* said of the class, "Frosh add sparkle . . . spirit, color to rally, game, activities". At the pep

#### CABINET

## The Class of 1961

rally the class, attired in pajamas of astounding colors and variety, shook Grace Hall with spirited cheers and songs. Of the skits which were presented that night the *Brown and White* said, "Finalists in the skit contest added ribald humor by lampooning the Leopards in a variety of ways". From Grace Hall the men of 1961 moved to the upper field to see the lighting of the bonfire which quickly reached its prescribed sixty-one feet. Then the pajama parade began, in which the yearlings, coolly clad in their nocturnal dress, marched en masse through the streets of Bethlehem to serenade the "Mo Mo" damsels. Although not able to enter the game itself, the class boosted the victory with its protection of the goal posts after the game.

The social highlight of the year was the Class Banquet held early in the spring semester. It helped to bring even greater unity to a class, which from all appearances, will be one of the finest in the history of the school.

No attempt by the Lafayette freshmen was made to light the Lehigh bonfire, for reasons that are quite obvious.

*Student dining facilities . . .*

# Student Publications

The publications of the student body here at the University provide a means for students to gain valuable experience, to have a say in University affairs, and to find out just what is happening on old South Mountain. The resulting effect is one which tends to form a well-rounded and unified student body.

Transfer of all the publications to their new offices in the University Center was finally accomplished in the Fall. WLRN was the first to gain its new facilities, and the *Brown and White* and the *Epitome* soon followed suit. The improvement in WLRN's coverage and service was readily noticeable, while the change in working conditions provided a greater incentive to the literary branches also. All this has had the desired result of improvement in the quality of the work.

Student publications as evidenced by their superiority, all show the same excellent effort that is required of Lehigh men in other fields.

## Board of Publications

# The Brown and White . . . .

Now in its seventieth year, the *Brown and White*, Lehigh's ever-present dispenser of entertainment, enlightenment, and general information, has recently moved to its new quarters in the basement of the remodeled University Center. The modern facilities now available, together with the added space, will make production of the twice-weekly newspaper a much smoother operation.

Issuing an eight-to-twelve page newspaper each Tuesday and Friday is no mean feat to accomplish exclusively during free time, but the staff of one hundred, by dint of feverish labor, manages to succeed. The biggest problem is fitting everything that needs to be done into the available time, and then fitting everything that needs to be included into the available space. Work begins for Friday's paper Monday and by Thursday morning it is at the printer. That same day, however, work must begin on the next issue, due out the following Tuesday.

Perhaps the most important period in the life of an issue of the *Brown and White* is the day when it assumes its final form. News items and

## *keeping Lehigh well informed*

features must be cut or stretched to fit around the necessary advertisements, pictures must be printed, and all in all, a most breakneck pace is set at this time. After all this activity is past, the combined efforts of the reportorial, editorial, photographic and advertising staffs have produced a newspaper known for its accuracy, interest, and perhaps more so this year, its challenging and enlightening editorials.

Thirty-three hundred copies of the *Brown and White* are circulated every week. About twenty-four hundred of these go to the student body, distributed by still another group of members. The other nine hundred go to the Post Office, to be mailed to parents and alumni.

During the final stages of preparation of the semi-weekly newspaper, all attention centers around the editor's copy desk.

Facilities in the *Brown & White* darkroom rival those of most commercial studios.

News is written by a staff of reporters and later proofed by the editors.

Dick Bernard, *Managing Editor*, Carl Schier, *Editor*, and Steve Seltzer, *Business Manager*, check paste-ups for an advertisement.

When the editors of the 1958 *Epitome* left school for the summer vacation in 1957, they fully expected to return to new quarters in the University Center. On arriving at school in September, however, everyone was greatly surprised.

The quarters in the University Center were not finished, and they were not scheduled for completion until late November or early December. This disappointment was only part of the story; the temporary space that had been provided was

shared with two other student publications, WLRN and the *Brown and White*.

Unfortunately, the *Epitome*, whose operations are particularly heavy in the fall semester, was accorded the minimum of space. From an area of approximately thirty square feet, cluttered with one desk and innumerable cartons of equipment and yearbooks, the *Epitome* proceeded to carry out its daily schedule of tasks.

Lack of space also hampered operations on an-

Many hours were spent on the telephone and at the typewriter as pictures were scheduled and copy was prepared for the printer.

*First Row: Havsy, Myers, Senior Editor; Seltzer, Business Manager; Schier, Editor; Bernard, Managing Editor; Mercy, Advertising Manager; Paternoster. Second Row: Shulman, Friedman, Draper, Meier, Jones, Hehnen, Brooks.*

other front. Drown Hall, which had housed the meeting rooms of all student organizations, was at that time an empty shell, and there was no convenient space in which to take pictures. This condition required a complete revision of the picture schedule, with photographs being taken in classrooms, on stairways, and in any other area that offered the necessary width and depth for photography.

But the near-paralyzing blow was yet to be dealt. On October 15, the administration, acting on the advice of the University Health Service, suspended classes for two weeks because of widespread influenza. Following the "flu vacation", the yearbook stood thirty percent behind its normal production schedule, and in December it was fifty percent in arrears.

By February, the *Epitome* was in its new quarters and had initiated an accelerated effort. In the space of a month and a half, the engraving schedule chart gained thirty percent, and copy for the entire book was within a few percentage points of being completed.

In March, the situation neared normalcy as eighty percent of the book was finished, and it showed every promise of reaching the students on Flagpole Day.

Al Myers, *Senior Editor*, Ed deHart, *Scheduling Editor*, and Roger Zerweck, *Co-Sports Editor*, familiarize themselves with their sections of the layout.

# WLRN

"This is WLRN, radio Lehigh". To those words the students of Lehigh have started and ended their college day for the past ten years. In those ten years it has been in existence, WLRN has become a vital part of our college life. The men of WLRN are kept busy twenty-four hours a day, every day, from Freshman Week until the last day of school.

WLRN started its tenth and greatest year with its annual Big Show to welcome the Class of '61 to the "Lehigh Family". Then, from the opening of classes until December, the station continued its fine job along with the preparation for one of the biggest events in its history—moving into its new quarters in the University Center. December 2, 1957 was the big day on which WLRN officially began full-time programming from their new studios.

The professionally built quarters, among other things, provide a record library for the station's 5,000 records, offices for the managers and admin-

A disk jockey on one of the station's evening shows must have an acquaintance with modern jazz, rock 'n roll, and the classics in order to handle the great number of requests with equal facility.

Plans for the station's advertising are formulated fully a week in advance, and require a combined effort.

istrative personnel, and shop facilities which are more adequate than the former studios in Drown Hall. Better, more flexible programming will be the major benefit derived from the recent acquisition of two Fairchild transcription turntables and the construction of modern, student-designed monitoring and transmitting equipment. The finishing touches were a rack-mounted Ampex tape bank, a hi-fi Seeburg "200" record changer for all-night programming, and slave transmitters to bring the fourteen Sayre Park fraternities into the listening audience. All of this electronic gadgetry is combined with the new control room, broadcasting booth, disc jockey studio, and studio classroom for "live" shows.

Through the facilities of WLRN, music will be carried to all the rooms of the University Center. The year also saw several other program changes. A new disc jockey was added—this time a girl! Pat Kriebel, an Allentown High School student, broadcasts a jazz show to the Lehigh audience once a week.

#### BOARD OF DIRECTORS

Hood, *Advertising Director*; Buck, *Program Director*; Grabowsky, *Station Manager*; Harmon, *Business Manager*; Myers, *Chief Engineer*.

A freshman disk jockey awaits his cue to spin a popular jazz recording.

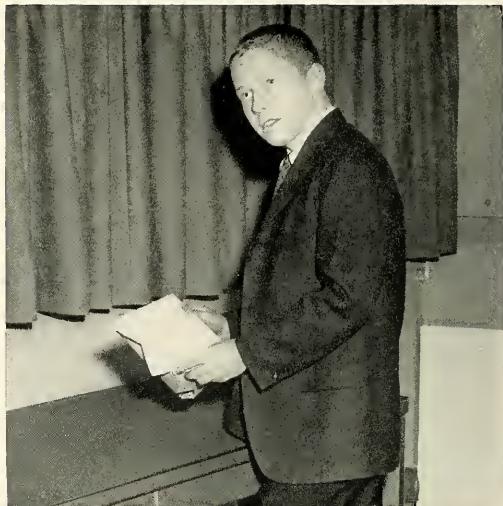

## Pi Delta Epsilon

Service is the keystone on which the original chapter of Pi Delta Epsilon was formed almost fifty years ago at Syracuse University. Membership was awarded to students who sacrificed their time to serve the campus through activity on the campus newspaper.

The Lehigh chapter of Pi Delt continues in this tradition in conferring membership on those junior and senior students who have made an outstanding contribution to Lehigh's three publications and communications media, the *Brown & White*, the *Epitome*, and radio station WLRN.

Long and late hours spent in the University Center basement, headquarters of the publication staffs, are the keynotes of the effort which has gone into serving on the staffs of these activities by the members of Pi Delt.

Pi Delt secretary John Hood explains the method for making a printer's cap to the newly tapped pledges.

*First row: Seltzer, Treasurer; Grabowsky, President; Hood, Secretary; Ernst, Wright. Second row: Elston, Schier, Buck, Harmon, Mercy.*

The *Brown & White* exchanges papers with fifty other colleges and universities.

Photographer Jim Weisberg spent many hours taking pictures for the *Epitome*.

WLRN was the only student radio network to broadcast the EIWA tournament.

*Unsurpassed facilities for extra-curricular activities . . .*

## Omicron Delta Kappa

Omicron Delta Kappa is the senior honorary leadership society. Members are seniors and juniors who have shown special skill and received distinction in collegiate activities. These men must be in the upper thirty-five per cent of their class in scholarship as well; so being elected to this select group is quite an honor.

This society provides recognition for men who have attained definite qualities of leadership, and thus inspires others to work at their best in all their activities.

The meetings of O.D.K. assemble men representative of all groups and activities on campus, thereby hearing the sentiments of every faction. Thus, when discussing problems and questions that pertain to college life, a decision can be reached that is well-grounded in student opinion. Topics of national and general interest are also discussed during the meetings, but the greatest contribution of O.D.K. to the University is this discussion of problems that are pertinent to the Lehigh man.

Students from the junior and senior classes are tapped for membership in Omicron Delta Kappa at a flagpole ceremony.

*Seated:* Davidson, *Treasurer*; Gratto, *President*; Scarlett, *Vice-President*; Rev. Raymond E. Fuessle, *Secretary*; Scalzo. *Standing:* Norlander, Bollinger, Shaver, Murray, Garaventi.

## Who's Who

Each year a committee comprised of members of Cyanide and leading members of the faculty and administration have the difficult task of selecting the thirty Lehigh men who will appear in the national publication "Who's Who Among Students in American Universities and Colleges".

Over 760 colleges are represented in this publication and the fact that our quota has risen in the past years is indicative of Lehigh's growing importance.

Nominations are made on the basis of leadership and participation in extra-curricular and academic activities, citizenship and service to the school, excellence and sincerity in scholarship, and promise of future usefulness.

HARRY O. BIEHL	JOHN M. MIMNAUGH

## Cyanide

A freshman first meets Lehigh when he meets the men of Cyanide during Freshman Week. The members of this junior honorary society perform the invaluable services of greeting the frosh when they arrive in September, and supervising their class projects throughout their first year on campus. Membership in Cyanide is based primarily on scholarship, leadership, and participation in extra-curricular activities.

It supervised the freshman elections and initiated a special pre-election meeting with the freshmen. At this briefing the members emphasized the importance of selecting good officers. The results were very gratifying, as was evidenced by an unusually strong Freshman Cabinet.

Cyanide also passed the wealth of Lehigh traditions on to the frosh, and strove to kindle school spirit through the song contest, the Lafayette skit contest, the traditional "tug-of-war" with Lafayette, and the customary wearing of the "dink".

### OFFICERS

*Seated: Schier, President; Prestia, Secretary; Mitchell, Vice-President. Standing: Wilson, Treasurer.*

*First Row: Perlman, Novak, Schneck, Vice-President; Noll, Secretary; Glose, President; Karp, Treasurer; Berman, Reiniik, Quinn. Second Row: Gadsa, Fritchman, Urbanavage, Yandrasits, Ward, Pontician, Broati. Third Row: Kelsey, Fallwell, Heffner, Altman, Grinchuk, Dodson, Jordon, Dobrota. ## Town Council

Voice of the town students, Town Council has for many years been the governing organization of the nearly 400 students who live in Bethlehem and surrounding area.

The Council acts as a representative body in Arcadia, and in addition to this provides the town students with social activity, thus placing them on a par with fraternity and residence hall dwellers.

The Council has several committees directed to keep town men active in campus life. One of the most important of these committees is the one concerning athletic life.

With headquarters originally in Drown Hall, the group now has its luncheon meetings in the University Center. Since the new building has been opened the town students will have an extended social life through the facilities provided.

*First Row: Schneck, Vice-President; Glose, President. Second Row: Noll, Secretary; Karp, Treasurer.*

#### OFFICERS

*First Row: Daddona, Social Chairman; Lynn, Treasurer; Sigley, Recording Secretary. Second Row: Steward, President; Bortz, Corresponding Secretary; Podgursky, Vice-President.*

## Alpha Lambda Omega

Alpha Lambda Omega, the town fraternity, makes it possible for commuting students to enjoy a social life comparable to that of other groups living on campus. Organized in 1942, the group is now investigating the possibilities of obtaining a house in order to expand its present program.

A L O is unique in that it is a fraternity recognized by the University, yet it has no national organization. The organization can also boast an active alumni organization that has become a vital part of the group's continued success.

Social events are the highlight of the group's activities, and parties are held at least twice a month, with Houseparty, Lafayette Weekend, and Christmas being the focal points of the social calendar.

*First Row: Gasda, Daddona, Bortz, Corresponding Secretary; Podgursky, Vice-President; Steward, President; Lynn, Treasurer; Sigley, Recording Secretary; Grebenar, Slota. Alpha Phi Omega runs the annual Ugly Man contest to raise funds for the Campus Chest.

## Alpha Phi Omega

Alpha Phi Omega is a national service fraternity having two fundamental requirements for membership: previous membership in the Boy Scouts, and an earnest desire to render service to others. This desire to render service was shown by the members of A.P.O. from the beginning of Freshman Week to the last day of the school year.

A.P.O. men introduced the new freshmen to the scenes and behind the scenes of the Lehigh campus during Freshman Week. A welcome sight to returning upperclassmen was this group's semi-annual text book sale which meant great savings to many.

As the school year progressed, A.P.O. sponsored the Ugly Man Contest that raised money for the Campus Chest.

During the heart of the football season, A.P.O. served as host to its parent organization, the Boy Scouts, during Scout Visitation Day. The Scouts were taken on guided tours of the campus, fed in Grace Hall, and treated to the V.M.I. football game.

*Seated: Sprenkle, Beach, Coates, Williams, Executive Vice-President; Reller, President; Gucker, Secretary-Treasurer; Cool, Vice-President; Miller, Recording Secretary; Jennings. Standing: Ferdinandsen, Kaiser, Johnson, Shaver, Walton, Branning, Humphrey, Snyder, Griepp.*

Members of the Cosmopolitan Club gather at the homes of faculty and friends for their regularly scheduled meetings.

## Bowling Club

Several years ago a group of Lehigh men got together in an effort to improve the bowling situation at Lehigh. Up to that time, the only bowling activity was the intramural competition held once each year. Recognizing the disadvantages of such

limited activity, they formed the Bowling Club. Composed of fifty members, it has eight regular teams of five men each which meet every week to determine the top five men in the league who meet later in a final contest.

*First Row: Meyers, Greibei, Murphy, Thiede, Glucksman, Secretary; Clarke, Collier, Treasurer; Rodebaugh. Second Row: Pullen, Ritter, Past, Horheimer, Harmoning, Cziner, Augustine, Bell, Barkiewicz, President. Third Row: Steinan, Tanzman, Brown, Gleeson, Shulman, Hayes, Jordan, Walker, Knerr, Taylor, Price, Davidson.*

## Cosmopolitan Club

The Cosmopolitan Club, one of the most active organizations on campus, provides foreign students with social and fraternal relationships that could not be obtained in the residence halls. The club has taken as its objective the introduction of foreign students to American culture and their indoctrination in aspects of University life other than scholarship.

At present, the club is attempting to secure a permanent dwelling that can be turned into an international house. Prior to World War II the club had its own meeting place, but recently they have had to assemble at various places, usually the home of a faculty member.

A recent undertaking was the promotion of a plan to encourage fraternities to entertain foreign students in the evening. Such a program would benefit both the fraternity men and the students.

## Brown Key Society

Visiting teams and spectators to Lehigh's athletic events have always found the wearer of the Brown Key arm band a helpful host and a welcome guide. The forty-nine sports-minded members of the society seek to promote good inter-

collegiate relations by welcoming and assisting the coaches, managers, and members of visiting teams. This year it gave special attention to the Lehigh Hockey Club, striving to develop the existing potential into a proficient hockey team.

*Seated: Pijawka, Spitzig, Scalzo, Secretary-Treasurer; Harris, Vice-President; Briggs, President; Clarke, Trerotola, Hirsch, Steinman. Second Row: Sullivan, Gates, Crichton, Cawova, McCarthy, MacWilliams, Godin, Biehl, Cross. Third Row: Fawcett, Gamble, Hamer, Rush, Coyle, Patton, Van Rensselaer.*

## Flying Club

Founded originally in 1947 by veterans returning to Lehigh from World War II, the Flying Club was permitted to lapse during the following few years. It was "re-founded", however, in 1954 by a group of interested students. The club is a non-profit student group whose express purpose is to afford its members the opportunity to fly as

inexpensively as possible.

The club owns an Aeronca "Champion" which was recently re-covered, and in which a new engine was installed. The airplane is available to any member for weekend use.

The Flying Club occasionally makes tours in its own plane along with those of some members.

*Kneeling: Jones, President; King, Treasurer.  
Standing: Samuel S. Willey, Advisor; Jones, Pearson, Parker, Michon, Vice-President;  
Lewis, Rihaldi, Joseph Teno, Advisor.*

The University Center all-purpose room was the scene of a concert by the Beaver College Choir and the Lehigh University Glee Club.

The new snack bar is crowded most of the day, with peak hours coming after classes in the afternoon and at night.

*First Row: Brosious, Rogers, Corresponding Secretary; Reider, Grandin, Rodgers, Vice-President. Second Row: Hertzog, Dietrich, Hewitt, Jenkins, Cuddeback, Munsell. Third Row: Harty, Treasurer; Bidwell, Peterson, Hackman, Phillips, Pearson. Fourth Row: Ernest, Cressman, Parks, Shadle, Lundahl, Mera. Fifth Row: Bryson, Lerche, Bowker, Davis, Advisor; Murphy, Cave. Sixth Row: Nice, President; Morrison, Cozzens, Hulse, Secretary; Elliott, Robbins, Suprinick.*

## Dames Club

Lehigh's Dames Club, whose members are wives of Lehigh students, has succeeded in making Bethlehem a friendly home for themselves and their husbands. The highpoint of the group's activities this year was the commencement program in the spring. All the wives of graduating students received commencement certificates.

RAYMOND E. FUESSLE  
*University Chaplain*

## Religious Groups

The religious organizations of Lehigh, a strong and vital part of the campus life, serve the University in three major areas. They strengthen the allegiance of the students to the religious tradition of their choice, increase their understanding of other faiths, and offer opportunities for religious fellowship to those who have previously shown little interest in a faith.

In an effort to unite the various religious groups for the accomplishment of these common goals, the Christian Council, the Hillel Society, and the Newman Club, representing respectively the Protestant, Jewish, and Catholic students, have joined together in a common council.

Separately, each religious group is a discussion group where members can learn of the important part which religion should play in campus life.

Lehigh's Chapel is always open to students who wish to take a few minutes from their day for quiet meditation.

Orben, *President*; Gilhool, Interrante, Haller, *Secretary*; Neidell, Ross, Rev. Raymond E. Fuessle, *Chaplain*; D'Antonio.

## Interfaith Council

The Interfaith Council is a united group whose members represent the three major religious faiths on campus, the Protestant, in the Christian Council, the Jewish, in the Hillel Society, and the Catholic, whose representative body is the Newman Club.

On many college and university campuses, religious organizations are characterized more by inactivity than any other feature. At Lehigh, however, this is not the case. The Interfaith Council, meeting regularly, stimulates interest in all phases of church activity, from social work to lectures and formal services.

A clear example of this activity was the major work of the Council this year. The Group sponsored three Conferences on Religion, bringing well-known leaders in all three faiths to the campus. Each conference included lectures, seminars, private interviews, and informal discussions in residence halls and fraternity houses.

Interfaith Council members meet once a week in Chaplain Fuessle's office in the Chapel to discuss current activities.

Chaplain Raymond Fuessle, Jones, Koch, Schulz, Weiss, Coates, Ross, Orben.

## Christian Council

The Christian Council is a coordinating committee for the Protestant organizations at Lehigh. It consists of representatives from all the Protestant groups as well as seven or eight members at large. The Council's varied undertakings this year, which included prayer groups, Bible discussions, and student-faculty luncheons, were all aimed at satisfying the religious needs of the campus.

Once again this year the Christian Council arranged the Visiting Minister Program, through which well-known theologians were welcomed into fraternity houses for informal discussions on religion. Another project was the organization of a joint meeting of all the Protestant fellowships, where the topic "Christianity and the Racial Problem" was thoroughly discussed.

Members of the Christian Council review a recent Conference on Religion.

# Christian Fellowship

*First Row: Horner, Stitt, Secretary; Gillespie, Vice-President; Williams, President; Tunçall, Treasurer; Swain, Missionary Secretary. Second Row: McGarry, Nüller, Fisher, Reisinger, Oakley, Bradway, Geney, Walter, Fuhr. Third Row: Schlosser, Pense, Knapp.*

The Christian Fellowship is a nondenominational organization which stresses the personal relationship of the Christian with his Savior, and the practical application of religion to campus life. This year the group met once a week in the dormitories for Bible study, and conducted daily prayer meetings in the Chapel.

Episcopal students of Lehigh, Moravian, and St. Luke's found that the Canterbury Club was a very rewarding activity. The weekly meetings of the organization provided interesting discussion, worship, and fellowship. A dinner and reception were held in the early fall, and a similar social affair terminated the year's activities.

*Seated: Rev. Benjamin Minifie, Swingle, Anderson, Thomasch, Bachman, Townsend, Williams, Taylor, Morgan, Young, Bjørne, Everett, Emerson. Standing: Rhood, Pixley, Carr, Springstead, Grosser, Dockier, Hale, Lawrence, Welch, Cole, Hough.*

## Canterbury Club

*First Row: Schulz, Eberhart, Treasurer; C. William Sheldrake, Advisor; Jane Sheldrake, Advisor; Harris, President; Plumer, Vice-President; Smith, Secretary; Esler, Siftar, Rev. Vernon Hoover. Third Row: Shaffer, Davis, Paternoster, Rowe, Sietsema, Loper, Dinkey, Ostrom, Askew, Stebbing, Rhoades.*

## Westminster Fellowship

The Westminster Fellowship gave Presbyterian students of local colleges an opportunity to gather together for sincere Christian fellowship. This year's theme, "Jesus Christ, My Light and Life", was expounded in weekly meetings which featured speakers, films, and panel discussions. An informal

## Acolytes Guild

banquet began the year, and square dances, Christmas caroling, and ice skating completed it.

A small group of Episcopal students served their church and school as members of the Acolytes Guild. Each Sunday they assisted the Chaplain by attending the altar at Packer Chapel.

*First Row: Bowers, Walsmith, Lowe, DeWitt, Co-Vice-President; Nilsson, President; Hetzel, Co-Vice-President; O'Ryan, Springstead, Stuhlmuller. Second Row: Braendel, Watters, Christy, Chichester, Rev. Raymond Fuessle, Advisor; Bryant, Merkle, Quackenbush, Riedell.*

## Committee on Religious Life

*Seated:* Chaplain Raymond Fuessle, Herbert Diamond, S. Blaine Ewing. *Standing:* Interrante, Schwartz, Orben, John Liebig.

## Newman Club

This year the Newman Club presented a balanced program of religious, intellectual, and social activities for the Catholic students on campus. Meetings were held twice a month, and centered around group discussion of important current questions.

*First Row:* D'Antonio, Shaughnessy, Line, Weyer, *Corresponding Secretary*; Interrante, *President*; Rev. C. Monahan, *Chaplain*; Masi, *Vice-President*; Anisko, *Recording Secretary*; Warden, *Treasurer*; Highfield, Bookbinder. *Second Row:* Ginocchio, Funk, Waterhouse, Miner, Glynn, Miller, Bayer, Nieckoski, Lane, Gage, DeMartino, Doane. *Third Row:* Moran, Welsch, Phillips, Carnell, Griffin, Kiley, Kennedy, Armstrong, Oppel, Reifsneider, Rissmiller, Daly.

*First Row: Szatmary, Mayzell, Neidell, Treasurer; Schwartz, President; Rabbi William Frankel, Lederman, Vice-President; Schiffman, Winters, Toub. Second Row: Fox, Goldenkoff, Sepenuk, Schneiderman, Skolnick, Frankfort, Rosen, Garber, Jablon, Rothkopf. Third Row: Shore, Samuels, Deresh, Swire, Grant, Sumner, Havsy. Winter, Getzler.*

## Hillel Society

### Lutheran Students Association

The Lehigh Lutheran Students Association sought to emphasize the importance of Christianity in daily life. Its bi-monthly meetings centered around discussions, which were often led by prominent local speakers. Campus witness and sincere individual worship were always encouraged. On the social side the group was certainly not inactive.

Monthly meetings of the Hillel Society provided Jewish students with an adequate social and cultural life away from home. Outstanding speakers of the Lehigh Valley area often addressed the group. In addition to the regular meetings, weekly gatherings were also held for Bible study. A well-balanced social program was concluded with the annual spring picnic.

*Seated: Niiler, A., Rumpf, Hughes, Denham, Niiler, P., Clarence A. Shook, Advisor; Robesch, Schneider. Standing: Moyer, Heffner, Jones, McMullen.*

## Conference On Religion

During the course of each academic year, the Interfaith Council sponsors a series of three Conferences on Religion. The conferences are led by an outstanding representative from each of the three faiths, Protestant, Roman Catholic, and Jewish.

Dr. Robert Gordis, Rabbi of the Temple Beth-El in Rockaway Park, New York, led the Fall Conference. Dr. Gordis is the Associate Professor of Bible at the Jewish Theological Seminary in New York City, and has served as Adjunct Professor of Religion at Columbia University.

During February, Dr. Arnold S. Nash was the Conference leader. Dr. Nash is head of the Department of Religion at the University of North Carolina, where he also serves as instructor in the Sociology Department.

The Spring Conference was led by the Reverend Stephen J. Latchford, S.J., who is the Associate Director of the Institute of Industrial Relations at St. Joseph's College. Besides lecturing at the Institute, he consults with labor and management concerning industrial problems.

Mr. James Stamm of the Romance Language Department questions Dr. Arnold Nash during a guest lecture in a Spanish class.

The Reverend Stephen J. Latchford, S.J., of St. Joseph's College in Philadelphia, was the leader of the Fourteenth Conference on Religion.

## Interfraternity Council

Lehigh's Interfraternity Council continuously makes significant contributions to the University as a whole and to the fraternity system in particular. It serves as the governing body for the fraternities and as a clearing house for their ideas and problems.

One of the most important responsibilities of the Council is the regulation and control of rushing. This year, because of a new ruling excluding fraternity contacting in the residence halls during the first semester, an entirely new system of deferred rushing had to be devised. Contacting was permitted for the first time only after the second semester had begun, and only for two days out of the week. Rushing itself started after spring vacation. This period was reduced by two days, giving slightly less than two weeks of rushing.

