THE  
SIXTY-SIX  
**EPITOME**  
LEHIGH  
UNIVERSITY  
BETHLEHEM, PA.

# DEDICATION

*Lehigh has completed its first century of existence. Everyone associated with the University—the faculty, administration and the students can look back with satisfaction to the many and varied achievements of this proud academic institution.*

*But Lehigh is also meeting the challenge of the future, as can be seen by the present construction of dormitories, classrooms, and athletic facilities.*

*At this point, the staff of the 1966 EPITOME would like to single out a man who has striven hard to bind together the faculty to student to administration relationship. An avid sports fan, dedicated worker, and loyal friend to anyone who has come in contact with him, the achievements in the career of this man stand out nobly and exemplify the many accomplishments in this one hundredth year of existence of Lehigh University.*

*It is with great pride that we dedicate the 1966 Epitome to DEAN CHARLES W. BRENNAN, Dean of Students of Lehigh University.*

## TABLE OF CONTENTS

*Up campus . . .  
Down campus . . .  
across the street,  
square, or round.*

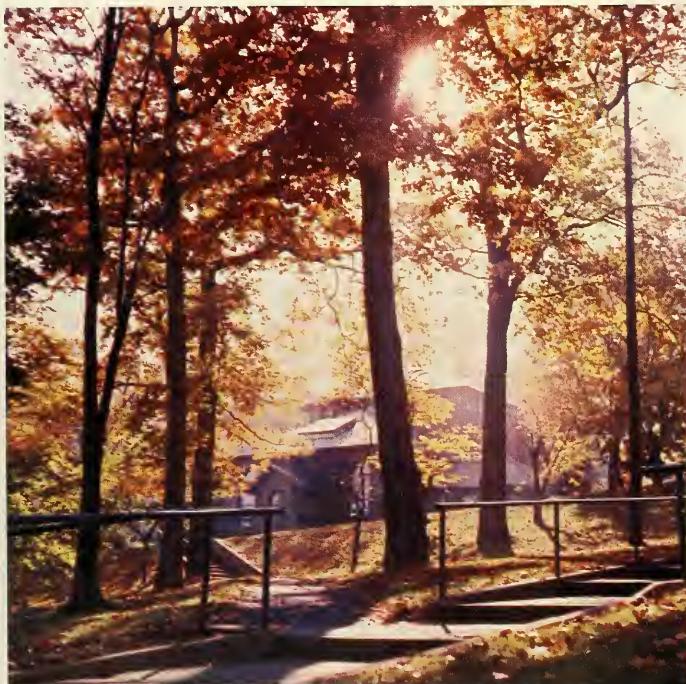

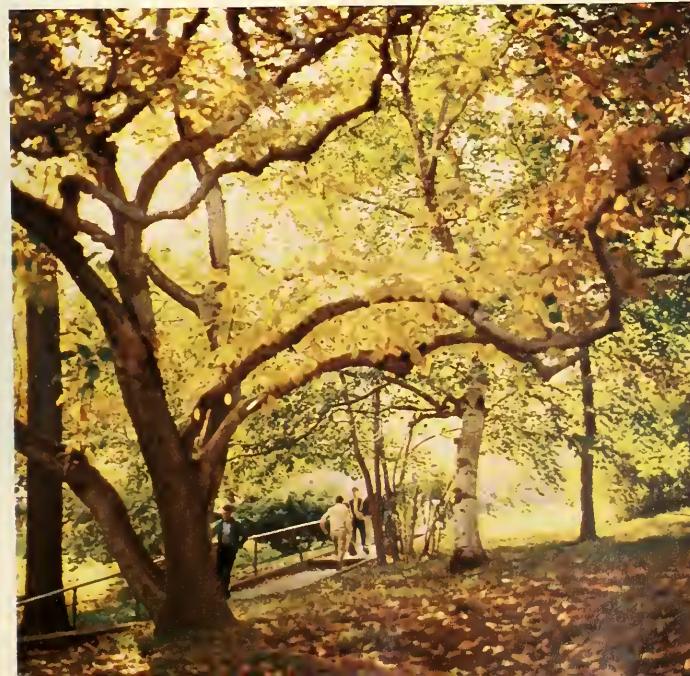

*And inside the men  
who study, work, teach,  
guide and direct.*

*It began with  
Asa Packer  
100 years ago ...*

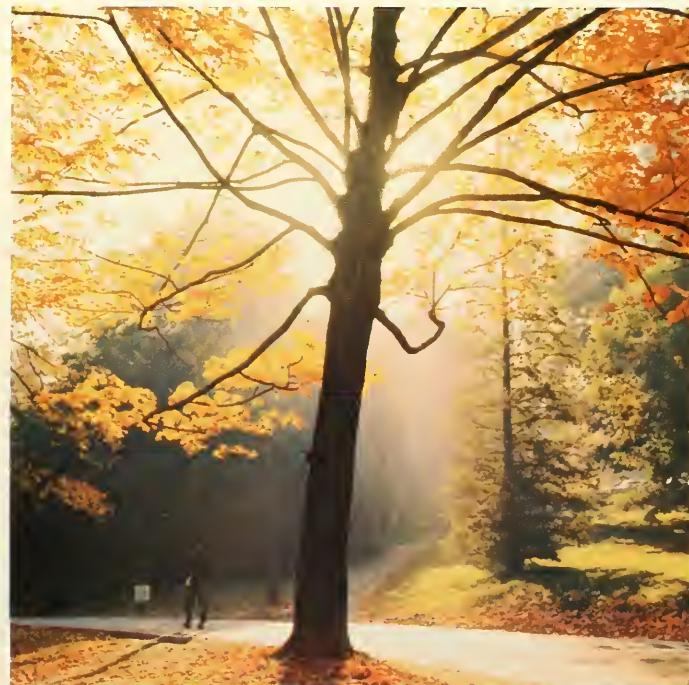

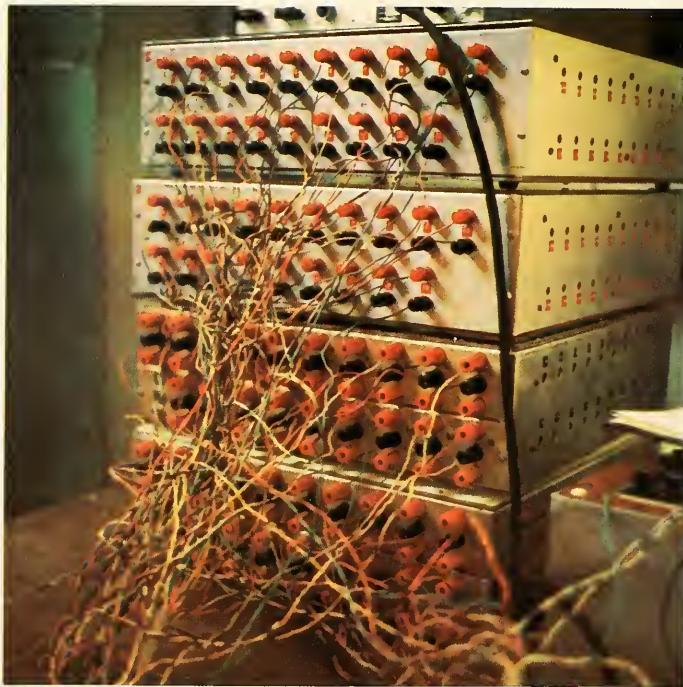

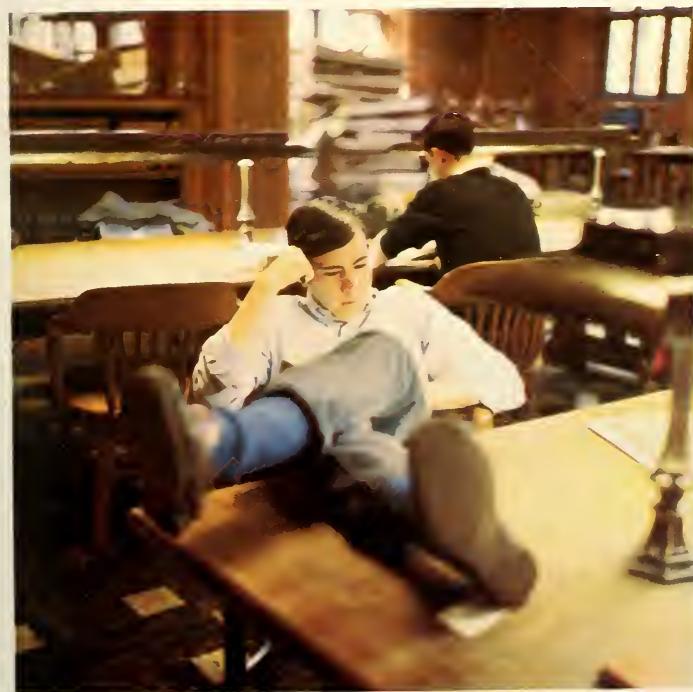

*many men have  
come and gone . . .  
success and failure.*

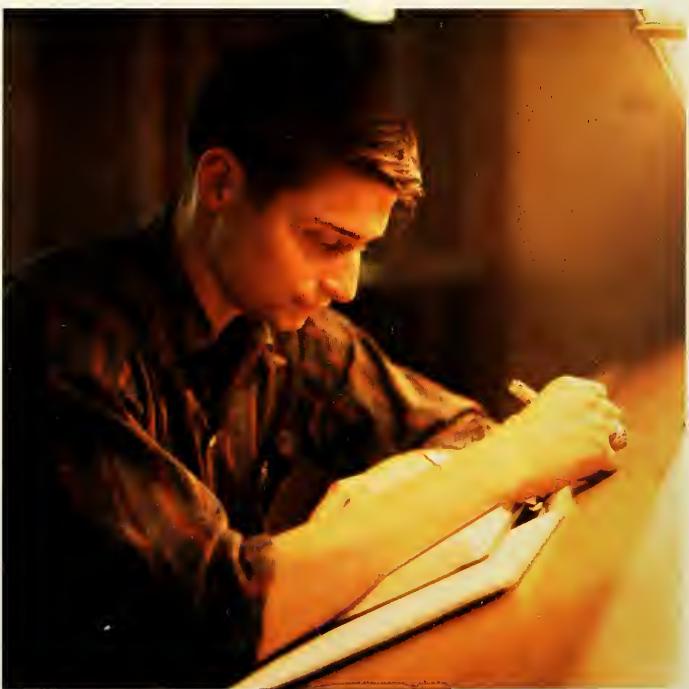

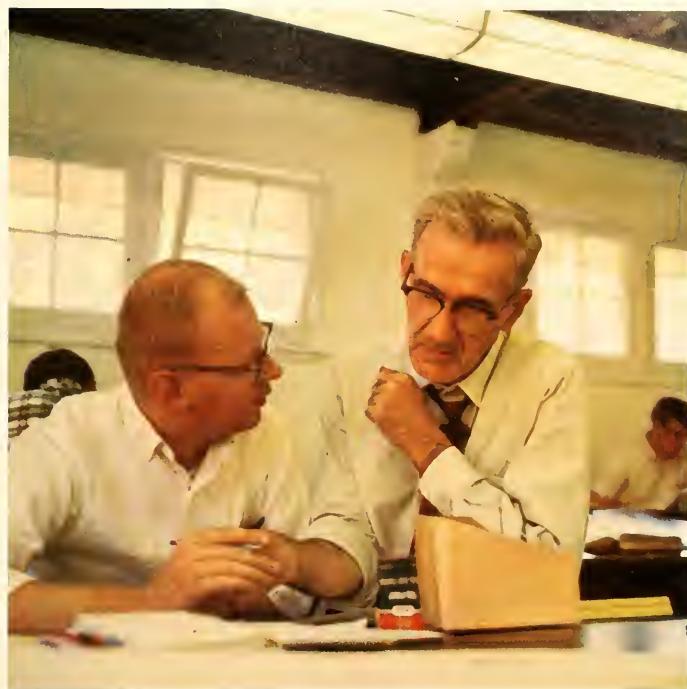

*For four years  
you study . . .  
worry . . .  
and sweat.*

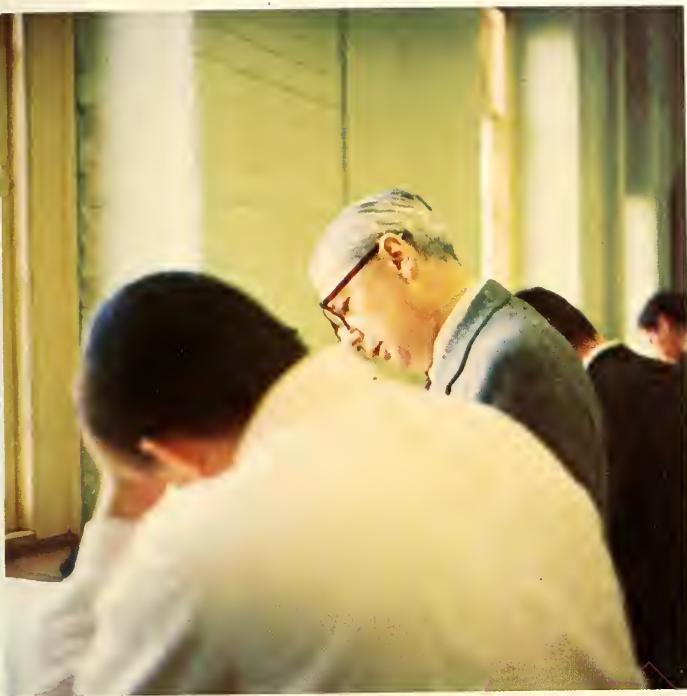

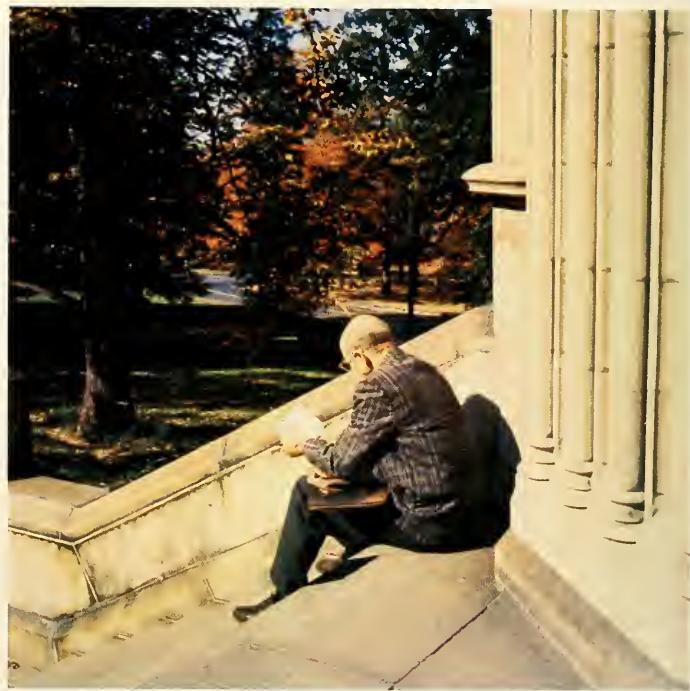

*Well, some  
people do.*

*All week you titrate . . .  
speculate . . . calculate  
and meditate.*

*Finally comes  
the weekend  
and TGIF.*

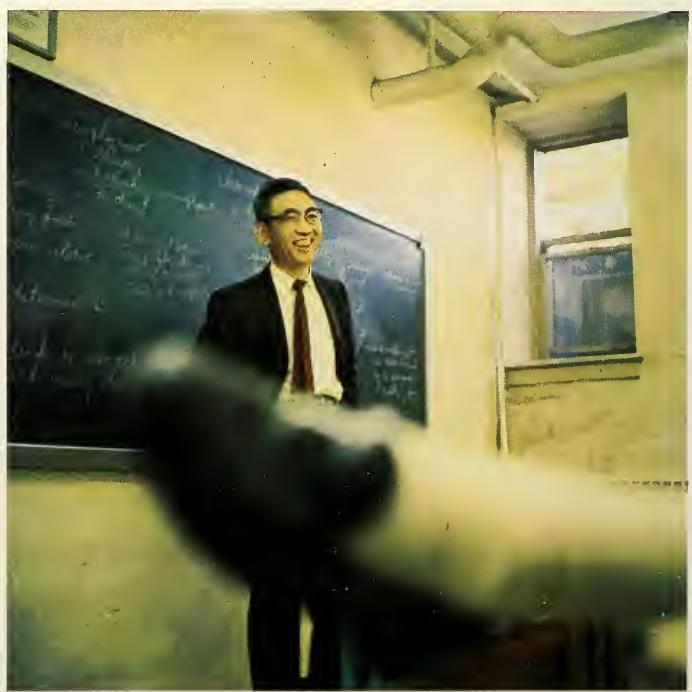

*Time to relax  
and unwind ...*

*enjoy life  
savor the  
finer things . . .*

*and release the  
week's tension.*

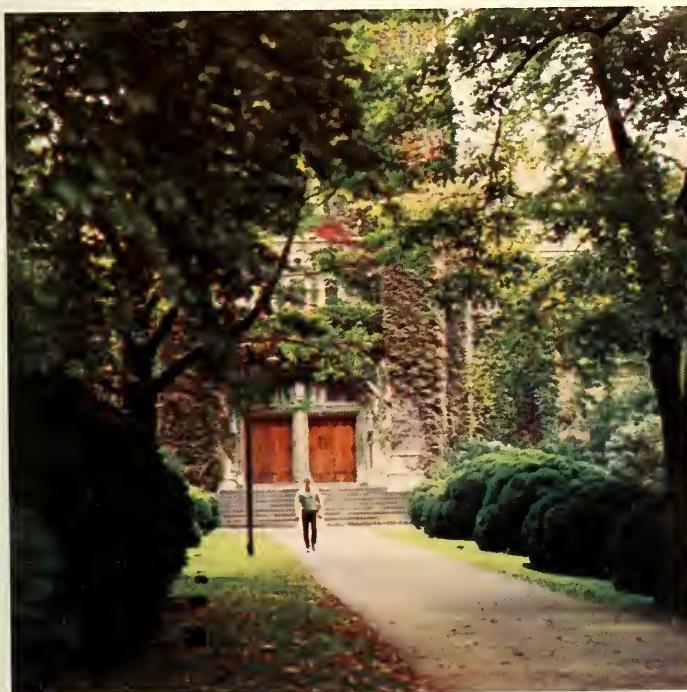

*Through it all  
runs a mad  
combination of  
reponsibility ...*

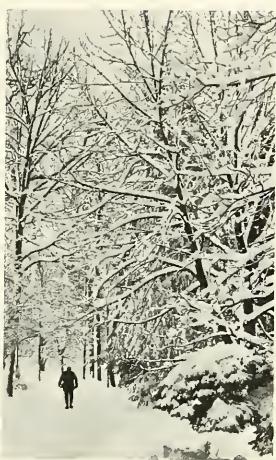

*and "really care" . . .  
of brilliance  
and bull sessions . . .  
of gamma functions . . .  
and guitars.*

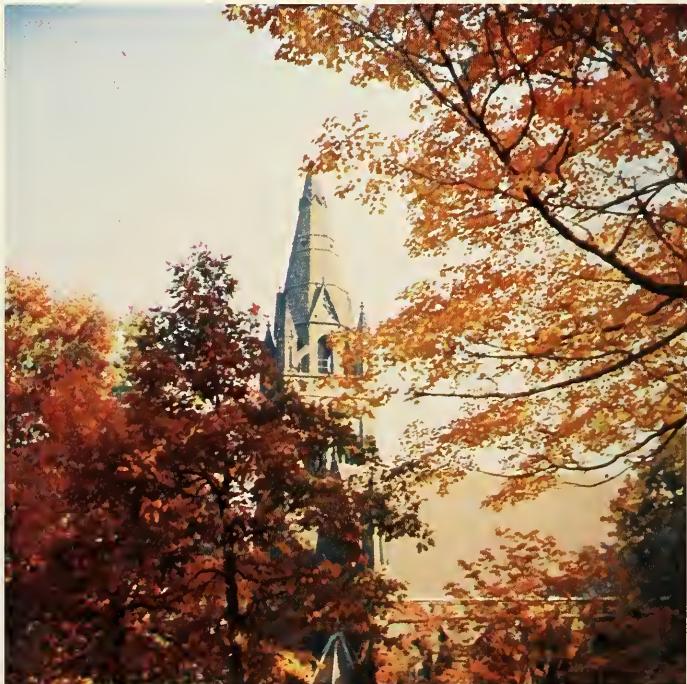

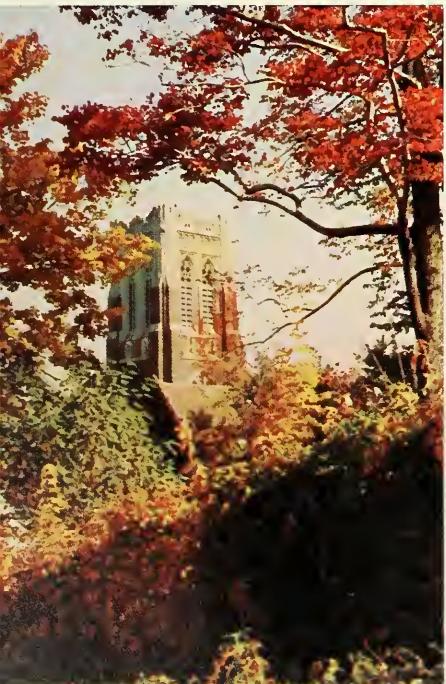

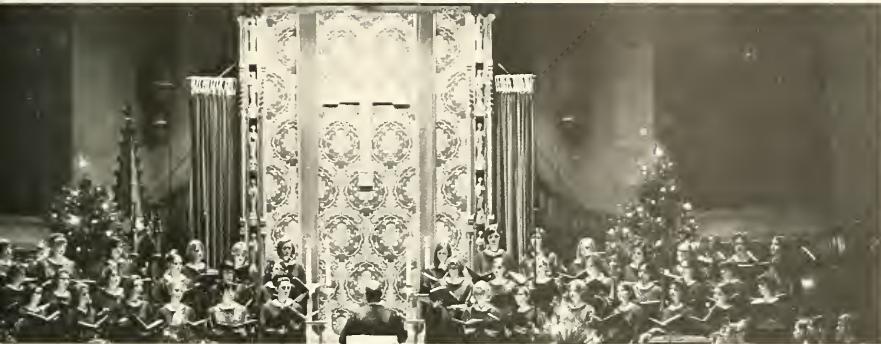

*As soon as it began . . .  
the process of learning . . .  
is over, and you're a second  
semester senior . . .  
and you wonder.*

## ADMINISTRATION

One of the highlights of the 1965-66 academic year was the inauguration of Dr. W. Deming Lewis as tenth President of Lehigh University. The University is indeed fortunate to have a man with so many interests and activities at the helm as Lehigh embarks upon

its second/century of progress.

Dr. Lewis has three degrees from Harvard University and attended

Oxford on a Rhodes scholarship. The holder of 33 United States patents, he has worked as managing director of systems studies for Bellcom, Inc., and was a member of the co-ordinating committee for the Apollo moon project.

The President has set forth a general plan for the growth and development of the University. In his inauguration speech, Dr. Lewis stated: "The present structure of three undergraduate colleges with great flexibility for curriculum interchange provides a strong base for development of future undergraduate courses and programs. That such development must take place goes without saying . . . It is, in any case, clearer than ever in this age of exploding knowledge that

we cannot prepare men for life by the inculcation of specific techniques and information alone. We must in the future place even greater emphasis on developing the powers of the intellect and on understanding fundamentals . . . these then are the seeds of the program for Lehigh. We will toil at the cultivation and hope that the harvest is good."

## PRESIDENT

During a quiet moment, the President relaxes and ponders the past two years at Lehigh.

To help him with his many duties, President Lewis has an efficient staff always willing to help.

MONROE J. RATHBONE, retired Chairman of the Board of Standard Oil of New Jersey, has a vital part in the management of Lehigh as Chairman of its Board of Trustees.

*Corporate Members Emeriti*

WILLIAM LAWRENCE ESTES, JR.  
NEVIN ELWELL FUNK  
ROBERT EDWIN McMATH  
FRANK WILLIAM STERRETT  
ANDREW EDWARD BUCHANAN, JR.

*Corporate Members*

MONROE JACKSON RATHBONE  
HUGH PAUL McFADDEN  
ALFRED VANSANT BODINE  
FRANK LYNN MAGEE  
LEONARD MEAD HORTON  
EDWARD A. CURTIS  
\*ALBERT BRISTOL MAGINNES  
HENRY RANDOLPH MADDOX  
KENNETH LOTHaire ISAACS  
IVOR DONALD SIMS

## BOARD OF TRUSTEES

*Members Elected by Alumni*

RALPH LAWRENCE WILSON  
EDWARD L. FORSTALL  
EDWIN HENRY SNYDER  
GEORGE DOUGLAS REED  
WILLIAM FREDERIC COLCLOUGH  
FRANK CORNELIUS RABOLD

*Appointed Trustees*

STIRLING MURRAY RUST, JR.  
EDMUND FIBLE MARTIN  
LEONARD JEROME BUCK  
LEONARD PARKER POOL  
EDWIN HAYS GOTTL  
ALLEN CORSON DUBOIS

*\*Deceased*

GLENN J. CHRISTENSEN, Vice President and Provost, has been affiliated with the University for many years, first as an English teacher and later as Dean of the College of Arts and Science.

Vice-President for the Administration, CHARLES A. SEIDLE is known to many students because of his active interest in campus affairs.

PAUL J. FRANZ, Vice-President for Development.

Dean of Students CHARLES W. BRENNAN and Assistant Dean ARTHUR H. MANN are no strangers to Lehigh students.

Dean CLARENCE B. CAMPBELL is in charge of all new residence hall complexes.

Dean ARTHUR H. MANN is in his first year at the University as Assistant Dean of Students.

Very popular among the students is Assistant Dean WILLIAM QUAY.

Dean PRESTON PARR serves as liaison between the University and many of the student groups using its facilities.

Professor GEORGE JENKINS, Director of the Institute of Research, coordinates all research done at the University.

Admissions Office—JAMES W. McGEADY, E. A. WATTERS, SAMUEL H. MISSIMER, Director of Admissions.

Well known to the students who have scholarships is Executive Secretary to the Committee on Undergraduate Financial Aid, THERON L. KROPP.

ANNE FLANNERY, JAMES D. MACK, Librarian and ROBERT S. TAYLOR keep the Lehigh Library up to date in research information.

ROBERT A. HARRIER, Executive Secretary of the Alumni Association and HARRY RAMSEY, direct the University's Alumni activities.

JOHN W. MURPHY, Director of Publications and ROBERT COLE produce the many publications put out by the University.

The tremendous job of issuing all of the class schedules is the task of Registrar JAMES H. WAGNER.

ROBERT NUMBERS, Superintendent of Buildings and Grounds, PAUL T. MILLER and KENNETH ORBEN oversee the maintenance of the physical plant of the University.

In charge of the Health Center are DR. JOSEPH G. POMPONIO, DR. GEORGE W. MCCOY, Director of the Health Service, and DR. LADD E. HOOVER.

SAMUEL I. CONNOR, Director of the Office of Public Information.

The Health Center's physiotherapist, JIM MATHEWS, is a friend to every student with incurable aches and pains.

Office of Placement and Counseling—MICHAEL P. SOLTYS, EVERETT A. TEAL, Director; ROBERT R. PANOS, WILLIAM J. SIBLEY.

University Center receptionist  
MRS. MARGARET BIRD.

EDITH A. SEIFERT, Bursar, is in charge of seeing that all bills owed to the University are paid on time.

## ARTS AND SCIENCES

W. ROSS YATES, Dean of the College of Arts and Science.

In November, 1953, with the number of students in the College of Arts and Science a mere ten per cent of the enrollment in the entire University, a committee was formed and given the charge: ". . . look into anything, talk with anybody, make any recommendation in the interest of a stronger college." The Arts College Committee consisted of Professor Parker of the Biology department, Professor Ziegler of the Philosophy department, Professor Tresolini of the Government department, Professor Christensen of the English department, and Mr. Mack, the Librarian.

In 1956, Professor Christensen became Dean of the Arts College and director of the combined Arts-Engineering curriculum. Under his leadership and overall team effort, the enrollment has increased to an all time high. As a result, Dean Christensen was named Vice President and Provost of the University and was succeeded by Dean W. Ross Yates, noted for his work on the history of the Lehigh Valley.

The College has continued to thrive under Dean Yates' leadership. Everyone associated with the College is anxiously awaiting the beginning of construction of the new Liberal Arts building. Dean Yates once stated that the role of the College of Arts and Science is to make Lehigh University just what the name implies—a University. Under his present leadership the College is doing its part in the expansion of Lehigh University.

While continuing to offer its normally strong undergraduate program, the Biology Department considerably strengthened its graduate activities. In addition to carrying out independent projects dealing with such varied and esoteric areas as invertebrate chemoreceptors and proprioceptors and reclamation of acid waters using cement stack dust, members of the department contributed to the work of the Marine Science Center as well.

The department, founded in 1904 by Dr. R. W. Hall, has been expanding ever since. In 1959, under the direction of present head Dr. Saul B. Barber, the department began a cooperative effort with the Geology Department and the Institute of Research. The problem concerns the possible effective uses of the Delaware River, with regard to industry, reclamation, and water supply. The group conducting the investigations is known as the Water Resources Research Council, and it is primarily concerned with biological activity in the river. Several of the more specific problems that have been covered, or will be covered in the near future are the recovery of acid water in the Poconos, the development of automatic equipment for the recording of variables in the river water, and the problems created by the heated industrial water being present in the river.

## BIOLOGY

*First row: Richard G. Malsberger, Sidney S. Herman, Keith E. Chave.  
Second row: Hayden N. Pritchard, Francis J. Trembley, Basil W. Parker, Saul B. Barber, Head of Department.*

*First row: Albert Mazurkiewicz, E. Reddin, Mrs. A. Rinehart, N. Sam, Natt Burbank. Second row: J. Bingeman, P. Jones, C. Versacci, Robert Piatt, Charles Guditus. Third row: John A. Stoops, Head of Department.*

## EDUCATION FINE ARTS

*Francis J. Quirk, Head of Department; Richard J. Redd.*

Lehigh's commitment to the study of education preceded the establishment of formal offerings in that field. Courses in "Pedagogy" and "History of Education" were given as early as 1903. In 1932, the Department of Education was formed as Harold Thomas began a tenure as department head which was to last 30 years. Dr. John Stoops assumed leadership in 1962 and is serving as dean of the newly created School of Education.

Events of the last decade are indicative of the giant step which the former department has taken. The first successful candidate received the doctorate in education on Founder's Day of 1963. The department has undertaken a program to prepare instructors for teaching in community colleges. In addition, it has started a program in Bethlehem schools of using the new Initial Teaching Alphabet. This year, the Pennsylvania Department of Public Instruction expressed its confidence in Lehigh's education program by giving it complete freedom to experiment with new methods of teaching.

Tradition has it that Gustavus Grunewald occasionally taught at Lehigh. That would be in the 19th century. Courses in architecture were offered by the School of Technology in 1889 and abandoned in 1897. Two years later, Emil Gelhaar conducted drawing and painting classes which terminated in 1918.

As late as 1926, freehand drawing—as a sort of engineering drawing—was rated as one-half credit course. Then in 1927, Assistant Professor Garth Ahyman Howland, head of the department presented six courses—two studio, two history of painting, and two architecture.

Dr. Francis J. Quirk, the present head of the department, capitalized on Professor Howland's well founded organization and added a full time man to staff the increased courses and develop a major program. Dr. Quirk also established the University's Permanent Collection. Under a proposed 20-year program of bringing art out of the studio and clear across the campus, a pattern was evolved to locate the best available art where most people gather.

*First row:* R. L. Johnstone, C. F. Strauch, P. Marx, P. M. Moisiades, G. B. MacDonald, D. M. Greene, A. E. Hartung, J. B. McFadden, E. N. Dilworth, J. A. Hertz, H. E. Cole, S. D. Ramsey. *Second row:* J. C. Hirsh, H. C. Moonschein, R. M. Cook, D. C. Brown, A. A. Rights, F. S. Hook, J. Burke Severs, *Head of Department*; J. F. Vickrey, J. A. DeBellis, H. Barrett Davis. *Third row:* R. J. Sullivan, G. R. Keiser, J. C. Zacharis, G. J. Dullea, C. Criswell, T. V. Barker, P. G. Beidler, R. E. Layden, J. R. Frakes, R. L. Armstrong, E. A. James, J. R. Baker, W. A. Digel.

## ENGLISH

The Carnegie Foundation concludes one of its reports with the observation that "incompetence in English is responsible each year for more failures among engineers than inaccurate mathematical calculations." The primary aim of the English Department at Lehigh University is to teach engineers and business students how to use the English language.

The department makes its first aim the teaching of "effective written and oral English." It recognizes no difference between Engineering English or Business English and good English. It assumes that the student who cannot prepare a good essay on Shakespeare cannot successfully present an engineering report or a business paper. The courses are designed to meet the needs evident at Lehigh, and likewise to provide the general foundation which has become essential to the enterprising engineer or business man as to the professionally inclined arts graduate.

*First row: Lynton S. Land, Paul B. Myers, R. T. Gallagher. Second row: Dale R. Simpson, Nelson G. Eby, George H. P. Popper, Mrs. Lucy Force, Kenneth B. Layton, Miss Jane Gallena, J. Donald Ryan, Head of Department.*

## GEOLOGY

The Department of Geology was organized in 1866, at the opening of the University by the appointment of William Theodore Roepper as professor of mineralogy and geology. Professor Roepper is known principally as the discoverer of zinc ore at Friedensville which inaugurated one of the important mining and metallurgical industries of the Lehigh Valley. Since his term of service, many distinguished men have taught in the department, including Edward H. Williams, Dr. Joseph Barrell and Dr. John Irving. The present head of the department is Dr. J. Donald Ryan.

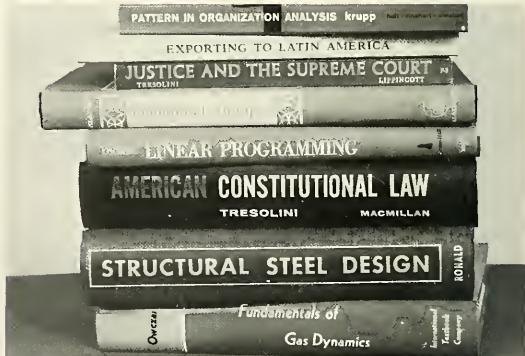

The department has several aims: First: Geology is taught as a cultural subject to those men who have time to take only one or two courses. Second: Geology is taught as a technical subject, a useful tool to the engineer who must employ its principles. Third: In addition to the instructional work of the department, the members of the staff are engaged in various kinds of geological investigation. The Geology Department endeavors to act as a sort of clearing house for information concerning the economic mineral products of the region.

The Department of Government is a very recent development at Lehigh. Unlike most colleges which had political science departments separate from history departments, Lehigh had a combined department of history and government prior to 1962. Division occurred in 1962 when the retirement of some faculty members presented an opportunity to accomplish it. The first and present head of the department is Dr. Rocco J. Tresolini, a specialist in constitutional law and the judicial process. With a great amount of research being conducted under its auspices, the department continues to develop and to innovate. A new graduate program was instituted just a few years ago to provide for advanced studies. It also sponsors the Washington Semester Program, which allows a few selected students to conduct research at American University and simultaneously observe the Federal Government in action. Most pre-law students at Lehigh major in government. However, this major is also suitable for undergraduates who may become social science teachers, government officials, party or civic leaders, public affairs commentators or staff members of government research bureaus. Flourishing in its fourth year, the Department of Government continues to develop outstanding undergraduates and to provide excellent service courses to other students.

## GOVERNMENT

First row: Rocco J. Tresolini, Head of Department. Second row: Donald D. Barry, Frank T. Colon, John L. Washburn, Charles E. Patterson.

Prior to 1924, history at Lehigh was one of a group of subjects taught under the general classification of "social sciences." In that year, however, Prof.

Lawrence H. Gipson was brought to the University to establish the Department of History and Government. After Dr. Gipson resigned in 1946, Prof. George D. Harmon succeeded as head of the department.

During Dr. Harmon's term of office, the separate disciplines of history and political science advanced so rapidly, that by the time of his retirement in 1962, the separate Departments of History and Government had to be created. Under the present head, Prof. John Cary, the department is continuing to move ahead.

Future goals include expanding its activities and continuing to offer the Lehigh student a broad education in the discipline of history.

## HISTORY

*First row: John Cary, Head of Department; Joseph Dowling, George W. Kyte, Neal Neamand. Second row: Alfred Myers, David C. Amidon, Raymond Cowherd, John McV. Haight, Edward Cody.*

International relations is continually increasing in importance and wielding a greater influence upon all men.

At Lehigh, the department of international relations is reflecting this trend.

The department has continually grown due to the increased interest in international affairs.

Founded in 1946, the department was first headed by Dr. W. Leon Godshall. Presently the department is headed by

Prof. Carey B. Joynt. The growing interest in international affairs has been demonstrated by the increasing number of I.R. majors as well as interested students outside the department.

There was a mere handful of students in the first years of the department but now there are about fifty majors.

Last year, V. Rodger Digilio added much prestige to the department by winning a Rhodes Scholarship. His achievement ranks as one of the outstanding events in the history of the International Relations Department.

## INTERNATIONAL RELATIONS

First row: J. Foreman, Carey B. Joynt, Head of Department. Second row: A. Dunlap, H. Braddick, O. Smolansky.

*First row: Ronald L. Gougher, Roger P. Lovell. Second row: John S. Tremper, Arthur P. Gardner, John H. Ubben.*

Lehigh University has had a Department of German since it was founded. In 1866, the first year of its existence, Lehigh offered German among its other courses. The 1866 catalog

states "German (begun in the second term) Woodbury's method, writing in the German letter. Conversation. Tabular study of literary and scientific terms in German." In 1910,

Professor Palmer became head of the department, the number of German courses taught increased rapidly and students were advised to take German in preference to other modern languages. The promotion of the German language has continued, so that today, German is taken by approximately as many students as are registered for all other modern languages at the University.

Under the present leadership of John H. Ubben, the German

Department looks to the future with confidence. With the increasing number of advanced level courses, the department hopes to be able to give a master's degree in German in the near future.

## GERMAN

## CLASSICAL LANGUAGES

The large percentage of students who study classical languages seem to prefer them for broadening values rather than actual practical use. Under the direction of department head Dr. Joseph A. Maurer, students learn to appreciate the

Greco-Roman culture through their basic readings in the languages supplemented by study of the history, archaeology, philosophy, art and other aspects of these early civilizations.

Lehigh University is a contributing institution of the American School of Classical Studies at Athens. Since graduates of Lehigh receive free tuition to this school, classical language majors have an excellent opportunity to continue their studies in their chosen field. In a day of the space missile and "Great Society," of secularism and atomic fission, the importance of Plato, Aristotle, Homer, Cicero, and Vergil is not being overlooked.

*Edna S. DeAngeli, Douglas D. Feaver, Joseph A. Maurer, Head of Department.*

Jonathan B. Elkus, Robert B. Cutler, *Head of Department.*

Lehigh was one of the first private colleges to organize a band. Mainly through the efforts of Edward E. Ross, '08, about 15 students borrowed some used instruments, begged some money, and started to play whatever music they could find.

There was then no department of music, and they got little support from President Drinker, who heard them practice. A second-hand bass drum was obtained and was inscribed with the famous university seal. Without uniforms, with few instruments and fewer band scores, they supported all the practice sessions and games played at the University. But acceptance was attained only when their first concert was a success. At this time, both the band and glee club were the same, with the band occasionally adding words to their notes.

Although there is no music major at Lehigh, Professors Robert B. Cutler and Jonathan B. Elkus guide the 97 Marching Men, called the finest in the East, and the Glee Club through many successful performances.

## MUSIC

*First row:* David Trutt, Theodore Hailperin, Gerhard Rayna, Stanley Stephens, Everett Pitcher, *Head of Department*; Andrew Stills, Peter Jessup. *Second row:* William Ambler, George McCluskey, Ralph Van Arnam, Voris Latshaw, Justin Lloyd, Joan Gary, Albert Wilansky. *Third row:* John Levko, Gregory McAllister, Jerry King, Peter Richetta, George Schneller, Edwin Kay, Murray Kirch. *Fourth row:* Edward Cutler, Scott Williams, Wesley Orser, Patrick Dempsey. *Fifth row:* Albert Otto, Robert Taylor, William Ruckle, Murray Schechter, Gordon Caldwell, Stephen Leonard, Joseph Fiore.

## MATHEMATICS

All teachers of mathematics are also students of mathematics," according to Dr. A. Everett Pitcher, head of the Department of Mathematics. The department is one of the largest on campus, and it has enjoyed this honor since the founding of the University in 1865. It has always emphasized research, both on the undergraduate and graduate level. A vast amount of independent study and honors work is offered to those students who qualify.

As stated in the 1930 *Epitome*, "The purpose of the department has been to train the reasoning powers of the student as well as to prepare him in fundamental scientific subjects. Mathematics is the basis of all engineering work and is indispensable to the scientific man; it serves to develop the intellect and the reasoning powers of those studying cultural or economic subjects. The courses offered by the department range through the complete scale of undergraduate work, and also cover the more advanced subjects. The high standard maintained by this department involves drill, explanation, and practice." What was said then, is more certainly true now.

Raymond E. Fuessle, *University Chaplain*; A. Roy Eckardt, *Head of Department*.

# RELIGION

Founded in 1947 with George A. Bean as its first head, the Department of Religion has radically changed in these past 19 years. A. Roy Eckardt, who joined the Lehigh faculty in 1951, is the present head.

The department was started to "strengthen the humanities and to foster spiritual and moral values" after World War II. However, recognizing that the notion of religion as a saviour can be a threat to education, the department chose objectives similar to those of other academic disciplines. With just a difference in subject matter, they aim at "probing the historic and persistent dimensions of life," past and present.

*The Journal of Bible and Religion*, official quarterly of the American Academy of Religion, is edited by the department, and over the past decade, research fellowships have been awarded to members of the staff by the Ford Foundation and the Lilly Endowment.

*First row.* Norman P. Melchert, David M. Reed, Frederick G. Weber, Donald J. Hillman, *Head of Department.* *Second row:* Thomas M. Haynes, Robert F. Barnes, J. Ralph Lindgren, Nicholas M. La Para.

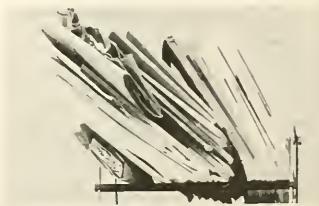

The Department of Philosophy dates back to 1932. It had originally been established in 1931 as a part of the Department of Philosophy and Education. The following year, this department split and the Department of Philosophy became a separate entity with Prof. Percy Hughes its head.

Prior to this time however, many faculty members had held the title of Professor of Philosophy. Dr. Langdon Cheeves Stewardson, for example, was Professor of Philosophy and University chaplain from 1898 to 1903, and endowed the Clara H. Stewardson Professorship in Philosophy. A second endowed chair is the William Wilson Selfridge Professorship of Pure Philosophy, established by Charles William MacFarlane. This post was last held by Dr. Adolf Grunbaum.

The outstanding events in the history of the department are those concerning its recent transformation of method and purpose. In 1962, the department aided in the foundation of the Center for the Information Sciences. Subsequently, in the past three years, the department has expanded its program to include a teaching division of the Information Sciences, and M.A., M.S., and Ph.D. programs in both philosophy and the information sciences.

## PHILOSOPHY

A relatively new department at the University is the Department of Psychology, under its present head, Dr. Francis J. Wuest. But new as it may be, the department has already progressed into many interesting fields. At present, it is working on a three year U.S. Public Health Service grant. Professor Josef Brozek, Professor Eugene A. Craig and several undergraduates are studying the effects of flickering lights on human performance. The doctoral program in psychology is being given renewed emphasis, and graduate courses are being added in order to achieve a firm framework for doctoral studies. Also at present, the department is cooperating with the Information Sciences Center to determine the use scientists make of varied information.

## PSYCHOLOGY

*First row: Arthur L. Brody, Francis J. Wuest. Second row: Josef Brozek, Eugene A. Craig, Martin L. Richter. Third row: George D. Marsh, Theodore Millon.*

The Department of Romance Languages is huddled between the band room, which was once used as a dining hall, and the German and Classical Language departments in Lamberton Hall. Here, the significance of Greco-Roman culture is kept alive in the immensely technological world of the University.

Under the direction of Dr. Allen J. Barthold, the department offers elementary courses in vocabulary and grammar. For the advanced student, French and Spanish literature courses are given in their respective languages. Introductory courses in Italian and Portuguese are also offered.

## ROMANCE LANGUAGES

Fernando Leyton, Victor M. Valenzuela, John VanEerde, Roy Cravzow, George D. Farne, Allen J. Barthold.

## BUSINESS ADMINISTRATION

DR. L. REED TRIPP, Dean of the College of Business Administration.

Twentieth-century Americans live in an era characterized by a fantastic and ever-quickenning growth in business enterprises, but they also live in an era threatened by an ideology radically different from their own. To meet the challenge of this era, our nation is dependent upon a sound and prosperous economic system. The need for well educated businessmen has become of paramount importance and the responsibility of their education has fallen upon the colleges and universities of America.

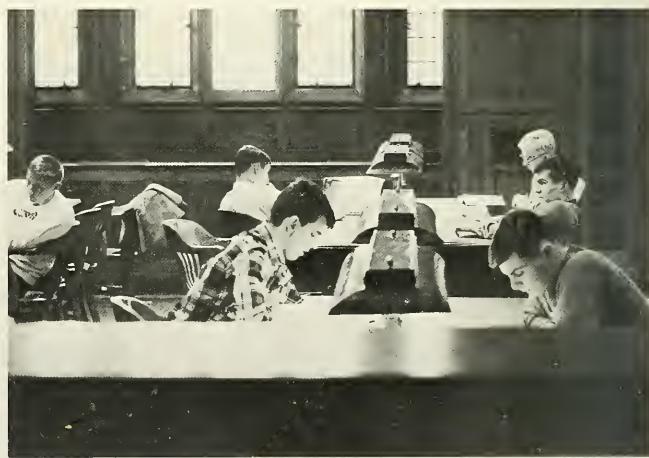

That Lehigh University has met these challenges is evidenced by the excellent quality of the College of Business Administration and its graduates. The graduate of the College of Business is not only a well educated man in his chosen field, but he also possesses a broad background in the humanities and sciences.