Preceding rushing a booklet was published introducing the freshman to fraternity life at Lehigh.

The highlight of the Council's social program was traditional I.F.C. Weekend. Included in the weekend's activities was a dixieland concert, a Mustard & Cheese production, and a semi-formal dance.

*First Row:* Harbold, Brown, Perry, Chandonnet, Slater, Goldman, Harris, *Treasurer*; Garaventi, *President*; Voss, *Secretary*; Brownell, Webb, Biehl, Gorman, Hirsch. *Second Row:* Norlander, Holcombe, Mimnaugh, Timen, Shoemaker, McMichael, Smiley, McCarthy, Christie, Hughes, Hitman, Keenan, Forstall, Dimmick, Weaver, Funk, Harding, Steinbrunn, Baker, Smith, Clark. *Third Row:* Washburn, Havel, Briden, Burgdorf, Kantra, Franco, White, Keller, Cummings, Nice, Thomasson, Montville, Roepke, Riffell, Nolan, Shea, Rodgers, Crichton, Sullivan, Owens.

Monte Carlo was never like this. Members of Lehigh's fraternity set gamble away stage money at a successful I.F.C. weekend.

*Kneeling: Leach, Wardell, Steutel, Vice-President; Funk, President; De Giorgio, Springstead, Treasurer; Eckstein. "Down, set, ready." The varsity coach would not subscribe to this method of getting in shape, but these brothers feel they need the added incentive.

## A X P

Alpha Chi Rho celebrated its fortieth year at Lehigh this Spring, and appropriate festivities were scheduled to commemorate the affair. A dinner dance and banquet were held, and the chapter was honored by visits of their national officers.

On the athletic side, the "Crows" have been quite active, both intramurally and intercollegiately. Many Alpha Chi Rhos are active around campus, representing their house in Arcadia, Tau Beta Pi, Band, Glee Club, and numerous course societies.

Football seems to be a big interest at Alpha Chi Rho; the house won its league in intramural competition and defeated its rival chapter at Lafayette in their annual clash.

# Alpha Chi Rho

*Phi Mu Chapter*

# A Σ Φ

The Alpha Sigs enjoy a pleasant spring afternoon on Delaware Avenue watching the girls from St. Luke's Nursing Home walk to and from the hospital.

In the Fall of this year, another band of Greeks will leave Delaware Avenue and break the ground of old South Mountain. Alpha Sigma Phi's building plan, which had its inception in June of 1956, is now adequate enough to provide a \$150,000 fraternity house in back of Phi Gam on the road to Theta Delta Chi.

This year the brothers are going to play host to their national fraternity convention held at a resort in the Poconos. Brothers from every chapter will attend, coming from such places as the University of California, and Michigan State.

The Alpha Sigs were very successful on both the athletic and scholastic fronts this year. The University rating placed Alpha Sig high among fraternities, and the field of sport found these men doing well in football, basketball, and bowling. The brothers also participate in varsity sports and can be found on the fencing, baseball, track, and lacrosse squads.

*Kneeling: Brumbaugh, Feinhold, Reinhold, Vice-President; Black, Messier. Second Row: Brown, Gleichmann, McMurtrie, Secretary; LeFever, Kelly, Welker, Koch, Muldrew, President. Third Row: McCurdy, Tallman, Ford, Hughes, Keaton, Bostrom, Moyer. Fourth Row: Stapleton, Treasurer; Rumpf, Geesey.*

*Kneeling:* Kroh, Baralt, Ross, Shaughnessy, Shannon, Wendlocher, Bateman, Sassman, *Vice-President*. *Standing:* Rojahn, Wright, Kobran, Russell, Von Bergen, Werft, Van Wickle, Little, Prescott, Moran, Fisher, Manno, Zimmer, Walton, Wolfert, Sedgwick, Wilkenson, Burgess, Davidson, *Treasurer*; Bux, Johnston, Saari, MacWilliams, Venman, Christie, *President*; McCarthy, Moore, Erichson, *Secretary*; Elston.

Anxious to try his "ski legs" with the first heavy snow fall, this ATO was so encumbered with clothing that he could move only if pushed by two willing brothers.

## A T $\Omega$

*"A Tale of Two Cities"* brought first prize to Alpha Tau Omega last Lafayette weekend. The guillotine and its chopping block helped our eleven to "carton away a victory". A.T.O. is one house which really takes pride in its work and has good reason for it. Last year's first prize is also in its possession thanks to Tom Sawyer and the way in which he "Whitewashed the Leopard".

A.T.O.'s have ranked high in every intramural league. They have taken top honors in swimming and baseball, and have maintained an excellent scholastic record. Extra-curricular participation is outstanding as shown by their representation in Brown Key, Arnold Air Society, A.S.M.E., all class cabinets and a host of other activities.

# Alpha Tau Omega

*Pennsylvania Alpha Rho Chapter*

# B Θ II

Outweighed and outnumbered, the man on the bottom probably wishes that this impromptu wrestling match had never started.

During World War II the Beta Chi chapter of Beta Theta Pi diminished in size until it consisted of only four resident brothers, with the house in Sayre Park being used as a dormitory for men in the Armed Services Training Program. The decade following saw the Beta's ranks filled once more, and the house became known for its campus leadership.

Today the Betas have truly made their chapter live by the part which they played in campus life. Brothers of Beta Theta Pi hold offices in the junior, senior, and sophomore classes and captaincies on the cross-country, track, and swimming teams, and on the varsity football squad.

Within the house too, a strong feeling of unity and leadership is maintained, which is made all the more significant since the house is one of the larger ones on campus. The brothers have become well known for their prowess in the annual University Singing Contest.

*Kneeling: Santoro, Romig, Castillo, McNamara. First Row: Comber, Gaintner, Cowan, Briggs, Smiley, Gartside, President; Sahler, Gunst, Harbold, Karr, Secretary; Winchester, Hobby, Tripone. Second Row: Blair, Gates, Vice-President; Millana, Shaver, Horton, Treasurer; Schumacher, Iliffe, Gilbert, Mider, Eck, Waldron, McHugh.*

*First Row:* Shaner, Maloney, Merrill, Witte, Clark, Beacham, Sprenkle, Hunt, Smith, Hunter, Spitzig. *Second Row:* Schmidt, Orben, Naylor, Fortune, Clauson, Thomason, Hofmann, Ghegan, Randall, Briggs, Lutz, Forrestor, Campbell, Johnson. *Third Row:* Adickes, Heist, Cassidy, Gotwalt, Krehbiel, *Treasurer*; Knapp, *Secretary*; Devine.

Serious concentration was necessary for this hand of bridge, for Lehigh's favorite TV program, American Bandstand, was blaring forth nearby.

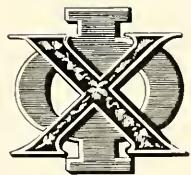

## X Φ

The brothers of Chi Phi fraternity presented a testimonial dinner at the Bethlehem Hotel for two people whose association with the house symbolizes the close brother-alumni relationship that Chi Phi has maintained over the years.

Mr. and Mrs. John Metz, parents of an alumnus-brother, have been chaperones and friends of the house for over eight years. In response to this much appreciated friendship, the Metzs were toasted and dined and a sweetheart pin presented to Mrs. Metz.

In other phases of alumni-fraternity relations the Chi Phi's present themselves with equal aplomb. Their alumni weekends are consistently successful with the house deriving many benefits.

# Chi Phi

*Psi Chapter*

# X Φ

Nearly every house has a set of bongos, but the brothers are not always as appreciative of the owner's talents as these Chi Psi's seem to be.

If the worth of a fraternity is determined by the deeds of its members, then Chi Psi has shown itself to be a valuable asset to the Lehigh community.

The Chi Psi's began a successful year by coping the Turkey Trot and ended its sports winnings by taking the All-University Sports Trophy. In addition the Chi Psi's were represented in almost every varsity sport and extra-curricular activity.

In house activities the annual Parents Day saw a large group of parents and alumni return to enjoy a pleasantly quiet weekend, and a close-knit alumni bond became stronger through the concentrated efforts of the brotherhood. This same effort kept Chi Psi near the head of the list in scholastic achievement while at the same time a full social program was promoted.

In deeds and in words, Chi Psi justifies the idea of the potential success inherent in the closely knit fraternity.

*Kneeling:* Trerotola, *President*; Steinman, Henry, *Vice-President*; Engstrom, *Treasurer*; Martindale, Tyrie, Theiss, McNally. *Standing:* Kovach, Godshalk, Ellis, Gamble, *Secretary*; Harkader, Burdash, Bergmark, Schwenker, Horn, Thomas, Sadler, Cunningham, Saari, Fawcett, West, Walker, Patton, Shuttleworth, Borland, Bayer, Haller.

Television, movies, activities, and all other responsibilities take a back seat when a new occupant as lively and demanding as this one arrives.

*Kneeling: Harrison, Slack, Long, Kopski, Kahler, Battershall, Hartenau, Mihan, White, Stoddard. Second Row: Holley, Smith, Kenny, McKee, Nilsson, Fisch, Sachse, Landsberg, Bauer, Miller, Chick, Black, Simmons, Kennedy. Third Row: Dardick, Eyster, Snyder, Essaf, Silver.*

As one of the earliest college Greek-letter societies, Delta Phi has a rich tradition. The national is a small, closely-knit organization, with most of the chapters found in the eastern part of the country. Founded in 1827, Delta Phi was one of the first three fraternities, and as such is a member of the Union Triad, along with Kappa Alpha and Sigma Phi. Sixteen chapters are active at the present time.

An annual get-together with the other two members of the Union Triad is the basis for a big party weekend. Also notable in the line of parties was the Fall Houseparty "Spanish Fiesta", complete with all the trappings of old Spain, including the beautiful señoritas.

Activities of the house included a varied range, representing a cross-section of campus life. They include Band, Tau Beta Pi, Pi Tau Sigma, Newtonian Society, Glee Club, and *Brown and White*.

Delta Phi

*Nu Chapter*

*Kneeling:* Gaiser, Collier, Leyendecker, Knerr, Buchanan, Thiede, *Treasurer*; Walton, Czeiner.

## Δ Σ Φ

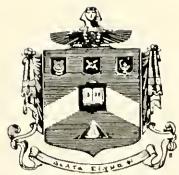

Having recently repaired their player piano, these brothers gather 'round to watch it in operation.

In the spring of 1957 a group of men, brothers and alumni, gathered in the Hotel Bethlehem to celebrate the founding of Beta Theta chapter of Delta Sigma Phi twenty-five years ago, and to form a society to be known as the Twenty-five-Year Club.

Delta Sigma Phi has become known for the strong parent relationships that it maintains. The parents club awards two scholarship prizes per semester, one for high scholarship and the other for the greatest improvement.

By maintaining a high standard in University average for the past years, the Delta Sigs have justified the faith that their parents have placed in them and have fulfilled the original goals of the founding students of 1932.

# Delta Sigma Phi

*Beta Theta Chapter*

# Δ T Δ

Every house has its capable singers, but few can boast a bass like the one perched on the piano.

*First Row: Smith, Foltz, Rigby, Somerville, Schaeffer, Ankars, Hartmann, Vogt. Corresponding Secretary; Blank, Freeman, Davidson, Sweitzer, Rohleder, Swenson. Second Row: Meske, Rittenhouse, Tindall, Richberg, Holcombe, President; Webber, Elliott, Schmidbauer, Rogliere, Autera, Gaido, Porter, Biggs, Steinbrunn, Treasurer; Rousseaux, Vice-President.*

The familiar brown and white stone structure directly above Lamberton Hall, known to everyone on campus, will no longer be the home of the Deltas in the fall of 1958. Past the white pillars of Chi Psi and around the bend will be a colonial style fraternity house.

Their new residence will have features unique in the line of fraternity houses. It will contain an alumni suite, conference room, and a downstairs dorm which can be partitioned to provide for additional guests.

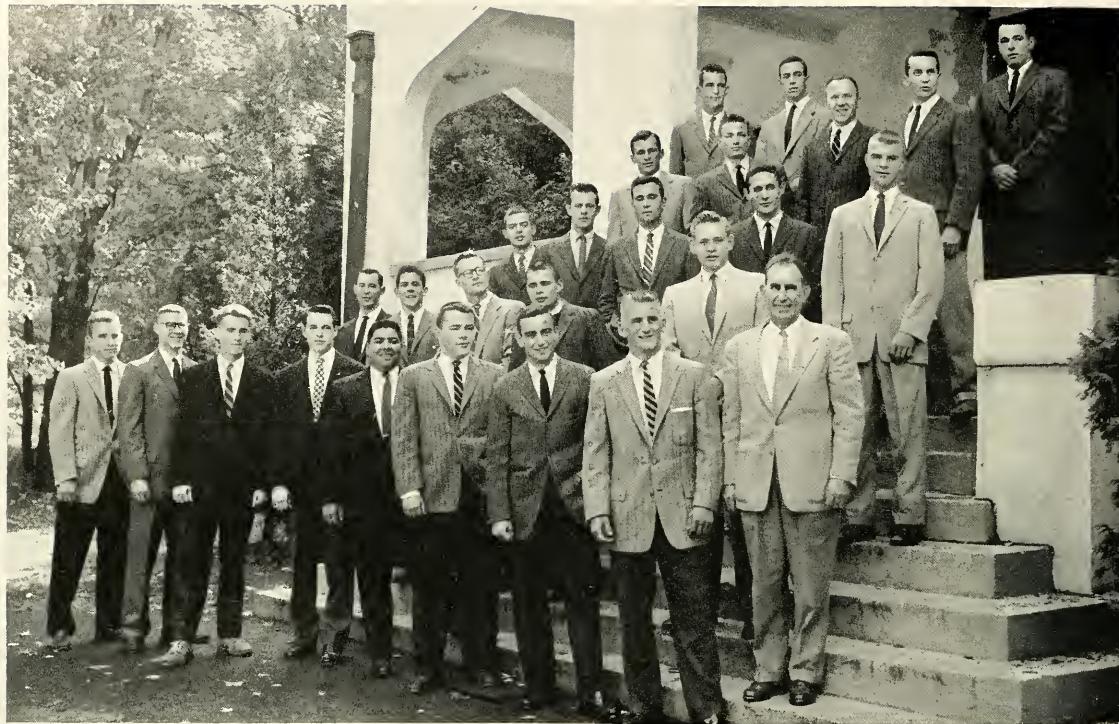

This external appearance will house the same hospitable and friendly group of men who annually conduct a formal Christmas party for orphans. This year, Delta Tau Delta was host to eighteen children from the Wylie Home. Dinner, movies, gifts, and the entertainment of a professional magician highlighted the entertainment.

A significant event carried on this year was the annual pledge party.

# Delta Tau Delta

*Beta Lambda Chapter*

*First Row:* Karsten, Eshbaugh, *Vice-President*; Kerr, deHart, Linares, Van Olinda, Bonnano, *Recording Secretary*; Webb, *Corresponding Secretary*; Campbell. *Second Row:* Chambers, Swartley, Cogan, Babbitt, Shook. *Third Row:* Kemp, Rosenberger, Goldman, *President*; Garevanti, Gurke. *Fourth Row:* Brown, Granholm, Leonhardt, Kaiser, Parrish, Wolfe, *Treasurer*; Ramsey.

After a hard day at drill, nothing is so relaxing as removing one's shoes, much to the discomfort of anyone else who happens to be around.

The large stork atop the Delta Upsilon house during Lafayette weekend this year was not visiting any maternity ward. He was carrying the motto "We're expecting a victory". That Saturday night a party with the theme of "The Farmer's Daughter" had corn stalks, hay, and a pumpkin as decorations. The rest of this year's social season was both active and successful.

The white stucco house, the oldest on campus, is in good condition due to a new paint job, new plumbing system, and a new water heater.

Intramurals found Delta Upsilon among the leaders in football and wrestling. They took third place in the football league and had two brothers grapple their way to the title of wrestling champ.

# Delta Upsilon

*Lehigh Chapter*

# K A

Spirit is a quality which tends to bind a house together in all its activities. Kappa Alpha displayed much of this essential quality in the past year, both in activities and elsewhere. Its weekend parties were noted for their singing; the KA glee club placed high in the IFC singing competition last Spring, and the ability ran over into the Saturday night affairs, where a group of brothers and dates was usually sitting around the piano singing. With a solid background in all phases of campus life, Kappa Alpha contributed greatly to the growth of the Lehigh family.

The Lehigh chapter of this country's oldest social fraternity realizes, however, that parties don't make the house. This year, the KA's were high in both average and activities. Sports didn't take a back seat though; the house was represented on the football, hockey, and swimming teams.

Cyanide, Arcadia Associates, class cabinets, Phi Eta Sigma, Tau Beta Pi, and Glee Club were numbered among the activities of the house.

Many of the attractive interiors in fraternity houses are the result of unnumbered hours of backbreaking labor by industrious brothers.

*Kneeling: Brownell, President; O'Neal, Reboul, Bevan, Miller, Gorman, Petrone, Byers, Sacks, Secretary; Everett, Whitaker. A little bit of Greenwich Village came to Bethlehem this year. The Lambda Chis turned Bohemian for the Fall Houseparty with the theme "Fountain Hill Nightclub". On display that evening was a new bar which was built last summer. It was made possible through the efforts of the brothers themselves who showed that determination and a touch of amateur skill can produce a professional looking job. Keeping in the same spirit of things, another type of bar was seen on Delaware Avenue this past Lafayette weekend. Lambda Chi's display consisted of a large keg of beer being poured over a Leopard and into a silver goblet. "Lehigh Light Lager, Liquidated the Lafayette Leopards", as we all know.

Athletics and extracurriculars this year found Lambda Chi Alpha represented in outstanding numbers and positions. First place in the University track meet was a keynote of this year's participation.

*Gamma-Psi Zeta Chapter*

*First Row: Voss, Nathan, Roscoe, Field, Chandonnet, President; Taylor, Leach, Chouteau, Cook, Davidson Sherk. Second Row: Jorgensen, Sayre, Painter, Croteau, Salomon, Steffensen, Delany, Treasurer; Smith, Washburn, Kiely, Peterson, Rogers. Third Row: MacClymont, Reporter; Muscarelle, Menninger, Kowal, Boyce, Heath, Austin, Hazen, Pendleton.*

After every party come the inevitable clean-ups, during which there seem to be fewer brothers around than at any other time.

**Φ Δ Θ**

Along with South Mountain's first snowfall comes Lehigh's last football duel of the season. In weather even more miserable than that which accompanies the Lafayette fracas, Phi Delta Theta plays its annual night-time "Toilet Bowl" game with Sigma Phi. The bright lights of Phi Delt's back porch harshly illuminate one of the messier traditions of Sayre Park.

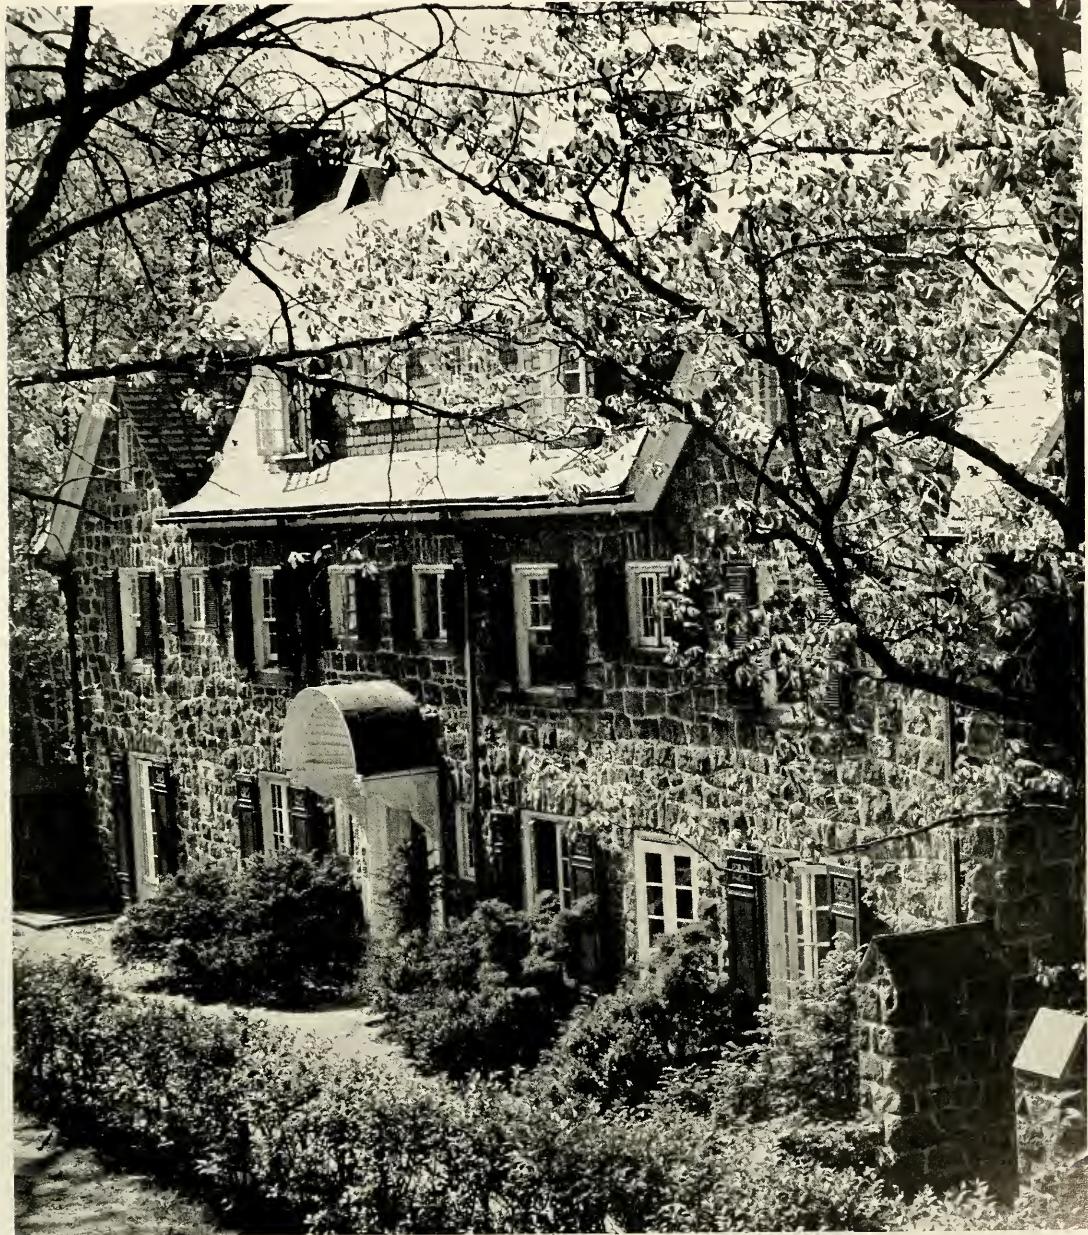

Community Service Day brings the brothers to Allentown State Hospital for a day of cleaning and brightening many of the rooms and wards. This service is participated in by all members with some very worthwhile afternoons being spent in such institutions as Wylie House for Orphans, and, in Allentown, a home for the blind.

*Pennsylvania Eta Chapter*

# Φ Γ Δ

The Fiji's Sunday night supper is prepared by the brothers or by pledges, and is eaten informally, usually in the kitchen.

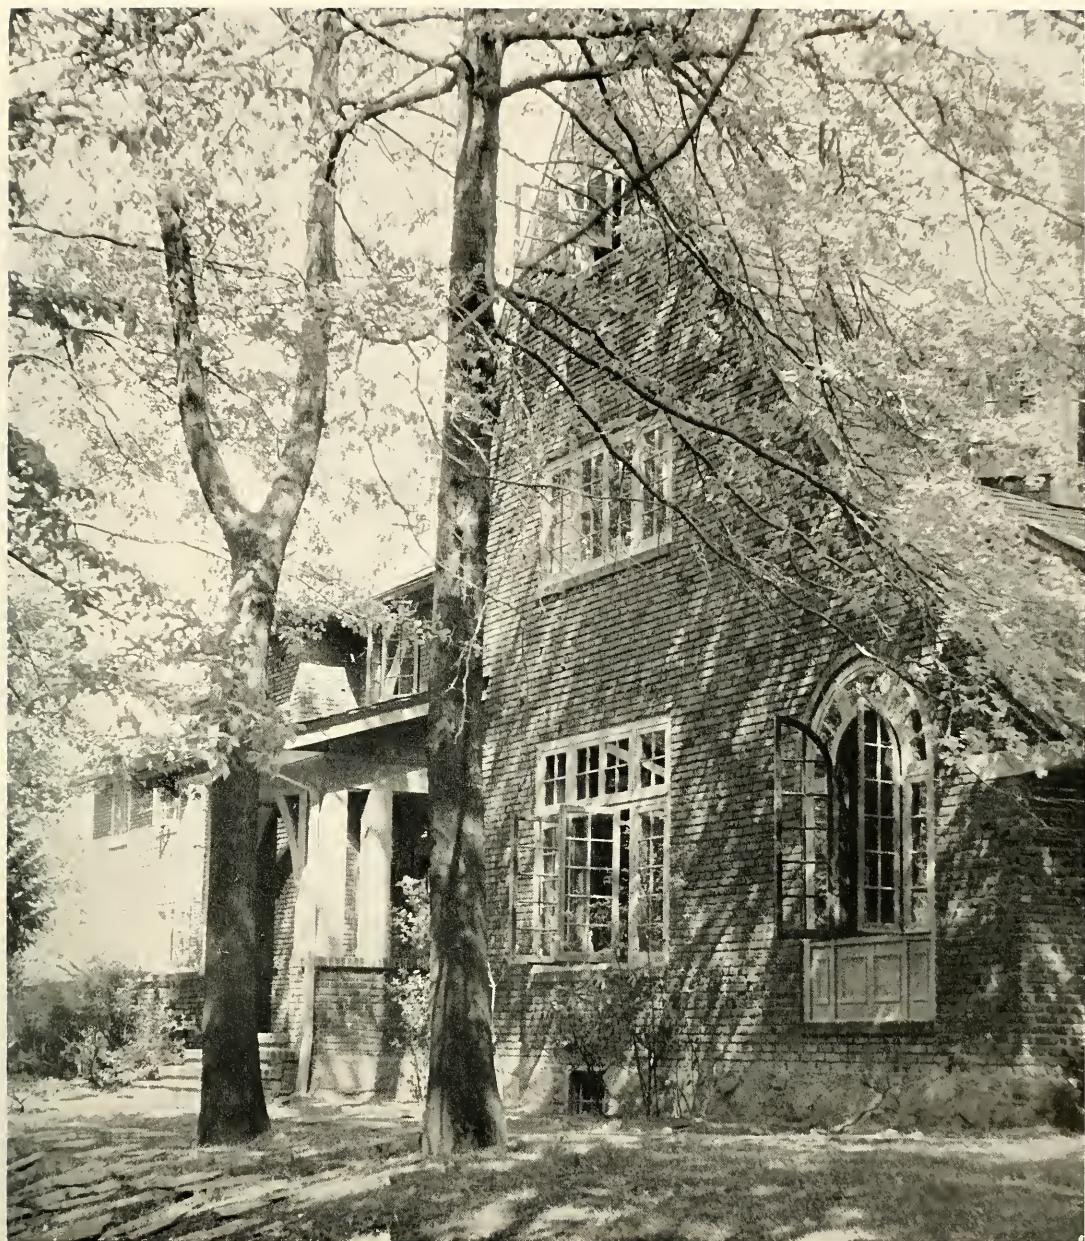

*Kneeling: Kurtossy, Groff, Banister, Scalzo, Corresponding Secretary; Angle, Rach, Sullivan.  
Second Row: Guidi, Hogan, Brooks, Corcoran, Martin, Rush, Burger, Gratto, Draper, Elam, Crichton, President; Penske. Third Row: Schier, Manwaring, Holohan, Lewis, Ash, Canova, Hetfield, Eckert, Sweet, Secretary; Beattie, Pijawka, Stanley, Mitchell.*

If any house deserved the title of sports leader, it was certainly Phi Gamma Delta. Always known for their interest in athletics, the Fiji's this year have reached what seems the peak; four team captains were brothers. In addition to this accomplishment, many other members of the house were varsity lettermen.