Lehigh University must continue to produce outstandingly qualified business graduates. The philosophy of the Business College—incorporating a unique blend of emphasis upon business theory, practical experience and a broad foundation in the sciences and liberal arts—remains instrumental in the professional and personal development of these men. Under the able direction of Dean Tripp, new fields of study have evolved, such as the combined engineering-business degree. Lehigh graduates are becoming an integral part of the business activities of the nation.

*First row: Finn B. Jensen, Acting Head of Department; Clair J. Reilly, Warren Pillsbury, Jon T. Innes. Second row: L. Reed Tripp, Adolph S. Butkys. Third row: Kevin F. Winch, Richard Gonce, Max D. Snider, Frederic Firestone, Anthony Bryski, Elmer C. Bratt.*

## ECONOMICS

By far the most theoretical of the branches of the College of Business, the Department of Economics has subjects in its curriculum often contained and covered in the College of Arts and Science. At least this is what the majority of the economics majors claim. Economics is vital to the understanding of the basis behind the operation of modern business.

Current political events have served to point up the increasingly important role of economics in government, foreign policy, and domestic life. Many students go on for graduate study in economics and then into government posts or teaching careers. No longer a realm of dry statistics, economics, if heeded, may be the key to global development and prosperity.

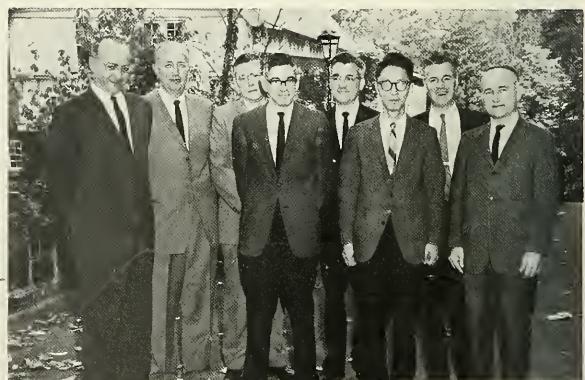

## ACCOUNTING

The Department of Accounting was first identified as a separate unit in the College of Business Administration in 1936, with Prof. Roy B. Cowin as head.

After Professor Cowin's retirement, Professor Wendell P. Trumbull became head of department in 1958. The department includes modest offerings in business law and has had an operating strength of around 8 full-time faculty members for the last decade.

Becoming a certified public accountant is one of the professional aspirations of perhaps two thirds of the graduating accounting majors. Approximately half of the 45-60 graduating seniors are keenly sought and signed by national public accounting firms. It is conservatively estimated that around 200 Lehigh CPA's—whose names it is difficult to keep current on the plaque in Drown Hall—can be found today in the upper echelons of industry, public accounting, and government.

Wendell P. Trumbull, *Head of Department*; Robert H. Mills, Brian G. Brockway, Francis M. Brady, Ralph M. Kraus, Frank F. Luh, Carl L. Moore, Alfred P. Koch.

A relatively new department at the University is the Department of Finance, under the present direction of Dr. Roy J. Hensley. For the arts, business or engineering student, the Department of Finance provides a basic and detailed background in the various aspects of finance. The incredible complexity of modern corporations has aroused the need for men specially trained in the financial aspects of management. Whether it be in the realm of financial institutions, investments or public finance, the student is prepared for the intricacies of modern business.

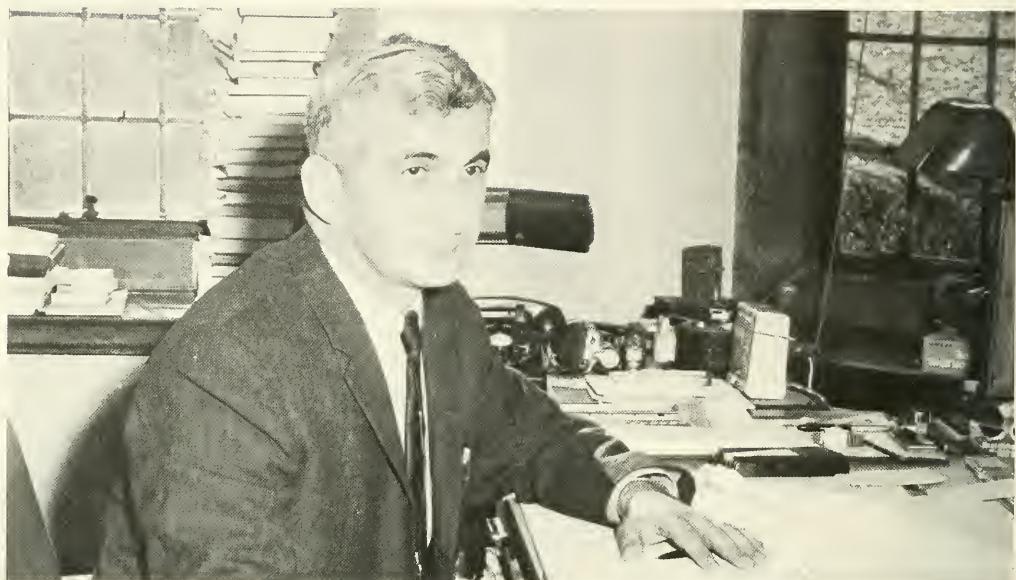

At Lehigh, the student may specialize in a certain field of finance, but still gain a broad background of economic knowledge, an attribute essential for a rapid rise in his profession. Members of the department have turned their eyes on the publishing field, with Professor Eli Schwartz's book on corporation finance being considered a standard text on that subject and Professor Finn B. Jensen currently researching his projected book on the European Common Market.

## FINANCE

Roy J. Hensley, *Head of Department*; Finn B. Jensen, Eli Schwartz, Leon E. Krouse, J. Richard Aronson.

JOHN J. KARAKASH, Dean of the College of Engineering.

# ENGINEERING

The 100th year of existence of the College of Engineering has been one of changes—both in the academic curriculum and the physical plant. Incoming freshmen faced a less rigorous general studies program, in which the only required courses were English 1 and 2 and Economics 3. All other general studies courses will be elective.

Along with the new residence halls, one of the most impressive new structures on campus was the combined

Chemical and Metallurgical Engineering Building located on Packer Ave. The improved laboratory and classroom facilities have increased the output of the already talented engineers.

The sophomore, junior, and senior engineers have continued to live up to expectations as evidenced by the increasing cumulative averages of these classes. They follow a more intensified engineering program in their chosen field, but provision is still made for the man who wishes to change majors. The curricula of many departments are so nearly parallel that transfer can

often be made without serious loss of credit.

There is ample opportunity for the man who is interested in broadening still further his basic education. To aid in the gathering of practical experience, cooperative programs of study and industrial employment, industrial inspection trips, and summer industrial employment opportunities are made possible. The two degree-five year programs provide the chance for study leading to an engineering degree in conjunction with a second engineering degree or a

degree from the Business or Arts College.

Under the direction of John J. Karakash, the College of Engineering through its comprehensive program of education, continues to provide for the rounded engineer in the basics of his chosen field. At the same time, the College seeks to aid in industrial research and to maintain its excellent reputation for progressive education.

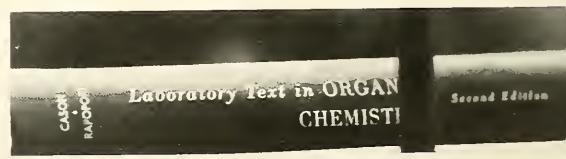

*First row: Edward D. Amstutz, Robert S. Sprague, Joseph R. Merkel, Charles S. Krahanzel, Velmer B. Fish, William E. Ohnesorge. Second row: Roland W. Lovejoy, Thomas E. Young, James E. Sturm, Irving J. Borowitz, Jerome Daen, Thomas R. Ortolano.*

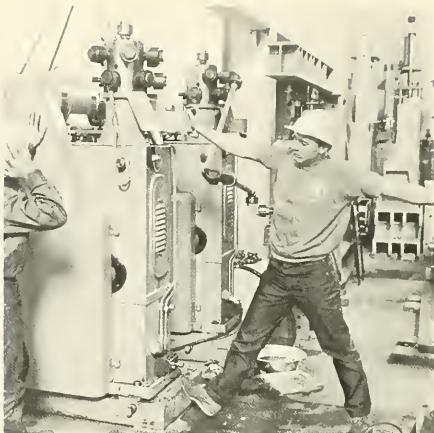

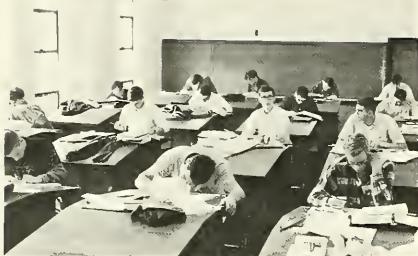

## CHEMISTRY

For a hundred years, a clan of alchemical apostles has been making stinks and using deaf-and-dumb signals on the slopes of South Mountain. Dr. Charles Mayer Wetherill was the first professor of chemistry in the new school founded by Judge Asa Packer in South Bethlehem. Classes started at Lehigh University, Sept. 1, 1866 in one building—Christmas Hall—with twenty-five students, four professors, three instructors and one janitor.

During this period of 1866-1966 Lehigh chemists, professors and students have made some progress toward the goals of the alchemists: (1) to create better materials out of simple ones, (2) to improve health and welfare. Both analysis and synthesis are approaches to these ends. With increasing ability to understand industrial equations like  $A+B=\$$ , there result more funds and tools to tackle deeper problems. The study of the flicker of flat flames, making better patent leather, unbreakable cigars and synthetic paint brushes were passing projects in a long line of challenges. Horizons broaden, as new tools, costing a thousand times more than the old ones, are used to probe farther and deeper into nature's puzzles. Along the way, the department is proud of the fact that three Rhodes Scholars and leaders of the nation's largest industries have come from Chandler Laboratory. Thousands of young men have been fired by the investigative spirit, and a goodly number have felt that if they were not chemists, they would be ashamed of themselves.

## CIVIL ENGINEERING

*First row: B. T. Yen, Joseph A. Yura, L. W. Lu, George C. Driscoll, John R. Adams, Lynn S. Beedle, Alexis Ostapenko, John B. Herbich. Second row: John A. Mueller, David A. VanHorn, David R. Basco, Peter B. Cooper, John W. Fisher, Roy J. Leonard, George A. Dinsmore, Arthur W. Brune.*

Lynn S. Beedle, *Director of Fritz Lab*; William J. Eney, *Head of Department*; Cornie L. Hulsbos, *Research Director*.

It was the intention of Asa Packer, in founding the University, to afford young men the opportunity of an education for those professions represented in the development of the resources of the Lehigh Valley. In pursuance of this plan, the course in Civil Engineering was one of the first outlined and organized. The purpose of the curriculum offered by the department has always been to give a broad education in those general and scientific subjects which form the foundation of all engineering, and a special training in the field of Civil Engineering.

Besides having theoretical instruction in the classroom, the students have an opportunity—through the Fritz Engineering Laboratory—to not only carry on tests in engineering materials and hydraulics, but also keep in touch with experimental investigations on many notable engineering structures. At the Laboratory, extensive tests have been conducted on the cables and suspender ropes of the Philadelphia-Camden and Detroit River suspension bridges, the lining castings of the Holland Tunnel in New York City, and most recently, the communications satellite Telstar.

Meeting the modern-day need, the department of Civil Engineering is turning out more highly trained and qualified civil engineers at an increasing pace.

First row: Leonard A. Wenzel, Head of Department; Robert W. Coughlin, Curtis W. Clump. Second row: William E. Schiesser, Fred P. Stein, Gary W. Pochlin.

The Chemical Engineering Department was founded in September, 1951. Although not in a department status, a Chemical Engineering curriculum has existed in the Chemistry Department since the early 1920's. In their tenure as heads of the Chemistry Department, Dr. Harry Ullmann and Dr. Harvey Neville have been responsible for the curriculum and advising their majors.

The move to the new Whitaker Laboratory this year has been a big step in the history of the department. However, the department's move into the Ullmann Wing of the Chemistry Building was just as important when it took place in the early 1920's. The new Whitaker Building consists of classrooms, laboratories, seminar and conference rooms, departmental and faculty offices, study rooms and service facilities. It also houses a 225-seat auditorium and lecture hall. This building is equal to the home of any Chemical Engineering Department in the country.

Excellent facilities in the Whitaker Laboratory will help to better fulfill the goals of the department. These goals will continue to be the education of students in Chemical Engineering to the highest standards of professional excellence, whether this will be at the B.S., M.S., or Ph.D. level.

## CHEMICAL ENGINEERING

## INDUSTRIAL ENGINEERING

In 1950, the Industrial Engineering Department was officially founded. It had previously been part of the Metallurgical Engineering Department. From this beginning, the department has grown and expanded under the direction of its first head, Arthur F. Gould, for the past 16 years.

Since 1957, the administration of computers has been placed in the hands of this department. Further improvements and additions include the initiation of summer seminars in 1961 for industrialists so that they may be kept abreast of new developments in their particular fields and the extra courses started in 1962 leading to master's degrees for participants from the Western

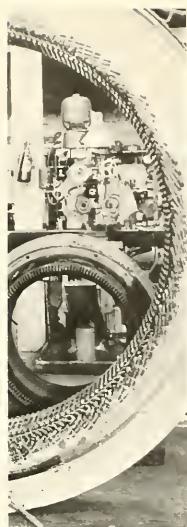

Electric plant in Allentown. A program leading toward a doctorate and further expansion of the summer seminars appear to be the chief aims in the next decade.

*First row: George E. Kane, John J. Burbidge, A. F. Gould, Head of Department; W. J. Richardson. Second row: George L. Smith, John W. Adams, Gary E. Whitehouse, William A. Smith. Third row: David A. Riemondy, John O. Landis, Michael P. Lipman.*

*First row:* Leslie McCracken, Ivan Sacks, Charles H. Nehf, Jia-Ming Li, Luther S. Ditman, Jean C. Juvet. *Second row:* Daniel Leenov, Donald Talhelm, Carl Holzinger, Arthur Larky, John J. Karakash, *Head of Department*; Walter Dahlke, Nikolai Eberhardt.

## ELECTRICAL ENGINEERING

Lehigh University was one of the first institutions to offer a course in electrical engineering. The register of 1883 shows the first offering of a one year course in applied electricity. Several of the graduates from this short course were pioneers in the field of electronics and had many notable achievements. Until 1903, the course in electrical engineering was administered in connection with the Department of Physics, under the direction of Professor W. S. Franklin. In that year a distinct department was created under the leadership of Professor William Esty, who served in this capacity until his death in July, 1928. These two professors were pioneers in the writing of textbooks adapted to the teaching of electrical engineering. The department is moving still further under the guidance of present head, John J. Karakash, who is also dean of the College of Engineering.

The curriculum now offered aims to lay a broad foundation in the physical sciences and mathematics, with further provision for specialization in applied electricity. The elementary courses of the other branches of engineering are included, as are certain courses in the arts and business. Specialization begun in the junior year is carried throughout the course. During these years, electives in special fields such as radio, high voltage transmission, transients, and data processing are available. In all courses, laboratory and problem work is stressed.

*First row: D. Updike, G. Smith, A. Perlman, M. Kassir. Second row: R. Regl, R. Raver, F. Erdogan, A. Kalnins, U. Yuceoglu. Third row: R. Hartranft, J. Osborn, W. Henkel, A. DeNeufville, W. Lennox.*

## ENGINEERING MECHANICS

In 1955 the Division of Engineering Mechanics was made a department separate from civil engineering for the first time.

Seeking to improve applied mechanics through analytical research, both the faculty, headed by Prof. Ferdinand P. Beer, and the students are engaged in theoretical research.

The mechanics major uses the same tools as his fellow engineers, but he guides them in a different direction. Using much more theoretical mathematics, physics, and analytical ability, he seeks a greater knowledge of engineering principles.

Instead of using the universal testing machine to determine whether a steel beam will be strong enough for use in a building, the engineering mechanics major wants to know how the metal is torn, how the strains are distributed in the beam, and how a change in shape would enable it to withstand greater pressure.

*First row:* Russell E. Benner, Jerzy A. Owczarek, Ralph H. Long, *Head of Department*; Thomas E. Jackson, James V. Eppes. *Second row:* Luis Pujol, Lawrence P. Golan, Alan H. Stenning, Benjamin E. Nevis, Theodore A. Terry.

Founded in 1881, the Department of Mechanical Engineering was first directed by Joseph Frederic Klein. In 1927, the same year the Lehigh chapter of the national Mechanical Engineering honorary was established, James Ward Packard donated \$1 million to the University for the new Electrical and Mechanical Engineering Laboratory that has come to be known as Packard Lab.

Heads of the engineering departments toured all the major engineering schools to gather ideas for the lab, and then, in 1928, when the plans were formulated, Packard donated another \$200,000. The first classes were held in Packard Lab Sept. 19, 1929. When it was formally dedicated the next year, it was the most modern structure of its time.

As Ralph H. Long, the present head of the department, has said, its goals are to provide a high quality educational experience both at the graduate and undergraduate levels. During the last few years, graduate studies especially have improved tremendously.

## MECHANICAL ENGINEERING

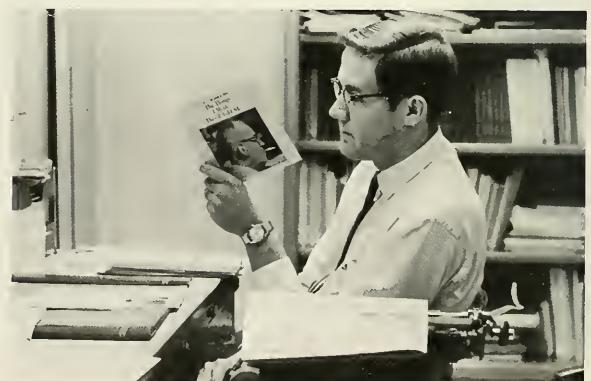

Metallurgical training must contain a broad foundation in engineering principles, together with an intimate knowledge of the properties and nature of metals, which form the most important class of engineering structural materials. Graduates in metallurgical engineering may undertake any of three different types of professional work—manufacturing metallurgy, research work, or sales engineering. This diversity of professional life necessitates a very wide choice of electives, so that the metallurgical curriculum gives possibility of specialized training either in chemical, mechanical, or business lines. The new Whitaker Laboratories offer the most recent equipment for the examination, testing, and treating of metals. They also include apparatus and materials for demonstrating and illustrating the principal metallurgical operations.

The museum of the department contains some rare crystals and specimens of metallic bodies, as well as metallic and other objects for lecture demonstration and illustration. It also includes a collection of the scientific instruments used by Dr. Joseph W. Richards, professor of metallurgy at Lehigh for a generation preceding his death. These instruments were made to order in Europe and include some of the best apparatus of the type that has ever been produced.

*First row: W. C. Hahn, Richard Moll, Betzalel Avitzur. Second row: Jeffrey Bratspies, R. W. Hertzberg, J. F. Libsch, Head of Department; A. W. Pense. Third row: Victor Robinson, George P. Conard, R. M. Spriggs, R. W. Kraft.*

## METALLURGICAL ENGINEERING

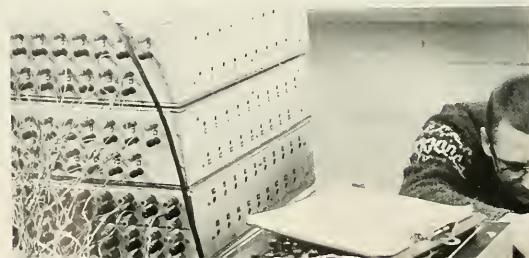

## PHYSICS

The Department of Physics was one of the original departments at the founding of Lehigh University. It has had a long and distinguished history in the education of many students. Some of the outstanding professors in the early years of the department were William S. Franklin and Barry McNutt, both pioneers in their fields.

Graduate work was begun in the department in 1927, and the Ph.D. degree was added in 1936. Presently, there are about 50 graduate students in the department, and it is one of the largest groups in the Graduate School.

Dr. Raymond J. Emrich, present head of the department, has stated: "The goals of the department are to give the best possible education in physics to students with general interests, with interests in engineering and applied physics, and with interests in physics as a career; and to permit faculty members to perform significant research, collaborating where possible with competent graduate students. We also participate with other departments on campus in pursuing research in broad areas where physics furnishes the foundations for useful application. Our faculty members also serve on national and international committees dealing with the field of physics."

First row: S. Y. Shieh, Russell A. Shaffer, Wilber D. Spatz, Wesley R. Smith. Second row: Roger Grismore, Donald B. Wheeler, Robert T. Folk, James A. McLennan, Robert D. Fouchaux, S. Trester, Shelden H. Radin, Raymond J. Emrich. Head of Department.

First row: Dorothy Weaver, Capt. Walker L. Boynton, Col. Gates B. Stern, Maj. Kendrick Holle, Capt. Thomas R. Gravette. Second row: Sgt. Jesse M. Snyder, Sgt. Maj. Robert Simmons, MSgt. Arthur Gill, SSGt. Robert Harris.

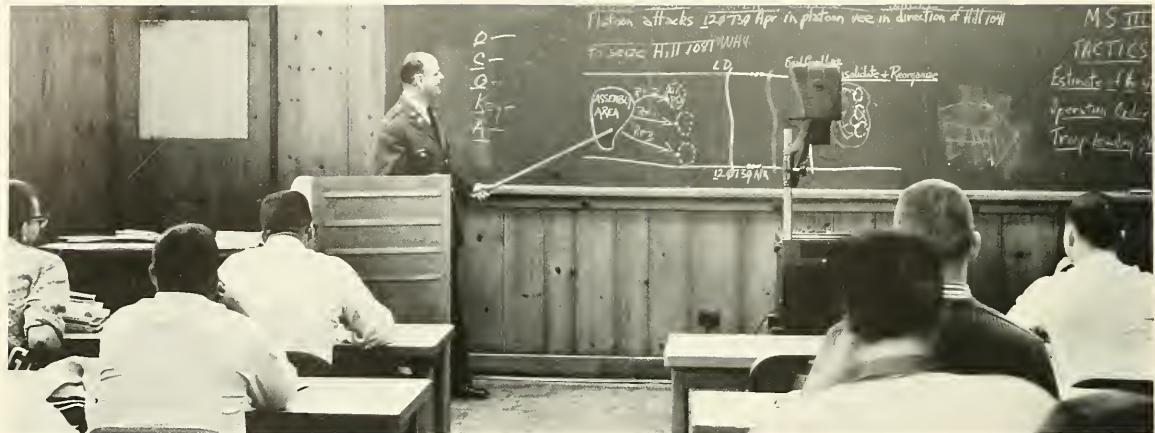

## ARMY R.O.T.C.

As the United States Military Academy is the main source from which the commissioned officers are obtained for the Regular Army, the Reserve Officers Training Corps is the main source from which the Officers Reserve Corps obtains its commissioned personnel. Troop leading in modern combat requires a higher degree of efficiency and training than ever in the past. This complex training cannot be acquired by magic within a few weeks after the outbreak of war. The Army ROTC is, accordingly, an institution of national importance, and its success and efficiency are matters of national concern.

Two units of Army ROTC are maintained at Lehigh University. The Infantry Unit which was established in 1919, and the Ordnance Unit which was established in 1925. Because of the excellent results obtained by the character of instruction and splendid cooperation on the part of faculty and students, the Lehigh University ROTC has been awarded the rating "Distinguished College" by the War Department for the sixth time in the past seven years.

—as printed in the 1930 *EPITOME*

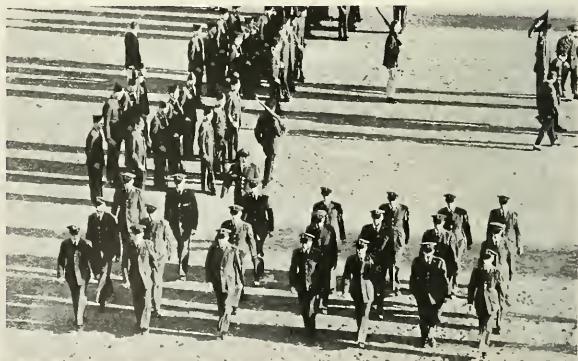

Lehigh was the first private institution to have an officers training program on its campus. A separate Air Force ROTC program was founded here in October, 1946. The first head of the department was Lt. Col. Mitchell Joseph Bernard Mulholland. It is now headed by Lt. Col. James Caskey.

Many extra-curricular activities of AFROTC have become part of campus tradition. These include the annual dining-in, the military ball, inspection trips to Air Force installations, the awards and decoration ceremony and the commissioning ceremony. The Arnold Air Society is an Air Force service organization which is operated and administered by its members who are a part of AFROTC.

Recent changes in the law governing AFROTC have included a two-year program which permits the students in their sophomore year to enter the corps during the summer preceding their junior year and be commissioned when they graduate. A new curriculum uses the seminar technique and is designed to develop the young officer so that he can accept his responsibility as a junior officer on his first assignment. Another change is that several full scholarships have been granted to qualified AFROTC upperclass cadets. As a result of these innovations, there has been an increasing number of cadets commissioned each year.

## AIR FORCE R.O.T.C.

*First row: James W. Caskey, Lynn E. Atwood, Richard M. Thoden, David H. Pittard. Second row: Theodore J. Mahaffey, John D. Gavura, Richard E. Holleran.*

A graduate school was included in Asa Packer's original plan for South Mountain. The Lehigh

Register of 1866 announced programs in graduate study, and with occasional interruptions and frequent revisions, Lehigh has always had a graduate school.

Changes in the curriculum of the graduate school have increased the areas of study offered to students. Teacher education has moved entirely to the graduate school, and Lehigh is one of the few universities in the country to have a Teaching Intern Program. The program was given a boost

this past year by a grant from the state of Pennsylvania. This is only one example of the ever-expanding growth of the graduate school.

The graduate school is looking forward to the addition of new academic buildings on campus so that it will have room to alleviate its often cramped conditions and expand into new areas.

## GRADUATE SCHOOL

Presiding over the expansion of the graduate school is Dean ROBERT D. STOUT.

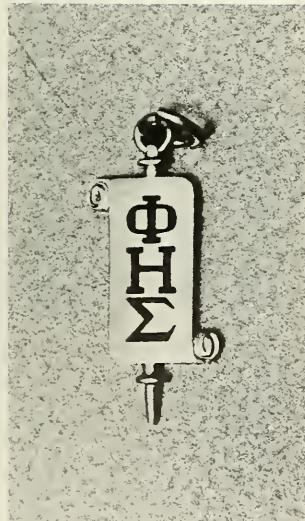

There are few organizations on the Lehigh University campus which command more respect than the academic honorary societies. And it is not at all difficult to see why this is so. Election to membership in these honorary fraternities, many of which boast long and colorful histories, indicates to the academic community as a whole the outstanding caliber of a man. Academic excellence has long been and will continue to be the primary requisite for an invitation to join an honor society. This quality in itself indicates an outstanding accomplishment—the attainment of academic pre-eminence within the University community.

The purposes and the accomplishments of the honorary fraternities are many. One of their primary goals is to accord men of high caliber the recognition they deserve. The hope of this recognition releases a powerful incentive to scholastic achievement in many a college career. But the story of the honorary societies does not end with mere recognition. They provide, rather, a most appropriate vehicle for a fellowship of men of like abilities and interests. By gathering together many of the best minds on campus, they cannot help but contribute mightily to the free and creative flow throughout the life system of the University.

Moreover, the honoraries' leadership in campus intellectual affairs is not limited to the elite group who gain membership in such fraternities. On almost every campus where they exist, these societies spread the gospel of intellectual achievement to the University at large. At Lehigh, for example, Phi Beta Kappa, Tau Beta Pi and Sigma Xi encourage and sponsor many lectures and other programs which serve to activate intellectual interest on campus.

The following honoraries are the ones which play an important role of academic development at the University. Lehigh may well be proud of the active programs which these fraternities carry out to further the aims of education. Most of all, Lehigh may be proud of the men who comprise these organizations, the men who give of themselves in order to better their own personal accomplishment, their University, and the world.

## HONORARIES

## ALPHA KAPPA PSI

*First row: Komm, Linder, Lentz, President; Kraus. Second row: Zachary, Holmes, Unger, Treasurer; Vilardi. Third row: Washychyn, Cavanagh, Williams, Wrigley, Yochum, Roberson, Simonsen.*

*First row: Penn, Vice-President; White, Secretary; Gary E. Whitehouse, Faculty Advisor; Dutt, President; Berg, Treasurer. Second row: McIntosh, Harvey, Mieth, Winter, Milan, Feidt, Burbridge, George E. Kane, Smith. Third row: Dean Charles W. Brennan, Silber, Harrison, Skillman, Singleton, Adelaar, Riemondy.*

## ALPHA PI MU

## ARNOLD AIR SOCIETY

*First row: Gast, Chao, Telsch, Bauer, Valek, Oflesh, Sielke. Second row: Lichtenauer, Berrian, Brower, Schaeffer, Davis, Dutt, George. Third row: Williams, Chase, Bayne, Bushwaller, Gewehr, McFarland, Burke.*

*First row: W. P. Trumbull, Advisor; Chbosky, Roberts, Mennig, Hinkel. Second row: Kuller, Reynolds, Brodish, Francis Luh, Carl Moore, Darrow. Third row: Robert Mills, Garlick, President; Francis Brady, Hubbs, Secretary.*

## BETA ALPHA PSI

## CYANIDE

*First row: Sather, Edwards, Secretary; Schulman. Second row: Levy, Washychyn, Treasurer; Oyler, Vice-President.*

*First row: Schultz, Coates, Lisle, Horstmann, Lane, Grimes, Brightman, Ogden. Second row: McKown, Shatto, Drescher, Ikeda, Shaedle, Nippert, Summerill, Tarr. Third row: Hirko, Kiefer, Brownback, Hastings.*

## PERSHING RIFLES

*First row: Mor, Vice-President; Vadasz, Sheppard, Reynolds, Shunk, Miller. Second row: Widdop, Kemp, Birch, Ingber, Klimberg, Cody, Burns, Billinger. President: Geoghegan, Secretary: Meyer.*

## PHI ALPHA THETA

*First row: Malsberger, Skuzinski, Underwood, Edna S. DeAngeli, George Stow. Second row: Davagian, Douglas D. Feaver, Scott Bowers, Joseph A. Maurer, Ray L. Armstrong.*

## ETA SIGMA PHI

## PI TAU SIGMA

*First row: Zacharias, Kibler, President; Reamy, Youngling. Second row: Bittrick, Sheppard, Henderek, Vice-President; Hogan, Secretary.*

*First row: Paulonis, Gerhart, Gibbs, President; Ruth. Second row: Brugam, Mallen, Beamer, Davis, Meyer, Lowe. Third row: Welch, Choback, Prager, Klein, Thomasco.*

## SCABBARD AND BLADE

*First row: Horstmann, Treasurer; Newton, President; Maj. K. Holle, Advisor; Donohoe, Vice-President. Second row: Wendlandt, Adey, Secretary; Evans, Csanadi.*

## GRADUATES

GRADUATES

*Wild geese O wild geese  
Were you little  
Fellows too—when  
You flew from home.*

ISSA

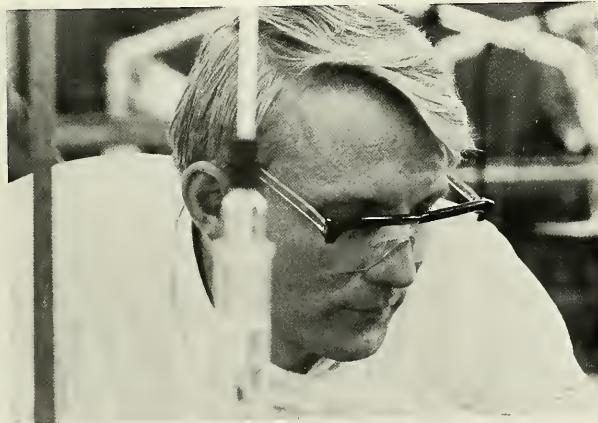

Lehigh's new presidential mace, a gift to the University from the Centennial Class of 1966, is examined by Dr. J. Burke Severs, Stephen F. Goldmann, Dr. W. Ross Yates.

The officers of the class at a Cabinet Meeting.

As the senior year rolls slowly by, the Centennial Class, better known as the Class of 1966, has many fond memories of days spent on old South Mountain. The Centennial Ball in the Hotel Bethlehem was the highlight of the social season. Many concerts, lectures and discussions were promoted under the direction of the class. Innovations include presentation of the new presidential mace to be carried at all University functions, and drafting of the Class Constitution, the first that any class at Lehigh has had.

But now, the graduating members of the Centennial Class must look forward to new careers as proud alumni of Lehigh University. Graduate school, industry, and the armed services are just a few of the areas wide open to members of this class. Many challenges and problems have been presented to the senior, and now he is ably equipped to face the world.

The 1966 EPITOME would like to wish every member of the class, good health, happiness and success in every endeavor he pursues.

## CLASS OF 1966

SHIKI

William B. Leckonby, Director of Athletics and Physical Education.

John S. Steckbeck, Assistant Director of Physical Education and Director of the Intramural Sports Program.

The seventies saw the beginning of intercollegiate competition in athletics in America. Young as Lehigh was at that time—having been founded in 1865—her small group of students was progressive enough to get into the picture by forming an Athletic Association and joining the ICAAAA in 1875, the first year of its existence. In the original meet, Lehigh carried off one of the first place awards. Our strongest team in those days was in 1881 when we placed third in the intercollegiates with two firsts and a second, Harvard winning that year and Columbia taking second. In the same year, Lehigh defeated Lafayette in the first dual meet between the two teams by taking 10 of the 14 events.

In the following years, all of the other present intercollegiate sports were developed at Lehigh. Football began in 1884 and was soon set on winning the "Big Three" Championship. Lacrosse began in 1885 and then newly invented game of basketball was begun in 1902 to a few resounding victories. Wrestling, presently the most popular sport, was begun in 1910, with few blemishes on a fantastic record in this sport. Few colleges of those which now compete have done so much toward the creation of the spirit of competition as has Lehigh in the past century.

Paul E. Short, Assistant Director of Athletics.

## PHYSICAL EDUCATION

First row: Robert Chiodi, Gerald Leeman, Kenneth Mettler.  
Second row: Michael La Porta, Edward Winchester, William Christian, John Hogan, John Steckbeck. Third row: William

Leckonby, *Director of Athletics and Physical Education*; Dr. E. A. Havach, Anthony Packer, Roger Sherman, Sam Sanders, Frederick Dunlap, Paul Short.

Fred Dunlap, new head coach of the football teams developing some basics.

Emil A. Havach, Head Trainer

Gerald G. Leeman, Coach of the  
Wrestling Squad.

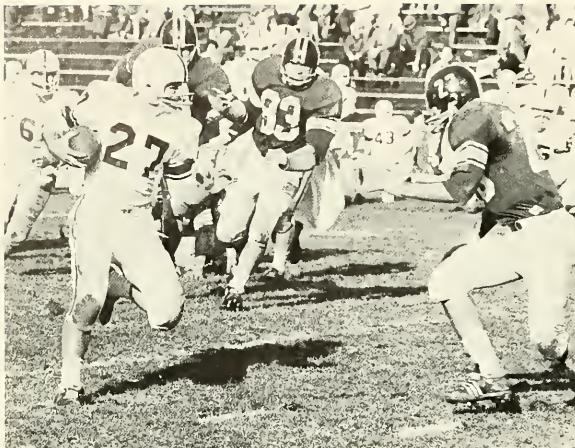

Coach Anthony Packer, Mentor of  
the Basketball and Baseball squads.

William T. Christian, coach of the Soccer and Swimming teams.

Halfback Jon Rushatz runs into some tough opposition rounding right end.

End Dick Miller latches onto one of the 36 passes he caught to establish a new record.

Halfback Rushatz is a tough man to bring down.

## FOOTBALI

For eight weeks of the 1965 football season Lehigh supporters said that the Engineer gridders had a better team than the record indicated. But as the season finale with Lafayette approached it appeared doomed to a winless campaign.

However, the underdog Engineers rose to the occasion and defeated the heavily favored Leopards 20-14 for their only win of the year. Thus ended a year which was filled with disappointments tempered by a few bright spots.

From the beginning it was evident the team was well coached. Fred Dunlap and his fine staff developed a respectable offense, but the lack of size and speed hampered the defense.

Following spirited preseason practice drills, the Engineers faced the opener against Pennsylvania with guarded optimism. Then disaster struck. Veteran signal caller and co-captain Bob Draucker suffered a severe ankle injury and the Packers were without an experienced quarterback.

The Quakers jumped to a 20-0 lead and by the middle of the third period Penn coach Bob Odell was getting ready to send in the reserves. Then a key interception by Bill Rizzo got the Engineers rolling, and Lehigh moved within reach, 20-14 on touchdowns by Les Kish and Rich Miller.

With sophomore Dick DeArmond at the helm, the Engineers began to drive for the winning score. Lehigh was faced with a fourth-and-one situation at the Penn 29 with a little more than a minute left. Fullback Hal Yeich plunged for the necessary yardage but fumbled and Penn took over.

Lehigh's home opener came the following week against Cornell. The Big Red made Lehigh's afternoon miserable rolling up a 35-0 lead by halftime. The Engineers gained a lot of respect for their never-say-die attitude as they started the second half by driving for a score. However, Cornell's power prevailed and the Big Red romped 49-13. Yeich had the first of many fine days by gaining 134 yards in 20 carries to brighten an otherwise dismal afternoon.

Bob Draucker returned to the lineup for the Rutgers contest. The Engineers performed very well and with a minute to go in the fourth period the game appeared headed to a 0-0 draw. But with 21 seconds remaining, the Scarlet scored to break the hearts of Lehigh fans.

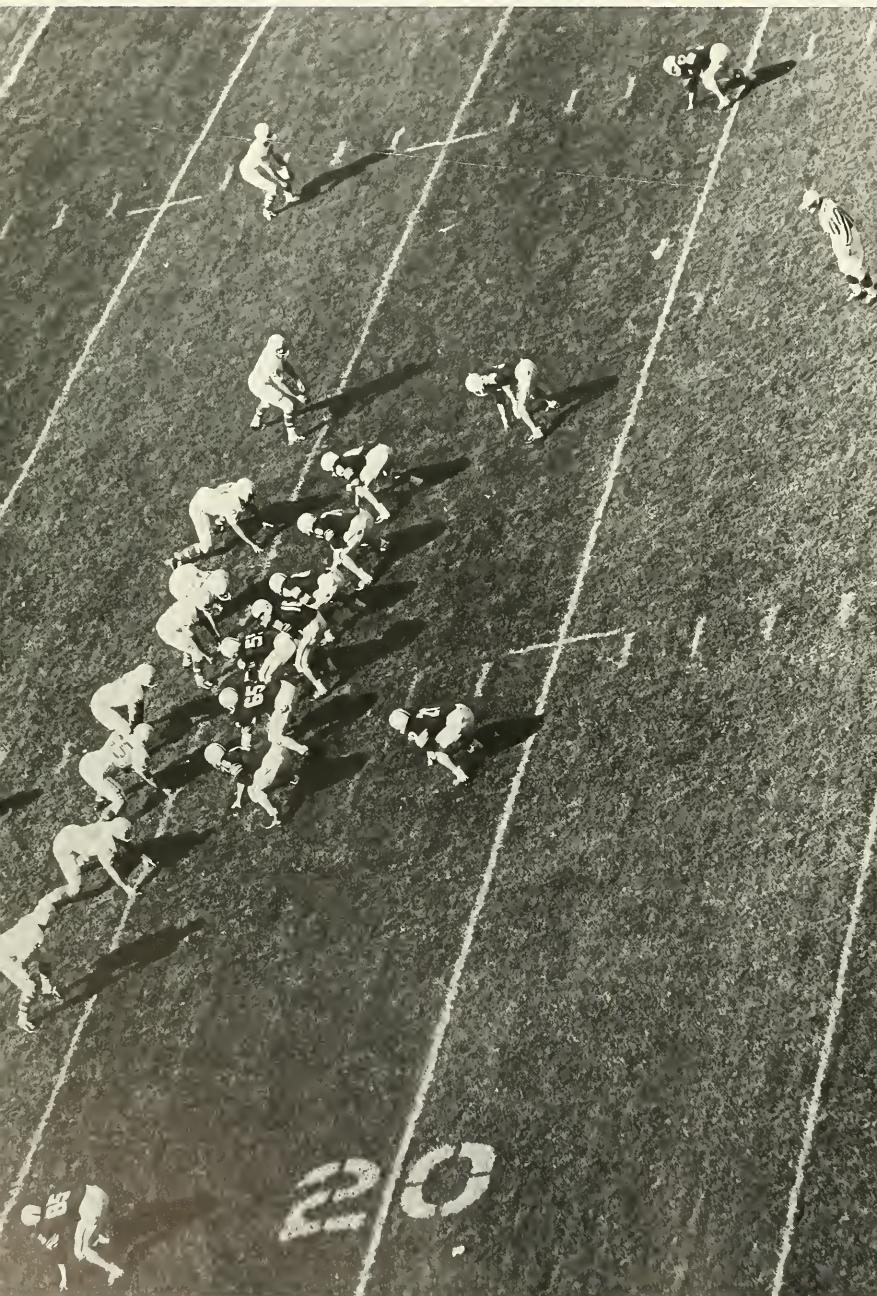

Quarterback Bob Draucker rolls out behind good protection looking for someone downfield.

The Engineers' chances appeared good for Gettysburg, but Bullet quarterback Jim Ward put on a tremendous offensive show to lead Gettysburg to a 26-17 win.

The Engineers generated a fine ground game against the Bullets. Sophomore back Jon Rushatz picked up 111 yards on 22 carries and Yeich netted 95 yards in 12 attempts. The Engineers suffered another setback when Draucker injured his shoulder during the third period and was lost for most of the season.

A severe breakdown of the Lehigh defense led to Delaware's one sided 42-21 win over the Engineers. The Blue Hens ground out 509 yards and were never headed. Sophomore quarterback Bill Semko directed the offense very well as he hit on 12 of 24 passes for two touchdowns and 133 yards. The injury jinx continued as fullback Hal Yeich suffered a severe rib injury which reduced his effectiveness for the next three games.

The Engineers line up in a spread formation, against tough Cornell.

Sophomore Greg Zern goes crashing through the line.

Jon Rushatz runs back a kickoff in the 101st meeting between Lehigh-Lafayette.

Diving straight forward is Rushatz, the work-horse of the backfield.

Yeich in the open.

An Engineer tumbles.

Hopes for a houseparty win came alive late in the Furman contest when the Engineers held a 15-14 lead. Lehigh had managed to overcome a 14-0 deficit on touchdown passes from Semko to Rich Pochman and Greg Zern and a two-point conversion pass from Les Kish to Zern.

Once again the Lehigh defense fell apart and the Purple Paladins tallied twice in seven minutes to win 27-15. Yeich saw action in only one play and his absence resulted in a poor first-half-offensive display by the Engineers.

Zern tries to straight arm against Rutgers.

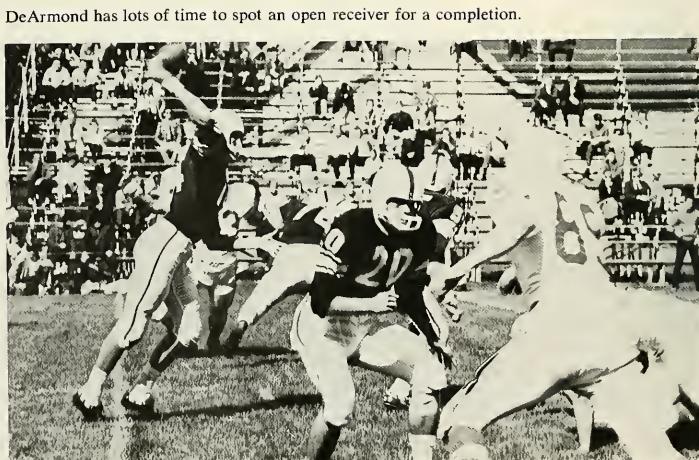

Rushatz eludes the tackle.

Another play stopped at the line of scrimmage.

Renfro and teammates attempt to block the punt.

DeArmond has lots of time to spot an open receiver for a completion.

*First row: Dietrich, Kirk, Adelaar, Yeich, Co-Captain; Draucker, Co-Captain; Kish, Glasheen, Rizzo, Leckonby, Bradley. Second row: Kercher, Galdieri, Renfro, Meadowcroft, Maloney, Smith, Trotter, Wood, Pochman, Hochreiter. Third row: Balliett, Bareford, Korf, Travis, Zeunert, Viola, Koch, Weaver, Rust, Saunders. Fourth row:*

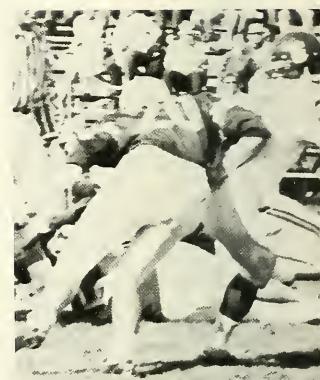

*Zern, Grannatt, Shane, Bauer, Rohrbach, Stewart, Thornton, Maloney, Fatzinger, Georges. Fifth row: LaPorta, Trainer; Bisset, Semko, Rebert, DeArmond, Miller, Mettler, Trainer. Sixth row: Sam Sanders, Roger Sherman, Fred Dunlap, Head Coach; Hogan, Winchester, Robert Chiodi, Allen, Manager.*

The following week the Packets journeyed south to Davidson with hopes of scoring their first win as they had in 1964. Lehigh scored first to lead 6-0 and managed to tie the score at 16-16 in the third period, but the Wildcats controlled the game, winning 37-23.

The next week was one the Engineers would like to forget. Bucknell scored early and often and the Middle Atlantic Conference champs rolled to a 41-0 rout. The Bisons remembered well their narrow 3-0 escape a year earlier and showed no mercy.

The only bright spot for Lehigh was the performance of Rich Miller. The sophomore end pulled in four passes, raising his season total to 29. That broke the previous high of 27 set by Tommy Gunn in 1952.