Straying from the sport scene, many other activities were represented in the house. Four of the fifteen members of Arcadia were Phi Gams and a large representation was found in Who's Who in American Colleges. The editor-in-chief of the *Epitome* was also numbered in the ranks of Phi Gam.

Houseparty every spring finds the traditional Fiji Island party, with sawdust replacing sand, and amazingly realistic palm trees waving in the somewhat stuffy air. Fall Houseparty featured a less exotic Greenwich Village theme.

# Phi Gamma Delta

*Beta Chi Chapter*

*Seated:* Jackson, Browder, Sauerbrey, Hunter, Zenorini, McMichael, Weiss, Taylor. *On Wall:* Shoemaker, Freeze, Taylor, Michon, MacPhee. *Standing:* Lynn, Sterne, Stover, Connor, Lewis, Cook, Henry, Jaehne, Kalmey, Bollinger, Morley, Roberts. *On Porch:* Peeke, Engelke, Sylvester, Peterson.

Even though the party's over, the dates have gone home, and the mess is cleaned up, the attraction of their new bar is just too strong for these Phi Sigs.

## Φ Σ K

After a year's residence in their new Sayre Park home, the Phi Sigs got over the novelty of the house itself, only to be faced with the challenge of making improvements. A new hi-fi set to pipe music to two floors in the house, shrubbery, and at long last, a lawn, added to the livability of the structure.

For the second straight year, Phi Sigma Kappa's singers captured the IFC Glee Club Award, competing with three other houses at the Pops Concert.

The house is proud of its many varied activities — two men in Who's Who, along with Tau Beta Pi, debate, the Honors Program, *Brown and White*, *Epitome*, Band, and Glee Club.

# Phi Sigma Kappa

*Nu Chapter*

# Π K A

Every meal at Pi Kappa Alpha, as is the custom in all fraternity houses, is preceded by grace.

Strengthening the bonds of fraternity is certainly the basis of Pi Kappa Alpha's philosophy. In a national fraternity of 128 chapters, the "Pikes" have received recognition for the most improved chapter in their district and stand twelfth overall in cumulative average.

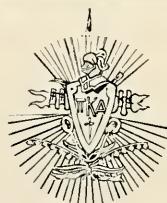

Maintaining strong relationships both within and without the house, the brothers give an annual party at which their mothers are guests of honor. While a father-son softball game takes place, the guests of honor enjoy the warm hospitality of the house.

Within the house, close bonds of friendship are maintained by an annual Christmas party. This is a pleasant custom which eases those last dragging days of the Fall semester.

Each year the "Pikes" toast their Dream Girl at the Brookside Country Club. The party, a perpetuation of a national tradition, is sparked by the midnight crowning of the Dream Girl.

*First Row: Helmus, Venable, Clark, Toothill, Evans, Davenport, Sherman, Stengar, Hartung, Treasurer; Mennig, Seigman, Bubb, Hitzel, Williams, Grabske. Rushers at Pi Lam enjoy the hospitality extended them during a Saturday rushing party.

## Π Λ Φ

This year Pi Lambda Phi underwent extensive renovation. Both the inside and outside of the chapter house were painted, the floors were re-varnished, and many other major changes were completed. Much of the interior work was done by brothers.

Pi Lams will remember the "snow-weekend" in February. Stranded dates of a lucky few found shelter with friends nearby; others had an extended weekend at the Hotel Bethlehem. In all the social season at Pi Lam was more than successful.

This was the year that Pi Lambda Phi welcomed a new house advisor, and had an optimistic upsurge in the building fund.

# Pi Lambda Phi

# Ψ Τ

The Psi U's fire engine, the only vehicle of its kind on campus, spends most of the winter months locked in this position, making the "rounds" only on warm evenings in the spring and fall.

This year the men of Psi U made major advances toward accomplishing two of their principal objectives—better understanding between the students and faculty, and the improvement of the chapter.

After returning from the summer vacation to a freshly painted house, the Psi U's started an interior renovation program. In addition, eleven pints of blood were donated from members of the house to aid a leukemia-stricken child at St. Luke's Hospital.

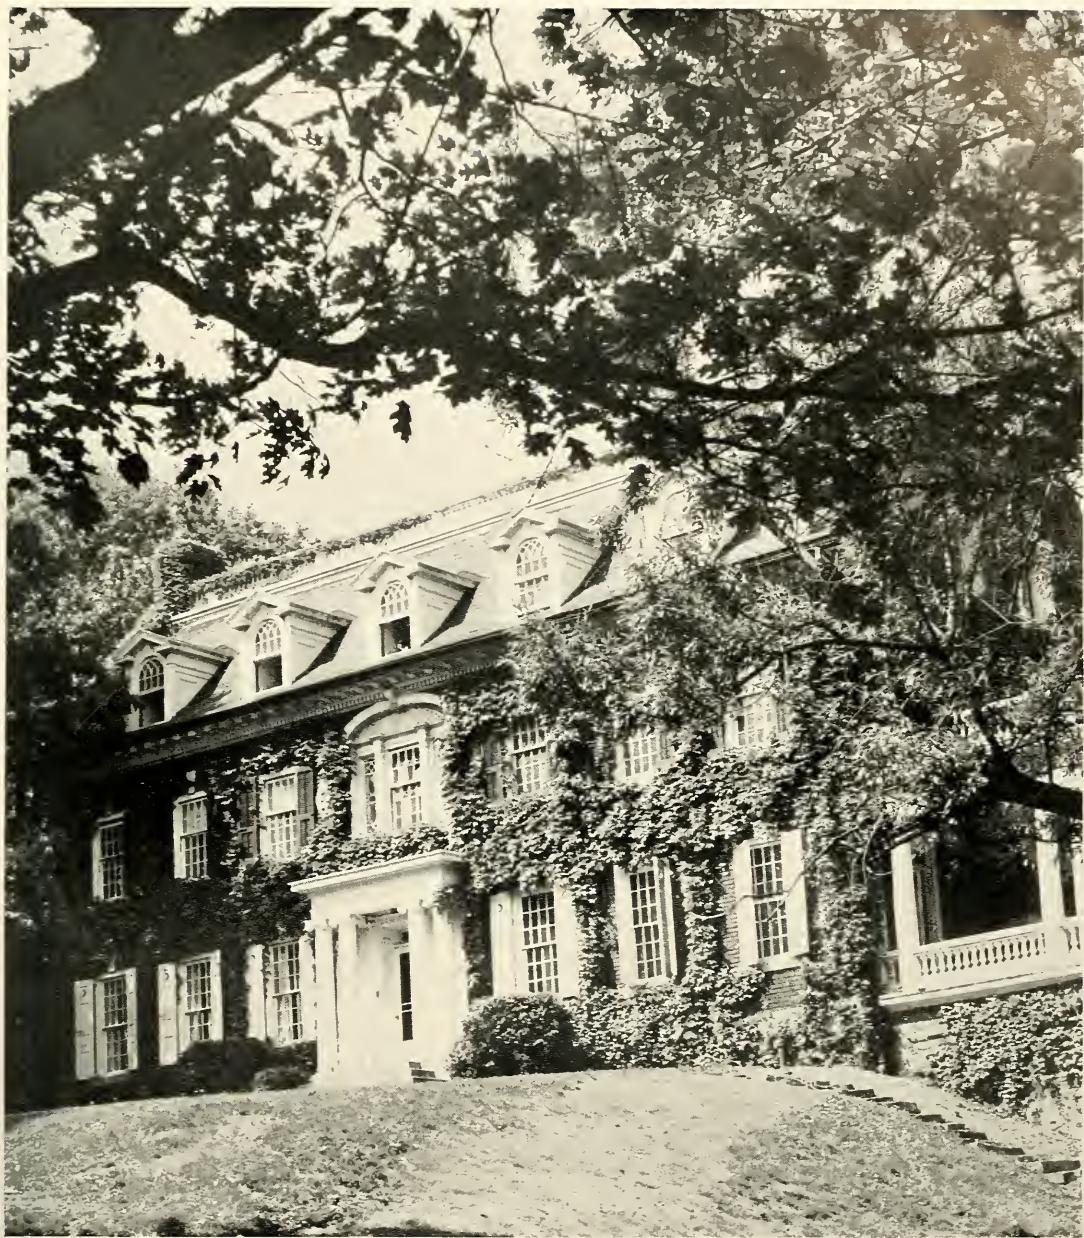

The famous Psi U fire engine was once more free to roam the campus roads, and was brought forth on many football weekends.

Social life in the past year was highlighted by a faculty cocktail party, designed to better relations between fraternity and faculty members.

Who's Who, *Brown and White*, WLRN, Brown Key, along with track and hockey lettermen round out the activity picture.

*First Row: Thyrre, Secretary; Simons, Wasson, Belfanti, Tanner, Costello, Tomlinson. On Porch: Goodman, Oltchick, Oshatz, Tuery, Hollander, Maqid, Naftali, Hirsch, Benedek, Kayne.

As Bethlehem doesn't usually get enough snow to make a municipal toboggan slide practical, the Sammies must be content to make believe.

## **Σ A M**

A building fund was established by the "Sammies" five years ago and progress has been going along so smoothly that its culmination is now in sight. In spite of this, the boys have kept the homestead in good repair. Continuing a precedent set in the past, the new pledge class rolled up its sleeves and laid a new kitchen floor. Upon completion of that job, and with equal vigor, they re-decorated the foyer. Another innovation is the new hot water system. The pledges were well rewarded for their work at the annual pledge banquet. A plaque was given to the outstanding member of the class.

This vigor was also applied to the many "Sammie" parties during a more than successful social season.

# Sigma Alpha Mu

*Sigma Kappa Chapter*

Of all the card games played on the Lehigh Campus, bridge is probably the most popular; and these Sigma Chi's, like most students, manage to get in a few hands before and after every meal.

*Kneeling: Kaufman, Line, Dietrich, McCarthy, Walton, Delia, Hartman, Homsher, Kuchler, Gardner, Treasurer; Helfrich. Second Row: Hagenbuch, Grandin, Bauer, Herring, Astarita, Goddar, Garfield, Lichtenweiler, Curtis, Warden, Wright. Vice President; Brooks, Deak, Moody, Seitz, Chatten, Recording Secretary; Currey, Corresponding Secretary.*

## $\Sigma$ X

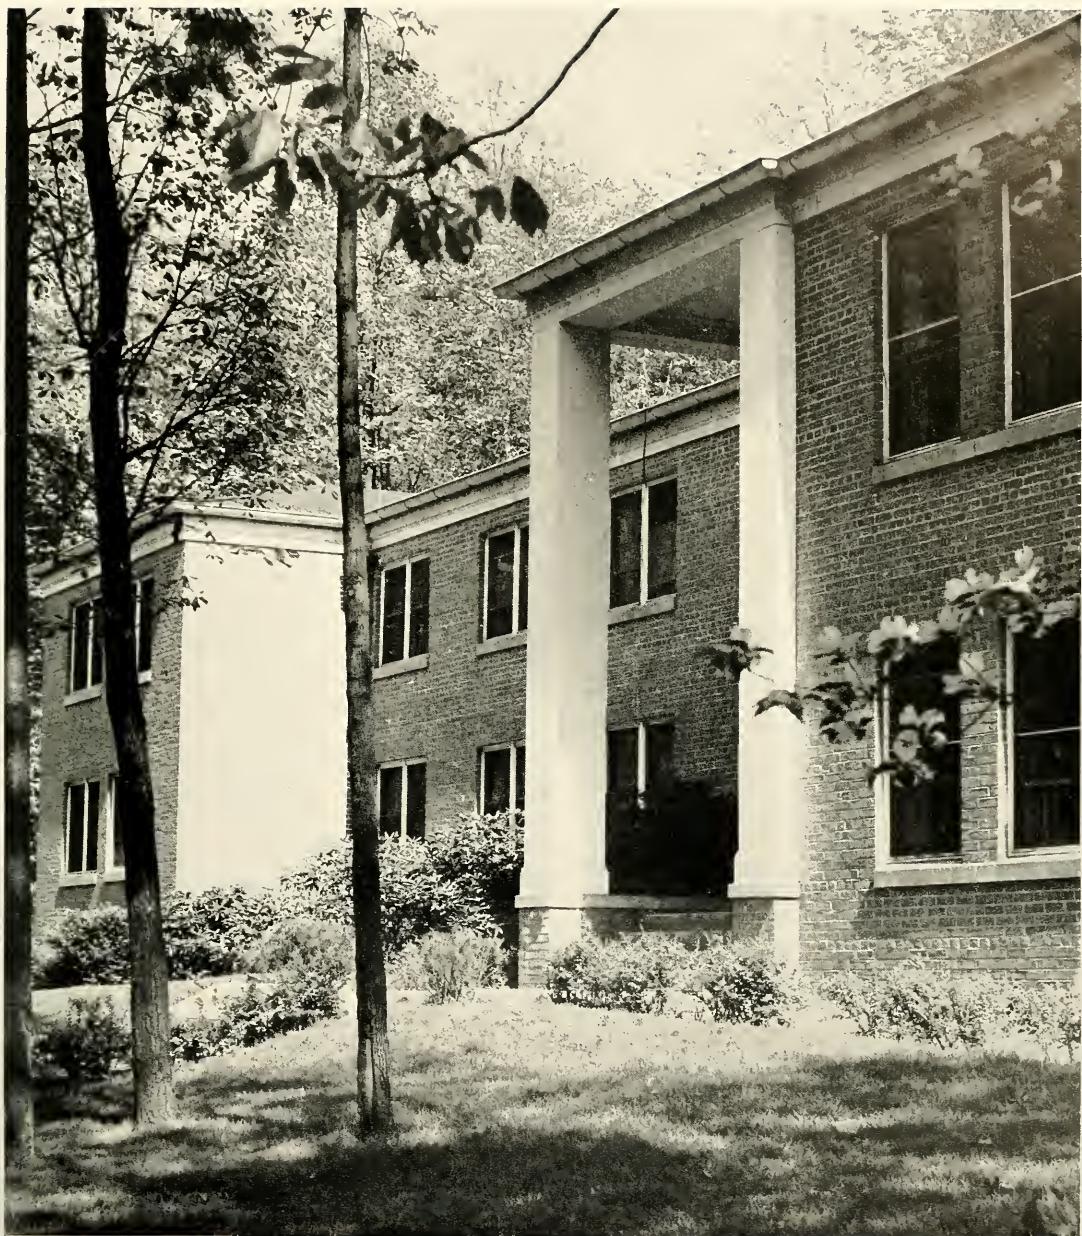

Perhaps one of the most striking objects one meets in a tour of Sayre Park is the modern glass and brick structure known as the Sigma Chi house.

Maintaining the beauty of their house with constant improvements, the Sigs added a patio, constructed by their pledges, and painted the wood trim on the house's exterior to better protect it from the Bethlehem air which has blackened the more aged buildings on lower campus.

Extending the policy of improvement, in less obvious areas, Sigma Chi offers as incentive to their pledges an award for the highest average. As evidence of progress, Sigma Chi won an award from their national for the most improved scholarship in the Eastern states.

During the Spring semester Sigma Chi performs a function that undoubtedly proves invaluable in terms of continued pleasant faculty-student relations. This is the annual faculty tea given late in the semester.

# Sigma Chi

*Alpha Rho Chapter*

*First Row:* Chicco, Daniels, Johnson, Price, Crawford, Butera, Burdick, Lewis, Smith, Wagner, Schulz, Lauretti, Strain, Berrien. *Second Row:* Ullman, Strahler, Pennell, Nolan, Stoneburner, Roepke, Greenmist, Tachovsky, Murphy, Schmidt, Hofmann, Wenzel, Nevil, Hannington.

Ordinarily the Sigma Nu's collie prefers horse meat, but if the opportunity presents itself, why not take an ear?

The brothers of Sigma Nu have definitely established themselves at Lehigh as the center of athletic prowess and ability. Having earned Lehigh's All-University Sports Trophy for the past five years has given Sigma Nu a record that will be hard to match.

When it comes to University athletics, the names of many Sigma Nu's become bywords for their skill and sportsmanship. The roster of the varsity football team contained the names of ten brothers, and the basketball team, five, with all varsity sports including the name of at least one representative of Sigma Nu.

Sports, although it does play a great part in this fraternity's life, is not its only attribute. Scholarship is on the upswing as evidenced by the Fall semester's record.

# Sigma Nu

*Pi Chapter*

# $\Sigma$ $\Phi$

Endlessly the card games continue, and if bridge at the house weren't enough, some enterprising fraternity men have formed a bridge club.

Since their move to campus several years ago, the Sigma Phis have concentrated on improvement. The house itself, boasting Lehigh's largest living room, was an improvement to top all others. Since then, material additions, including a new patio, and recently, a hi-fi set have increased the value of the house materially.

During last summer, the exterior of the modern structure was stained anew.

The criteria by which a fraternity is usually judged, campus activities, were in abundance at Sigma Phi. Such representative activities as *Brown and White*, *Epitome*, Brown Key, and representatives on all the class cabinets are included among the laurels of the house.

Rounding out the position of the house on the campus scene are sports. Athletic activities at Sigma Phi include representation on the baseball, tennis, golf, and track teams, along with intra-mural participation.

*First Row: Brewer, LeVasseur, Davidson, Mylks, Pisauro, Minot; Second Row: Bliss, Cummings, Coyle, Rupprecht, Burden, *Secretary*; Pierson, Shaw, Brown, *President*; Third Row: Claiborne, *Treasurer*; Lummis, Holt, *Vice-President*; Shaw, Weisberg, Nickey, Corbett.*

When the Balfour man stops by and sets out his wares, that's the signal for every brother to either run or get out his wallet, since the display always seems to have something for everyone.

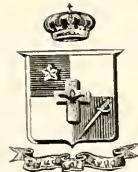

**Σ Φ E**

A social season, which has seen few quiet Saturday nights, has been one of the prime features of Sigma Phi Epsilon this year.

The highlight of the social season was the Lafayette weekend alumni party. The twenty-six to thirteen victory, plus the 228 people who were packed into the house, produced a party which will not be forgotten for a long time. The Christmas City Six was on hand to set the mood, and everyone from the Class of 1903 on up considered it a big success.

All play and no work is a combination which will not be found at this house. The Sig Eps have won numerous awards offered by the national fraternity for outstanding chapter achievement.

# Sigma Phi Epsilon

*Pennsylvania Epsilon Chapter*

# T Δ Φ

To help defray the cost of interior repairs, the Tau Deltas pitch in and do the labor themselves.

This year, as in the past, the Tau Deltas came through with their consistently high academic standing. These members of the intelligentsia attribute much of their success to the burning of that good old midnight oil.

All work and no play is not a part of this fraternity's life as evidenced by this year's successful social season. One of the highlights was I.F.C. Weekend.

The refinished basement and new bar, thanks to the pledge class, was a great contributing factor in making this year's parties outstanding. The attic is being transformed in order to provide living quarters for seven more brothers.

Another aspect rounding out the many facets of this house is the percentage of members in activities and athletics. Tau Deltas are seen on the basketball team, in the band, in such activities as Mustard and Cheese, the American Society of Military Engineers, and in student publications.

*Kneeling:* Mittenthal, Solomon, Hitman, *President*; Sultan, Dosik, Barcan, *Secretary*; Seitzer, Getzler. *Second Row:* Schiffman, Hare, Notice, Minion, Cowen, Wilker, Green, Gralnick, Strickman, *Vice President*. *Third Row:* Friedman, Pavony, Parmet, Redler, *Treasurer*; Neidell, Miller, Sherman, Ramer.

Third row: Hendricks, Howell, Bethke, Dommick, Palmer, Lampe, Clark, Scheid, Brainerd, R., Mountain. Fourth row: Ashworth, Hayes, Francolini, LaMar.

Theta Chi is a fraternity musically inclined, and even if the brother with the "springed" instrument doesn't contribute much to the melody, he contributes a great deal toward the fun.

Θ X

"Varied" is one word which succinctly describes Theta Chi fraternity. The men with the red and white caps have spread their talents far and wide.

Notable among the leaders in the house are the student director of the Band, and officers of the sophomore and junior classes. In addition to this, the house is represented in Arcadia, Who's Who, and Cyanide, among other activities.

Theta Chi is planning the long-awaited move to Sayre Park in the near future. Engineering surveys for the new house, to be located on the road to the Lookout above Phi Sigma Kappa, were completed early last Fall.

Always high academically, Theta Chi placed first among fraternities in the fall semester.

# Theta Chi

*Beta Sigma Chapter*

# Θ Δ X

Those houses fortunate enough to have a pool table find that it offers a welcome change from the endless card games.

A prominent landmark looming far above the streets of Bethlehem and the furnaces of the steel mills, white-pillared Theta Delta Chi is familiar to every Lehigh man. Likewise, the achievements of Eugene Gifford Grace, Theta Delt's most prominent alumnus, are also familiar to most undergraduates here on South Mountain.

To go along with the current construction program of campus, Theta Delta Chi has added a new sleeping dorm and another study room. To complement the large renovations, the interior woodwork of the house was beautified with a fresh coat of paint.

Socially, the Theta Dels were well occupied, with a yearly clambake, and a Christmas-time orphan's party supplementing the weekend events.

One of the first houses at Lehigh, Theta Delt has been active in campus activities, sports, and honoraries. At present, a member of Theta Delta Chi is president of the senior class.

*First Row: Keats, Patterson, Best, Witzig, Godley, *Secretary*; Siuciak, Spangenburg, Smiley.  
Second Row: Herbert, Hummers, Lucarelli, Allen, *President*; Watts, Cora, Biehl, Kalmbach.  
Third Row: Healy, Giordanella, Reichard, Fleischhacker, Rogan, Koppenhofer, Meincke, Schlemmer.*

Brothers at Theta Kappa Phi enjoy all the comforts of a spacious bar; plenty of party space, and room to gather 'round to sing after dinner.

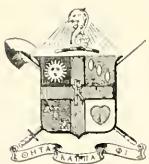

## Θ K Φ

A conventional stone and stucco house on Delaware Avenue is the home of a fraternity possessing all those qualities which have given Theta Kappa Phi a reputation of which to be proud.

Theta Kappa Phi is one of the few off-campus fraternities which really has gone a long way toward completing its building fund. Using a little ingenuity and the talent of brothers who are connected with campus journalistic organizations, Theta Kap publishes newspaper twice a semester containing information about the chapter.

Because of Theta Kap's wise alumni policy, sixty per cent of the building fund goal has been realized, and the fraternity may well be the next off-campus house to move to the hill.

# Theta Kappa Phi

*Alpha Chapter*

Shining trophies is a must before every big weekend; and even the dog must look presentable.

# Theta Xi

Brotherhood is a word which is closely associated with fraternities everywhere. In keeping with this aim, the members of Theta Xi played host to a regional conference of their fraternity this Spring; chapter members from this immediate area attended. One of the purposes of this meeting was to aid in the dispersion of ideas among schools, in the hope that others would benefit.

On the material side, Theta Xi added several useful items to their house in the past year. A new deep freeze, a television set, and a fresh coat of paint added to the physical value of the house.

The Theta Xi's participated in numerous activities and sports, including track, cross-country, lacrosse, swimming, class cabinets, *Brown and White*, Newtonian Society, Mustard and Cheese, Tau Beta Pi, and several other honoraries.

The social whirl was highlighted by the House-parties, Lafayette weekend, and the popular IFC weekend.

*Eta Chapter*

# RESIDENCE HALLS

## Residence Halls Council

The three houses governed by RHC are broken up into twelve sections, each having a president, vice-president, and a social chairman. The section presidents of each house elect a house president from their number; the house presidents and section presidents then elect an RHC president, vice-president, and secretary. Thus, a distinct chain of command is set up, with the eight members of the Residence Halls Council at the top.

The duties and responsibilities of self-government are reflected in the three central committees of RHC. These sub-organizations, in which most of the work is done, are the Social, Treasurer's, and Disciplinary Committees. The aim of RHC is to organize the residence hall students in order to improve their spirit and enthusiasm, and to improve their scholarship, leadership, and social life.

### OFFICERS

*Seated: Clarke, President; Corson, Vice-President. Standing: Ferdinandsen, Secretary; Johnson, Treasurer.*

An overdose of class work and too many hours at the books can have a detrimental effect, but these men enjoy their plight.

The best way to study for a tough quiz is to pool the resources of individuals in the same course; in this instance two Taylor men prepare for an exam in metallurgy.

Wingate, Barbour, Hood, Corson, Clarke, *President*; Ferdinandsen, Johnson, Murphy, Kramer.

OFFICERS      Wismer, *Secretary*; Wood, *Treasurer*; Grabowsky, *President*.

## Gryphon Society

The fall of 1957 saw Lehigh University give birth to its newest student organization and living group, the Gryphon Society. Taking its name from the ancient mythological guardian of the Scythian gold mines of Greek mythology, the Gryphon Society was formed to fulfill the social needs of the Freshman Counselors and to provide a "fraternal, intellectual, and organizational framework" within which the members of the Freshman Counseling program guide and supervise the activities of Lehigh's newest class.

Carefully selected from among both undergraduates and graduate students, the counselors, house fellows, and counseling fellows are staff members who assist the Dean of Students.

Beginning with a full week of conferences and training seminars during Freshman Week, the counselors' activities include a cooperative effort with the honorary engineering fraternity, Tau Beta Pi, to organize an effective tutoring program.

*First Row: Masuda, Wimmer, Banks, Harmon, Niiler, Wood, *Treasurer*; Grabowsky, *President*; Fowler, Dash, Troy, Ringenbach, LaPara. Second Row: Pieski, Rokhsar, Gott, Coates, Hibbsman, Culver, Humphrey, Wolfgang, Weiss, Adams, McCarter, Morse. Third Row: Blanchard, Burke, Schickedanz, Kuebler, Graves, Hackworth, Eyer, Long, Gyauch, Tamulis, Derse.*

Activity in the freshman dorms is increased many times when fraternity men begin the period of contacting.

Football coach Bill Leckonby addresses a large crowd of freshmen at a pep rally held on the Drinker House balcony.

Although his energies are encouraged to take other directions, a freshman often indulges in this type of activity.

Laundry sometimes involves considerable expense, and this freshman attempts to ease the problem by washing and drying his clothing in his room.

**WILLIAM FEUERBACH**  
*President*

High upon old South Mountain is one of the latest additions to Lehigh's residence hall system, Dravo House. In 1955 it was the center of an experiment in freshman segregation. This experiment was successful, as shown by the enthusiasm and unification of the freshmen who participated in it. Dravo House has remained a freshman residence hall ever since.

Dravo House is the largest of the freshman halls, and contributes proportionately to the group of freshman leaders.

The men of Dravo showed their school spirit during the Lafayette Weekend. A section from Dravo won the Freshman Song Contest and several of its skits reached the finals.

JOHN GORDINIER  
*President*

Drinker House, the smallest of the freshman residence halls, entered its second year of freshman segregation with the coming of the Class of 1961. Three years ago, the powers that be decided to adopt a policy of grouping all the frosh in the three residence halls of the quadrangle, experimenting first with Dravo House. The plan proved successful, as is easily seen in the unity and spirit of the Classes of 1960 and 1961.

Opened to students in 1940, Drinker is named in honor of Henry Sturges Drinker, a past President of Lehigh University.