Rushatz finds the backfield crowded this time.

Coach Dunlap instructs sophomore Zern on the sidelines.

Rushatz cuts to the outside out of the reach of tackler.

Rushatz breaks through the middle as the camera detects Rohrbach clipping.

Although the outlook was not good before the annual Lehigh-Lafayette game, Coach Dunlap got some good news. Quarterback Draucker was given a clean bill of health for the game and Yeich was showing the hard running form he had displayed before his injury.

As if an omen of things to come, the Engineers won the toss. It was the first time in the 1965 campaign that Lehigh had won the toss and a murmur ran through the Lehigh crowd.

The teams exchanged the ball once in the first period to set the stage for one of the key plays of the game. With a first and 10 on the Lehigh 20, Yeich burst off right tackle and raced 76 yards to the Lafayette four. Two plays later Rushatz swept right end for the score and Lehigh was on its way.

Adelaar turns to help out on the tackle, but he should be going after the ball that was fumbled.

Zern is snowed under.

Kish, Lehigh's outstanding defenseman, comes up from the secondary to stop the ballcarrier. Each star on his helmet indicates that Kish made the most tackles in a game.

Typical of Rushatz' hard hitting play, he is upset while running full speed as he tries to run right through an opponent.

Yeich scored on a short run in the second period and Pochman tallied on a pass from Draucker with seconds left in the third period to give Lehigh a commanding 20-0 lead. Lafayette tallied on the ensuing kickoff and on pass interception late in the game, but Lehigh was not to be denied.

The game was not as close as the score indicated, with the Engineers piling up a 421-159 advantage in yards gained. Yeich had an outstanding day, gaining 174 yards in 25 attempts. Miller had seven receptions to boost his season record to 36. Draucker, who had been sidelined most of the season, completed seven of 10 passes for 91 yards and rushed for 54.

With both players and coach having a year of experience working with each other and some fine prospects coming up from the freshman team, the Engineers may finally come out of the football doldrums next season.

Hal Yeich stands with his Most Valuable Player Award after the Lafayette game, exhaustion mirrored on his face.

The line again finds it difficult to open a hole.

Semko tucks the ball under his arm and scampers away from the pursuing defenseman.

Yeich gets a block as he sweeps the end

Hal Yeich powers through the middle as he did all season.

This time Zern is stopped at the line of scrimmage, as the rest of his teammates seem to think he is going to the other side.

The scoreboard now shows second down and ten to go.

Kish gets a block from Kirk to avoid getting caught in the backfield.

Dick Bauer, left, and Dick Pochman, right, co-captains for 1966, flank Coach Fred Dunlap.

Draucker attempts a pass.

Christensen leads the runners in the stretch drive.

Captain Larry Succop strains to hold onto the lead.

Harriers are tightly packed at the beginning of the race.

*First row: Christensen, Lucuski, Succop, Captain; Hans, Krizauskas. Second row: Haulenbeek, Drye, Kumor, Fry, Frank Zarnowski, Coach.*

## CROSS COUNTRY

A consistently strong performance by Paul Lucuski highlighted an otherwise poor season for the Lehigh harriers. The lanky junior was first in for the Engineers in all seven of their meets.

Lucuski twice broke the school record for the 5.2 mile Saucon Valley course. His 27:05 performance in the Penn meet bettered the 27:29 mark he set in the West Chester meet. Lucuski also set a new standard for the Muhlenberg course. He paced the Engineers to a 15-50 win over the Mules, breaking the Muhlenberg record by 51.3 seconds.

The Engineers other win was over Albright in a triangular meet with Albright and Haverford. Lehigh routed the team from Reading by a 16-47 count but was edged by the Fords 29-26. Lucuski was first home in the meet, followed by Karl Drye in fourth, Larry Succop in fifth, Rich Christensen in ninth and Rich Kumor in 11th.

Gigon strives for a goal.

Hodgson beats the defender to the ball for a hard shot at the goal.

## SOCER

The booters recorded their fourth straight winning season, but the campaign was marred by Lehigh's inability to win the "big ones."

The Engineers dropped decisions to Swarthmore, Rutgers and Haverford in the three important contests of the season. In all three games the Lehigh squad broke down completely, allowing 15 goals while scoring none.

However, the booters finished third in the northern division of the Middle Atlantic Conference. Among their wins were victories over Lafayette, Muhlenberg and Stevens Tech.

Gerry Gigon, junior center forward, dominated the team's offense. Gigon tied for the team leadership in goals and led the team in shots and had six assists.

Carl Painter and Tom Best tied with Gigon in scoring leadership with six goals apiece. Other Lehigh goals were registered by Howard Bayne, Larry Gustavson and Pete Louis.

Goalie Del Bloem, in his first year of soccer, recorded two shutouts. In nine games he registered 131 saves and gave up 23 goals for a 2.55 goal per game average.

Fullback Tom Jacoby, a transfer from the Naval Academy, was the backbone of the defense. The senior was chosen on the MAC second team for his fine play throughout the season.

*First row: Gustavson, Pfaeffle, Hodgson, Captain; Burgoine, Korff. Second row: Bayne, Best, Jacoby, Lundquist, Louis, Gigon, Jaeger. Third row: Lusk, Manager; Painter, Kish, Niemeyer, Wood, Bloem, William T. Christian, Coach.*

*Both men concentrate on the ball, but Lehigh loses possession.*

*Gigon shows why he was offensive leader as he beats his opponent to the ball for a clear shot at the goal.*

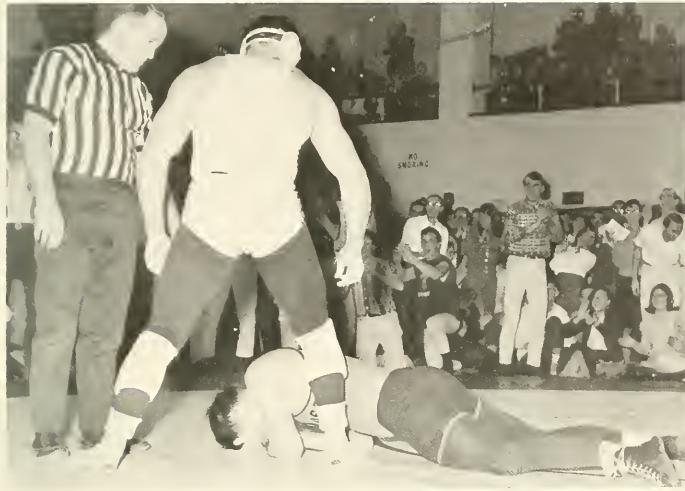

*First row: Caruso, Peritore, Stuart, Captain; Tepper, Muir. Second row: Lee-  
man, Coach; Hartenstine, Rushatz, Caprio, Gebhardt, Pfeltz. Third row:  
Kochanczyk, Mgr; Parsons, Kishel, Bisset, Narducci, Ries, Emil Havach,  
Trainer.*

*One of the "Terrific Trio," Bill Stuart, captain of the  
1966 squad drives for a pin.*

The crowd reacts to another Engineer victory.

## WRESTLING

Some teams are tournament teams and some are dual meet teams, and without a doubt this year's wrestling team was a tournament team. After an average (by Lehigh standards) dual meet season of 9-2, the Engineers went on to win the Easterns by 22 points and place a strong fourth in the Nationals.

The Lehigh grapplers entered the 62nd Eastern Intercollegiate tournament as slight underdogs to Navy who had beaten them 19-14 in a dual meet. But after the smoke cleared that Saturday evening in March at Pittsburgh, the Leemen had beaten the nearest competitor Navy by an 85-63 margin. The great win led coach Gerry Leeman to call the 1966 Engineers "the most courageous team I've ever coached." It was a tribute not only to Lehigh's superstars—Mike Caruso, Joe Peritore, Bill Stuart and Jon Rushatz—but also to the wrestlers who hadn't made the headlines, Bob Hartenstein and Tom Muir.

Hartenstine and Muir had a combined dual meet record of 8-6, but they picked up a second and third place finish respectively in the Easterns. Hartenstein scored the biggest upset of the tournament when he beat number one seeded Jerry Seaman of Penn State. Muir had his share of surprising wins, by beating first seeded Al Lilley of Temple and third-seeded John Kent of Navy. But every great team must have its share of consistently strong wrestlers and Lehigh had its "terrific trio." The trio of Caruso, Peritore and Stuart had a dual meet record of 29-0-3 and got two firsts and a second in the Eastern tournament. The trio was aided by a pair of fine sophomores in Jon Rushatz and Elliott Tepper. Rushatz had a 6-0-1 dual meet mark and won the 167 lb. Eastern crown, and Tepper was 8-2-1 during the regular campaign and took a third at 145.

The crowds in Grace Hall, which is often called the "Snake Pit," fill every seat to voice their approval at every exciting match.

Lehigh came up with such an outstanding team effort in the Easterns that they advanced all their men to the quarter-finals and only one Engineer was completely eliminated at the end of the semi-finals. The Engineers never trailed in the tournament. They led 14-13 at the end of the first round over Penn State, widened the lead to 22-20 over Navy going in to the final evening of wrestling. The team trophy was clinched following the 167-lb. consolation bout.

Driving towards a takedown.

The referee signals two for Tom Muir in the Syracuse bout.

A sophomore with strength and promise, Elliott Tepper drives his man towards the mat.

This Syracuse man cannot get away from the grasp of an unidentified Engineer.

Strong sophomore Jon Rushatz, an Eastern champ strives for a pin.

A similar situation occurs to this Penn State grappeler.

The big story of the National tournament was Caruso gaining his second 123-lb. NCAA title. The lightweight junior thus became only the second Lehigh wrestler to win two National titles, and he has an opportunity to become Lehigh's first three-time National champion. Caruso gained his second title by decisioning Bob Fehrs of Michigan, 9-6. It was the second year in a row that the two lightweights tangled for the 123-lb. honors. The only other Lehigh wrestler to win two NCAA crowns was the great Eddie Eichelberger who turned the trick in 1955 and 1956.

Caruso became Lehigh's 13th National champion, moving the Engineers into a tie for sixth with Pittsburgh for the most National champions. He finished the season with a 13-0 record. His varsity log is now 37-1, with a lifetime record in high school and college of 130-2.

Peritore picked up second place honors for the second straight year, while Stuart, the 1965 champ, and Rushatz picked up thirds as Lehigh set a new school point record with 48. The previous high of 45 was set last year at Laramie, Wyo. Peritore bowed to Yojiro Uetake of Oklahoma State in the finals. The Cowboy great, who was named Outstanding Wrestler for the second year in a row, is the 1964 Olympic Champion. Peritore finished the season with a 17-1-1 record and has a varsity career mark of 37-3-1.

The scoreboard tells the story as Bob Dietz dominates his man.

Stuart, the team's captain and the only senior on the squad, lost in the semi-finals to 1964 champion Mike Sager of Oklahoma. Stuart battled back to take the third place and finished a brilliant varsity career with a 50-6-2 record. Rushatz capped a fine sophomore year with a third place finish at 167. He bowed to eventual champion Dave Reinbolt of Ohio State in the semi-finals but came back with a pair of wins in the consolation round. He had a 15-1-1 overall record for the season.

The dual meet season had its ups and downs with disappointing losses to Oklahoma and Navy. The loss to Oklahoma was expected, but not by the large margin of twelve points. The loss to Navy was the low point of the season as the Engineers blew a nine point lead and didn't perform up to their expectations. A weakness in the upper weights persistently plagued the Engineers. On more than one occasion, Lehigh would build up a big lead in the lower weights and hang on as the opposition would close the margin in the upper weights.

Ron Ries drives his opponent into the mat.

130-pound Eastern Champ Joe Peritore tries to keep his opponent inbounds.

Joey Caprio picks up his man . . .

. . . and drives him into the mat.

An Engineer racks up a near fall in his drive towards a pin.

At the 1966 Easterns, every member of the team becomes a rooting section and coach.

A pleasant surprise for Coach Leeman was the third place finish by Bob Hartenstein.

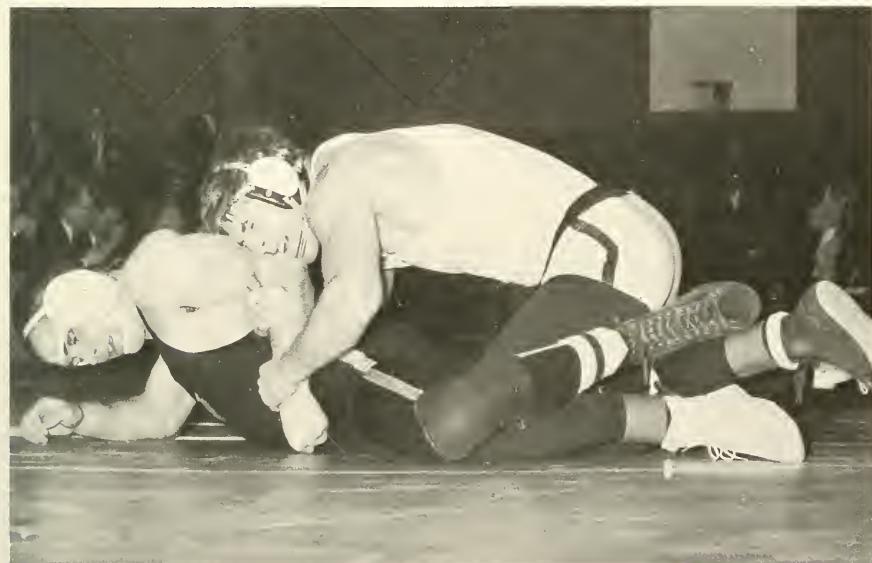

Joe Peritore drives for a takedown on his way to an Eastern Championship.

Amazing Mike Caruso rolls a Temple opponent.

Ron Ries in action at Pittsburgh during the rugged Easterns.

In the upset of the tournament, Bob Hartenstine beat first seeded Jerry Seaman of Penn State.

Captain Billy Stuart gets encouragement from Peritore before entering the overtime period in a losing effort against Navy's Wayne Hicks.

Elliott Tepper muscles his man to the mat.

Eastern champs Peritore, Rushatz, and Caruso. Peritore and Caruso were named next year's co-captains.

A concerned Coach Leeman watches the action in the 1966 National Championships.

Two-time National champ Mike Caruso.

The scoreboard tells the story as Caruso drives Bob Fehrs of Michigan into the mat.

However, the team's shortcomings in the dual meet season were more than redeemed by its outstanding performance in the Eastern and National tournaments. The future couldn't look brighter. The Engineers lose only Captain Billy Stuart and his loss will be made up by the maturity of this year's sophomores and juniors, and fine additions from the freshman team. As the Engineers return to action next year, the possibility of an NCAA team title is far from remote.

The backstroke is an unusual but graceful stroke.

These swimmers will tell you that the breaststroke is the most strenuous stroke.

The last fifteen meters can seem like a mile, but a teammate's encouragement can help to spur on a tired swimmer.

*First row: Bussmann, Cohen, Rubin, Brady. Second row: Lebersfeld, Weed, Lane, Co-Captain; Early, Co-Captain; Hodson, Buffinton, Hines. Third row: Brozman, Manager; Clark, Evans, Balz, Koch, Lutz, DeBarbadillo, Assistant Coach; Christian, Coach.*

## SWIMMING

The Lehigh mermen appeared to be out of their doldrums early in the season after routing Gettysburg to snap a ten meet losing streak. But then disaster struck and five front line swimmers went on probation dooming the Engineers to a 1-8 season. Co-captains Charlie Lane and Stew Early paced the mermen throughout the season. Lane, co-captain for the second straight year, was a standout in the individual medley and backstroke events. Lane broke the Lehigh standard in the individual medley twice during the season.

The versatile senior led the swimmers in the Middle Atlantic Conference meet. Lane picked up a fourth in the

A strong push at the start is important because a race is often decided by a fraction of a second.

100-yard backstroke and a fifth in the 100-yard freestyle. Early, who was awarded a Rhodes scholarship, turned in continually fine performances in the freestyle events. Tom Lutz did a fine job for the mermen in both the butterfly and breaststroke events. On two occasions during the season Lutz won both the 200-yard breaststroke and butterfly events.

The Engineers didn't fare well in the MAC tournament scoring only eight points to finish seventh in the nine-school field. Besides Lane, Jeff Evans took a sixth in the backstroke, and the relay team of Don Clark, Lutz, Evans, and Lane also finished sixth.

# BASKETBALL

Lowman has a shot blocked by a Muhlenberg opponent.

Mallinson shoots as his defender stands behind him.

Lowman goes high for a jump ball during the Columbia game.

*First row: Heine, Lowman, Miller, Mallinson, Washychyn. Second row: Ardern, Freshman Coach; McEvoy, Manager; Benfield, Howlett, Smith, Packer, Coach.*

Washychyn has a shot blocked in the Muhlenberg game.

Mallinson goes up high for a shot.

1966 was the season of near misses for the Lehigh cagers. The Engineers managed to win only five games but they lost several games by less than five points including two heartbreakers to archrival Lafayette. Junior captain Pat Howlett and sophomore Bob Lowman paced the squad which didn't have a senior on its roster. Howlett was the team's sparkplug and playmaker throughout the season. The Bethlehem native also led the team in scoring with a 13-point average.

Lowman was the Engineers' top rebounder and despite the fact that he is only 6'5", set a new Lehigh season rebounding record and tied the single game record. Lowman broke the season record with four games to play and tied the game record against F&M with 22 rebounds. Lowman followed Howlett in scoring, averaging slightly over ten points per game.

The Engineers scored their wins over Muhlenberg, Dickinson, Cape May Coast Guard Base, and two against F&M. They suffered a one point defeat at the hands of Colgate on a basket at the buzzer, two and three point losses to Lafayette and an overtime loss to Delaware. The second loss to Lafayette was one of the Engineers better games. During the first half, Lehigh held up to a ten point lead and led at half time by four points. The lead seesawed back and forth and despite the loss of Howlett on fouls, the score was tied 57-57 with seven seconds to go. However, Lafayette ace Dave Brown sank a shot at the buzzer to stop the Engineers.

Mallinson displays the reason why he was the seventeenth leading rebounder in the nation this year.

"Wash" tries a jump shot.

Washchyn follows up his shot, getting his own rebound.

Intercollegiate fencing has divided the gentlemanly art into three classes: foil, epee, and saber.

Struggling under the shadows of the wrestling team, the Lehigh fencers managed only a 2-8 record. The Engineers scored victories over Muhlenberg and Haverford during the regular season and finished sixth in the Middle Atlantic Tournament. For the second year in a row, the swordsmen dropped a narrow 14-13 decision to Lafayette.

Rich Christensen paced the fencers in both their victories. The Engineer scored three wins in the sabre division in the both the Muhlenberg and Haverford matches. Christensen got some help from Ken Abrams in the Muhlenberg meet as Abrams also scored three wins in the sabre. In the Haverford meet, Wrigley added three wins in the epee. Gerry Grube added two wins in the epee and Larry Hans scored two victories in the foil to provide the brunt of Lehigh's scoring.

In the MAC tournament, the sabre team of Abrams and Dave Egelston made the best showing for the fencers, finishing fifth out of seven teams. Abrams was the team leader for the season finishing with a dual record of 16-11, while he and Egelston posted 5-7 marks in the tourney. The epee and sabre teams finished sixth and seventh respectively.

A fencer wards off a touch.

*First row: Wrigley, Hans, Shackatano, Mor. Second row: Christensen, Abrams, Dinger, Grube, Egelston.*

## FENCING

The wires attached to each man are part of the electric scoring equipment.

Desire and hustle lead to a close play at first base.

## BASEBALL

Art Thomas scores in a game with Lafayette.

Only a 8-1 rout of Lafayette brightened an otherwise dismal baseball season. Lehigh smashed the Leopards, who were MAC and NCAA District 2 champions, for one of its four wins in 20 games. The Engineers could manage only two wins in Conference play—over Lafayette and Gettysburg—plus victories over Muhlenberg and Wagner.

Sophomore pitcher Mike Reilly was one of the few bright spots for Coach Tony Packer. Reilly was the leading hitter among the regulars, with a .287 batting average, and he had a 3-5 record as a hurler.

Doug Lane led all hitters with a .400 average. He was followed by Donn Viola at .350 and Reilly. Reilly, Les Kish and Rein Mannik shared the RBI lead with nine apiece and Viola led the team in home runs with two.

Reilly turned in a fine performance against the Leopards with a four-hitter in the Engineers 8-1 triumph. The Leopards jumped to a 1-0 lead in the first inning but the Packers tied it up in the third on a run-producing single by Marty Vitale.

Walter Wiggins put the Engineers ahead when he drove in Art Thomas with a single. After Lehigh had added four more runs, Mannik drove in the last two runs with a double in the eighth.

Another strong pitching performance by Reilly enabled the Engineers to down MAC runner-up Gettysburg, as he hurled a three hitter and fanned eight to stop the Bullets, 3-1. Kish and Mannik drove in the Engineers first two runs with singles in the fourth. Larry Flowers drove in an insurance run in the seventh with a single up the middle.

A powerful swing and follow through by Marty Vitale sends the ball on a long flight over the fence.

*First row: Kish, Bingler, Yeich, Sather, Thomas, Simendinger. Second row: Lane, Leach, Vitale, Mannik, Olaf, Reilly, Flowers. Third row: Ed Winchester, Coach; Kalish, Callahan, Hamilton, Viola, Peck, Wiggins, Bennett, Brozman, Manager.*

A loose ball is always cause for a scramble.

Surrounded by white-shirted Diplomats is Engineer Joe Deckman.

The Engineer stickmen suffered their second straight losing season after five straight winning ones as they posted only three wins in 10 outings. Lack of an experienced goalie was a severe handicap.

Coach Harry Bush's squad was weakened by the withdrawal of Bob Gentry, star sophomore goalie, from Lehigh to begin study for the priesthood. Eric Yonker took over the position but was hurt by inexperience.

The stickmen were 3-3 in MAC play and finished fourth in league standings. Defense man Carl Sturcke earned an All-MAC berth.

The Engineers continued to dominate F&M as they scored a 9-2 win for their 11th victory in as many outings against the Diplomats. Don Proctor paced the attack against the Blue and White with three goals and an assist. Captain and playmaker Rick Born had three assists and Tony Parsons added two tallies.

The stickmen also scored wins over Drexel and Lafayette. Joe Deckman led them to a 8-3 triumph over the Leopards with three goals and an assist. Proctor tallied twice and collected an assist. Deckman led a second-half rally which enabled the Engineers to overcome Drexel 8-6. Deckman scored three goals and one assist and Born added five assists.

One of the finest freshman lacrosse teams in Lehigh's history will aid the 1966 varsity. The frosh posted a 4-3 record for the first winning season for the freshmen in several years. Routs of Pingry, Hill and Lafayette frosh highlighted the season. Ted Dickson, Dave Bramble, and Bill Gill paced the little Engineers throughout the season.

A chance for a score.

Engineer Mike Henderek is trying to get clear.

The 1966 Varsity has a bright prospect in freshman Jim Miller.

Outstanding individual performances highlighted an otherwise dismal track season as the Engineers posted a 3-8 record but broke seven Lehigh University records. Tom Bogia, Dave Rein, Jon Pease, Bob Nunemacher, Rick Baggelaar and Dick Smith all set new standards. Bogia broke a record set in 1930 when he turned in a 9.7 100-yard dash in the MAC championships. Rein lowered the 880-yard record to 1:57.4 and Smith cleared the 330-yard intermediate hurdles in 39.4.

## TRACK

Pease broke a 31-year-old record with a 6'3" high jump in the MAC championships. Nunemacher broke the existing pole vault record with a 13'1" leap and Baggelaar set a new triple-jump standard—43'5½". The team of Bogia, Smith, Steve Edwards, and Rich Utke set a new 440-yard relay record with a time of 43.6.

After defeating Haverford and Bucknell in dual meet competition, the Engineers finished the season as host to the 1965 MAC track and field championships. They came up with a fine performance on their home grounds, scoring 21 points to capture sixth place.

*First row: Schmidt, Bradley, Edwards, Utke, Bogia, Smith, Agnew. Second row: Drye, Lucuski, Krizauskas, Christensen, Rein, Brisotti, Parker, Baggelaar, Succop. # TENNIS

*First row: Marshall, Varnum, Robertson, Hoeveler. Second row: Mann, Manager; Mullins, Mieth, Robert Chiodi, Coach.*

The Lehigh tennis team made a strong finish, winning its last three matches, to log a 5-5 record. The netmen scored wins over Lafayette, Drexel, and Rutgers in their finishing spurt. Captain Archie Robertson and Ken Marshall paced the Engineers to a 6-3 win over the Leopards. Robertson and Marshall both won their singles matches and they combined for a win in doubles competition. Bill Mieth and Bob Varnum also took their singles matches and combined for a triumph in the doubles.

The Engineers swept to an easy 9-0 win over Drexel as they won every match in straight sets. Varnum and John Mullins shutout their opponents in singles competition and Mieth and Marshall whitewashed the Drexel team in doubles.

Lehigh upset a strong Rutgers aggregation 5-4 in the final match of the season. Varnum, Mieth and Blair Smith scored singles wins over the Scarlet and the teams of Mieth and Smith and Robertson and Marshall notched wins in the doubles.

# GOLF

The varsity golfers had their second winning season in a row as they posted a 11-8 record under Coach Hamer. The linksmen finished third in the MAC tournament and scored a major upset with a 4-3 win over Penn State. This snapped the Nittany Lions 24-meet winning streak. Captain Dan Pultz, Don Cook, Rich Klein and Steve Schreiber defeated their Penn State opponents to bring about the upset.

The Engineers finished third in the MAC meet nine strokes behind champion Dickinson. Pultz led the linksmen with a 83-76 card for a tenth-place finish. Ernie Patten fired an 80-80, while Don Cook and Byron Hertslet had 85-76 and 79-83 scores, respectively.

The linksmen also had the satisfaction of beating arch-rival Lafayette 10½-7½ for their 26th win over the Leopards in 29 tries. Hertslet was medalist with a par 72 and he, Cook and Pultz all scored 3-0 wins. Patten added 1½ points through a tie to clinch the match for the Engineers.

A linksmen tees off for a long drive.

## ALPHA LAMBDA OMEGA

In the history of Lehigh, the men who commuted from the Allentown area were always a united group. It was not until 1942, however, that they molded their bonds of friendship into a social fraternity. Originally known as the Allentown-Lehigh Organization, the group has now expanded its membership to include any commuter to the University and has adopted the Greek name of Alpha Lambda Omega.

With the main purpose of providing a social life for town students comparable to that of other groups living on campus, ALO centers its activities around purely social events. Parties were held this year on average of twice a month, the most outstanding being during the two Houseparties and Lafayette Weekend. Alumni of the university often take part in the group's social activities, and are always welcome when it comes to rehashing the good old days.

Sturman, *Secretary*; Zug, *President*; Wilcox, *Vice President*; Roper, *Treasurer*.

Wrestling action such as this would have been brought to every student had the Dodecagrand Grappletube, which was sponsored by the class of 1967, been successful.

Ian and Sylvia proved to be a tremendous success in a concert sponsored by the junior class.

## CLASS OF 1967

After a rewarding sophomore year, the Class of 1967 started off its third year at Lehigh by presenting Ian and Sylvia in concert at Grace Hall on Cornell Weekend. This performance, in addition to being highly praised for its superior quality by the members of the Lehigh community, netted the class a record-setting profit, thus enabling the juniors to venture into more programs intended to further the non-academic pursuits of the University. Among these programs was the Dodecagrand Grappletube, to which the class pledged \$2000 and enthusiastic support.

In the spring, the junior class sponsored its traditional class banquet and also the Spring Casual, an all-University mixer with approximately twelve different girls' schools attending. Shortly thereafter, the class presented the Brothers Four in a Houseparty concert. This highly enjoyable and prosperous concert was accompanied by a successful Houseparty Queen contest.

Under the direction of President D. Brooks Zug, the Class of 1967 is looking forward with anticipation to its final year at Lehigh University, hoping it will be as rewarding as the first three.

*First row:* Gibbs, Elcome, Martinson, Haggett, Smith, Rigotsky, Cooper, Slavin, Irwin, Powers, Rixman. *Second row:* Hall, Betts, Young, Tepper, Rockow, Gohacki, Aylsworth, Jaeger, Clond, Klein,

Irwin, *Treasurer*; Slavin, *President*;  
Powers, *Secretary*.

## CLASS OF 1968

As the Class of 1968 entered and settled into the traditional "sophomore slump" on the academic level, it maintained social vigor through fraternity pledging and other class-sponsored activities—including a December concert with the Bitter End Singers and a spring class banquet. As usual, the annual blazer sale was quite successful.

Not limiting itself to the traditional sophomore activities, the class of 1968 expanded its endeavors to better serve the University as a whole and the class treasury in particular. Planned were a filming and campus presentation of the NCAA wrestling tournament, and a carnival to be held in connection with the Spring intramural track meet. As Robert Slavin, class president pointed out: "Realizing it must maintain its unity in order to better itself and accomplish its goals, the Class of 1968 adopted a constitution delineating purpose and establishing guidelines for future activities. With this sound and permanent foundation, the class hopes to continue to exemplify a dynamic spirit through its two remaining years at Lehigh."

Fun was had by all at the concert presented by the Bitter End Singers.

*First row: Oyler, Adviser; McConnel, Frost, Coleman, Kirchberger, Banes, Taylor, Donche, Silverberg, Frawley. Second row: Young, Galardi, Orr, Zink, Slowes, Blessing, Edwards, Klein, Anderson, Hunt. Third row: VanDemark, Hennessy, Borin, Gravina, Karn,*

*Meincke, Musser, Baker, Cogut, Hall. Fourth row: Melville, Schell, Hermiston, Kreitler, Dieter, Elder, Stowers, Fittipaldi, Oppold, Bartell.*

This was the first year that the freshmen were housed at stately Taylor Hall.

Gravina, Secretary; Cogut, President; Frost, Vice-President; McConnel, Treasurer.

## CLASS OF 1969

The Class of 1969 was duly initiated into the traditions of the University by the pajama parade and bonfire festivities over Lafayette weekend.

The arrival of the Freshman Class may have been anticipated by the upperclassmen more keenly than by the freshmen themselves. Shouts of "What class are you?" were commonly heard throughout the campus during the first few weeks of the fall semester, with the familiar answer always being yelled as loud, if not louder. The Cabinet of the Class was organized and by Lafayette weekend, the officers were elected. Guided up to now by Cyanide and the Gryphon Society, the freshman class was ready to assume its own leadership responsibilities.

Mixers, bonfires, football games, wrestling meets, and fraternity pledging all played an intricate role for each freshman during his first year at Lehigh. Taylor Hall was opened to accommodate the largest freshman class ever assembled at the University. Controversy would be the word to describe this class. Disputes over Residence Halls contracts and dorm damage payment were discussed under the leadership of Casey Cogut, Freshman Class President. The class banquet brought the eventful year to a close, with an eye open to three more exciting and enthusiastic years.

# EPITOME

The daily chaos of staffers rushing frantically to complete deadlines gives little hint of the EPITOME metamorphosis. Although a yearbook writes itself with every passing day in the life of the university, the tale recounted remains only to be formalized into print and picture.

Desk tops, last seen in September, are forever smothered in work screaming for attention as deadlines require the myraids of photographs to be sorted, the captions and copy to be penned and the layouts to be dummed. The compiling and compressing of memories is a task formidable in scope, but typewriter keys faithfully strike the carriage and grease pencils guide the crop rules. The result is a nostalgic snapshot of the moment, a moment longing to be grasped anew with each glance at the 1966 EPITOME.

## BROWN AND WHITE

Undertaking a year-long experimental switch to offset printing, the Brown and White began preparations last summer under the guidance of fall semester editor Bill Bonnell. With the aid of business manager Bob Wilson and his staff, the student newspaper expanded, publishing about 12 pages twice a week.

Expanding photo coverage, concentrating on campus news and issues, and stressing the potentials of constructive student participation in University life the Brown and White sought to keep the University community well informed and reaching for new and worthy goals.

In February, Bill Hylton assumed the Brown and White helm, and paper continued to seek new means of attaining greater readability, wider readership, and constructive improvements in the University. Plans for a special Centennial issue were set by early spring.

More than 75 students from all classes, colleges and living groups participated in the work of the newspaper. Many of them gained valuable experience which should enable readers to look forward to an even better Brown and White next year.

The disc jockey plays an integral part in the functioning of a radio station.

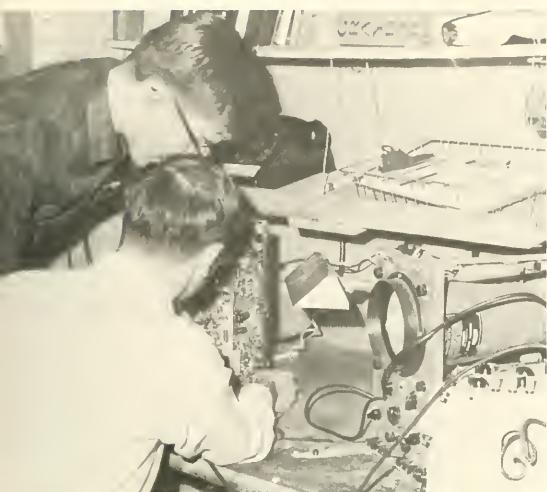

## WLRN

Now in its 23rd year, the Lehigh Radio Network (WLRN and WLVR), is continuing its efforts to provide a radio voice for the University. News, music and production facilities are being replaced by transistorized equipment to provide low-maintenance and high-quality broadcasting.

The network affords opportunities for technicians, production personnel, salesmen, writers, and financial managers. This year more than 90 students contributed their talents in these fields.

The principal aim of the network is to provide students unfamiliar with broadcasting an insight into the industry.

Although there is no school or department of radio and television, the network functions as an entity in itself, providing its own sales revenue, programming, equipment and management. Continuing coverage of all football games and wrestling meets, the network scored a first last year when it provided live coverage of the NCAA wrestling tournament in Laramie, Wyo. It was the only eastern radio station to do so. It continued this coverage from Ames, Iowa this year.

Poring over the intricate electronic equipment belonging to the radio station is the job of the technical engineers.

Each day's programs are planned well in advance.

During activities night, freshmen were introduced to the heart of WLRN.

*First row: Bauer, Matig, President; Ticzon, Hall, Secretary-Treasurer. Second row: Roy  
Cravzow, Faculty Advisor; Bruinsma, Burke, Silverman, Vice-President; F. Leyton, Faculty  
Advisor.*

When on a long trip, how else would members relax if they were not to sing.

## GLEE CLUB

When faced with an over-night trip, members of the glee club bring along most everything.

During Lehigh's 100th year, the University Glee Club, under the direction of Professor Robert B. Cutler, has provided the campus with an excellent repertoire of choral music. Selections have ranged from the robust conviction of Negro spirituals to the fiery excitement of Bizet's "Carmen" and the dynamics of Stravinsky's "Oedipus Rex." Combining with Skidmore, Chatham, Wells and Hood women's colleges, the glee club has presented works as modern as Poulenc's "Gloria" and as dateless as carols. By performing as chapel choir for Sunday services, the glee club has added to the religious atmosphere of Packer Memorial Church. Spring vacation once again found the singers basking on the warm sands of Puerto Rico. For eight days they mixed concerts with a Caribbean vacation.

Probably one of the most difficult, yet enjoyable, tasks for the Glee Club is to combine with one of the talented choirs from a women's college.

The Glee Club is often split into smaller, more diverse singing groups. Here the Cliff Clefs practice.

Head of the Music Department and director of the Glee Club is *Robert B. Cutler*.

Director H. Barrett Davis makes a point during rehearsal.

Steven Mittman ably portrayed Caesar in M&C's Fall production of "Caesar and Cleopatra."

Many long hours are spent in rehearsal.

Elaborate costumes were obtained through the efforts of the technical crew.

Costumes and scenery were handled by the technical crew.

The Fall production of "Caesar and Cleopatra" was well received by the Lehigh community.

## MUSTARD AND CHEESE

The Mustard and Cheese Club of Lehigh has completed another successful year in the promotion and fostering of dramatic ideals on the University campus.

Its December production of George Bernard Shaw's "Caesar and Cleopatra" was applauded by both campus and town theatre-goers. Shaw's satiric drama of political intrigue in ancient Egypt was highlighted by a deft portrayal of Caesar by Steven Mittman, and able support by Robert Billinger, Peter Tocci, Robert Culver and Neal Arluck.

In April, M&C's production of "Billy Budd" sailed smartly into Grace Hall and starred Peter Tocci, Dana Hodgdon, and John Zeckoski.

Most students think of Mustard and Cheese only in terms of its Spring and Fall productions, and perhaps its annual night of student-directed one-act plays. This, however, is only half the story. Since 1960, M&C's technical crew has had the responsibility of staging all public events brought to Lehigh. Under the direction of Prof. H. Barrett Davis, who is Lehigh's production coordinator of public events in addition to M&C's director, the technical men put in more than 3,000 hours of work this year in staging and lighting such events as "The Trojan Women," "Oedipus Rex," the Pittsburgh Symphony Concert and the Blaustein Lectures.

# BAND

The 97 Marching Men of Lehigh again thrilled Engineer football fans in 1965 with intricate and precise military drills which have rightfully earned the Band the title of the "Finest in the East." The band has appeared regularly at Lehigh football games since 1906 when it was organized with about twenty members. Edward Earl Ross, Class of 1908 was the founder and the first leader.

The Concert Band traces its beginning back to a concert in Drown Hall on May 23, 1908. In 1966, the Concert Band highlighted the Annual Lehigh Pops Concert and Winter Band Concert.

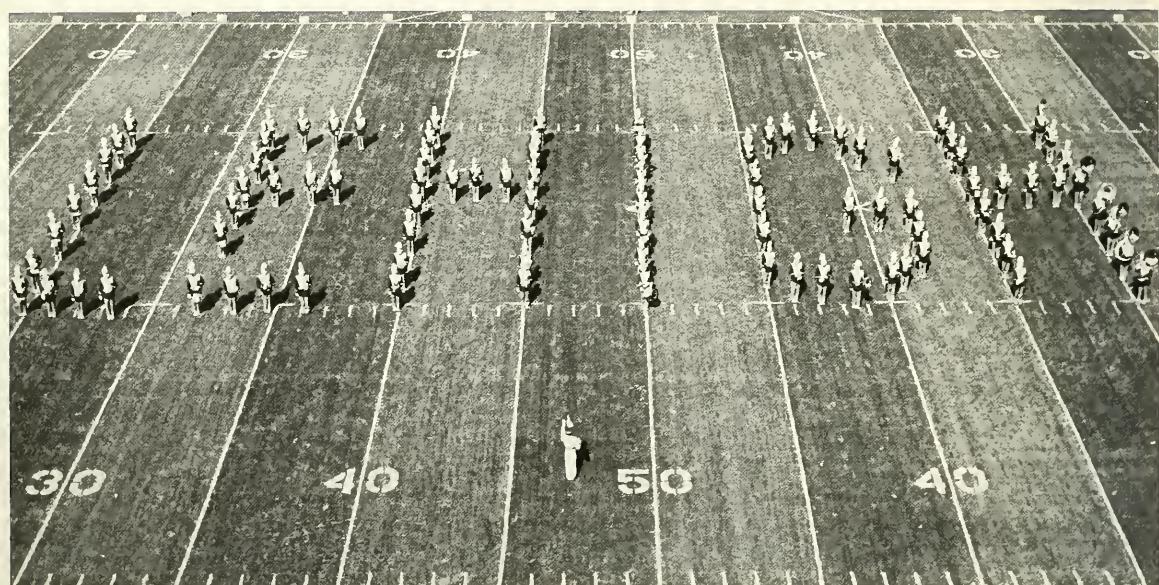

Another popular facet of the Lehigh Band is the Varsity Band which started in 1958 and presents an annual Spring Outdoor Concert in the Taylor Quad. The highlight of the 1965-66 season was the December trip to the Pennsylvania Music Educators Association Conference in Harrisburg where the Marching 97 were invited to lead a parade and present a concert.

Director of the Band, Professor Jonathan Elkus.

Student conductor Bill Lowe shows off his form.

An intense spirit is aroused before the big game.

*First row: Finne, Haselton, Karn, Holmes.  
Second row: Bowden, Meub, Zug.*

At the football games, the only ones who cheer are the spirited cheerleaders and the band.

## CHEERLEADERS

Dedication of the new upperclass dorms.

*First row: McConnel, Winchester, Weiner, Secretary; Goodman, Hunt. Second row: Tiefenbrunn, President; Garlick, Borin, Spear, Treasurer; Berger, Hermiston, Gilligan. Third row: Yaissle, Bub, Morissette, Skillman, Kloepfer, Sparks.*

## RESIDENCE HALLS COUNCIL

Until this year, McClintic-Marshall was the newest residence hall on campus.

When the snow comes, sometimes it's no easy chore to find your car.

Organized to guide the freshman class through the difficult first year at the University, the Gryphon society heaves a sigh of relief when Lafayette Weekend rolls around and the freshmen take over some of the responsibilities.

## GRYPHON SOCIETY

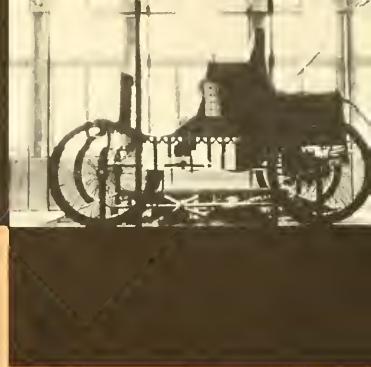

Underkoffler, *Treasurer*; Schaefer, *President*; Douglas, *Vice-President*; Schulman, *Secretary*.

*First row: Musser, Riccio, Pierce, Aughenbaugh, Abendschein, Long, Dunlap, Brooks. Second row: Wise, Rohrer, Straup, Holmes, Meincke, Zuckerman, Henderson, Johnson, Cornwell. Third row: Genter, Miedema, Astleford, Altenderfer, Henley, Ferebee, Gewehr, Foulkes, Schultz, Wirth.*

*The layout of the Bookstore perplexes many freshmen.*

LIVING GROUPS

*"Always yield to temptation"*  
George Bernard Shaw

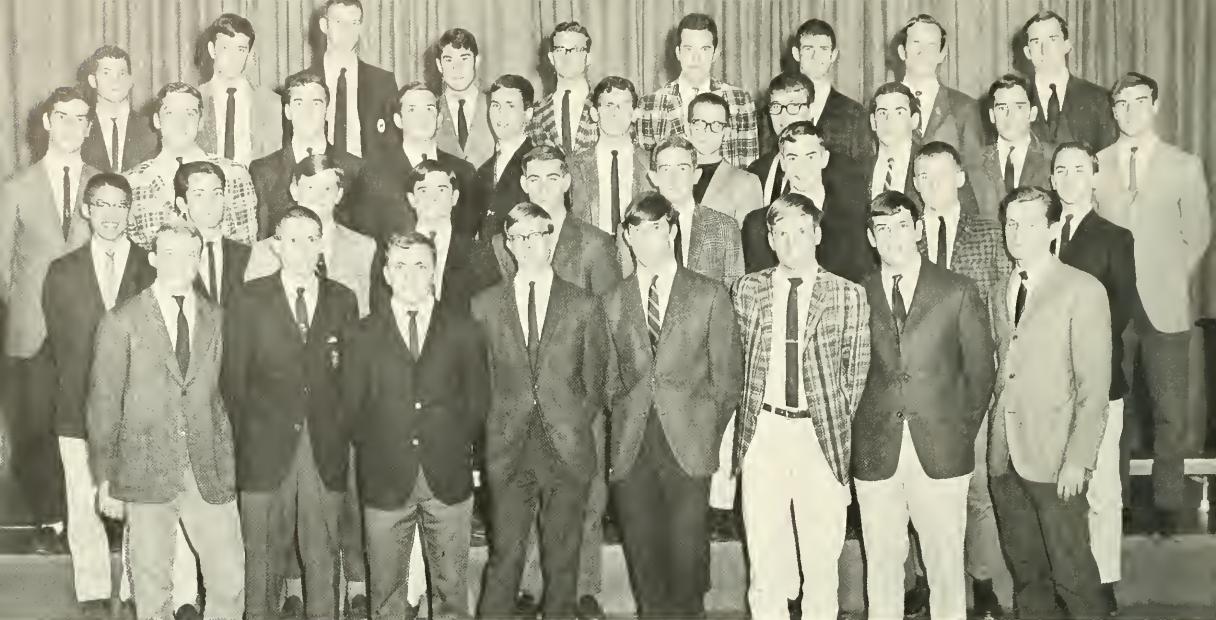

*First row: Hendel, Wallace, Edwards, McHugh, Nourse, Philbrick, Shugarts, Stone, Mitman, Singer. Second row: DeLong, Huber, Lettieri, Frantz, Haselton, Karn, Graupner, Reno, Pinckney. Third row: Augustin, Schmidt, Rosenberger, Klein, Luley, Orloff, Thomas, Franzblau, Headley.*

## DRAVO HOUSE

Dravo House, perched high upon an artificial bluff of South Mountain, stands as one of Lehigh's newest monument to the monastic theory of education popularly known as freshman dormitory living. Although it would not be quite fair to the hardy men who inhabit this structure to say that no girls have ever been seen near Dravo, it is a fact that the presence of a member of the fair sex tends to draw a bigger crowd than the spirited group of Friday pep ralliers.

Named in honor of the Dravo brothers, this residence hall was completed in 1948. It has so far managed to survive innumerable water fights, soccer balls in the hall, and countless pieces of tape on its precious walls. Close knit grouping is provided by dividing the men into small sections on partitioned split level floors. This arrangement supplies to the freshman a small unit of close friends, quickly made and usually held dear.