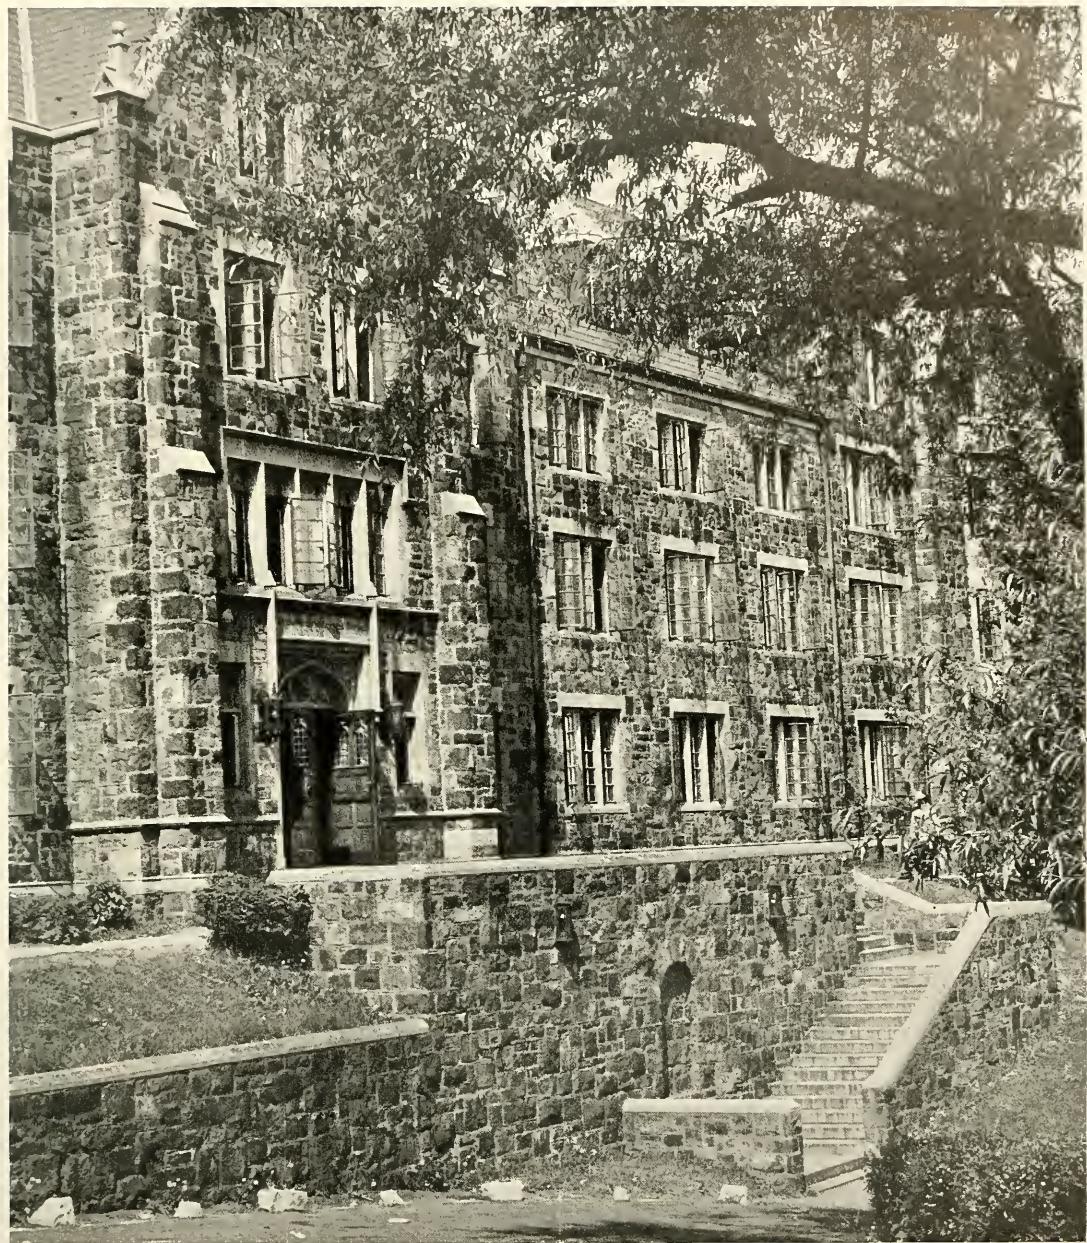

His policy aimed toward a united campus, and it is significant that the dorm brings together 175 freshmen with a common interest.

A freshman, about to be picked up by fraternity men for an evening's rushing, applies the finishing touches.

Freshmen from Drinker House sit atop the pile of wood collected by their section from Sayre Park for the Lafayette bonfire.

# Price Hall

Price Hall boasts a history unequaled by that of any other Lehigh residence hall. Originally a brewery, it has developed over the years through various stages, into the school's smallest dormitory, housing only thirty-eight upperclassmen. This atmosphere of homogeneity is comparable to a fraternal spirit, and many fraternities have been founded here. The Lehigh chapter of Delta Chi was the latest of these.

The present inhabitants have recently completed a basement bar and lounge. This project has definitely increased the success of the year's social season and has added to the furtherance of Price's long-standing unity. This spirit of closeness, however, is not limited to the house itself. Price men have always worked toward the integration of the living group with Lehigh. Evidence of this can be seen in their activity in campus affairs. Price boasts three voting members of the Residence Halls Council.

Long noted for its athletic achievements, Price Hall is continuing this year to build its reputation in this field. The team went undefeated in inter-dorm football, and members of the varsity track, cross-country, and baseball teams reside there.

*First Row: Hughes, Jankowicz, DiMuro, Johnson, Treasurer; Ferdinandsen, President; Murphy, Lewis, Duche, Pisciotta, Walendziewicz. Second Row: Lwin, Feeser, Hinsdale, Arnone, Morrow, Bayles, Ford, Dinkey, Rakdham, Cheetam. Third Row: Goldstein, Hayes, MacBride, Gucker, Lure, Parker, Remphrey.*

Pin-ups such as this provide a welcome distraction when study hours drag on.

#### NORMAN SIMARD

*House President*

The dream of a stern, little man of Lehigh is realized in the Gothic structure of Richards House. Dr. Charles Russ Richards, the sixth president of the University, was a tireless worker for the betterment of the school.

He formulated a plan for the construction of on-campus residence halls, with the aim of uniting the non-fraternity men through strong living groups. The University quickly adopted his policy, but insufficient funds delayed the completion of the first building until 1938, three years after Dr. Richards' retirement. This building, twice as large as originally planned, cost \$300,000 to build and was appropriately named after the man who had done so much to establish it.

Freshmen in Richards House find that extracting candy from a reluctant machine can become a test of engineering skills that are not taught in the classroom.

### CLARENCE B. CAMPBELL

*Director of Residence Halls*

The dedication of McClintic-Marshall House on September 28, 1957 gave greater significance to this modern, new dormitory. Both graduates of the Lehigh Class of '38, Howard Hale McClintic and Charles Donnell Marshall did much to establish the reputation of their alma mater.

The \$813,359 dormitory was completed in December, 1956, and was designed with the students in mind. The built-in furniture and bright color scheme make studying almost fun. A much-expanded social life is made possible by the large recreation room, gayly decorated in the party spirit. With these modern facilities, the men of McClintic-Marshall have made the new RHC social program a success, and have led the whole campus toward a better dormitory life.

### RICHARD KRAMER

*House President*

This room won't win a decorators prize, but the atmosphere that it achieves is well worth the time spent in collecting the great number of unusual objects.

# Leonard Hall

Leonard Hall is unique among student residences at Lehigh. It is the first and only residence hall located off-campus, set in the residential area of Fountain Hill. It also boasts a membership which is entirely enrolled in the same curriculum, for the men of Leonard Hall are all pre-theological students, preparing for the Holy Orders in the Episcopal Church.

Since its establishment in 1907 Leonard Hall has provided the opportunity for experience in conducting services, in preaching, and in teaching Sunday School. This is all made possible through the facilities of the Chapel of St. Mary, which is a part of the building.

Actually Leonard Hall is a fraternity, having the Greek name of Alpha Chi Epsilon. However, it is not a fraternal organization in the same sense as Lehigh's other social fraternities. Similarities exist in that residents must go through a pledging period and an initiation to be a brother.

Extra-curricular activities occupy the "pre-theo's" time, as Leonard Hall men have been prominent on athletic teams and in student government. Scholarship is considered most important, though, and Leonard Hall ranks at the top in campus scholastic standings.

*First row: Miner, Lewis, Hough, Cole, R. E., Secretary; Rev. J. W. Watters, Dean; Croneberger, R.B., Vice-President; Kimble, Smith. Second row: Croneberger, J., Treasurer; Docker, Young, Jillson, Bauder, Cole, C., President; Carr.*

This old piano was somewhat out of place in Taylor's newly decorated lounge, so it was moved to storage and replaced with a more attractive instrument.

ROBERT CORSON

*House President*

"Physical improvement" was the keynote of this year at Taylor Hall. The most obvious new feature to a visitor was the revamped landscaping in front of the spreading building. Inside, another new attraction was the house's party lounge. It is hoped that this new lounge will stimulate entertainment activities within the Hall. The lounge was inaugurated with a cocktail party during Parents' Weekend last October.

During the second semester this year, a gala banquet was held to celebrate the fiftieth anniversary of Taylor Hall. Built during 1907-08, the Hall has been housing Lehigh men continuously ever since, and 170 upperclassmen currently reside there.

If this student were taking a course in magazine article writing, one might be correct in assuming that he is studying, but in this instance the only purpose is to relax . . . completely.

When the telephone rings in Richards House on Saturday night and the voice at the other end of the line is female and unattached, it's every man for himself.

It would seem that an engineer would pick a hobby far removed from his major study program, but this EE is building a radio-controlled, scale model airplane.

In the face of such popular card games as bridge, poker, and casino, it is a bit unusual to find a game of checkers; however, these men seem to be enjoying themselves.

# TAYLOR GYMNASIUM

PERCY L. SADLER

*Director of Athletics and Physical Education*

JOHN S. STECKBECK  
*Assistant Director of Physical Education*

## Athletics and Physical Education

"Push-ups! Ready, and—one, "han", two, "han", three, "han", four "han" . . ." Energetic underclassmen execute gymnastic maneuvers to the booming commands of Professor John Steckbeck, Assistant Director of Physical Education. This new "Lehigh Conditioner" has proved a vital part of the P.E. plan for maintaining a high degree of physical fitness among the men of Lehigh.

Under the general direction of General Percy Sadler, the Division of Athletics and Physical Education serves the University in three main ways: regular physical education, intercollegiate contests, and intramural sports. Three hours of regular physical education per week are required of all freshmen and sophomores. The main purpose of

the required program, of course, is to insure the health and physical development of every Lehigh student. It aids the character as well as the body, for it tends to develop such traits as self-confidence, good sportsmanship, and a spirit of cooperation.

The intercollegiate athletic program is largely managed by Assistant Director Paul Short. It affords an opportunity for competitive sports activities at home and away with institutions which are Lehigh's "natural" rivals. Varsity teams are sponsored in practically every sport, and junior varsity and freshman teams are maintained in most of the major activities.

It seems as though the intramural contest has

been gaining strength each semester. This year the spirit was high and the rivalry was keen, as the individual living groups vied for the All University All Around Sport Trophy. Competition was available and points awarded in a wide variety of athletic activities.

Taylor Gymnasium, the large, well-equipped structure, was made available through the generous contributions of Charles L. Taylor in 1913. In recent years the Lehigh Progress Fund has provided for remodeling and expansion, making Lehigh's present athletic facilities extremely modern. A quick tour of the building reveals five basketball courts, adequate locker space, special boxing, fencing, golf, and wrestling rooms, and the beautiful Myrl L. Jacobs Pool. The large new gym floor accommodates a massive P.E. class, which concludes the "Conditioner" with: "Sit-ups! Ready, and . . .!"

The Lehigh Conditioner—Professor Steckbeck directs a class of freshmen in Lehigh's infamous program of calesthenics.

## Coaching Staff

*Seated:* William B. Leckonby, Percy L. Sadler, *Head of Department*; Michael T. Cooley, Anthony Packer, William T. Christian, James R. Shreve, Gerald G. Leeman. *Standing:* John Steckbeck, Emil A. Havach, Robert Chiodi, Paul E. Short, Frank R. Maze.

## Football—the 1957 Lambert Cup winners

Although the Engineers were not unbeaten this year, they completed what was probably their most successful season under the tutelage of Bill Leckonby. In 1950, Lehigh went through its nine games undefeated; this year it lost one, a 12-7 defeat to V.M.I., the 15th-ranked team in the country.

But unlike 1950, this year the Engineers won two prestige games that ranked them very highly in the eyes of the New York sportswriters. The victories over Rutgers and Columbia on successive Saturdays put Lehigh right up at the top of the grid picture in the East.

The Rutgers game was the fourth of the season. In the previous week, the Scarlet Knights had demolished Colgate, 48-6, and many writers were beginning to wonder just how good Rutgers was. Lehigh went into the game undefeated, but all of the papers in the New York area gave the nod to

Rutgers by a touchdown or two.

Len Elliott, sports editor of the *Newark Evening News*, said in his column the night before the game, "In all fairness to Dan Nolan and Lehigh, the general opinion is that the Scarlet has too many guns for Lehigh". This was the general opinion of the New York papers—Lehigh was going out of its class.

But Bill Leckonby's Engineers fooled them all. The 13-7 victory before the biggest crowd in eight years at New Brunswick didn't tell the whole story by any means. The Brown and White was clearly the superior team. The statistics proved that. Lehigh ground out 338 yards on the field and another 60 in the air for a total offense of just under 400 yards. Dan Nolan was stopped through the air for the first time during the season, but the game he called would have pleased even the most criti-

Engineer regulars watch as the second string romps over Bucknell at Houseparty.

As the Bucknell game nears its final minutes reserves enter the game and nearly everyone gets the opportunity to play.

Dan Nolan leaps across the Columbia goal line for the first touchdown.

*Quarterback*

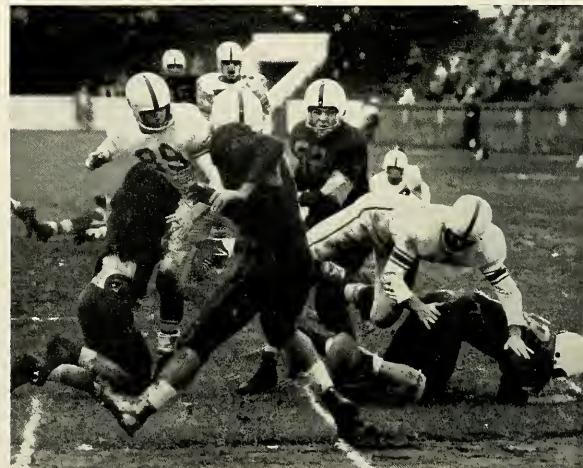

cal pro coach.

The Engineers stopped Rutgers with one of their famous goal line stands in the first period and scored in the second. Another second period score was foiled by the failure of the referee to call time out in the last few seconds. Lehigh scored again in the third quarter and led 13-0 going into the final stanza. Bill Austin, clearly one of the finest

backs in the country, had been stopped by Lehigh all day, but his passes started to click in the final period. Even though Austin's passing was outstanding, their score was a fluke. Austin threw a pass into the end zone and after a brief game of volleyball ensued, an alert, or more probably lucky Scarlet end fell on it for the score.

Lehigh's victory had the writers talking and

End Bud Wenzel leaps high in the air but misses a pass in the tilt with Gettysburg on Parents Day.

Halfback Charlie Burger fumbles near the goal after driving through a determined Bucknell line.

Bill Beattie  
Tackle

with Columbia's homecoming slated for the next Saturday, the stage was set once again. Probably the most amusing event of the season occurred the week before the Columbia game. In 1956, the Blue had played Army and had taken its usual unmerciful lashing. So, according to the Columbia program, this game with Lehigh had been scheduled as a breather. When Lion Coach Aldo "Buff"

Donelli heard about this he immediately grabbed a dictionary and looked up the word "breather".

Also, during the week preceding the Columbia game, the *Daily News* christened Lehigh as "Little Oklahoma". That was undoubtedly the greatest compliment ever paid to a Lehigh football team.

Leekonby's Brown and White lived up to all its advance billings of the 26th of October. Before

With a tug on the jersey, Dick Pennell shows the way for blocker Dave Nevil as the halfback lopes around end.

15,000 homecoming fans at Baker Field, Dan Nolan led the Engineers to a resounding 40-6 victory, and only the mercy of Bill Leckonby kept the score from being in the fifties or even the sixties. The first team played just over a half.

Nolan again engineered a marvelous game, mixing his passing and split-T option runs with the dynamic running of his three backfield counterparts, Dick Pennell, Charlie Burger, and Walt Pijawka. It was in this game that Lehigh found another halfback who will be counted upon for stellar work next year. John O'Ryan, who hadn't seen much action during the first four games of the season, saw a lot of action and ran just as well as Burger and Pennell.

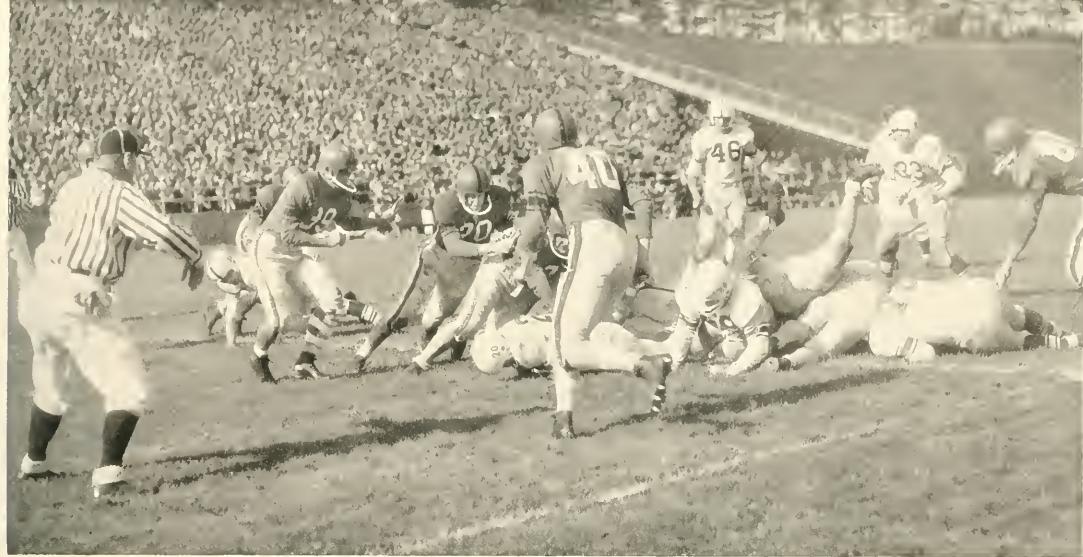

With head down and knees high, Dick Pennell still finds the combination of a wet field and a Bucknell line a tough foe.

## The Varsity

*Sitting: Ferrentino, Meincke. Kneeling: Schneider, Stoneburner, Lauretti, DeFlavis, Kovach, Fayko, Hoogstraten, Nevil, Koziol, Cogan, Bianco, Strain, Dobosh, Schaeffer, Daniels, Johnson, Kennedy, Pennell, Baum. Standing: Wenzel, Pijawka, MacClymont, William Leckonby, Coach; Michael Cooley, Assistant Coach; Burger, Canova, Estroff, Williams, Co-Captain; Nolan,*

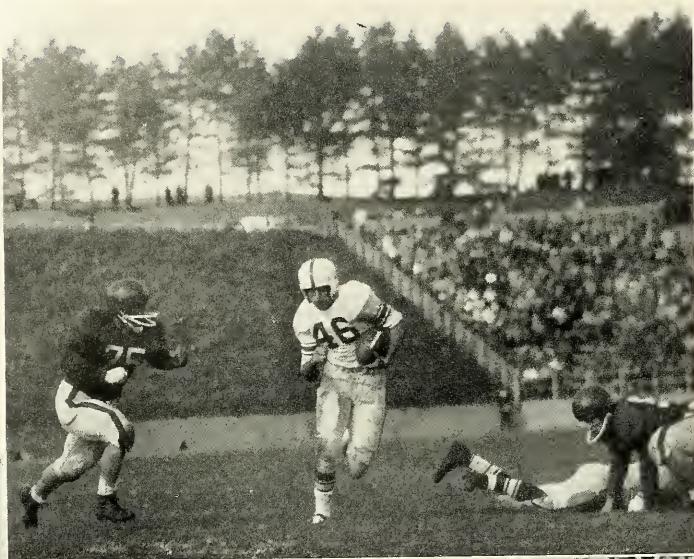

Dan Nolan, helmet number 20, lies full length across the Columbia goal line.

*Co-Captain; Beattie, Schwenker, Guidi, Stanley, Pendleton, O'Ryan, Smith, Stoney, Chicco, Mider, Robert, Chiodi, Assistant Coach; Michael Hudak, Assistant Coach; James Schreve, Assistant Coach; Swenson, Manager.*

Charlie Burger, off on a long jaunt, twists to avoid a determined Columbia tackler.

Burger tries the middle this time against Gettysburg, but with less success.

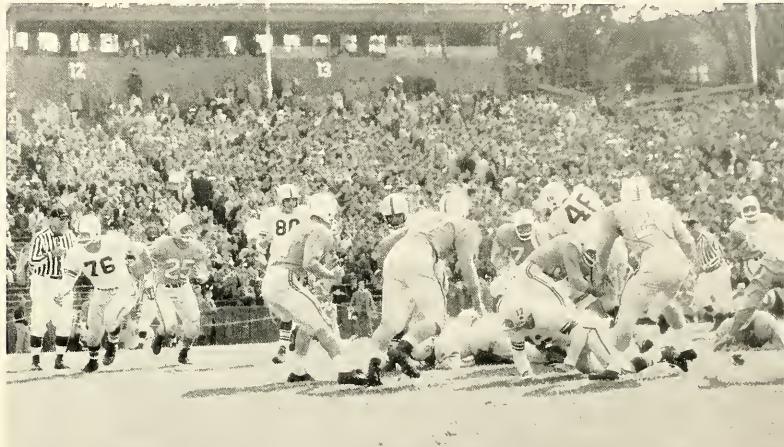

Dick Pennell scores six of Lehigh's 48 points against outclassed Columbia.

Little All-American Nolan also gets in on the touchdown parade against the Lions.

Burger, 46, cracks the Columbia line for one of the short gains of the afternoon.

Although the victories over Rutgers and Columbia did a lot for the prestige of Lehigh's football team, the defeat by Virginia Military Academy didn't detract anything from its reputation. This was probably as big a game, if not bigger than the traditional Lafayette fracas.

The Engineers entered the game with a 10-game winning streak and the Keydets were also unbeaten, although tied by Holy Cross in their second game of the season. A record crowd for a non-Lafayette game of 14,500 packed Taylor Stadium on a beautiful football Saturday. The game was rated as a toss-up and it was.

Probably the difference was found in the fact that V.M.I. had two first-string teams to Lehigh's

one. Every 10 minutes or so, Coach John McKenna would send in a fresh eleven. This was demoralizing to say the least.

The Keydets took the opening kickoff and marched for a touchdown. It was a beautifully engineered drive—the best Lehigh faced all season. V.M.I. didn't look flashy on the drive, but the precision football was something to watch. Duke Johnson, probably the finest quarterback Lehigh faced all season, called the plays perfectly. The score, however, again was flukish. The Keydets had gotten down to the Lehigh 20 and Johnson faded to pass. He was rushed hard and somehow managed to evade the hard-charging Brown and White line. Standing alone on the home 25, Johnson saw

Houseparty fans rise to cheer as Dick Pen-  
nell scampers to score against Bucknell.

After intercepting a pass, end Dave Nevil  
looks for interference as he heads toward  
the end zone of the Bucknell Bisons.

Nolan elects to keep on the option play  
and goes around left end against Bucknell.

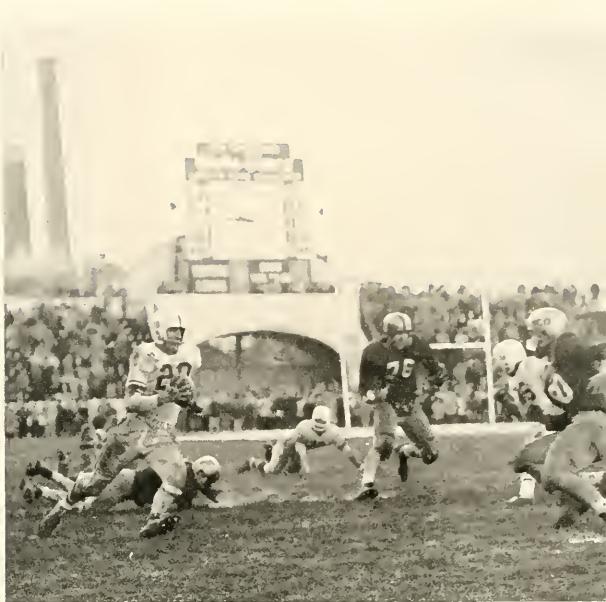

Nolan again decides to keep and has sim-  
ilar success against the Bisons.

one of his ends standing unguarded on the Lehigh two. That was it; V.M.I. led 6-0.

The Engineers came back and took a 7-6 lead midway in the second quarter. Nolan led the drive and scored himself. Just before the half ended, the Keydets regained a 12-7 lead on another fine drive. The second half was scoreless but probably one of the most exciting ever played in Taylor Stadium. Lehigh put up one of its devastating goal line stands during the third period. The visitors had three cracks at the Lehigh goal line from the five and failed to score.

The Brown and White threatened several times during the half, but were stymied by fumbles or intercepted passes. The most exciting part of the

A would-be tackler looks up from the ground as Nolan presses against Bucknell.

Charlie Burger slips and falls to the ground against the Keydets of V.M.I., Lehigh's only conquerors.

game occurred during the final minutes of the fourth quarter. Lehigh took over after an intercepted pass on its 20 with about five minutes to go and started a do-or-die march. Unfortunately, the march died on the Keydets' 20 when a fourth down screen pass from Nolan to O'Ryan didn't gain the necessary yardage.

The Engineers opened the season at Delaware and walked off with a hard-fought 19-14 victory. The victory was marked by a beautiful 70-yard pass from Nolan to Bud Wenzel. Wenzel took the pass on the Delaware 45 and through a fine exhibition of broken field running evaded two Delaware defenders and went all the way. Lehigh won the game in the final minutes on a breath-taking fourth

down pass to Dick Pennell which set up the score.

The second game was with Western Reserve and Lehigh won an easy 27-6 victory. The game was marked by the shoddy play of Western Reserve although the Engineers weren't too sharp themselves.

The home opener was with Gettysburg. The Bullets came into town on Parents' Day with a nine-game winning streak and a crowd of 13,500 was on hand at the kickoff to see if Lehigh could break the streak. It did! But Wenzel was on the receiving end of eight Nolan passes to break a pass receiving record for one game jointly held by Austin Short and Tom Gunn. The 20-7 victory was decisive and Nolan performed in stellar fashion

Executing his deception to perfection, Nolan takes the ball from center,

hands off to halfback Dick Pennell, digging out from left-half slot,

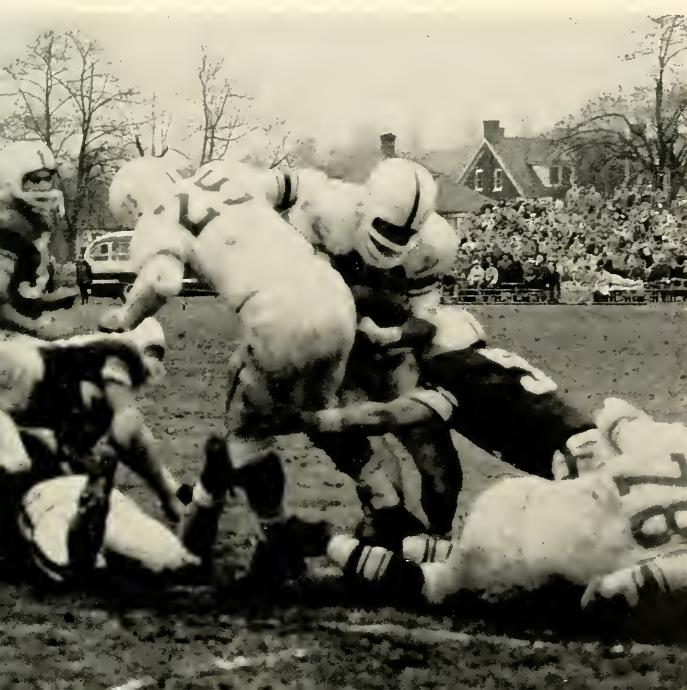

and fakes to Burger and Pijawka going around his left,

while Pennell races through a gigantic hole in the Columbia line.