*First row: Skinner, Kohser, Ottinger, Taylor, Galardi, Pfeiffer, Steele, Thiede. Second row: Ikeda, Mantell, Fricette, Forshay, Rosen, Boyce, Kasting, Olive, Heiges. Third row: Slowes, Eynon, Gera, Dexter, Butt, Eckert, Walker, Goss, Fox, Maguregul, Confair. Fourth row: Yewdall, Feldman, Bertelsen, Levy, Graybill, McFarland, Kaplan, Purviance, Dorris.*

## B-1

*First row: Plonsky, Myers, Mendelsohn. Second row: Malone, Cramp, Spillane.*

*First row: Thom, Crawford, Isinger, Zink, Gill, Snyder, Guilmartin, Poveromo, Blake, Stine. Second row: Bynon, Casterlin, Cook, Van Scyoc, Carlton, Webster, Rutherford, Read, Kramer. Third row: Donche, Beery, McClure, McNett, Heide, Matalavage, Griffin, Guerci, Barba.*

**D-3**

**D-1**

*First row: Yeckley, White, Finne, Hlywiak, Oppold, Soschin, Feinstein, Nussbaum. Second row: Mazur, Brenneman, Heller, Bahret, Schrott, Oyler, Tranter. Third row: Strauss, Marsac, Kaiser, Wishart, Christhilf, Fasolino, Fleming, Gorfine.*

**D-4**

*First row: Johnson, Hughes, White, Engelbrecht, Confer, Keating, Kemp, Barbi. Second row: Geremia, Kaiser, Marsac, Stem, Gordon, Isaksen, Van Demark, Oyler. Third row: Sheir, Strauss, Brenneman, Heller, Schrott, Smith, Gooch, Rohrbach, Zeynel, Gorfine.*

1

First row: Nemetz, Deitchman, Stinger, Walters, Soschin, McKeahan, Massar, Christman.  
Second row: McLean, Ritter, Hawbaker, McNeil, Hall, Ruefli, Clauser, Shrader. Third row:  
Early, Adams, Elbich, Scherlin, Van Wye, Wikstrom, Keith, Eler, Musewicz.

Named after the late Henry Sturges Drinker, who was President of Lehigh University from 1905 to 1920, Drinker House withstood another nine month invasion from two hundred spirited freshmen. It was on Founder's Day, in the fall of 1939 that the cornerstone was cemented to the foundation, and the building was first occupied in 1940. Dr. Drinker's policy was to centralize campus life to create unity for a "Greater Lehigh," and the increase in the number of dormitories was one of his main objectives.

The 1941 *Epitome*, says; "So the new dormitories were added to the old . . . The new houses are the latest in dormitory design, built in the pleasant college Gothic, and conform in this respect to the library, Packard Lab, and the Alumni Memorial Building . . . the houses contain lounges that are both beautiful and comfortable. In the houses are game rooms, visiting rooms, and even a soundproof room for musicians!" Modern as they were in 1940, the "new houses" presently add a stately aura to the University that few University campuses can surpass.

First row: Chappelle, Gregor, Rice, Newman, Baran, Goral, Fopeano. Second row: Ruttan, Melville, Mastenbrook, Ansin, Toth, Rogerson, Hagenbuch. Third row: Messmore, Stephens, Farrell, Werner, Stryker, Herr, Lehn.

Behind the scene of the University Center Food Factory.

It is not easy to get all your sleep at the regular hours, so a quick nap in the UC lounge often helps.

# LEONARD HALL

First row: Croneberger, President; Showalter, Scrivener, Pocalyko, Kent. Second row: Campbell, Werden, Burgh, Fitzkee, Stevenson.

Leonard Hall was founded in 1908 by the Right Reverend Ethelbert Talbot, Bishop of Bethlehem and a Lehigh trustee, to assist worthy Lehigh men to prepare for the ministry of the Episcopal church. Mr. Eckley B. Coxe, a member of the family which gave us the Coxe Mining Laboratory, provided the funds to erect the building and also an endowment. Former Leonard Hall members are now prominent in the Episcopal Church.

In recent years, Leonard Hall has become another residence hall, with a mixed group, this year including freshmen. But being off campus, with its own cook, Leonard Hall much resembles a fraternity. Actually, it has the Greek name Alpha Chi Epsilon, and requires pledging, initiation, and the normal social activities. Although few in number, the men in the house actively participate in the intramural sport program and are represented in a wide variety of campus activities.

*First row: Bender, Hager, Coffman, Signor, Ofiesh, Bridges, Klopp. Second row: Enterline, Runkle, Frazee, Norris, Shaffer, Miller, Putney, Askren. Third row: Sterner, Lee, Chastain, Stober, Paget, Stauffer, Weintraub. Fourth row: Acton, English, Batzer, Gilligan, McCoy, Janes.*

## McCLINTIC-MARSHALL

McClintic-Marshall, until recently the newest dormitory at Lehigh was completed in 1956, and for a year was simply called the "New Dorm." The official dedication was held on September 28, 1957, when the large modern structure was named after Howard Hale McClintic and Charles Donnell Marshall, distinguished Lehigh graduates of the Class of '88.

The three hundred men who inhabit M&M comprise perhaps the broadest cross section of the Lehigh man—from the cool conformist to the academic recluse. Although sectioning within the house creates a taste of rivalry, there is a significant amount of house unity created by joint parties, lecture-discussions, and the Lafayette display project.

Recently, freshmen were also moved into the massive structure, and immediately the calm was disturbed. Along with the grumbling about inadequate lighting and noisy heating system, the usual freshman diversions such as shaving-cream fights and wrestling matches in the halls were common occurrences. This disturbed the upper classmen so that they moved en masse to the new dormitory complex above Taylor field.

When you are looking for help in the library . . .

. . . there is immediate response.

1

## RICHARDS HOUSE

Dr. Charles Russ Richards, for whom Richards House is named, was the sixth President of Lehigh, and known as the creator of "Greater Lehigh." He came to the University in 1922 and left in 1935, worn out by his labors. During his administration, Packard Laboratory and the new Library were erected, every building was renovated, and the campus roads were paved. He created the office of dean and established the Students Health Service, the admissions office, and the placement bureau. A courageous liberal, he made his presence felt everywhere and everywhere was bettered by his presence.

To the more than two hundred freshmen who occupy Richards House, this career of a remarkable man goes by unnoticed. Between the shaving cream battles, all night card sessions, and midnight vocalizings, few residents pause to think of the illustrious history of their University. Perhaps this is as it should be—always striving for the future is more rewarding than looking back into the past. But the freshmen may be proud of the past.

Checking the mailbox is an anxious and enjoyable routine of the day.

*First row: Johnson, Tarnoff, Adams, Soheet, Jacob, Krupnick, Biamonte, Harper. Second row: Mirkovich, Sjoblom, Miller, Daubenspeck, Jordan, Hull, Sgarro, Tomenga, Bell. ## TAYLOR HALL

Taylor Hall is the gift of Andrew Carnegie to Lehigh University. In presenting this dormitory to the University, Mr. Carnegie accomplished a two-fold purpose: first, he helped to fill a long felt need for better living conditions among the undergraduates; and second, he honored his former business partner, Charles L. Taylor, '76, a former University Trustee, by naming the dormitory Taylor Hall. The hall is unique in the fact that it was one of the first all concrete buildings to be erected in this portion of the country. Much difficulty was encountered in the construction, and Taylor Hall has nobly attempted to stand up to an onslaught of weather, smog, steel dust, students, and most recently, freshmen.

This year, every resident of Taylor Hall was a freshman. Charmed by the ugliness and wondering where all the hot water went, the freshmen have grown accustomed to the quaintness of the old hall.

NO COMMENT.

Construction of the new houses got underway in the summer of 1964.

The Centennial Houses marked a turning point in the financing of building at Lehigh. The construction project is the first of its type to be financed by the University under a direct federal government loan. The application for the loan was approved by the Board of Trustees in April of 1962. A Housing and Home Finance Agency loan in the amount of \$1.2 million was granted on Oct. 23, 1962. The estimated cost of the complex at that time was \$1.5 million, some \$770,000 short of the final cost. The loan is self-liquidating, payable over a 50 year period with receipts from operations of the residence halls.

Names for each of the six units were announced by Dr. Lewis. The six men being honored for important contributions to Lehigh over a span of years beginning in 1875 are the late Rev. Dr. John McD. Leavitt, the late Dr. Charles G. Thornburg, the late Dr. Natt M. Emery, the late Dean C. Maxwell McConn, Dr. E. Kenneth Smiley, and Dr. Wray H. Congdon. Upperclassmen occupy the six distinctive, self-contained units, each of which provides an atmosphere of a small living group.

The first floors of the three story buildings are used for lounges and recreational facilities, while the upper two floors are devoted to two-man study and bedrooms. The Centennial Houses were dedicated during the Centennial All-Class Reunion last June. The special reunion launched the University's centennial observances which will continue through 1965-66, the University's Centennial Year.

*First row: Carvill, Feldman, Kober, Foshag, Lucuski, Blanshine, Lazet, Fleck, Long. Second row: Lee, R. Smith, K. Smith, Bustard, Thomasco, Scott, Wright. Third row: Morissette, Davenport, Leary, Yochum, Hall, Levin, Szabo. Fourth row: Welch, Perry, Becker, Brugam, Reid, Schlesing.*

Dr. Congdon served Lehigh as director of admissions, dean of students, dean of the Graduate School and as a special assistant to the President during a 27-year period preceding his retirement in 1961. He is currently administrative director of Historic Bethlehem, Inc.

Dr. Emery joined the faculty in 1896 as an assistant in English, and served successively as registrar, assistant to the president, and vice president and controller until his death in 1935.

*First row: Restuccia, Speen, Winchester, Zwerling, Hunter, Jenkin, Farnell. Second row: Wilkinson, Gallenberger, Skorik, Paul, Rushforth, Tedesco, Kuhl, Sarka. Third row: Davis, Rokhsar, Baird, Reichard, Zimmer, Linder, Kepner, Opdyke. Fourth row: Feidt, Koblish, Adams, Oney, Summerville, Burdick, Paris, Fatzinger, Quicke.*

## CONGDON HOUSE

## EMERY HOUSE

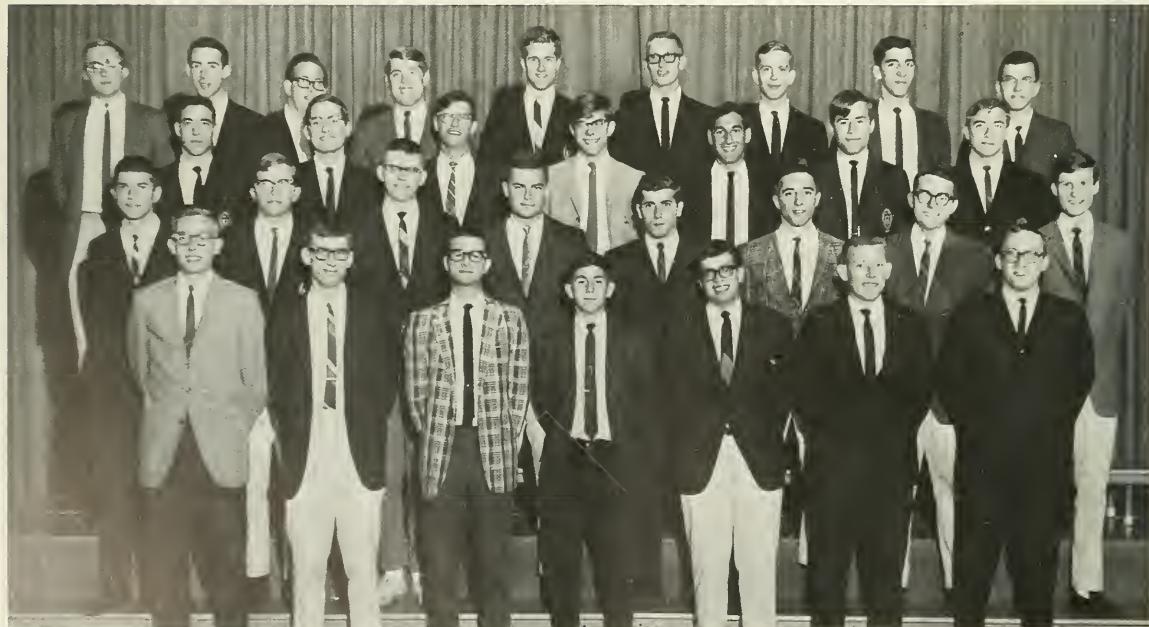

## Mc CONN HOUSE

Dean McConn, Lehigh's first full-time dean, was named to that post when it was created in 1923. He held the post, which then consolidated administration of admission procedures, registration, student records and student advisory responsibilities, until 1938.

Anyone who lives in a residence hall, must be on the lookout for the many pranks that are played daily.

*First row: Simpson, McIntosh, Wachstein, Orenstein, Marchand, Raughley, Eisenhower. Second row: Rieman, Rowe, Richards, Kloepper, Kachel, Stetson, Platte, Goebel. Third row: Mishkin, Ullman, Davidson, Ahrens, Neidell, Wheeler, Orendorf. Fourth row: Pechulis, Tessier, Whiteford, Fagundus, Sanderson, Hubbs, Morris, Ovadis, Hess.*

# LEAVITT HOUSE

*First row: Goodman, Reamy, Kroll, Daniel, Wise, Heitz, Brisotti, Romberger, Schoenholz. Second row: Nebiker, Fahringer, Vacher, Bohner, Wilson, Baader, Lefferts, Paul, Watson.*

*Third row: Koch, Clouser, Roth, Kemp, Brink, Fleming, Boghosian, Bolyn, Sellman, Bolyn.*

*Fourth row: Ressler, Kiehl, Steinberg, Pashtoon, Derum, Murray, Groppe, Lorch, Johnson, Orban.*

The Rev. Dr. Leavitt, Episcopal minister, author and educator, was Lehigh's second president, serving as chief administrator from 1875 to 1879. He was also professor of psychology and Christian evidences during the same period.

Whether walking . . .

. . . or sliding, South Mountain is an integral part of the University.

## SMILEY HOUSE

*First row: Richheimer, Morrow, Becker, Peduzzi, Kibler, Arnts, Donoghue, Hellmers. Second row: Doty, Bernhardt, Assenheimer, Dabney, Zerdy, Keir, Weil, Lichtenauer, Brody. Third row: R. Johnson, Hyde, Gavaghan, Hershey, Jones, Albeck, Salter, Berrian, E. Robertson. Fourth row: Spear, Raynor, A. Robertson, Elsdon, Lightner, Hoddinott, S. Johnson, Skillman, Kelly, Abromaitis, Nesbitt, Burns.*

Dr. Smiley, a member of the faculty and staff for a total of 33 years, served as vice president from 1945 until his retirement in 1964 and was secretary of the University's Board of Trustees from 1952 until 1962. He was on leave of absence from Feb. 1, 1962, until he retired.

Dr. Thornburg came to Lehigh in 1895 and served as professor and head of the Department of Mathematics until 1923. For 23 years, he was secretary of the faculty, a position which included heavy responsibilities in student administration.

## THORNBURG HOUSE

*First row: Milan, Caccese, J. Hoover, McDonnell, Shupp, Sauer, Barycki, Goldstein. Second row: Tiefenbrunn, Jackman, Simpson, H. Hoover, Gommer, Yaissle, Eberhart, Pansini. *First row: Kotow, Bottiger, Treasurer: Lisle. Second row: Ture, Secretary; Fergus, Knudson, President.*

## DAS DEUTSCHE HAUS

A quiet moment, reflecting past and present at Lehigh University.

Willing to help with fraternity problems is Assistant Dean of Students, *William L. Quay*.

*First row: Brian G. Brockway, Advisor; William L. Quay, Advisor; James V. D. Eppes, Advisor; Weise, Secretary; Etzel, President; Burns, Vice-President. Second row: Narducci, Marin, Tschampion, Lutz, Weed, Niemeyer, Amsbaugh, Proctor. Third row: Monforte, Delaney, O'Neil, Cuthbertson, Smith, Claypole, Haight, Roper. Fourth row: Doehe, Frank, Eisenstaedt, Skillman, Irwin, Squier.*

*Jackson, DeVincentis. Fifth row: Smyth, Pfunder, Zacher, West, Campbell, Beane, Kanet, Scotch. Sixth row: Humphries, Garber, Lewandowski, Hunter, Gudikunst, Goldberg, Swab, Atkinson. Seventh row: Mandell, Collison, Valant, Reynolds, Stone, Michael, Buente. Eighth row: Ciampa, Levy, Kabot, Harvey.*

## FRATERNITIES

"We, the Greek Letter Societies of America in convention assembled, do make the following declaration:

"It is our earnest wish and desire to inculcate into our various chapters or local societies the principles of true manhood; to promote the moral welfare of all our members; to stimulate and encourage scholarship; to prescribe obedience to all authority; to encourage loyalty to and active interest in the institution where they may be located; to foster a friendly and democratic spirit between our members and all others with whom they may be associated, and to inspire among our members a true, loyal and lasting friendship.

"And we do further declare that to these ends we have, through our officers and councils, dedicated ourselves in the past and do pledge ourselves for the future.

"And we do further declare that our association in such societies is in fulfillment of the natural desire of all people to seek friendship; and that we consider our members not as elected to any privileges, but rather pledged and dedicated to a life of striving for our ideals.

"And, remembering our long and prosperous existence, our opportunities and hopes for the future, our thousands of great and true members now in service of the world, the thousands of young men in our brotherly care, and the service of many good and noble men given to the perfecting of these ideals,

"We do pledge ourselves to promote these things in all ways and to continue our efforts to that end."

Adopted May, 1913, by Chicago Congress  
of the Greek Letter Societies of America.

*First row: Azano, Hoffman, Burgoyne, Kanet. Second row: Dubois, Meyer, King, Frantz.  
Third row: Taylor, Claussen, Gross, Scotch, President. Fourth row: Hagelin, Learned,  
Mahoney, Greco, McLaughlin, Andersen, Martin, Haggett.*

# ALPHA CHI RHO

This, the 94th year of the existence of fraternities at Lehigh, was a big year for the Greeks. In a period when many of the old, established chapters started construction on new houses, the Interfraternity Council accepted into its membership the 31st chapter at Lehigh: Tau Alpha Kappa.

The TAK living group, formed in 1963 by students who didn't join any other fraternity, was on the verge of becoming extinct when, after three years of pleading with the University, they were given permission to become a local fraternity. Now known as Tau Alpha Kappa, they have also been given a voting seat in the IFC.

## ALPHA SIGMA PHI

*First row: Payavis, Vice-President; Eveland, President; Shuffle, Treasurer; Gilpin, Markel, Williamson. Second row: DiGiacomo, Monforte, Fulmer, Wolfe, Wolf, Kelly. Third row: Wiley, LaMonica, Rickards, Delaney, Schopbach, Schlauch, Gerber, Volp, Peterson, Janukowicz, Mullins. Fourth row: Lewis, Bean, Evans, Slivinski, Diederich, Stewart, Schaub, Conklin, Naughton.*

The recognition of Tau Alpha Kappa provides an interesting contrast in the development of fraternity life at the University. 1965-66, the centennial year, was also the year of growth for Lehigh's older, more staid Greek letter societies, as indicated by construction activity of new chapter houses by Pi Lambda Phi, Tau Delta Phi, Sigma Alpha Mu, Phi Kappa Theta, Alpha Tau Omega and Theta Xi.

In the last few years, the University's Board of Trustees has adopted a program to assist the national fraternities on campus to enlarge and improve their physical facilities, mainly by moving them into new homes in Sayre Park. Only a few fraternities remain in town, and all of them are now planning hill houses.

# ALPHA TAU OMEGA

*First row: Lambert, Lettieri, Miller, Hemp, Newton, Moose, Cooper, Deckman, President. Second row: Lehman, Baker, Attwood, Markarian, Elkus, Faculty Advisor; Von Seelen. Third row: Surdi, Ness, Georges, McNeill, Burke, R. Bruno, Sawyer, Linebaugh. Fourth row: Brown, Fowler, Johnston, Williams, Kirk, Borcherdt, Banks, Knight. Fifth row: Weiler, Gillon, Galardi, Huber, Krampetz. Sixth row: Painter, Eisele, Relyea, Stoehr. Seventh row: Borssuck, Suiter, Adams, Berseth, Lamb, Amsbaugh, Adey, J. Bruno, Oldham, Niemeyer, Gurda.*

However, some houses, such as Phi Kappa Theta, will regret this progress, for by moving to a new house, they will lose the distinction of having "the longest bar on campus."

It was a hot year for Theta Xi, too. Early Sunday morning, Jan. 9, as 27 brothers slept, a pile of mattresses in the summer dorm caught fire. After two-and-a-half hours in the nine-degree morning, Bethlehem firefighters brought the blaze under control, but the house was completely destroyed, and along with it went many personal belongings, including notes for the then-upcoming final examinations.

## BETA THETA PI

*First row: Leek, Sotzing, Saunders, Angresano, Prikryl, Rushatz, Hodson. Second row: Schlenker, Secretary; Johnson, Vice-President; Etzel, President; Cavanagh, Treasurer. Third row: Schmidt, Beacher, Leard, Smith, Meadowcroft, Marchant, Tepper, Bramble. Fourth row: Washchyn, Dusenberry, Howlett, Peck, Cuthbertson, Roper, Turton. Fifth row: Rebert, Hamilton, Russell, Brothers, Corbiere. Sixth row: Bloem, Particelli, Buffinton, Ries, Hines. Seventh row: Renfro, Zern, Muir, Gladstone. Eighth row: Pugsley, Valant, Sunda, Bodine.*

The University and the 30 other fraternities pitched in, however, and soon the homeless brothers moved into Park House, recently vacated when Pi Lambda Phi moved into their new Sayre Park house.

But this was not the first fraternity disaster in the University's history. In the summer of 1964 an 8-year-old Bethlehemite started a \$10, 000 fire in the same house. When Delta Phi was the St. Elmo Club in 1913, it too was destroyed by a blaze. Chi Psi's Sayre Park residence was lost to fire in the early 1940's, but the brothers rebuilt the house in 1941 on top of the ruins.

*First row: McCoy, Lawson, Westerman, Chappelle. Second row: Fry, Lundquist, Powers, Blaisdell. Third row: Kiefer, Aylsworth, Grubb, Smyth, President. Fourth row: Nugent, R. Coulston, Schmidt. Fifth row: Wilcox, Gohacki, Corson, Jelenko. Sixth row: Brown, Bosch, Fischer. Seventh row: Jacobs, Hastings. Flowers. Eighth row: Gigon, Holmes, Scott, Zukowski, Miceli, Manry, V. Coulston, Ulrich.*

## CHI PHI

## CHI PSI

*First row: Caney, Staring, Zurlo, Allegra, Bisogni, Sheppard, Fricette, Dietz. Second row: Agnew, Ciampa, Billings, Woll. Third row: Greenough, Pfunder, President; Leute, Berg, Myers, W. Succop, Mazur, DeVeau, Ramee, Littlefield, Winter, Flail, Cook, Donaldson, L. Succop, Banes, Beidler, Spinney. Fourth row: McClenman, Harroff, Kish, Blackwood, Bahret, Stuart, Hill, Grabber, Cooper, Hind, Baiz, Walton.*

One year later, in February 1942, everything but the brick walls of Phi Gamma Delta went up in smoke and flames. In 1963 the Sigma Chi living and dining rooms were destroyed, and a \$15, 000 blaze gutted Sigma Phi Epsilon's kitchen.

Psi Upsilon, not content with a house-warming, invited Hurricane Carol in for a weekend. The roof was blown off the house as a result of her 1950 visit.

These modern social fraternities are descendants of the scholarly religious brotherhoods of the Middle Ages, the German fencing societies and the American eating clubs and social groups. They all manifest the basic desire of students to band together for common interests.