**Nolan, who almost re-wrote the entire Lehigh record book, continues to eat up the yardage as he scores against Lafayette.**

**Halfback Charlie Burger is stopped by the Leopards, who were beaten for the second straight year.**

**Dan Nolan,  
Co-Captain

completing 13 passes.

Bucknell followed the Rutgers and Columbia games. The Bisons proved little trouble for the Engineers before a Houseparty crowd of 5,000. Nolan's performance in the Engineers' 27-0 victory was rewarded by his second nomination of the year on the weekly All-East team. He first was nominated for his work against Gettysburg.

The Buffalo game was scheduled as a breather before the traditional Lafayette game. Lehigh won, as expected, by a 27-6 score.

An SRO crowd of 17,500 jammed Taylor Stadium for the Lafayette battle. The Leopards took a 7-0 first-quarter lead but the Engineer power began to tell late in the period and throughout the rest of the game as Lehigh walked off with a 26-13 victory.

Besides Nolan, Pete Williams was named on the All-East weekly team four times and Wenzel once. Both Nolan and Williams received mention for All-American honors and both ranked high on the All-East and All-Pennsylvania teams.

This year's team also had the distinction of being named as the recipient of the first annual Lambert Cup, emblematic of small college supremacy in the East.

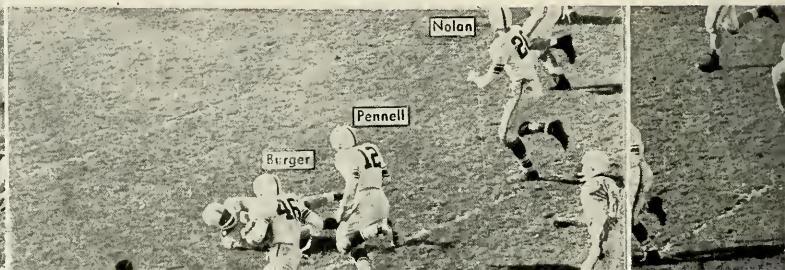

The coach of the Calgary Roughriders explains to Nolan some of the advantages to be gained by a pro football career in the Canadian League.

Nolan pitches out to Burger, who heads downfield.

Unstoppable against Lafayette, Nolan digs in for a long gain for the Engineers.

The Columbia line-backer is down, with Burger clear to go.

Nolan and Walt Pijawka combine talents to smother on a Columbia ball carrier.

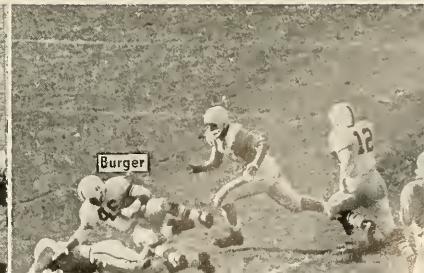

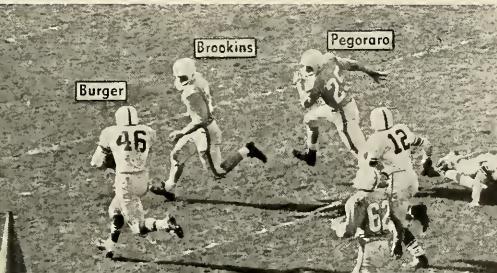

Captain-elect Charlie Burger takes to the air against the Western Reserve eleven.

Brookins (24), key Columbia defenseman, threatens.

Brookins downs Burger, but Nolan scored next play.

Caught by the ankle, Nolan pulls away to score against the Leopards of Lafayette.

## Soccer

Bill Christian's booters take on the local Hungarian athletic club in a hardfought battle at the North Side Athletic Field.

Coach Bill Christian's varsity soccer team completely reversed its record of a year ago as it finished the season with a mark of three victories and five losses. In 1956, the booters had a five and three record and threw in two ties for kicks.

But the 1957 record doesn't tell the whole story, since all of the team's five setbacks were by close margins. The biggest margin of victory rolled up against the booters was four points by Columbia.

Lehigh's victories were at the expense of arch-rival Lafayette, Muhlenberg, and Stevens.

Gettysburg, Haverford, Swarthmore, and Ursinus, in addition to Rutgers, topped the Lehigh club.

Captain Dick Newkirk and Fred Stucky rated the nod as the team's top booters.

With few lettermen returning, prospects for next season look dismal. Few underclassmen showed any promise during the past campaign and the freshmen had a disappointing year.

*Kneeling: Forrester, Seigle, Bayer, Rach, Newkirk, Captain; Mitchell, Godin, Snyder, Baralt. Standing: William T. Christian, Coach; Stucky, Salomon, Schlosser, Sawyer, Brodbeck, Rosenberg, Rakdham, Ross, Sider, Bay, Rissmiller, Assistant Manager.*

First Row: Gilbert, Krehbiel, *Captain*; Randall, Griep, Sonderegger. Second Row: John S. Steckbeck, *Coach*; Beach, *Manager*, Shamer, McNally, Hughes, Hay, Shea, Ransom, Bayles, Foote, Goldstein, *Manager*.

## Cross Country

Coach John Steckbeck's cross country team enjoyed a perfect season last fall as they swept all seven of their dual meets. Four of the seven victories were shutouts, over Muhlenberg, Haverford, Delaware, and Temple. The remaining three wins were at the expense of Rutgers, Lafayette and West Chester State Teachers College.

In the Middle Atlantics, the cindermen placed second to the perennial victor, St. Joseph's. Fred Krehbiel, the team's leading runner, finished fourth in the MA's behind three St. Joe runners. Murray Randall finished tenth and Captain Bruce Gilbert came in eleventh.

Coach Steckbeck's charges are the possessors of the most outstanding three-year athletic record at Lehigh for the present teams—19 wins and only 2 losses.

The cross country squad had possibly the finest course in this area as they held all their home meets in scenic Saucon Park.

Members of the Cross Country team jog the last few laps around the Upper Field before finishing their afternoon workout.

# Fencing

With only three members remaining from last year's Middle Atlantic Conference champion team, and with a squad loaded with sophomores, the Lehigh fencing team was in a period of rebuilding this year.

The fencers, however, were still able to post a creditable 4-5 record.

Despite the fact that they were rebuilding, Coach Harry Boutsikaris' charges still had one of their toughest schedules. Included among the opponents was the University of Pennsylvania, which was ranked as high as fourth nationally. Penn stabbed the Lehigh team, 22-5.

The team's most impressive victory came in the last match of the season against Muhlenberg, which the fencers cut up to the tune of 17-10.

The team's best fencers included Dave Wismere in epee, Captain Ed Schaufler in sabre, and Mike Mullins in foil.

Wismere, who was able to win two of his three matches against highly touted Penn, and Mullins will be back next year to bolster the team.

Great co-ordination and skill are required of fencers on the Lehigh team, one of the best in the east.

The sailing club spends many pleasant spring days on the water preparing for the summer racing season.

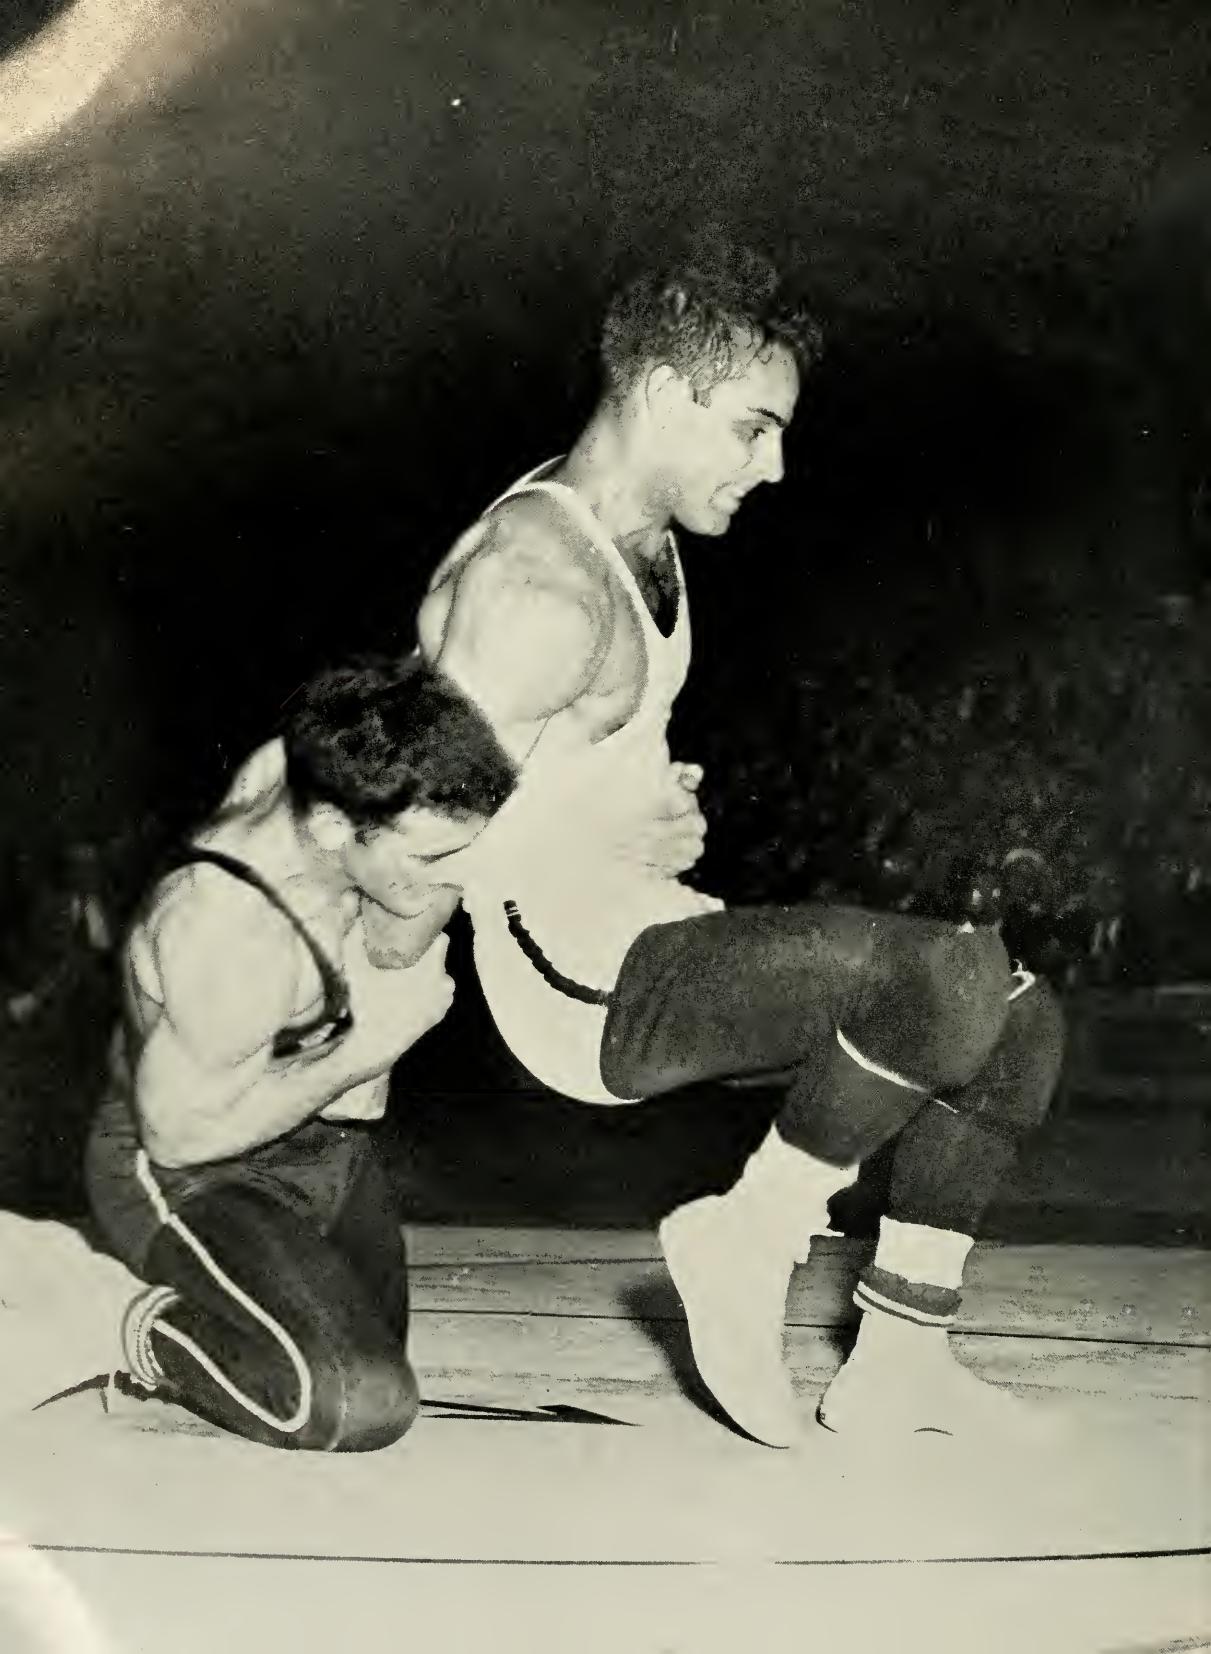

## Sailing Club

Lehigh's Sailing Club raced against some of the top sailing crews in the East during its split season. Racing five times in the Fall and twice in the Spring, the club's best performance was its second-place finish in a pentangular meet at Princeton. Racing is the only sport on campus with such a split season.

During the winter months the club members meet regularly to discuss racing techniques and later, when the weather clears, boats are brought out of storage and given a thorough overhaul for the coming season.

Some of the teams against whom the Brown and White sailors raced in their Tech dinghys are Navy, the University of Pennsylvania, George Washington, Drexel, Rutgers, Haverford, Kings Point, Columbia, Swarthmore, and St. Joseph's.

After showing a marked improvement in spring quadrangular meets and making an impressive showing in the Middle Atlantics, club members look forward to a successful season next year.

## Wrestling—An undefeated season in spite of the odds

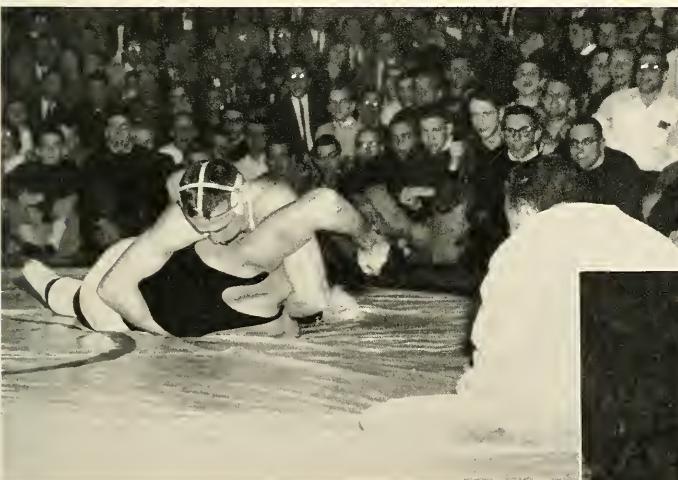

For the first time in 15 years Lehigh's wrestling team completed an undefeated season. Back in 1943, under the tutelage of the immortal Billy Sheridan, the Engineer grapplers went through the season unconquered in eight outings. This year the score was nine wins and one tie—at the hands of ever-powerful Pittsburgh.

An undefeated season is remarkable and normally happens only when everything works out perfectly. However, this year everything didn't work out perfectly, in fact, far from it. To start off with, 123 pounder Bob Myers wrestled in only three of the matches. Myers was nursing a chronic leg injury throughout the season. Leon Harbold was also considerably below par during the season due to a boil on his knee and our only Eastern champion of 1957, Ed Hamer, missed the final half of the season due to scholastic difficulties.

As for the individual records of the five wrestlers that competed in eight or more matches—Dick Santoro went all the way in the nine matches he wrestled; Capt. Joe Gratto was tied once in ten outings; John Driscoll won seven out of seven; Pete Davidson took eight out of ten and Harbold lost only two of eight, and Ed Hamer won his four matches.

The Engineers traveled to Ithaca, N. Y., to meet Cornell in the first match of the season. The Big Red soundly defeated Lehigh in 1956 and Leeman had his charges prepped for another tough evening. After Ed Slater lost to Dave Auble, Harbold, Gratto and Santoro registered decisions to shove the Brown and White into a 9-3 lead.

Bob Gunst and Russ Triponey were decisioned at 157 and 167 respectively, but Hamer and Davidson won the final two matches and Lehigh walked off the mats with a hard-earned 15-9

Equally effective is the cradle, which Joe uses to add Army's Jim Hyde to his long list of victims.

Dick Santoro strains as he attempts to break away from Cornell's Vincent in the 147-pound title match. Santoro decisioned Vincent to take the championship.

Joe Gratto applies a body press in his Yale match, gaining a fall a few moments later.

Penn State's Charlie Dank is about to be shown the lights of Grace Hall as Bobby Myers applies a body press in the early moments of the 123-pound bout.

decision.

Syracuse was the Engineers' next victim. Unfortunately three of the visitors were injured in a car accident before the match giving LU a quick 15 points on forfeits. Dick Santoro decisioned, Ed Hamer pinned and Bob Gunst tied to give Lehigh another 10 points and a 25-12 victory.

Franklin and Marshall proved to be an easy third conquest for Gerry Leeman's matmen. The Diplomats won the first and last bouts but lost the middle six as Harbold, Gratto, Santoro, Gunst, Driscoll and Hamer decisioned to bring home an 18-6 win. Slater and Davidson were Lehigh's losers.

On the Saturday night preceding the beginning

John Driscoll shoots for a pin using one of the most punishing holds in wrestling, the crucifix, against Penn State's entry in the 167-pound class.

of finals, 3500 Grace Hall fans were treated to one of the most pleasant victories in many years. The Brown and White wiped up the mats with the Nittany Lions from Penn State, 22-7. The famous State "crawlers" proved no match for Leeman's group as Myers started the proceedings pinning Danks in the second period.

Johnny Johnston evened matters at 5-all with a final-minute pin of Ralph Scalzo, but from then on it was all Lehigh. Gratto, Santoro and Hamer decisioned, Gunst tied and Driscoll and Davidson decisioned to wind up the Engineers' most convincing victory over Penn State in years.

After the mid-semester break the matmen hosted Yale in a rare afternoon match at Grace Hall.

Leon Harbold, Lehigh's 130 pounder, attempts to break away from Weissenseel of Army in the first period of their match.

The varsity lines up before being introduced with the Penn State team.

Driscoll is awarded two points for a near fall as his West Point opponent attempts to roll out from underneath.

Bob Myers  
123 Pounds

Leon Harbold  
130 Pounds

Dick Santoro  
147-Pound EIWA Champion

Bob Gunst  
157 Pounds

*Kneeling:* Driscoll, Triponey, Santoro, Gunst, Hamer, D'Antonio, Slater. *Standing:* Eck, Manager; Harbold, Feroe, Gratto, Gerry Leeman, Coach; Schafer, Davidson, Maze.

John Driscoll  
167 Pounds

Ed Hamer  
157-177 Pounds

Russ Triponey  
177 Pounds

Pete Davidson  
Heavyweight  
177-Pound EIWA Champion

Lehigh's Dick Santoro shoots for a pin as the Syracuse 147 pounder tries to break the hold and roll away.

The Ivy-clad Elis weren't any match for the Engineer grapplers, as they bowed, 23-3. Scalzo was Lehigh's lone loser, while Myers, Harbold, Santoro, Driscoll, Gunst and Davidson all decided. Joe Gratto moved up to 157 pounds and pinned.

Following easy victories over Penn State and Yale, the wrestlers encountered their stiffest competition of the season as they just edged by Navy, 14-11. Joe Gratto was the victim of the season's biggest surprise—Joe Longton held the 1957 National Champion to a 2-2 draw.

Myers lost and reinjured his leg to start the match, but Harbold evened things up. After Grat-

to's tie, Santoro, Driscoll and Gunst all decided to put the Engineers into a 14-5 lead which was enough to hold off a Middie rally in the last two weight classes.

Army became Lehigh's seventh straight a week later, 19-9, but not until the Engineer fans had experienced some anxious moments. David D'Antonio wrestled his first match at 123 pounds and put up almost superhuman resistance as he avoided a pin at the hands of Jim Ellis. The Cadets took a 6-0 lead as Jerry Weissenseel decided Lee Harbold, but Gratto pinned and Santoro won giving Lehigh an 8-6 lead.

Teb Feroe wrestled his first match of the year and lost at 157 as the visitors regained the lead, 9-8, but that was Army's last gasp as Driscoll pinned, and Triponey and Davidson won on decisions to wrap up the victory.

The single blot of the season occurred at the hands of Pittsburgh a week later. The Panthers took a quick 8-0 lead in the first two matches as D'Antonio was pinned and Harbold lost. Gratto easily defeated Vic DeFelice at 137 and Santoro won Lehigh five points on a forfeit tying matters at 8-all.

Driscoll defeated Richardson bringing Lehigh into an 11-8 edge, but Gunst lost to Johnson even in the count again. The Panthers pulled ahead 14-11 as Triponey was decisioned. That left the

match in the hands of Pete Davidson who fought off a shoulder injury and defeated Hall, 9-7, to give the Engineers the tie.

Lehman used make-shift line-ups in the final two matches against Rutgers and Hofstra. The 15-9 victory over the Scarlet Knights was one of the most boring matches of the season. Slater, Gratto, Santoro, Driscoll and Davidson all won decisions for the Brown and White, while D'Antonio, Gunst, and Triponey were decisioned.

The 29-3 romp over Hofstra was just a warmup for the Easterns. D'Antonio won his first at 123 while Gratto pinned in his last performance at Grace Hall. Feroe also pinned and Davidson moved down to 177 and won convincingly.

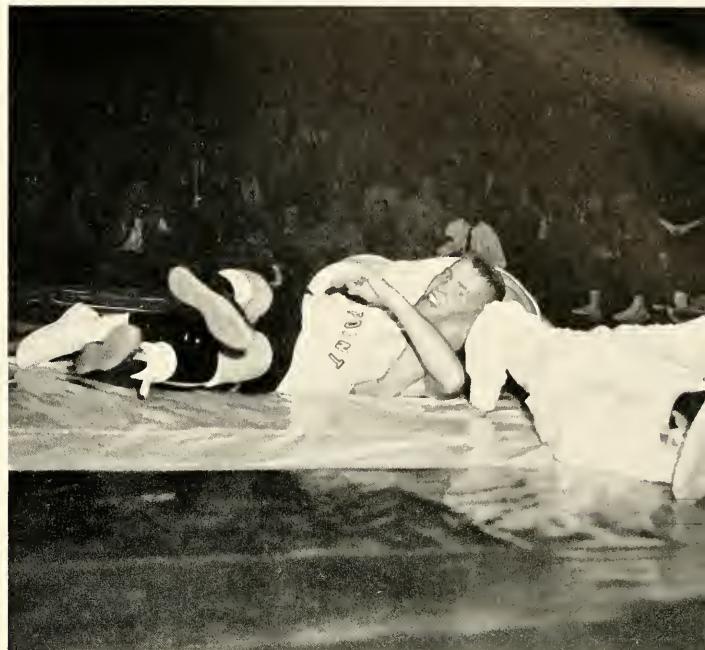

Dick Santoro sets for a lightning take-down against his opponent from Army.

Joe Gratto  
137-Pound EIWA Champion

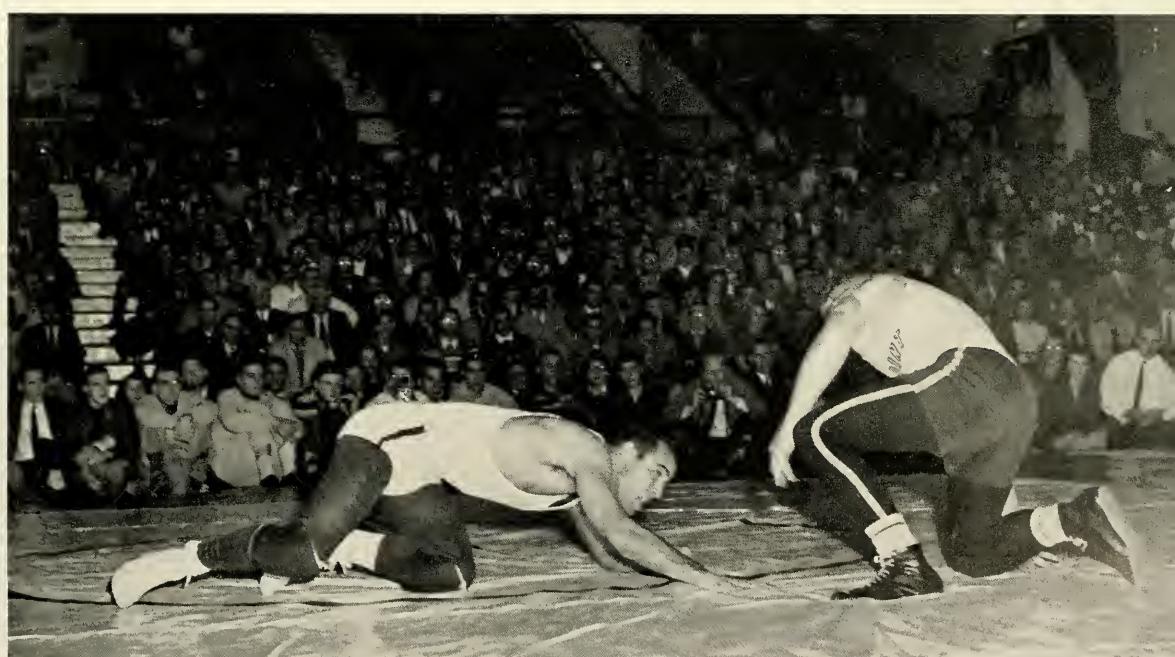

Driscoll keeps a tight waist hold on Friedman of Cornell in the semi-finals of the EIWA 167-pound contest.

Army's George Robertson grimaces in what might pass for a smile as he is drubbed by Driscoll in the 177-pound bout.

Trying to catch the Cadet 147 pounder off balance, Dick Santoro drops to the mat and eyes the unprotected left knee.

## The Easterns

Although favored to win, Lehigh had to be satisfied with a second-place finish behind Cornell in the Eastern Intercollegiate Wrestling Association Tournament, held this year at the University of Pittsburgh.

But the Engineers shed no tears, since they did have three individual champs, and as Coach Leeman noted after the tourney, "Wrestling is an individual sport".

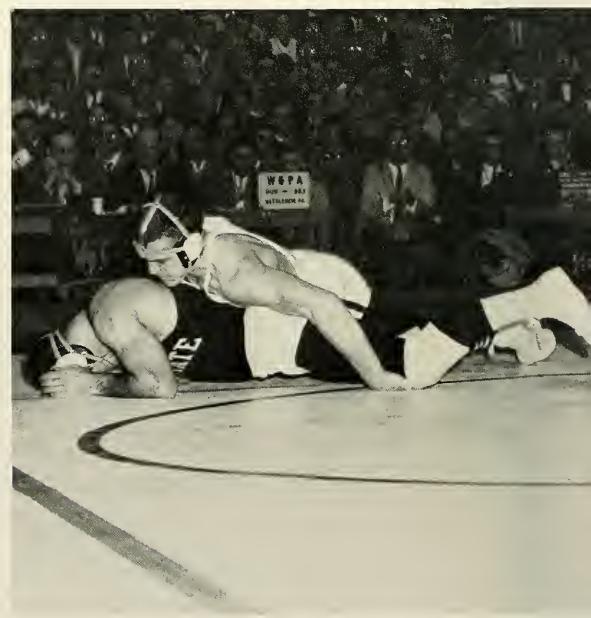

Lehigh's winners included Joe Gratto, wrestling, at 137 pounds, Dick Santoro at 147 pounds, and Pete Davidson, a surprise at 177 pounds. Gratto was also named the outstanding wrestler in the tournament, while Johnny Johnston of Penn State won the Fletcher Trophy.

Pete Davidson scores two points against White from Syracuse, and holds tight to keep White from attempting a sit-out.

Dick Santoro and Joe Gratto congratulate Pete Davidson after he has won the EIWA 177-pound championship.

Joe Gratto breaks Guccione of Penn State into the mat as the Lehigh grappler wins his second Eastern Intercollegiate Title.

Aubrey of Oklahoma holds tight to Dick Santoro's arm as he reverses Lehigh's ace, later going on to take the match.

Joe Gratto applies pressure to the shoulder of Gray from Iowa State, but was unable to maintain top position and lost the bout.

## Nationals—stiff competition from the west forces Lehigh out

For the first time in four years, Lehigh failed to have an individual champion in the National Intercollegiate Wrestling Association Tournament.

The best a Lehigh grappler could do was third place. This was accomplished by Dick Santoro at 137 pounds.

As a team, the Engineers finished a distant 10th, far behind victorious Iowa State.

Joe Gratto, 1957 title holder at 137 pounds, failed to place in the 147-pound class, as he lost both his semi-final and consolation bouts.

The other two Lehigh grapplers who were entered did not fare as well as these two. Pete Davidson was defeated in his second bout, while John Driscoll was beaten in his opening match.

177 pounder Pete Davidson stands up as he attempts to get away from Oregon State's contender for the crown.

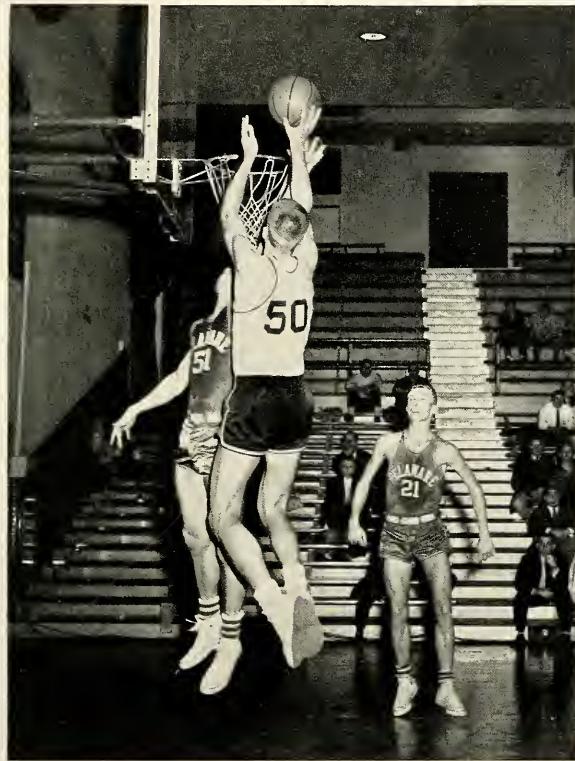

## Basketball—*a trying season for the hoopsters*

The 1957-58 edition of Tony Packer's basketball team finished the 18-game season with a rather typical 8-10 record, the same slate that was recorded a year ago.

Bob Roepke, although he missed three games due to an eye injury sustained at Bucknell, was again the team's leading scorer, with co-captain Tom Healy ranking second.

Even though Roepke and Healy were the top scorers the work of Dan Nolan was applauded from all corners during his half season with the Brown and White.

Nolan seemed to be the inspirational factor that carried the Brown and White to a fine late season performance against nationally ranked Temple. Nolan was also chosen All-East in one of the weekly polls.

Co-captain Tom Healy jumps above two Rutgers defenders to net an Engineer goal.

Army Balgalvis goes up for a jump shot against Delaware in the season's opener.

Dan Nolan sinks a layup against Lafayette, but it wasn't enough as the Leopards continued their skein of victories.

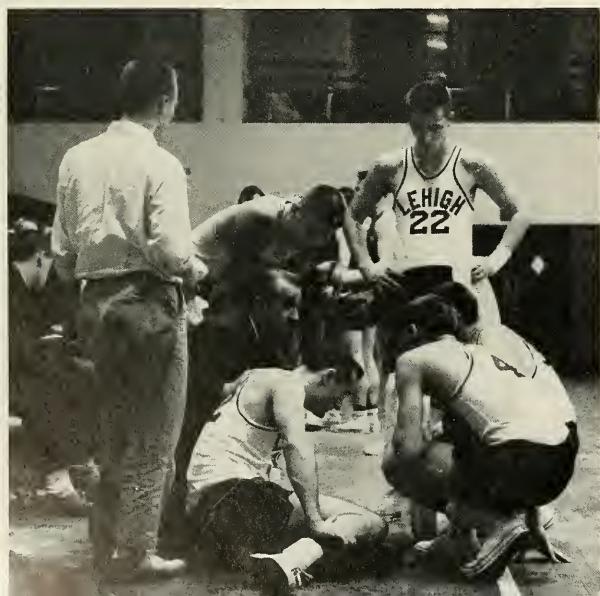

Norm Zelenko waves goodby to another two points as a Penn State forward scores on a layup in the early minutes.

Three unidentified players struggle for possession in the battle with Penn State.

Tom Healy and a Penn State player grab for a rebound as Al Hofmann crouches.

Coach Tony Packer instructs his team as they rest during a time-out period.

Packer's quintet opened the season on the right foot on the Saturday of Snow Ball weekend by rolling over helpless Delaware, 90-66. The 90 points was one of the highest totals recorded in Grace Hall in years and was made possible by a 57-point second half. Bob Roepke paced the victors with 25 points and was off on another good year.

The basketballers traveled to West Point a week later with visions of repeating last year's upset victory, but the Cadets were prepared and gave the Brown and White their initial setback of the campaign, 64-51. The shooting percentage of Lehigh was the determining factor as they hit for less than 30 per cent of their shots.

The Engineers traveled to Allentown to meet Muhlenberg just before Christmas and returned to South Mountain on the short end of an 83-61 decision. The overall finesse of Clint Jeffries, et. al. proved too much for the Brown and White.

Immediately after the holidays Lehigh evened their season's record edging Albright 73-69 as Tom Healy paved the way with 33 points.

Attempting to break a 29-game losing streak to Lafayette, the Engineers hosted the Leopards on a week night in January, but the home court didn't do much good as Lafayette rolled to their 30th straight over Lehigh, 66-57.

Penn State handed the locals their fourth loss in six outings, 75-70 a few days later, but Packer's

*Kneeling: Fleischhacker, Rogan, Zelenko, Hoffmann, Brenan, Anthony Packer, Coach. Standing: Mittenthal, Manager; Pavdny, Manager; Healy, Co-Captain; Stover, Roepke, Co-Captain; Eckert, Nestuk, Herring.*

Norm Zelenko  
*Guard*

quintet bounced back and easily defeated Gettysburg, 66-55 just before mid-semester exams. The B&W rolled to a 40-11 halftime lead and coasted during the second stanza.

With Dan Nolan in the lineup for the first time Packer's quintet faced Muhlenberg for the second time and edged the Mules, 66-64. The rebounding of Nolan and Roepke's 20 points were the deciding factors.

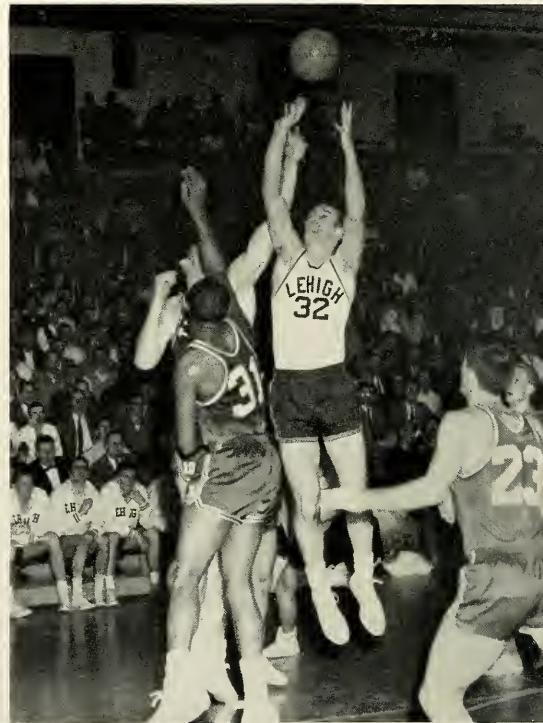

Franklin & Marshall became the Engineers' third straight victim a week later as Roepke and Nolan paced the Lehigh charges to a 84-73 win.

Bucknell edged the Brown and White's three game victory skein in an exciting 55-51 victory at Lewisburg.

Several days later Gettysburg upset Lehigh, 72-70, in their second meeting of the season; however the Packers bounced back and defeated Dickinson, 74-68, to bring their season's record up to .500.

After losing a tight 62-60 decision to Rutgers, the Engineers were handed their most humiliating defeat of the year as Lafayette rolled over them 83-49.

Roepke paced the Engineers to consecutive wins over Rutgers and Delaware following the Lafayette loss and the Brown and White was even for the year with 8 wins and 8 losses. Bucknell dropped Lehigh one game below the .500 mark, 72-60, and the B&W needed a victory over fifth-ranked Temple to hit the breakeven point for the season. Lehigh didn't quite do that but scared the Owls a lot before losing 58-51.

Dan Nolan outbattles Temple's All-American Guy Rodgers for a rebound.

Tom Healy tries a left-handed shot against Temple before the largest basketball crowd of the year.

Healy shoots from outside against the highly rated Temple Owls, who were given a scare by Lehigh.

## Skiing

The Skiing Club participated in no intercollegiate competition during 1957-58, but the group, composed primarily of underclassmen, spent many weekends on Big Boulder ski run at Split Rock Lodge in the Pocono Mountains.

With novices showing rapid improvement, the club, which consisting of 70 members, plans to enter several meets next year.

One of a number of sports clubs on the campus, the Skiing Club is financed by members themselves who pay five dollars in dues per year. The money is used primarily to cover transportation costs.

One of the group's biggest financial assets is that skiers need very little equipment in addition to the skis members supply themselves.

A member of the ski club cleans and waxes his skis for a trip to the Poconos.

Defensemen of the Lehigh Hockey Club protect their goal during the early minutes of the last game of the season.

## Hockey

The big news for the hockey team in 1957-1958 was not its record, but its fight for recognition and subsidization as a varsity sport. The hockey men were unsuccessful, but they put up a game fight.

Residence Halls Council, Interfraternity Council, and Arcadia all voted to support the hockey

team, but to no avail. The club was foiled when it printed a booklet about the team in an attempt to raise money. The University would not give the hockey men permission to send it to alumni.

In actual play, the hockey team, which found a coach this year, was able to win only one game. This came at the expense of Villanova, 7-6.

*Kneeling:* Andren, Loss, Crichton, Von Bergen, Cowan, *Captain*; Debus, Von Soosten, Mitchell, Gill. *Standing:* Heske, LaFontaine, Donnelly, Harkrader, Apsey, Jordan, Wright, Reifsneider, Cowles, Hale, Negley, *Manager*.

Tom Little is poised to take off on the second lap of a medley relay.

## Swimming

Lehigh's swimmers weren't as impressive as their predecessors who won the Eastern Inter-collegiate Swimming Association title, but the team still had what it took to chalk up a 4-4 year, and take second place in the Middle Atlantic Swimming Conference Tournament.

The Middle Atlantics, called the fastest tournament in MASC history, was won by West Chester State Teachers College, which outscored the Engineers by only two and one-half points.

Only individual Lehigh winner in the tourney was Co-Captain Marty Maloney, who copped

Doug Merrill knives the water cleanly in diving competition against Rutgers.

first in the 400-meter freestyle event. Maloney also piled up an impressive string in victories in dual meets.

In winning, Maloney set a new pool record at Bucknell's Freas-Rooke Natorium.

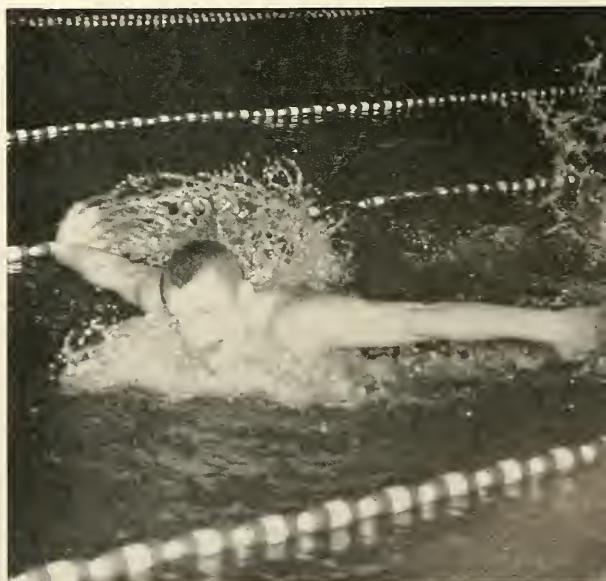

The biggest reason for Lehigh's fine showing in the Middle Atlantics was its performance in the relay races. Stocking these teams with its best men, the Engineers were able to garner two second places and 20 points.

In regular season competition, with Co-Captains Maloney and Scott Wollaston setting the pace, the natators defeated Delaware, Syracuse, the University of Pennsylvania, and Lafayette. The 76-10 victory over Delaware was probably the most impressive of the year.

Dual-meet losses were suffered at the hands of Colgate, Pittsburgh, Rutgers, and a strong Army team which torpedoed Lehigh, 64½ - 21½.

Coach Bill Christian smiles when he thinks about next year's team, and it is with good reason, since Maloney and a number of other lettermen will be back for another year in the tanks.

George Karr swims against time to better his performance in the butterfly.

## Rifle

A varsity rifleman sights down-range preparing to squeeze off another round.

For the first time in a number of years, the rifle team finished a season without a greater number of wins than losses. The nimrods posted a four won, four lost mark.

For any other Lehigh team, such a record might be considered poor, but for this one which is the University's most consistent winner it was unusual.

Last year, the riflers posted a 7-3 mark, while the year before, it was 7-2. In fact, the rifle team, at one point in 1956, had a 41-match winning streak. This was ended in the next match by Penn.

Despite the return of several lettermen, this year's Lehigh team, facing strong competition, was not able to equal previous years' records.

But the year did have its high spots. And the highest of these was the match against Cornell, when Vinnie MacPhee tallied 293 points for a new Lehigh record. The national record is 296.

In the Cornell match also, the team came up with its high score of the year, 1410 points. For the first time in many years the nimrods fired at the United States Military Academy.

*First row: Captain Harold E. Durst, Coach; Leonhardt, MacPhee, Horvath, Captain; Pickslay, Pearson, M/Sgt. Charles Mills, Asst. Coach. Second row: Muchnick, Friedman, Bretz, Wimmer, Nilsson. Third row: Milford, VonSeggern, Manager; Kirsche, Sgt. Peter Rogers, Asst. Coach; Sigley, Manager.*

# Golf

Lehigh's golf squad continued to be among the winningest teams on the Lehigh sports scene as it swept to 10 victories in 13 matches.

The only disappointing point in the season was the Engineers' failure to gain honors in the Middle Atlantic championships.

For the second consecutive season, Lehigh whipped Bucknell in dual meet competition but finished second to the Bisons in tournament play. Bucknell's four-man total on the par 74 course was 626 to Lehigh's 631.

In addition, Lehigh's Leslie Norbury had to settle for runner-up position for medalist honors when he lost a sudden-death playoff to John Dunn, Bucknell sophomore. Both fired one over par 149's for 36 holes to lead the field. Dunn won medalist honors in the playoff with a par 4 on the 37th hole.

Norbury, who had completed his 36 holes earlier in the day, had to start the playoff "cold". Dunn was in the last group to finish regulation play.

Concentrating intensely on his game, this golfer sank the putt for a par three.

A Lehigh batter takes a cut at the ball during a practice session before a varsity game with the Lafayette club.

## Baseball

Another losing season was recorded in baseball as Coach Tony Packer's nine posted a 6-9 record for the season.

The only bright spot in the otherwise dismal campaign was the timely hitting of Fred Homsher, a sophomore who wasn't on the starting lineup when the season began. He posted the top batting average of .294 and led the Packers in RBI's with 11. Included among his hits were three home runs and a double.

The Engineers went into their last seven games playing .500 ball, but could pick up only two wins in these remaining tilts. These were over Muhlenberg, 6-4, and Colgate, 3-1.

Top moundsmen on the club were Douglas Koch, Dick Reinhold, and George Rebhan. Koch, a junior, won three, lost two and struck out 45. Senior Reinhold posted the top earned run average.

*Kneeling:* Anthony Packer, *Coach*; Kneler, *Captain*; Watts, Smith, Hirsch. *Standing:* Koch, Godin, Christie, Williams, Rebhan, Rush, Homsher, Roth.

The victory over Colgate was considered by many to be the high point of the season. Reinhold came up with his best performance as he scattered seven hits and pitched effectively with men on base.

Homsher rapped a home run and a pair of singles to lead Lehigh's 10-hit attack in the game played at Taylor Stadium. The Colgate club was virtually the same one which routed Lehigh the previous year, 24-6.

Probably the most interesting game of the season was the 13-inning season finale against Rutgers which went to the Scarlet, 5-3.

Lehigh blew a 3-0 lead in that one which saw a free-for-all develop following a play at the plate in the 12th frame. A Lehigh squeeze play back-fired and after a block by the Rutgers catcher to tag Walt Smith, the teams began swinging at each other instead of at baseballs.

Bobby Hirsch races across home plate to score a run against Delaware.

## Track—a successful season with more wins than losses

All the Lehigh track team needed to make the 1957 season complete was a win over Lafayette, but the underdog Leopards took all three places in the final event of the meet to pick up a 63-63 tie.

The deadlock kept intact the record of Lafayette coach, Harold Anson Bruce, who came out of retirement to coach the Leopards. Bruce-coached Lafayette teams have never lost to Lehigh. When he was at Lafayette from 1909 to 1925, his teams defeated Lehigh each year.

In their other five meets, the Engineer thinclads rolled to four victories, climaxed by a 98-28 trimming of Ursinus in the season's finale.

Lee Oldershaw, a sophomore, suffered a leg injury in the Middle Atlantics after setting the fastest qualifying time and was lost for the remainder of the season. In three early season meets, he had run the 100 in 9.9 seconds.

A second-place finish in the javelin throw was the best Lehigh could do in the Middle Atlantics.

*Kneeling: Michael Cooley, Coach; Latshaw, Hammond. Standing: Kohut, Bergstein, Kiley, Staley, Peterson, Greenberg, Earl.*

## Intramurals—an expanded program of physical education

In his second year at the helm of the Physical Education Department, Prof. John Steckbeck continued to tighten the strings and as a result P.E. is now, more than ever, respected by all the students.

Steckbeck's "Lehigh conditioner" has succeeded in putting the Lehigh gym student into top physical condition. The "conditioner" takes the first ten minutes of the gym period and for the remaining forty minutes, the students choose their activities and are under the expert guidance of different Lehigh athletic coaches.

The sports in the fall include touch football, soccer, golf, and tennis. In the winter basketball and wrestling are emphasized while in the spring baseball and track take the spotlight.

Last spring Steckbeck completely renovated the intramural wrestling championships by instituting "Fight-Night" which pitted the residence hall and town champs against the fraternity winners. It was hailed as a great success.

Volleyball and wrestling are popular among the fraternity and dorm leagues.

"The skins against the shirts"—another impromptu basketball game helps keep Lehigh students physically fit.

Professor Steckbeck proudly displays some of the trophies to be awarded the winning teams in intramural competition.

Participants in the intrafraternity track meet break from the blocks in one of the last sports activities of the year.

Participants in the annual Turkey Trot leave on the first lap of their long jaunt around South Mountain and back.

# GRACE HALL

# AFROTC

An Air Force unit of the Reserve Officers Training Corps was established here in October of 1946.

The curriculum is divided into four semesters of Basic Air Science and four semesters of Advanced Air Science. Basic ROTC is a requirement for graduation of all students, and a choice must be made between Military Science and Air Science before entering Lehigh. Advanced instruction is given to the men who want to gain an officer's commission in the Air Force upon graduation. However, it is not so easy as simply volunteering to enter into the advanced course.

A rigorous physical examination is the first obstacle a prospective second lieutenant must face. A firm desire to enter the Air Force as well as above average grades in the basic studies is a prerequisite to entrance. Inspection trips to various Air Force installations are a part of the education of advanced students, and they are trained in their future duties by the Air Force upon graduation.

COL. KENNETH R. STRAUSS

*Prof. of Air Science and Tactics*

*Seated: Capt. Earle G. Thomas, Capt. Joseph Sara, Lt. Col. Dale E. Altman, Col. Kenneth R. Strauss, Head of Department; Maj. Donald J. Glenn, Capt. Samuel S. Willey. Standing: C. R. Laughlin, Abram E. Ehrensberger, Clayton B. Hale, Albert L. Allen, James A. Beagle, Hugh R. Rogers, William P. Fordyce.*

On Monday afternoon the upper field echos to the cries of ROTC commanding officers drilling their sophomore and freshman charges in the fundamentals of military bearing.

## Drill Team

The academic and leadership laboratory work of the AFROTC cadet is usually extended into and supplemented by some of the various extra-curricular activities that have been organized expressly for ROTC men. These include the Scabbard and Blade, the Cadet Corps, the Sabre Society and the Sabre Society Crack Drill Team, the Arnold Air Society, and a rifle team. These societies attempt to raise the standards of the military education program in American universities.

Among the activities undertaken by these organizations are the Air Force Prom, the Air Force Tea, the Military Ball, and competition between drill team units and rifle teams of other colleges.

The largest of these organizations is, of course, the Cadet Corps, whose main function is participating in leadership laboratory every Monday afternoon. The leadership potential of each cadet is given an airing at these sessions. All members of the Corps are invited to attend the Air Force Tea

## Arnold Air Society

*Seated:* Hibsman, Bateman, Minnaugh, O'Such, *Executive Officer*; Earl G. Thomas, *Advisor*; Gyauch, Marks, Ferdinandsen, Washburn, Morgan, Finkelstein. *Standing:* Wilkinson, Hofmann, Bruns, Larsen, Myers, Pierce, McCarthy, Croteau, Bauder, Glover.

## Sabre Society

*Seated:* Masuda, Doane, Stimac, Schneider, Welsch, Neukirch, Weiss, Scheid, Murphy, Murphy, *Commander*; Ferdinandsen, Wieler, Zenorini, Horn, Asher, Freund, Mortz, Vernon, Yamagami. *Standing:* Baka, Reed, Berger, Elton, Hansen, Homa, Relyea, Sweeten, Rinchart, Reinert, Opdyke, Briggs, Helbig, Heydon, Daniels, Matthews, Braendel, Solt.

and the Air Force Prom.

The Sabre Society is an honorary group composed of both Basic and Advanced AFROTC students; however, cadets in the Basic Course make up the larger part of the society. The officers are elected from the Advanced Course. The services of this group include ushering at all home football games and other athletic attractions on campus, and sponsoring the Air Force Prom. Their Crack Drill Team spends many hours of practice

learning the difficult routines, and the Sabre Society is justifiably proud of its fine standing in competition.

The Arnold Air Society requires its members to be in the upper forty per cent of the Advanced Air Science class, and have a cumulative average of 2.00. The aim of the society is to promote the purpose and tradition of the Air Force as a vital part of national defense, and to create an esprit de corps in its personnel.

# Army ROTC

**COL. JOHN C. STAPLETON**

*Prof. of Military Science and Tactics*

*Seated:* Capt. Monroe Kirkpatrick, Maj. Robert B. Rankin, Maj. Edmund R. Butch, Col. John C. Stapleton, *Head of Department*; Lt. Col. Wesley J. Simmons, Maj. Clarence R. Westfall, Maj. Walter Duggan, Capt. Harold E. Durst. *Standing:* Robert H. Ebert, Wharton E. Fosselman, Charles R. Mills, Joseph Kasper, Case O. Webb, Alexander J. Krygier, Howard F. Liston, Quinn.

In 1919, Lehigh University instituted one of the nation's first college Reserve Officers Training Corps programs. Nearly all colleges and universities offer some types of ROTC courses today, and many of these, Lehigh included, make it a requirement for graduation. All students must take Military or Air Science for at least two years, and advanced courses are offered during the remaining two years.

For those students who do not take advanced ROTC courses, the drill and classroom work, from a military standpoint at least, may have its only value during the student's later active military service, at which time he will have a good understanding of methods and procedures well in advance. But the Basic Course is obviously necessary for those cadets who decide to continue in ROTC, for these men are then given the opportunity to command groups of Basic Course students.

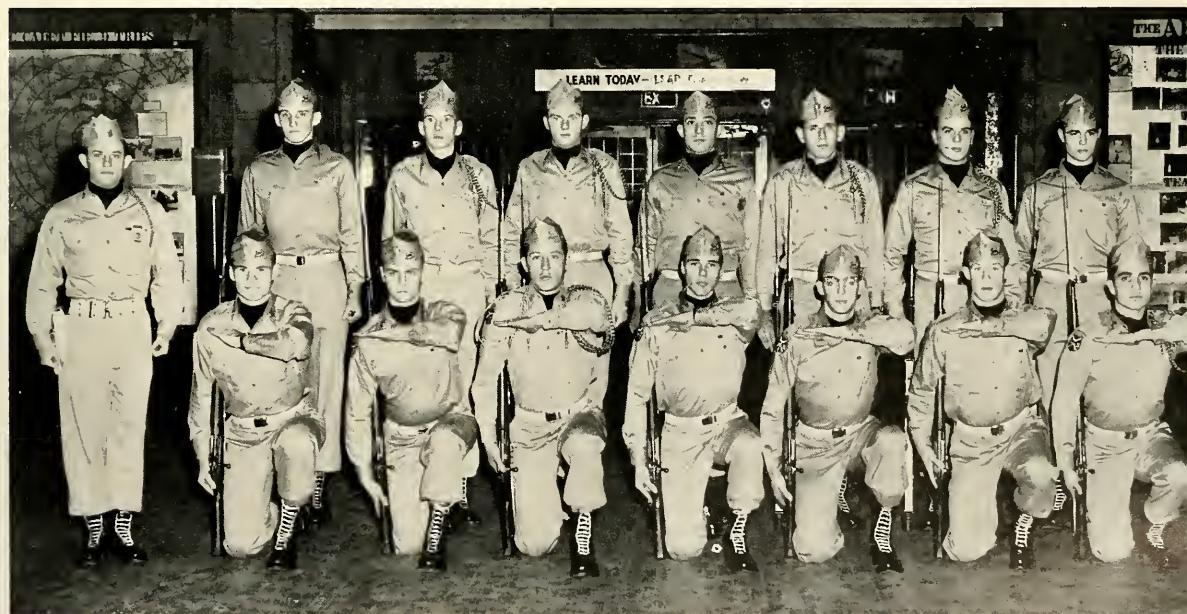

## Scabbard and Blade

*Seated:* Davidson, Wasson, Gilbert, Briggs, Sweet, Pijawka, Myers, Scalzo. *Standing:* Tillinghast, Keller, Bechtold, Seigman, Edwards, Scarlett, Libutti.

## Pershing Rifles Drill Team

*Kneeling:* Lindsay, Steitz, Pecke, Sherry, Schadler, Andrews, Schiffman. *Standing:* Wasson, Cichocki, Oakley, Drennan, Correll, Solomon, Winter, Lerch.

## S A M E

*First Row: Pope, Peeke, Dimmick, Maj. Edmund Butch, Advisor; Fisch, President; Elengo, Rudes, Ewing, Weiss. Second Row: Parliment, Swingle, Schulz, Mullins, Knapp, Neithold, Shaw, Gamble, Stoney, Lambertson, Domingue. Third Row: James, Leach, Stewart, Long, Sumner, Jillson, Hamm, Brown, Gralnick.*

## Pershing Rifles

*First Row: Kunzman, Parliment, Lewis, Schiffman, Sherry, Elengo, Fisch, Bechtold, Captain, Commanding; Wasson, Swingle, Slater, Feitler, Andrews, Brinton, Lynn, Kozlowich. Second Row: Steitz, Brown, Schadler, Lerch, Danenhower, Cool, Morgan, Kennedy, Solomon, Baker, James, Deem, Havens, Shore, Lindsay, Vogel, Littman. Third Row: Kirsche, Bradbury, Correll, Bretz, Hamm, Cichocki, Hetzel, Emery, Louis, Kramer, Drennan, Jenkins, Gale, Winter, Stewart.*

The Air Force ROTC Crack Drill team puts on an impressive display during the intermission of the Military Ball.

Since basic military training has been required at Lehigh for so long, it is natural that several military organizations would exist here, for these societies give interested students the opportunity to further their knowledge about military ways and customs.

The Pershing Rifles offer basic cadets one such opportunity. This group's crack Drill Team has performed in intercollegiate competition. Together with its companion Air Force organization, the

Sabre Society, the group provides ushers at all home football games.

Founded nationally in 1922 and at Lehigh shortly thereafter, Scabbard and Blade, a combined Army and Air Force honor society, has as its goal the promotion of a closer relationship between these service branches.

In addition, the Society of American Military Engineers offers students a chance to further their interests in military engineering.

# Music and Dramatics

"Presenting the 110 marching men of the Brown and White Marching Band"! The Lehigh musicians sprightly stepped off onto the field. Thus the Marching Band kicked off a very active year for the Lehigh music groups.

The Lehigh Mustard and Cheese players' first production was the intense drama, the "Caine Mutiny Court-Martial". All agreed that it was one of the finest dramatic productions ever staged at the University. No sooner had the curtain fallen

on this first effort than the thespians began work on their second production, "Teahouse of the August Moon".

The year sped on. Various concerts presented by the Music Department included the annual Christmas Vespers, the exciting modern production, "New Sounds" and the Pops Concert.

The music and drama groups extended the name and fame of Lehigh, and brought invaluable entertainment and culture to the campus.

THOBURN V. BARKER

H. BARRETT DAVIS

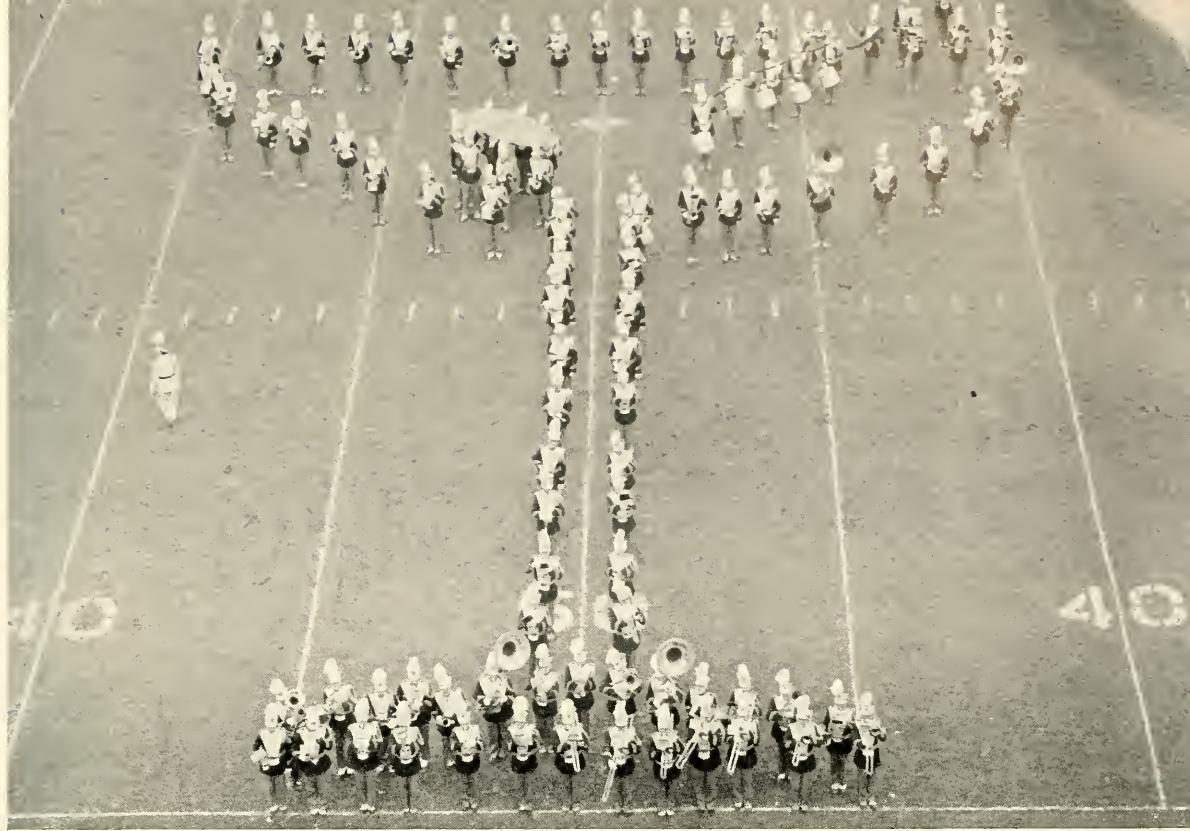

ALBERT A. RIGHTS

ROBERT B. CUTLER

JONATHAN B. ELKUS

The Brown & White Marching Band takes the form of a martini glass at halftime.

The Brown and White Band's spirited half-time performances again attested to the fact that it was the "best marching band in the East". In smart new uniforms, the well-trained musicians executed their maneuvers with polish and precision. The pre-game exhibitions included an intricate counter-march which ended in the traditional Marching Lehigh. The highlight of this year's half-time activities was the band's interpretation of "Around the World in Eighty Days". Gas-filled balloons, the Eiffel Tower, and Big Ben were all parts of this exciting extravaganza.

The conclusion of the football season did not end the band's activities. As the Concert Band, the men set out to present four major concerts. The first presentation found the musicians combined with the Glee Club for the very successful

"Le-High-Fi". One of the highlights of the performance was the trumpet duel between the freshmen and upperclassmen in "Bugler's Holiday". The William A. Aiken Memorial Concert, the winter production, was very impressive, and the spring concert, "Artistry in Sound", was also a big success.

The final appearance of the band was the traditional Pops Concert. Candlelight, checkered table cloths, light refreshments, and wonderful music made it a very enjoyable evening for everyone in the huge audience. Praise went to the members of the band for their magnificent work, and to Professor Elkus, who took up the Lehigh baton this year, for his expert directorship.

The praise given by Lehigh students to the Brown and White Band is highly deserved.

The dance music of Lehigh's Collegians was a familiar feature on campus. The flexible group of nine to thirteen men was always ready to present the best in popular music. Their two major appearances this year were the Charity Ball and the dance following the fall concert.

The Cliff Clefs were always a popular part of the Glee Club concerts. This group acquired a new repertoire this year. As usual, the new songs were in the popular vein, and included humorous and novelty numbers.

The Chapel Choir added greatly to the Sunday morning services at Packer Memorial Chapel. This year they joined with the Cedar Crest Choir at one of the services. The resulting combination was very successful and will probably be repeated in the future.

The Brass Choir made many appearances this year. Its main work was in "New Sounds", a concert of contemporary American music.

*First row: Ricker, Shollenberger. Second row: Draper, Havel.*

## Concert Band

*An outstanding assemblage of*

The Pops Concert is an annual spring event for which the student body turns out in great numbers, even more so this year since the Music Festival has been discontinued.

*musicians from the Lehigh student body*

## Collegians

*First Row:* Stass, Maloney, Davidsen, Hitman. *Second Row:* Noll, Clausen, Clarke, Barratte, Moore, Hayes.

## Glee Club

*First Row: Celaura, Owens, Polefka, Pope, Zinck, Gallup, Robert B. Cutler, Director; Mihan, Jeffers, Martindale, Lewis, Cole, R., Battershall. Second Row: Muchnick, Hamblin, Fisher, Mountain, Smith, Seagreaves, Stone, Holl, Stepp, Ulincy, Fabian, Sietsema, Shaffer. Third Row: Hough, Everett, Wright, Gill, Weiss, Lerch, Lambert, Roberts, Bauer, Simmons, Weaver, Taylor, Monsen, Kahler. Fourth Row: Ford, Cole, C., Kalb, Hedges, Foster, Achilles, O'Ryan, Shabaker, Pittenger, Resch, Reed, McCune, Schantz, Shoemaker. ## Cliff Clefs

*First Row: Lewis, Stepp, Ford, Lambert, Hamblin, Gallup, Muchnick. Second Row: Reed, Brown, Resch, McCune, Cole, Pittenger.*

## Chapel Choir

*First Row: Robert Cutler, Choir Director and University Organist; Monsen, Lerch, Winter, Fabian, Seagreaves, Wilson, Plumer. Second Row: Holl, Kalb, Christy, Lambert, Smiley, Schantz, Kehde, Nilsson, President.*

This year's Glee Club, rated as one of the best in University history, brought credit to itself and to Lehigh whenever it performed. The sixty-five male voices, led by Professor Robert Cutler, were heard in a record number of concerts.

The Club made its first campus appearance at the Le-High-Fi Concert. The next performance was the Christmas Vespers Service. Joining with

the voices of Cedar Crest College, the vocalists presented an impressive program of traditional Christmas music to a capacity crowd in Packer Chapel.

In distinctive new blazers, the Glee Club carried the name of the University to high schools, colleges, and civic groups throughout the east.

## Brass Ensemble

Clarke, Long, Flynn, Rickert, Sember, Ritter, Gorman, Barrett.

## Brass Choir

*First Row: Gorman, Barrett, Brainerd, R., Jonathan Elkus, Conductor; Walton, Sweitzer, Ruhl, Lane. Second Row: Weisner, Shively, Griffin, Clarke, Long, Liener, Laird, Kahle. Third Row: Rickert, Flynn, Sovcek, Rojahn, Ritter, Laucks, Brainerd, W., Johnson. Fourth Row: Staley, Rippke, Sember, Montville, Hayas, Ullery, Heske, Farrand.*

The Glee Club, playing an important part in the Music Festival, spent many hours in rehearsal with Professor Cutler.

## Glee Club

Professor Albert Rights directs the chorus in one of the numbers from the show.

## Music Festival

The Music Festival, an annual spring event started twelve years ago, may have become a thing of the past. For the second time in three years, the program was cancelled.

The Festival had to be removed from the calendar for a number of reasons. For one thing, fraternity rushing and pledging now occupy the time and efforts of men who would have previously devoted themselves to the Festival. A change in the Music Festival date left insufficient time for preparation.

The resignation of Professor Schempf and the decision of Professor Rights to withdraw as advisor left no one with enough experience to assume responsibility for such a gigantic undertaking.

The only remnant of Festival Weekend was a series of concerts by various music organizations, and the question of the return of the Festival still hangs unanswered.

## Executive Committee

Shollenberger, William Schempf, *Advisors.*

Barbara Kleppinger, of Cedar Crest College, sang a soprano solo in the portion of the show from George Gershwin's *Porgy and Bess*.

The AFROTC Drill Team executes a close order drill to Glenn Miller's scoring of the *St. Louis Blues March*.

The Music Festival dancers gave a rollicking rendition of the Black Bottom, symbolizing the roaring twenties.

Charles Coutant, Douglas Kim, of Seoul, Korea, and Margaret Ono, Moravian College student from Tokyo, had the lead roles in Mustard & Cheese's "Teahouse."

Costumes for the entire cast were fashioned from styles worn by the Japanese during the period following World War II.

The most successful production in years, scenes like this kept "Teahouse" viewers laughing throughout the performance.

## Mustard and Cheese

Each year the players of Mustard and Cheese seem to surpass their former achievements, as they continually bring good theater to the Lehigh campus. This year was certainly no exception. The Fall production of Herman Wouk's "The Caine Mutiny Court Martial" was especially well received. Students and faculty agreed that it was one of the finest dramatic efforts ever produced at the University.

The campus actors revealed a variety of talents when they turned to a delightful comedy, "Teahouse of the August Moon", for their March production. Thirty female players added their skills to those of our own thespians to accomplish another Mustard and Cheese success. Top honors, as usual, went to Professor H. Barrett Davis for his expert direction of the play.

Mustard and Cheese, of course, does not confine all of its work to the stage. This year it expanded its popular cinema program by presenting eleven award-winning foreign films.

Heckler, *Treasurer*; Morse, *Secretary*; Gallup, *Vice-President*; Russell, *President*; H. Barrett Davis, *Director*; Thoburn Barker, *Technical Director*; Hahn, *Club Technician*.

Faculty wives worked long hours with needle and thread preparing costumes for the fall production of Richard II.

## The Senior Class . . . *graduating after four productive years at Lehigh*

The Class of 1958 moved onto South Mountain early in the fall of 1954, progressing through their Freshman Week activities somewhat apprehensively, not knowing quite what to expect from their new and seemingly hostile environment. But the class soon began to pick up a little of the spirit and tone of college life, and they were distinguishable only by the brown and white dinks that they wore. Class leadership was established early and the Freshman Cabinet carried out its Lafayette Weekend responsibilities with great enthusiasm.

All was not fun, however, and some fell by the wayside, victims of the strenuous academic atmosphere.

The sophomore year presented new responsibilities to the class and its officers. For the first time it was necessary to promote an all-university affair whose success depended entirely on the hard work of the class cabinet. But hard work was the keyword, and the Sno-Ball, the fall dance second in

importance only to Houseparty, was immensely successful.

When the Class of '58 became juniors, they found class spirit lagging and remedied the situation by sponsoring a clambake that added greatly to the unity of the group.

An important event which the class handled with professional ease was Spring Houseparty. Skitch Henderson and his orchestra supplied the music for the Friday night dance, the first big-name band to play on the campus in several semesters.

It was in the fourth and final year that the class assumed its most pressing responsibilities. Fall Houseparty ran as scheduled, and the class coffers were enriched. The class assessment was subscribed to by 450 of the seniors, and this income was used to purchase space in the yearbook, buy the traditional plaque for Packer Chapel, and pay for the cost of graduation weekend.

Senior Class President Charlie Tillinghast presents the cup to Fall Houseparty Queen, Marylin Rockefeller.

Chaplain Raymond Fuessle and Dr. Eric Walker, President of Pennsylvania State College, lead the procession toward Grace Hall.

Filled to capacity with graduating seniors, parents, and friends of the University, Grace Hall is the scene of the last formal assembly of the Class of 1958.

# BETHLEHEM

# A City and a University —

For the first time in almost five years, South Mountain is void of all signs of major construction. Gone are the giant steam shovels, the growling jack hammers, the huge cement trucks, the long cranes, and the small, unsightly shacks of the construction workers.

A reunioning 1953 graduate, not having seen any of the construction take place, is astounded at Lehigh University. In the five short years he has been gone, South Mountain has been transformed as if by magic.

He notices that Packer Hall, where he was given his introduction to college mathematics, has almost doubled in size. Upon entering, he is bewildered as a guide informs him that he is in the

University Center.

On a tour of the building, he concludes that the new name is an appropriate one. He sees student and faculty dining rooms, which rival those in the most exclusive country clubs; all-purpose rooms, which can be used for everything from a dance to a movie; meeting rooms, to which he is told every organization on campus has access; the *Brown and White* offices, which have facilities better than ninety-nine per cent of commercial papers; a spacious, elaborate lounge; a card room containing ten leather-covered tables; a Hi-Fi room; a game room; radio station WLRN; the *Epitome* offices; and the Arcadia offices.

Going out of the basement exit of the Center,

From the newly renovated Packer Hall, now the University Center, students get a birdseye view of Bethlehem, a commercial and industrial center in the Lehigh valley.

# Developing a Finer Community

he trudges up toward Drown Hall. The exterior is still familiar, but the interior—it just is not the same building. It has been completely remodeled to house the College of Business Administration, which has moved from its cramped quarters in Christmas-Saucon Hall.

After Drown Hall, the next stop is Lamberton Hall, which he decides has been appropriately altered. Once the home of budding artists who practiced on table napkins, it now contains the drawing tables of C.E. 61 and not-so-budding artists.

Going up Eighth Street, he notices that there is a completely new building next to Taylor Hall and a new one across the street from it. Deciding to go in the one across the street, he makes the mis-

take of coughing. Suddenly a man in white coat jams a thermometer in his mouth, hands him nose drops, aspirins, lozenges, and cough medicine, and tells him to go home and go to bed. "Must be a Health Center," he guesses correctly.

The other building, he is told, is a new residence hall, the McClintic-Marshall House. Observing the built-in furniture and general plushness of the surroundings, he asserts that it is a far cry from the Tempos, his home as a Freshman.

Before looking up some old friends and instructors, he checks the remainder of the "new" Lehigh University—the new Phi Sigma Kappa fraternity house, and Fritz Laboratory, which houses the largest universal testing machine in the world.

# LEHIGH UNIVERSITY

Speaking with an old instructor, the five-year alumnus finds that Lehigh has not only changed physically, but also academically.

The most noteworthy change in that time, he is told, has been the creation of an Honors Program. Under the plan, a number of students who have fulfilled rigid scholastic requirements are selected to take graduate-level seminars, one in

each of their last four semesters. The seminars are conducted in the four major areas of man's knowledge: the Life Sciences, the Physical Sciences, the Social Sciences, and the Humanities.

In addition, the University has added a new curriculum in Engineering Mechanics, and two new major programs, one in Foreign Careers, and one in Industrial Management.

The University Library is the center of intellectual research at Lehigh, for within its walls lie the pages that record the contributions of the past and present in the development of man's culture.

The maze of pipes and the intricate heating system which runs through the new University Center was supplied by the *Hajoca Corporation*.

*Central Plumbing and Heating* is responsible for the installation of the many gas and water pipes in the University Center.

## CONSTRUCTION . . . the key to progress

Leafing through old editions of the *Epitome* and the *Brown and White*, the 1953 graduate gets some idea of the Lehigh of the transition period—the months when it seemed there were as many construction workers on campus as there were students, the months when it seemed that the din of heavy construction would never leave South Mountain.

No sooner finished with one building, the construction workers began another. Sometimes several buildings were in progress at the same time.

The grad realizes the discomfort and inconvenience which were caused by the work, but he notes that the completed structures provide anything but discomfort and inconvenience.

The massive job of renovating Packer Hall was accomplished through the efforts of *H. E. Stoudt and Son*.

*Howard P. Foley* and his crew of electricians played a major role in the completion of the new Center.

*Lehigh Engineering Company* installed heating equipment in the new University Center.

The roar of the huge steam shovel digging a foundation has been replaced by the roar of students rollicking in McClintic-Marshall house and in the new Phi Sigma Kappa fraternity house.

The stone cutter carving a huge piece of granite with hammer and chisel has been replaced by the University Center chef carving a huge turkey with culinary utensils.

Instead of an electrician probing for the right connection for one of the many wires he has to install, there is a team of competent doctors and nurses probing for the cause of sickness in the ailing members of the student body. And the grad reads in the B&W that there were many ailing students during the fall of 1957, when an epidemic of Asian influenza struck the Lehigh campus.

Instead of huge steel girders being put into place in the skeleton of a new building, there are huge steel girders being pulled apart by the Universal Testing Machine in Fritz Laboratory. Because of the work being done here, civil engineers and architects will probably know more about the strengths and weaknesses of steel going into future buildings.

The storm of construction is over. In its wake, is the calm—if it can be called such—of student life.

Aside from air conditioning the entire University Center, *Air Engineers* has installed the most modern and up to date refrigerating systems in our new kitchens.

Many University buildings are protected from rain and snow with their new and improved roofing, installed by *J. J. Morello*, roofing contractor.

The papering and wall panelling in the University Center dining room are representative of the skilled craftsmanship of *Mindlin & Sons*.

The iron arches and railings, which add much to the beauty of the University Center, were supplied and fabricated by *Bethlehem Iron Works*.

The steel structure of Packard Laboratory and many other buildings on campus was provided by *Bethlehem Fabricators*.

## SERVICES . . . filling Lehigh's needs 'round the clock

With the expansion of Lehigh, the many businesses which cater to the university's students as a primary part of their day's activities have also greatly expanded their services.

The returning graduate finds that the most notable of the expansions have been those of the dining service of M. W. Wood and the university supply bureau.

From the comparative handful of students that were served cafeteria style in Lamberton Hall, the Wood organization has increased its services to the point where it now serves home-style 1,063 students three times a day.

The staff of the organization numbers more than 200. In Lamberton Hall, it was difficult to feed 200 students at one time.

The operation has become so complex that, for example, two men are needed to do nothing but fill the large milk containers. The graduate realizes the necessity of this when he is told that at one

What could be better for a quick study break than a cool, refreshing container of milk? *Lehigh Valley Cooperative* gave quick, efficient, and sanitary service to men in both the fraternities and residence halls.

A wide variety of choices is available in our new, self service *Book Store*, which has provided Lehigh men with an assortment of supplies and books.

meal the students drink 325 gallons of milk.

In addition to the milk, 550 pounds of meat, 12 crates of lettuce, 80 pounds of tomatoes, and approximately 2,800 rolls are consumed at an average dinner, not to mention the pounds and pounds of condiments and vegetables employed.

The university supply bureau, the graduate finds, has more than tripled its space. From the cramped, inadequate quarters in the Alumni Memorial building, it moved to the spacious area in the University Center.

And with the better facilities naturally came much better service. The graduate remembers the days at the beginning of each semester when students stood in seemingly endless lines waiting to purchase their textbooks.

The other services to Lehigh have also expanded considerably. The dairies naturally had to increase the amount of milk brought to Lehigh. With the added help in the Center all wearing uniforms, Penn Coat and Apron Supply extended its service.

*Norbeth Dairy* supplies this fraternity house and many others with milk and dairy supplies which keep the college man in shape for his daily grind.

*M. W. Wood*, manager of the new eating plan which went into effect during our spring semester, keeps residence hall students supplied with the vast amount of food consumed daily in the three dining rooms of the University Center.

The beginning of a process. Girls at *Penn Coat and Apron* prepare packages of linens for students in the Residence Halls.

Delivery day—in with the new and out with the old. *Penn Coat and Apron*'s service makes another call to the Lehigh Campus.

The end product—a familiar scene on Thursday nights. Looking forward to a good night's sleep on clean sheets from *Penn Coat and Apron*.

## BETHLEHEM STEEL

Looking down at the city of Bethlehem from South Mountain, the fire-belching chimneys of Bethlehem Steel are awe-inspiring. The returning graduate realizes that there is probably no other corporation in the world as close to a university as Bethlehem Steel is to Lehigh.

Together the two are destined to make a great

deal of progress in the next few years. The steel company is in the process of completing plans for a multi-million-dollar research laboratory on the South side of South Mountain. The laboratory will contain facilities for Lehigh and a spacious auditorium (amphitheatre) to be used jointly. Actual construction will begin in the near future.

# SOUTH SIDE

Walking down New Street, the "old grad" discovers almost immediately that the South Side of Bethlehem has changed, too—mostly because of the absence of two places that had catered to the Lehigh man for generations.

He finds Gus's torn down. A parking lot now occupies the spot where the little wooden store once stood. He remembers getting everything from a hot dog to the latest edition of *Playboy* and the *New York Times* through its open windows.

Alex's, though still there, is closed. The grad is told that the untimely death of the genial old man forced the restaurant which was once the favorite eating spot of many a Lehigh student to close.

Getting down to Fourth Street, however, he finds that the rest of the South Side is just about the same. He notes that Bethlehem was never really a college town, but still the South Side can rate as being the closest thing to one.

For nine months out of the year, almost every-

The South Side has always been popular with the Lehigh Man because of its close proximity to the campus and the quality of its stores.

The *Plaza Restaurant*, located opposite Bethlehem Steel, is always a fine place for dinner with a date.

The recently redecorated *Plaza Restaurant* provides excellent food and pleasant atmosphere on weekdays or special occasions.

thing on the "warm" side of the Lehigh river is geared toward the more than 2,000 college men of Lehigh University.

A smile comes across his face though, as he remembers the first day he was told at the Tally-Ho that since he wasn't twenty-one he should go some place to have a coke. The Ho, he finds, is still going strong and is still as Bohemian as ever.

Walking up Fourth Street, he thinks to himself that just about everything on the street has a name which is associated with the school atop South Mountain. Among many, there are the Brown and White Luncheonette and Lehigh stationery.

He can't help noticing the number of "Room for Rent" signs as he makes his way toward Delaware Avenue. Yes, Lehigh has gone for the summer. The rooms will probably remain vacant until September.

Delaware Avenue is still an extension of the Lehigh campus as a number of fraternity houses

The friendly service at the *Tally-Ho* has made it a Lehigh favorite. A night in town is hardly complete without stopping by the "Ho".

Many Lehigh men found solutions to their financial problems at the *Bethlehem National Bank*, a member of the Federal Deposit Insurance Corporation. The friendly atmosphere attracted many students as depositors.

For hardware and all house supplies, *Brown-Borhek* offers Lehigh fraternities a wide assortment to choose from at a reasonable price.

Just a few minutes walk from the campus, *East Fourth Launderette* provides speedy, economical service that keeps clothes healthfully clean.

Prompt and economical taxi service is provided by *Bauder's Taxi*, the choice of Lehigh students who wish to be assured of dependable transportation.

For a tune-up or fill-up, the conveniently located *Joe Moretz Five Points Esso Station* is always ready to serve the Lehigh motorist.

Third Street stretches away into the distance, with little traffic on a quiet Sunday afternoon.

Guttenberg would have been proud of the skilled work done at the *Menne Printery*.

Birthdays and holidays find Lehigh men examining the merchandise at the *Lehigh Stationery*.

*Kaufman Electric* has long been a faithful supplier to the Hi-Fi addicts on the Lehigh Campus.

If you want it, they've got it! *F. W. Grand* is always the place to go for those incidentals.

The convenient pick-up and delivery services of the *Bethlehem Electric Laundry* have made Lehigh men their regular customers.

are located on the street. He is told though, that the next time he returns, this street may not be the same. The goal of most of the avenue's houses is to move up to Campus. With financial aid from the University, and strong alumni groups being formed, this goal is not in the distant future.

It'll be a long time, however, before St. Luke's Hospital moves. If any one place on Delaware Avenue has become almost as much a part of the life of the Lehigh student as the avenue fra-

ternities, it must be the nurses' home of the hospital. It's a rare occasion when a student goes through four years of college life at Lehigh without at least one date with a St. Luke's student nurse.

Panting, he completes the long walk back to South Mountain and his car. "Why (puff) couldn't Lehigh (puff) been built on (puff) level ground?" he asks, as does every Lehigh man at one time or another.

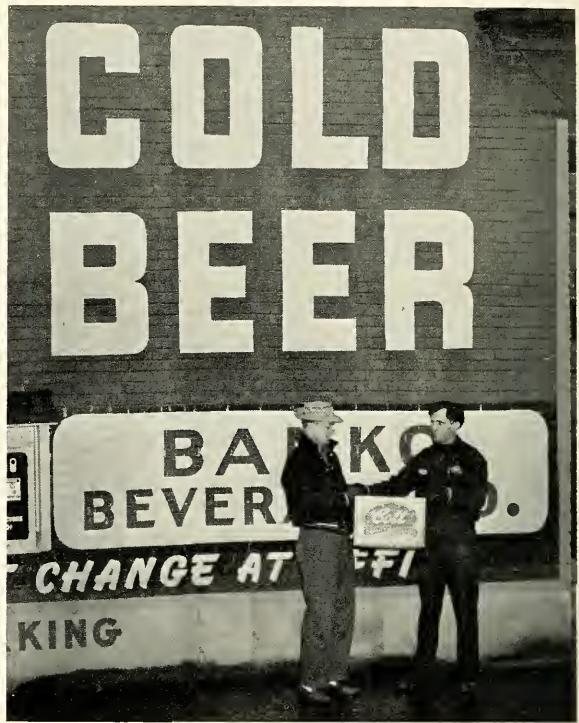

The original *Gus* is gone but not forgotten; Lehigh men will still find *Gus'* friendly service nearby.

Asian flu and German measles combined to make *Devers Drugs* a familiar locale this year.

A friendly welcome and a good haircut have made the *Campus Barber Shop* a Lehigh favorite.

**BETHLEHEM FLOOR COVERING**  
CARPETS • LINOLEUM • Youngstown Kitchens • WALL TILE • FLOOR TILE

If the time is Saturday night and the place is one of many Lehigh parties, the chances are favorable all the beverages were supplied by *Banko's*.

*Bethlehem Floor Covering* does much towards beautifying the buildings at Lehigh.

Trips to see "that girl" require a lot of gasoline and many Lehigh men patronize *Richard's Esso*.

*Austin Brothers* has long been a supplier of electrical fixtures to fraternities at Lehigh.

Skill and service have always been a trademark of the very popular *New Merchants Barber Shop*.

Third Street on Thursday nights was a Mecca for the Lehigh Man with shopping to do.

A popular Lehigh meeting spot is the *Brown and White Luncheonette*, where hot dogs, milk shakes, hamburgers, and friendly service are offered to students every day of the week.

All Lehigh students' financial responsibilities can be expertly cared for by the conveniently located *Union Bank and Trust Company*.

For that weekend date or for Monday drill, men of South Mountain are kept well-groomed by the quick-service haircuts of *Louie's Barber Shop*.

Derrico's large and comfortable barbershop gives every attention to the tonsorial needs of Lehigh students throughout the year.

The sound system which runs throughout the entire University Center was installed by the skilled technicians of *Audio Labs*.

# NORTH SIDE

Traveling across the Hill-to-Hill Bridge, the five-year alumnus thinks of Christmas time. Huge stars are erected all over the superstructure of the bridge during December. On the North Side of it is a huge Christmas tree, made from a hundred smaller trees, and lights added to burn the Christmas spirit into the hearts of everyone seeing it.

Coming off the bridge, he notices the women's dormitory of Moravian College on his right. This brings back the memories of his parade across town as a pajama-clad freshman to serenade the girls from Mo Mo before the Lafayette game. "It was really cold that night," he reminisces.

Making a left turn up Broad Street, the main "drag" of Bethlehem, the Bethlehem Hotel comes into view. Many were the dates he housed here. It was from atop the Hotel roof that cheerleaders led the parading freshmen in "Beat Lafayette" yells and songs.

Despite the fact that it was a long way away from Lehigh for the careless student, North Bethlehem, he decides, was an integral part of the life of the Lehigh man. Is there any Lehigh student who hasn't bought something from Tom Bass or George's Men's Shop? Somehow, they always

On special weekends reservations must be made weeks in advance at the *Hotel Bethlehem*, as this popular hotel is always filled to capacity with Lehigh dates.

The Christmas star of the *Hotel Bethlehem* shines brightly towards the Lehigh campus. The Hotel has always provided excellent lodging and meals for students, parents, and dates.

Aside from their excellent accommodations, the *Hotel Bethlehem* is well known to Lehigh Men for its Saturday night buffet dinner and Sunday morning breakfasts.

*H. M. Walters* finds no difficulty in fitting any size Lehigh man for that Houseparty Weekend formal.

Fishing and hunting enthusiasts find a wide assortment of supplies at *F. E. Weinland*.

Lehigh fraternities find *Schaller's* ready to supply them with the best of paints and equipment.

*Bethlehem Coal and Supply* kept many a Lehigh fraternity house warm during the severe winter of 1958. Its service is unparalleled in the area.

*Tom Bass* is probably Lehigh's best known haberdasher, having served students from South Mountain for more than forty years.

seemed to have nicer clothes than the men's stores back home.

He remembers, as an upperclassman, the countless trips he made after a meeting or an athletic event to The Maples for Italian pizza and a beer. Thinking about beer, he also remembers the number of trips he made to Frank Piff's for liquid refreshments for that Saturday night party.

"Across town," he went, too, to watch soccer and lacrosse teams in action at the University's North Side Athletic Field. It was here that he decided that lacrosse just wasn't the game he was meant to play.

No, North Bethlehem was not much of a college town, but because of the stores and varied entertainment it had to offer, it certainly was handy to have around, the alumnus muses.

Clothes from *George's Men's Shop* suit both the taste and budget of all Lehigh Men.

With two locations on the north side of town, *Dennis Drugs* is the most popular drug store in Bethlehem. It is famous for fast prescription service and wide assortments of drug supplies.

*The Maples* is well known to Lehigh men for making the best pizza pie in the Lehigh Valley. An entirely new interior makes it number one among the students.

The *Linden Hotel* is a favorite among Lehigh students who wish to house their dates, enjoy a satisfying meal, or plan a banquet for a club or honorary.

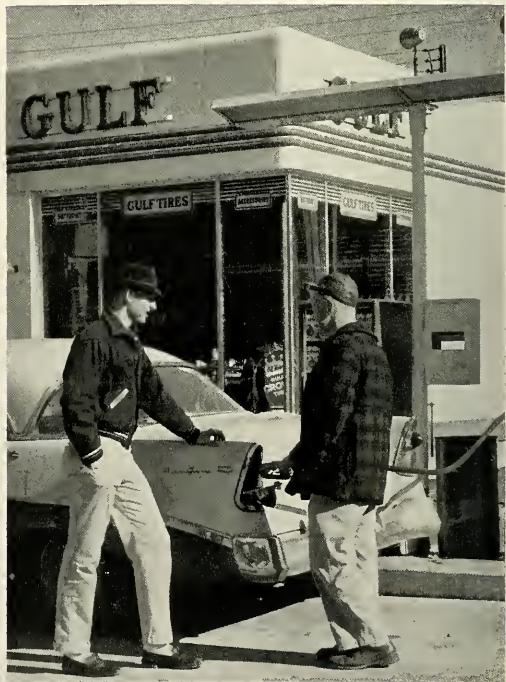

The *Fireside* is very popular among the men of South Mountain. Many a Sunday night finds a crowd of students enjoying delicious charcoal-broiled hot dogs and hamburgers.

*Bethlehem Flower Center* has for many years supplied flowers and corsages for Lehigh's House-parties and football weekends.

Many students take advantage of the numerous services offered at *Ken's Gulf Station*.

P. A. Knauss has washing machines located throughout the residence halls and serves fraternities at his Broad Street Launderette.

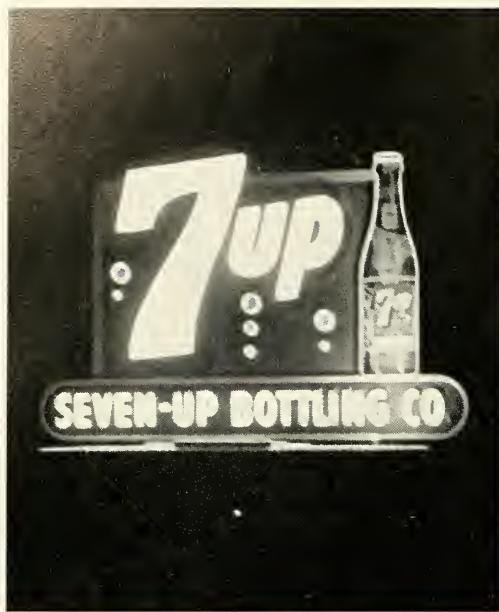

Every week Lehigh men look forward to that delicious Sunday meal at *Clause's Restaurant*.

*Eastern Light's* wide range of products and friendly services are well known to all Lehigh men.

Many a parched throat has been irrigated with beverages supplied by *Ross Common Beverages*.

When that special weekend called for a car wash, campus men drove to the *Modern Car Wash*.

*The 7-UP Bottling Company* keeps the Lehigh men well supplied with their favorite mixer and thirst-quencher.

For any occasion, whether it be Houseparty or just a small weekend celebration, *Piff's Beverages* will supply the necessary refreshment.

The Christmas City lived up to its name with this view of the world famous Christmas tree in its familiar position on the Hill-to-Hill Bridge.

# ALLENTOWN

Although several miles away, Allentown—mostly because of Cedar Crest and the nursing schools of Allentown General and Sacred Heart—is a vital part of a student's life at Lehigh.

Almost nostalgically, the 1953 graduate recalls the countless times he drove over "the back way" to Allentown to pick up a date. He remembers, too, the large number of times he was "fixed up" with a date from one of the Allentown schools.

The grad discovers that now the Lehigh students have expanded facilities for dates, as well as expanded physical and educational facilities. Muhlenberg, he is told, became co-ed in 1957.

But girls aren't the only thing that Allentown has to offer to the Lehigh man. The city has its share of night spots and movies which help to entertain the student during his free hours.

The grad, passing by Walp's Restaurant, recalls the number of special meals he ate there when he had a guest for the weekend. Despite the initiation of the eating plan at Lehigh, many of the students still eat those special meals at Walp's; especially the students on the 15 and 17-meal-a-week plans frequent the restaurant.

Allentown is the home, also, of Schlechter's

*Walp's* has been a favorite of Lehigh students and parents for many years, presenting a select menu of delicious foods at reasonable prices.

The Hamilton Street business district is but a short ride for the Lehigh student who is looking for anything from good clothes to good movies.

The *Hotel Traylor* in Allentown is always popular with the parents and dates of Lehigh students.

Printery, where the *Brown and White* goes to press twice a week. The newspaper's staff makes four trips a week to Allentown to proof read the student paper as it comes off the linotype machines.

The graduate remembers, too, the many picnics he participated in on the beautiful Lehigh Parkway, Allentown's immense public park.

Many of the dates he had at these picnics stayed at the large Hotel Traylor when they were from out of town.

The returning alumnus remembers how, as an undergraduate, he was amazed at the great diversification of industry in Allentown. A number of his classmates are now working in such Allentown plants as Air Products, Mack Motors and Western Electric.

Being an avid sports fan, the alumnus liked Allentown for this reason. He finds some things changed in the sports field, too, as he learns that the Allentown professional baseball team is no longer affiliated with the St. Louis Cardinals.

Driving back toward Bethlehem, he begins thinking about the vast number of changes that have occurred at and around Lehigh, and he comes to the conclusion that he was born ten years too soon.

The prompt, economical service of *Schlechter's* has made them the regular printers of the *Brown & White* for many years.

Sunday found the *Americus Hotel* inundated with ravenous Lehigh Men who came to enjoy the buffet at an unbelievably low price.

Howard Johnson's has long been a popular stopping place for Lehigh students and their dates.

Good alleys and Automatic Pinspotters attracted many a Lehigh bowling fan to the *Boulevard Bowling Alleys*, the most modern in the area.

# ACKNOWLEDGMENTS

From the editors, a word of thanks . . . .

*. . . for this publication would not have been possible  
without the help and encouragement of the following:*

*The Class of 1958*, who supported the book financially from class funds and cooperated fully in all phases of its activities;

*Mr. Frederick Ressler*, *assistant registrar*, who helped us find rooms in which to take pictures, even when it seemed there was no space available;

*The students and faculty*, who endured patiently the scheduling and re-scheduling of hundreds of pictures and recording of thousands of names;

*Jim Weisberg*, *Epitome photographer*, who took innumerable pictures and bore the unjustified criticisms of the editor;

*Our faculty advisors*, Associate Professor Joseph B. McFadden, and Mr. Walton H. Hutchins . . . to "Mac", whose active interest in all phases of publication is deeply appreciated, and to "Hutch", who labored long hours with the editor, uncomplaining and always encouraging, even when it seemed the job would never end;

*The Office of the Alumni Bulletin and the Office of Public Information*, who supplied pictures in endless quantity for publication;

*Mrs. Dorothy Moravec, Mrs. Marge Szabo, Mrs. Jean Foley, and Miss Judy Morgan*, whose attention to the myriad of small details freed the staff to devote their time to other phases of production;

*Our advertisers*, whose support kept this book from financial peril;

*Managing Editor Dick Bernard*, whose unselfish devotion to the job was a major factor in the success of the annual;

*The staff of the 1958 Epitome*, whose time and talents are mirrored in the finished publication.

The Publications Division, where layouts and dummies are prepared, is the center of school annual activity.

The Color Proofing Department plays a prominent part in maintaining our sixty-year reputation for fine quality.

## Jahn & Ollier

Without good engraving, good pictures in any publication are an impossibility. Only the best engraving can produce the best pictures. The *Epitome* has one of the best engravers in the country in Jahn and Ollier, which numbers among its customers some of the outstanding publications in the United States.

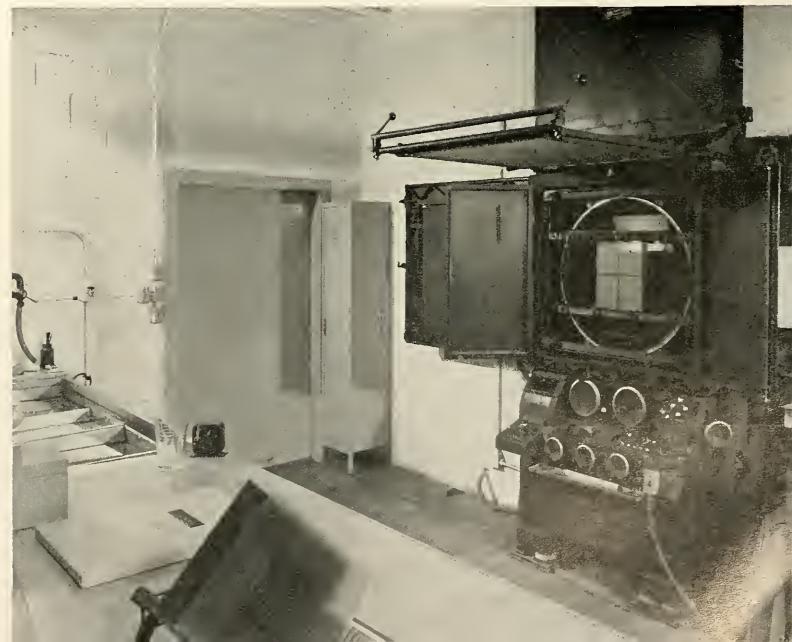

Jahn and Ollier has developed to perfection the highly specialized art of transferring a photograph to a copper plate.

It is the idea of many that a picture will lose something in engraving—not with Jahn and Ollier. In many instances, especially in sports, J & O

has actually improved on shots by its methods, which include air brushing out imperfections.

But the work of the photo-engraving plant begins only where that of its yearbook representative, William O'Connor, ends. Bill, as he is known to yearbook staffs all over the East, has saved *Epitome* staff members hours of work with his expert knowledge.

Without Bill to guide him, the job of a new editor would be a difficult one, indeed. Bill knows all the shortcuts, and passes them on to yearbook heads. He has been responsible for much of the success of Lehigh's yearbooks.

Pictured here is the business end of the imported Klimsch camera, used in making critical color separations for process plates used in many national publications.

# Kutztown Publishing Company

Although the student sees only the finished product of the efforts of the Kutztown Publishing Company, the firm does a great deal more printing for the *Epitome*.

The necessarily frustrating part for them is the preparation of galley and page proofs. When the copy is proof read by *Epitome* editors, it is then sent to the publisher to be set in type. A galley proof is made and comes back to Lehigh.

Editors then correct not only the few typographical errors, but being a phlegmatic group, they also change things which they had originally approved. This corrected proof then goes back to the printer, and a page proof is made. Again corrections are made.

A number of paragraphs have to be set up by the patient linotype operators at Kutztown several times before the editors decide that wording and typography is as perfect as possible.

Because of the professional advice given the staff by Chester DeTurk, who heads the Kutztown shop, and Jacob Esser, assistant to his father who heads the firm, the *Epitome* has solved many of its printing problems.

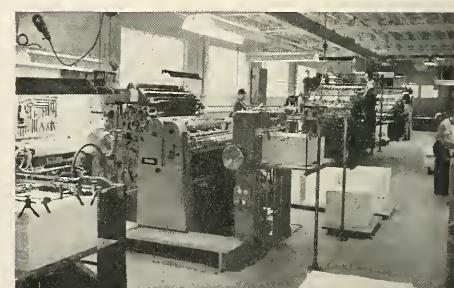

Kutztown Publishing Company publishes fifteen yearbooks in addition to the *Epitome*.

Shown here is a section of Kutztown's offset department, where the plates necessary for offset printing are produced.

All of the linotype for this *Epitome* was set on one of these four linotype machines, which allow flexibility both in style and size of type.

Towards the back of this press room can be seen the large presses which print sixteen pages of the *Epitome* at one time on a sheet 38 x 50 in size.

# Merin Studios

A yearbook just isn't a yearbook without pictures, and consequently the *Epitome* wouldn't be the *Epitome* without Merin Studios.

The official photographer of the *Epitome*, Merin photographers each year take the pictures of all the seniors, in addition to all group shots and a number of informals.

Although Milton Cantor, who takes the senior portraits, spends only a few minutes at most with each student, his prowess is so great that the finished portraits are perfection in photography.

Responsible for photographing the large number of groups whose pictures appear in the *Epitome* is Irving Jacobs. Lehigh students recognize his talent by each year purchasing hundreds of the shots he takes.

But not all the work of photography is done with a camera. Many pictures are made or broken in dark room processing.

A representative of Merin Studios helps a graduating senior select the proof best suited for reproduction in the *Epitome*.

Milt Cantor, Merin's portrait photographer, took over 3,000 senior portraits in preparation for the 1959 *Epitome*.

president; Sophomore Class Cabinet; Phi  
Eta Sigma; Delta Omicron Theta—se-  
cretary; AIChE; Chandler Freshman Chemis-  
try Prize; Deans List.

**FREDERICK SNOW TOWNSEND**

*Actuarial Science* Hamden, Conn.  
*Taylor D*—president; *Brown & White*;  
*Epitome*; Freshman Handbook; Junior Class  
Cabinet; WLRN; Chess Club; Bowling  
Club Canterbury Club; Sophomore Hon-  
ors.

**LAURENCE OAKLEY TREROTOLA**

*Ind. Eng. & Bus.* Montclair, N.J.  
*Chi Psi*—president; Arcadia Associates;  
Sophomore Class Cabinet; Pi Mu Epsilon;  
Cyanide; Lacrosse; AIEE; Brown Key So-  
ciety.

**JEROME F. TULLY**

*Electrical Engineering* Hillside, N.J.  
*Theta Kappa Phi*.

**GEORGE VAMOS**

*Accounting* Beechhurst, N.Y.  
*Town.*

**PETER HEWITT VAN OLINDA**

*Electrical Engineering* Baldwin, N.Y.  
*Tau Upsilon*; Bridge Club; AIEE.

**ALEXANDER T. VAN RENSSLAER**

New York, N.Y.  
*Psi Upsilon*—steward, vice-president; Hockey Club; Brown Key Society; Mustard & Cheese; Music Festival.

**PETER ANDREW VENMAN**

*Mechanical Engineering* Bridgeport, Conn.  
*Alpha Tau Omega*; IFC; Music Festival; Lacrosse; ASME; Sophomore Honors.

**THOMAS JOSEPH VERBONITZ**

*Accounting* Drums, Pa.  
*Town*; Town Council; Newtonian Society; Accounting Society; Newman Club; Williams Sophomore English Prize; Freshman, Sophomore Honors; Deans List.

**FREDERICK VESCAL**

*Engineering Physics* Carnegie, Pa.  
*McClinic-Marshall A-2*; Pi Mu Epsilon—treasurer; Newtonian Society; Phi Eta Sigma; AIP; Newman Club; Wilbur Mathematics Prize; Freshman, Sophomore Honors; Deans List.

**ROBERT FRANCIS VISBISKY**

*Mechanical Engineering* Dickson City, Pa.  
*Town*; ASME—secretary.

**ARTHUR ALEXANDER VOELKER**

*Industrial Engineering* Ridgewood, N.J.  
*Taylor D*; AIEE; Christian Fellowship—secretary-treasurer.

**WILLIAM ARTHUR VON SEGGERN**

Clifton, N.J.  
*Taylor D*; WLRN; Rifle Team—manager; DeMolay Club.

**NED AUS VOS**

*Mechanical Engineering* York, Pa.  
*Phi Delta Theta*—president; IFC—secretary; Junior, Senior Class Cabinets; ASME.

**JOSEPH KAZEMER WALENDZIEWICZ**  
*Electrical Engineering* Nanticoke, Pa.  
*Price Hall*; Phi Eta Sigma; Eta Kappa Nu—corresponding secretary; Pi Mu Epsilon; Newtonian Society; Band; AIEE; Newman Club; Freshman, Sophomore Honors; Deans List.

**ROBERT WILLIAM WALKER**

*Marketing* Mendham, N.J.  
*Town*; WLRN—news director; *Brown & White*; Lambda Mu Sigma.

**LAWRENCE ALPHONSE WALSKY**

*Accounting* Garden City, N.Y.  
*Delta Chi*; *Brown & White*—make-up editor; Senior Class Cabinet; Pi Delta Epsilon; Accounting Society; Photography Club.

**THOMAS S. WALTER**

*General Business* Bayside, N.Y.  
*McClinic-Marshall A-1* — vice-president; *Tempo 3*—president; Fencing; Intervarsity Christian Fellowship; Methodist Student Fellowship—treasurer.

**LEE RODMAN WALTON**

*Metallurgical Engineering* Shillington, Pa.  
*Sigma Chi*—secretary; Band; Track; Metallurgical Society.

**JOHN WARD**

*Chemical Engineering* Allentown, Pa.  
*Town*; Town Council; AIChE.

**JAMES VERNER WASSON**

*Finance* Pittsburgh, Pa.  
*Psi Upsilon*; Scabbard & Blade; SAME; Pershing Rifles; ROTC Drill Team—commander.

**ROBERT EVAN WATTS**

*Industrial Engineering* Havertown, Pa.  
*Theta Delta Chi*; Freshman Cabinet; Basketball, freshman; Baseball; AIEE.

**GEOFFREY R. WEBSTER**

*Electrical Engineering* Allentown, Pa.  
*Town*; AIEE.

**DANIEL JONATHAN WEINBERG**

*Marketing* Cleveland, Ohio  
*McClinic-Marshall A-2*—Band; Accounting Society; Hillel.

**JOHN LEROY WEINHOLD**

*Civil Engineering* Denver, Pa.  
*Taylor A*; ASCE.

**WILLIAM LEWIS WEISS**

*Civil Engineering* Haddonfield, N.J.  
*McClinic-Marshall A-1* — vice-president, president; RHC; Chi Epsilon; ASCE; Model RR Club; Sophomore Honors; Deans List.

**WILLIAM R. WENTZ**

*Electrical Engineering* Norristown, Pa.  
*Town*.

**LEONARD GENE WEST**

*Electrical Engineering* Palmyra, N.J.  
*Sigma Phi Epsilon*—secretary; Band; IRE; Sailing Club.

**GEORGE WHARRY, JR.**

*International Relations* Larchmont, N.Y.  
*Psi Upsilon*; Hockey Club.

**GAYLORD G. WHITAKER**

*Finance* Pittsford, N.Y.  
*Kappa Alpha*.

**DOUGLAS L. WHITE**

*Electrical Engineering* York, Pa.  
*Delta Phi*; IFC; Pi Mu Epsilon; IRE; Deans List.

**THEODORE GEORGE WIDMAYER**

*Accounting* Yonkers, N.Y.  
*Sigma Phi Epsilon*; Alpha Kappa Psi—treasurer; Golf—manager; Accounting Society; Radio Workshop; Canterbury Club.

**KARL EUGENE WIELER**

*Elec. Eng. & Eng. Phys.* Kew Gardens, N.Y.  
*McClinic-Marshall B-2*; Rifle Team, freshman; AFROTC Rifle Team; IRE; Radio Club; Sabre Society.

**WILLIAM ARTHUR WIENER**

*Mechanical Engineering* Trenton, N.J.  
*Sigma Alpha Mu*; Cheerleader—captain; ASME; Mustard & Cheese.

**STANLEY JOEL WILKER**

*Industrial Engineering* Great Neck, N.Y.  
*Tau Delta Phi*—secretary; IFC; AIEE; Hillel.

**LLEWELLYN ROBINSON WILLIAMS**

*Marketing* Milford, Conn.  
*Beta Theta Pi*—vice-president; Who's Who; Football — co-captain; Track, freshman; Scabbard & Blade.

**OWEN THOMAS WILLIAMS**

*Electrical Engineering* Knoxville, Tenn.  
*Taylor B*; Track—manager; Cross-Country—manager; Wrestling—JV; Camera Club; Alpha Phi Omega.

**CHRISTOPHER WILSON**

*Accounting* Royersford, Pa.  
*Town*.

**JOHN ROBERT WINCHESTER**

*Chemistry* Warwick, N.Y.  
*Beta Theta Pi*; Football—freshman; Baseball, freshman; Student Chemical Society; SAME.

**JOHN BARNUM WINGATE**

*Mechanical Engineering* New York, N.Y.  
*McClinic-Marshall B-3*—secretary-treasurer; RHC; Freshman Class Cabinet; ASME; Camera Club.

**DONALD ARTHUR WITMONDT**

*Finance* Teaneck, N.J.  
*Sigma Alpha Mu*; Accounting Society.

**PAUL SPRAGUE WOLBACH**

*Industrial Engineering* Bethlehem, Pa.  
*Town*; Town Council; ALO; AIEE—treasurer.

**SCOTT EDWARD WOLLASTON**

*Met. Eng.* New Rochelle, N.Y.  
*Beta Theta Pi*; WLRN; Sophomore, Junior Class Cabinets; Swimming—captain; Metallurgical Society; Scabbard & Blade; Sailing Club; Newman Club.

**DONALD ALEXANDER WOOD**

*Electrical Engineering* Wayne, Pa.  
*Richards 2-B*; Gryphon Society—treasurer; IRE.

**JOHN ELLSWORTH WRIGHT**

*Civil Engineering* Wheeling, W. Va.  
*Sigma Chi*—vice-president; Tennis—freshman captain; ASCE.

**JOHN G. WUCHENICH**

*Industrial Psychology* Pittsburgh, Pa.  
*Town*; Chapel Choir; Fencing—freshman; Psychology Club.

**DONALD JAMES YOUNG**

*Mechanical Engineering* Scarsdale, N.Y.  
*Town*; ASME.

**JOHN GEORGE ZAJACEK**

*Chemistry* Bethlehem, Pa.  
*Town*; Town Council; Arnold Air Society; Student Chemical Society; Deans List.

**RICHARD JOHN ZVITKOVITZ**

*Accounting* Allentown, Pa.  
*Town*; Town Council; ALO; Accounting Society; Newman Club.

# The 1958 Epitome

*Editor-in-Chief* ..... CARL F. SCHIER, III  
*Business Manager* ..... STEPHEN SELTZER  
*Managing Editor* ..... RICHARD K. BERNARD