At Lehigh most of the fraternities were originally organized as dining clubs, debating societies or social groups. Chi Phi, the oldest continuous national fraternity on campus, began as the Calumet Club, a dining group, six years after the first classes started. They met above the Moravian Bookstore until the late 1880's when they purchased the Sayre House on Wyandotte Street, where they began serving their own meals.

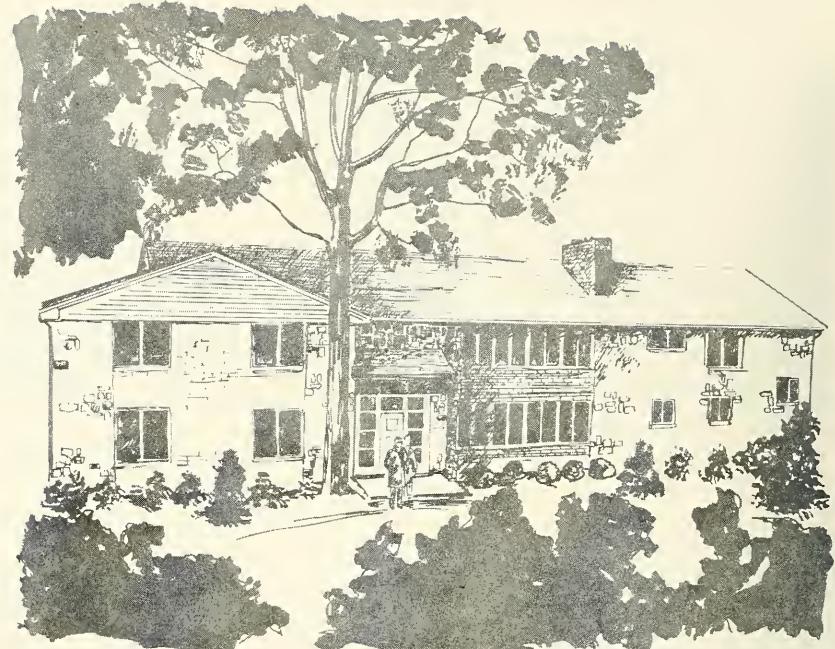

## DELTA CHI

*First row: Schurter, Milunec, Gorton, Kunkle, Prutzman, Goll, Hartz, Rutherford, Richards. Second row: Zimmers, Sommer, Bailey, Simek, Hoffheins, Tinker, Knecht, Stevens, Smith, Evans. Third row: Bliss, Claypoole, President; Radman, Spaeth, Keim, Reilly, Tracy, Montigel, Eiffe. Fourth row: Madigan, King, Komline, Letterman, Luss. Fifth row: Horstmann, Hamlin, Thieme, Cooper.*

## DELTA PHI

Sigma Nu, on the other hand, was started in 1885 by brothers who had transferred here from other chapters. In 1894, 20 students from Mt. Herman Prep School in Mt. Herman, Mass., banded together forming the Mt. Herman Club, which became Theta Xi in 1904. The Seal Club, later the Lehigh Ivy Club, was founded in 1924; by 1926 it became Zeta Chi, and in 1929, Pi Kappa Alpha. After a national merger, Howard Hall (Alpha Kappa Phi) became in the early 1930's, Alpha Sigma Phi. Lambda Chi Alpha began as a local named Delta Theta in 1922; three years later their petition was accepted, making them the Gamma Psi Zeta chapter of Lambda Chi Alpha.

*First row: Gudikunst, Wallace, Campbell, Rowe, Long. Second row: Burkey, Vice President; Shoup, Pease, McMann. Third row: Cooper, Hunter, Rust, Riley, Nordinson, Guyer, Flint, Travis. Fourth row: Wilson, Damm, Lang, Warfield, Eichorn, Sutton, Kegerise.*

# DELTA SIGMA PHI

*First row: Van Nostrand, Frey, Swab, President; Brown, Jaeger. Second row: Ferrero, Allen, Phillips, Leininger, Egelston. Third row: Coull, Fleegal, Betts, Atkinson. Fourth row: Chbosky, Giuliano, Markezin, Mascuch, Steever, Bittrick. Fifth row: Hertzler, Gustavson, Culver, Bailey.*

The year of 1884, when Richard Harding Davis started intercollegiate football at Lehigh and began the Lehigh-Lafayette series, began a two-year period when more than half-a-dozen fraternities were established on campus. Among them were Delta Phi, Psi Upsilon, Theta Delta Chi, Phi Gamma Delta, Sigma Chi, Sigma Nu and Delta Upsilon. This was 19 years after the University received its charter, when the undergraduate enrollment was fewer than 300 persons.

# DELTA TAU DELTA

*First row: Bader, Adelaar, P. Miller, Yeich, Singleton, Thomas, Allen, Treasurer; Smith, Weaver. Second row: Wendlandt, Gebhardt, A. Miller, Gebert, Halverstadt, Semko, Jaeger, Gilbride, Secretary; Schaffer, Whittier, Gross, Roberts, M. Kalisch, President; Bubp, R. Miller. Third row: Eaton, Stone, Gill, Klein, Sorensen, Deakins, DiMaria, Lappia, Bareford, Varnum, Vice-President; MacLeod.*

All these clubs which survived, soon became affiliated with an established national fraternity. However in 1915, a group of students in the Newman Club sought a means of continuity for the group. Three of them went on to found Theta Kappa Phi. After the first world war, it amalgamated with a local Penn State College fraternity to become a national Greek letter society of Catholic men. In 1959 it merged with Phi Kappa to form 60 chapters of Phi Kappa Theta, the only national to be founded at Lehigh, and the only one on this campus with a stated religious purpose.

# DELTA UPSILON

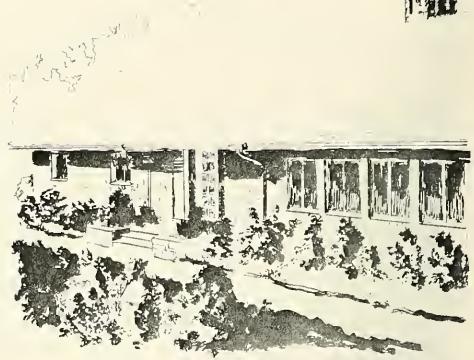

*First row: Krause, Sini, Booth, Secretary; Black, Vice-President; Cook, President; Donnelly, Treasurer; Cavagnaro. Second row: Roth, Thaeder, Korff, Hart, McKenna, Marlow. Third row: Herceg, Holbert, Kneedler, Snyder, Barton, Berger, Baumgartner, Frank. Fourth row: Riddell, Beam, Ruth, Jones, Allan, Hall, Wright, MacKeith, Moroz, Vitale, Swanson.*

This pattern continued on until 1952 when Rho Eta local fraternity became affiliated with Delta Chi, and the University list of nationals reached the present number: 30. Before the fall of 1952, the Rho Eta's began turning the former residence of the late Dean Palmer into their living quarters. The Oct. 7 *Brown and White* notes that they acquired 20 desks and an equal number of chairs and bureaus from the Penn State Delta Chi chapter. Four desks were turned into dining tables, and other furniture was purchased from Chi Psi. The brothers hoped "construction of a bar in the cellar . . . will be in shape for the coming festivities of the football season."

## KAPPA ALPHA

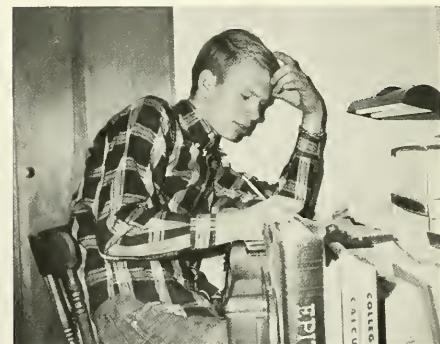

*First row: Moore, Leitner, Hovland, McAllister, Bayne, Goldmann, President; Gessner, Vice-President; Stavers, Treasurer; Grosz, Komm, Lentz, Ticzon. Second row: Zug, Farina, Zachary, Edwards, Sherwood, Elcome. Third row: Schneller, Schlang, McDonald, Lister, Gundersdorf, Stives, Valeriano, Beckner, Kaufman, Bell, Anderson, Cochran, Meub, Larson, Sturman, Wilbur, Humphries.*

During the two large-scale wars this century has experienced, several fraternities almost went out of existence. All of them (there were 15 in 1910) suffered, as many brothers joined the fighting and many lost their lives. At least three fraternities, Theta Delta Chi, Alpha Sigma Phi and Sigma Alpha Mu, disbanded during World War II. Sammy (Sigma Alpha Mu) had a house at 506 W. 3rd St., purchased by Alumnus Laurence Timan before the war. It was sold when they disbanded, and then Timan bought it again after the fighting ceased.

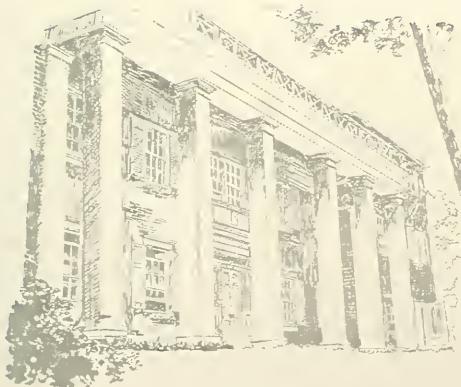

The Army Specialized Training Program students kept several houses going, including Chi Psi and Sigma Nu. Theta Xi, on the other hand, moved in with Sigma Phi Epsilon for the duration. Kappa Sigma relied solely on boarders to stay alive.

# KAPPA SIGMA

*First row: Tschampion, Weed, Isinger, Triolo, Schneider. Second row: Hutchinson, Smith, Brower, Patrick, *Grand Master*; Yingling, *Grand Treasurer*. Third row: Crawford, Vanderwerker, Sechrist, *Grand Master of Ceremonies*; Van Doren, Rick, Larson, Luckett, Trageser, Heide, Monk, Kniel, *Grand Procurator*; Evans, Nickey. Fourth row: Clark, Knauer, Messmore, Siller, Pike, Kozemchak, Kinderman, Schimpf, Romary, Schrott, Hyland, Calder, McKown, Olsen.*

*First row: Thayer, Ridler, Lauer, Doehne, Klein, Huntress, President; Silliman, Scruffy, Conly.  
Second row: Barber, Herzog, Wein, Plante, Long, Zacher, Paulonis, Popek. Third row:  
Casazza, Papa, Gayhart, DeMoyer, Hemler, Crouch, Beardslee, Stewart. Fourth row:  
Evanowsky, Bell, Ulinoski, Knopp, Howe, Wall, Shepard, Dompieri.*

## LAMBDA CHI ALPHA

*First row: Butler, Textor, Thibadeau. Second row: Weise, Maass, Miller, Winkler, Gebhardt, Proctor, Jack. Third row: Reynolds, Nealon, Griffin, Bussmann, Hartman, Dawe. Fourth row: Pierson, Utzinger, Moore, Flaherty, Weed. Fifth row: Howells, Baggelaar, President; Dator, Funk.*

# PHI DELTA THETA

Conditions were similar during World War I, when Theta Delta Chi moved into the Bethlehem home of a former house treasurer and Theta Xi was closed. Phi Sigma Kappa moved in with Sigma Nu, and since Sigma Phi Epsilon had only one brother, it too took in boarders.

Several fraternities over the years have served as hosts to their national organization's conventions in Bethlehem: Alpha Sigma Phi, Phi Kappa Theta, Sigma Phi Epsilon and Psi Upsilon.

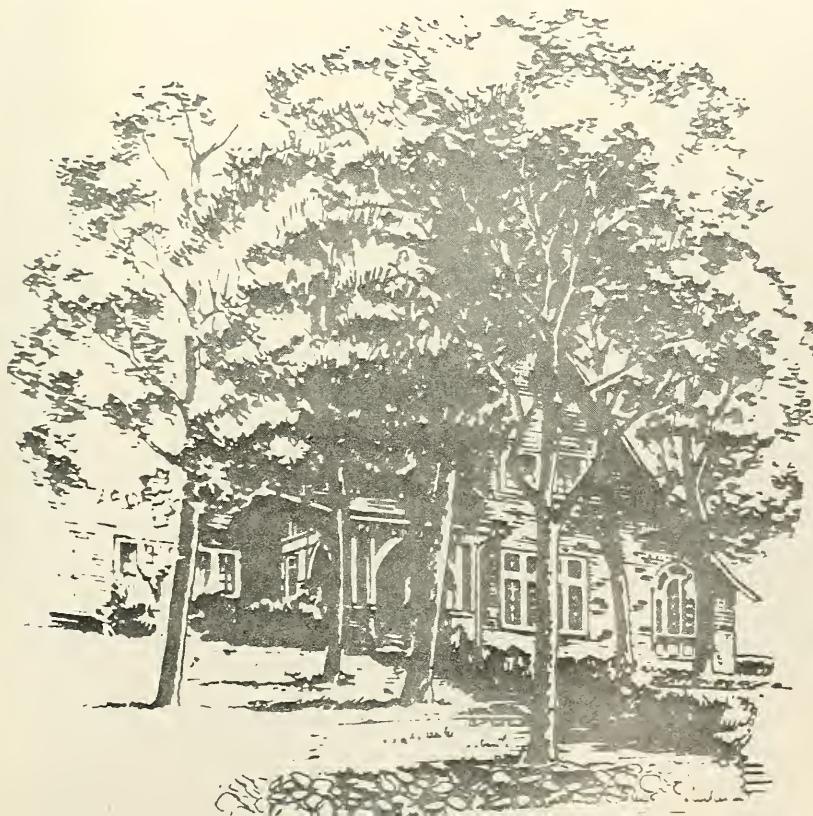

With these societies being here for so long, many loyalties have developed between the brothers and hired help. Bob Dixon, the Fiji cook, hasn't missed a day in the 29 years he has worked for Phi Gam.

# PHI GAMMA DELTA

*First row: Holbert, Bezer, Taylor, Rizzo, President; Murlless, Shields, Blane. Second row: Gier, Edwards, Breen, Simmering, Watson, Magdelain, Caprio, Mirenda, Thunfors, Fitzpatrick. Third row: Hawes, Corresponding Secretary; Greevy, Sampson, Weaver, Narducci. Fourth row: Shivek, Hobbs, R. Maloney, Wrigley, Pfaeffle, M. Maloney, Bogenrief.*

# PHI KAPPA THETA

Seventy-year-old "Willy," the Beta Theta Pi "houseboy," has lived in the 2-room "Willy's Castle" in the basement since he began his chores there in 1940. "Willy," William H. Johnson, never forgets alumni, their birthdays or anniversaries.

Inter-fraternity rivalries have also characterized Greek life at Lehigh through the years. Phi Gam and Beta have, until this year, had a long-standing feud over the "Basic Rock." This year, however, Fiji's centennial pledge class buried it in the front of the house in 1, 500 pounds of concrete.

Countless stories, many apocryphal but, nonetheless exciting, have been passed down from pledge class to pledge class. Pledge Milton Baldwin Bates, '13, was in Delta Upsilon for some reason New Year's Eve, 1909, when burglars entered the house. He defended the house until he was shot in the shoulder, making himself a hero D. U.'s still brag about.

First row: Hlywiak, Kulikauskus, DeAngelo, Lewandowski, President; Cavallari, Zangara.  
Second row: Zeynel, LaJeunesse, Yagrich, Reilly, Carroll, Minetti, Dolan. Third row: Garrison,  
Hoben, Donoghue, Isaksen, Morrico, Parker, Fasolino, Donnelly, Lovenduski.

## PHI SIGMA KAPPA

*First row: Sloan, Rohrbach, Secretary; Donohoe, Davagian, Wolff, Hemphill. Second row: Wyatt, Hogrefe, Unger, President; Karl, Vice-President; Meck. Third row: Brown, Sylvester, Vanderslice, Treasurer; Wriggins, Koch, Kirkpatrick, Freeman, Stine, Bauer. Fourth row: Barnes, Guernsey, Gould, Helies, Frank, Snyder, Mather, Burke, Squier, Donle, Matthews.*

# PI KAPPA ALPHA

*First row: Trimble, Bretch, Cloud, Mandell, President; Haslett. Second row: Klacik, Costa, Mathers, Choumbakos. Third row: Borso, Adams, Collison, Lewis, Logan, Hitch, Scott, Stryker. Fourth row: Myers, Grimes, Sturz, Frick, Hetherington, Gladding.*

*First row: Dubert, Mantell, Goldberg, President; Witherspoon, Rigotsky, Kessman. Second row: Glickman, Sacks, Dobkin, Bauer, Pollack, Schur, Thames, Hirschmann. Third row: Cuneo, Kelban, Bruch, Miller.*

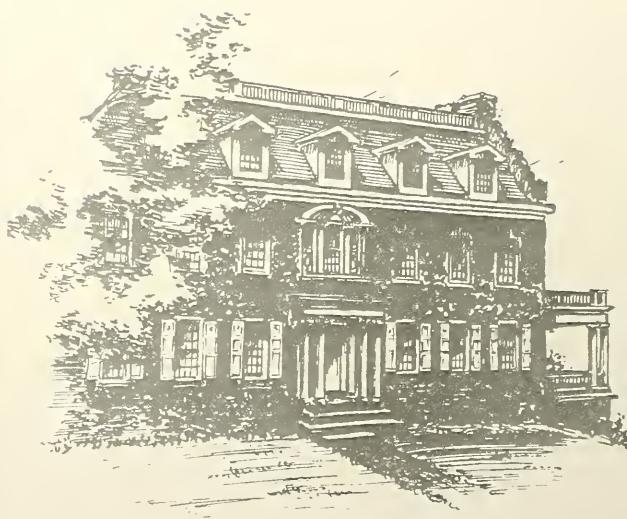

PI  
LAMBDA  
PHI

*First row: Wittner, Whiteside, Vice-President; Riether, President; Jones, Birch, Secretary. Second row: Evans, West, Bittner, Martinson, Dowling, Bott. Third row: Canterbury, Harry, Bowden, Sather, Peterson, Whittlesey, Hurd. Fourth row: Wolpert, Grabowski, Salomon, Baker, Vilardi, Schneider, Wolfe. Fifth row: Simonsen, Dinger, Couch, Trapp, Antshel. Sixth row: McCune, Reymann, Barker.*

## PSI UPSILON

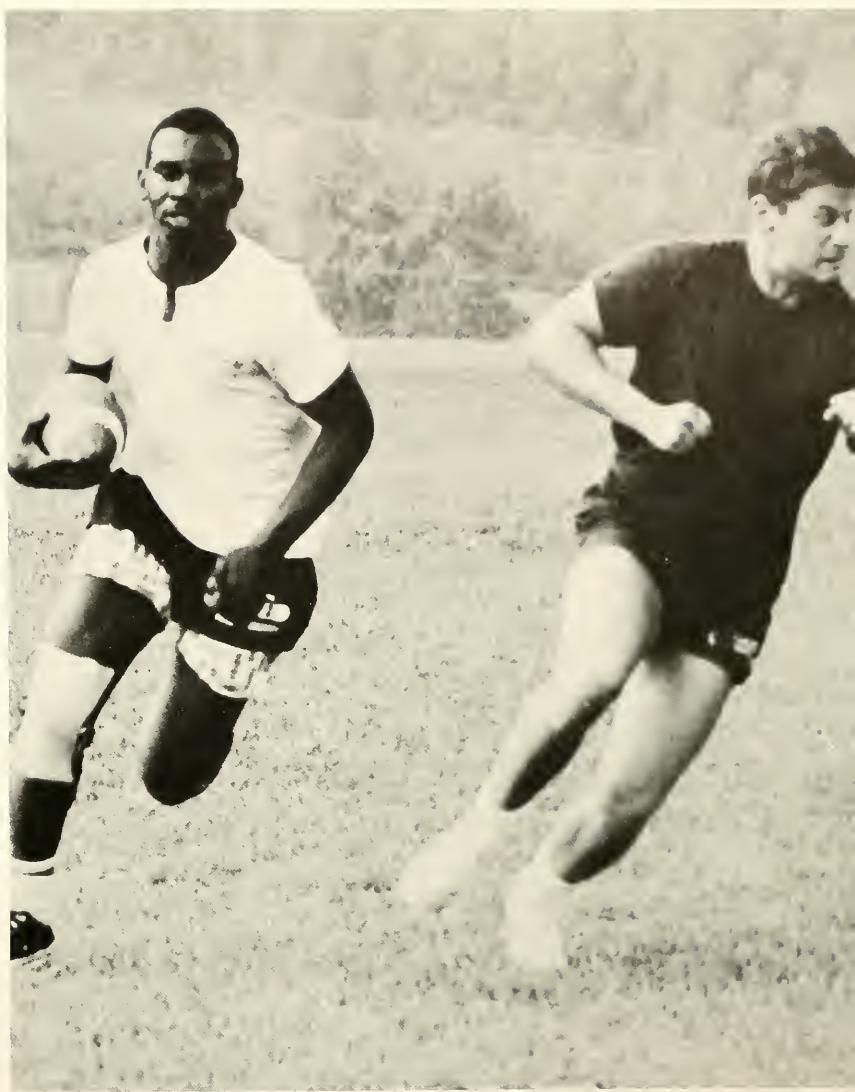

Lehigh fraternities were not always situated in Sayre Park. Originally all the fraternities, clubs and social groups had formed in town. Sigma Phi built the first structure designed to be a fraternity house in 1888, 23 years after Asa Packer founded the University.

Two years before the founding of Psi Upsilon, its local predecessor, Phi Theta Psi, got a house at 82 Market St., near the Moravian Seminary, although records seem to indicate no one ever paid for it. Theta Delta Chi, another early town group, rented two rooms on the second floor of a private home on Main Street for their meetings. They all lived in private homes, and ate at a restaurant across from the meeting place. In 1888 they moved to a house at 237 New St., and then, in 1900, moved again for six years to 601 Delaware Ave.

## SIGMA ALPHA MU

*First row: Green, Arkin, Biddelman, Frohlich, Silverstone, Peters. Second row: Feldman, Cronheim, Waldman, Weiner, Greenbaum. Third row: Santer, Lynn, Rabinowitz, Earle, Cooper. Fourth row: Raclaw, Fields, President; Siegel, Diamond, Epstein, Berman, Grossberg, Bierstock, Bernstein.*

# SIGMA CHI

*First row: Selby, Buente, Errigo, Himes, Cedric, Pettisani, Kluy, Schiavo, Hochreiter, Gschwind. Second row: Horrocks, Kolas, Sawyer, Fleury, Guidi. Third row: Williams, Wheeler, Fatigati, Galdieri, Gemmel, Hohnstine. Fourth row: Burns, Rees, Michael, President; M. Clancy, Viola, Manno. Fifth row: Leach, Cornman, Fischer, Pfeltz, J. Clancy, Smith, DeArmond, Bisset.*

*First row: Lifson, Lennon, Morrison, Smith, Flint. Second row: Harris, Koopman, Lee, Taylor, Roosa. Third row: Fater, Stocks, Lowe, Haase, Dorman. Fourth row: Rixman, Woolley, Seifert, Garber, Koenig, Brickey, Polifka. Fifth row: Friedman, Gaines, Peterson, Spindel, Milkovics, Duchynski.*

## SIGMA NU

## SIGMA PHI

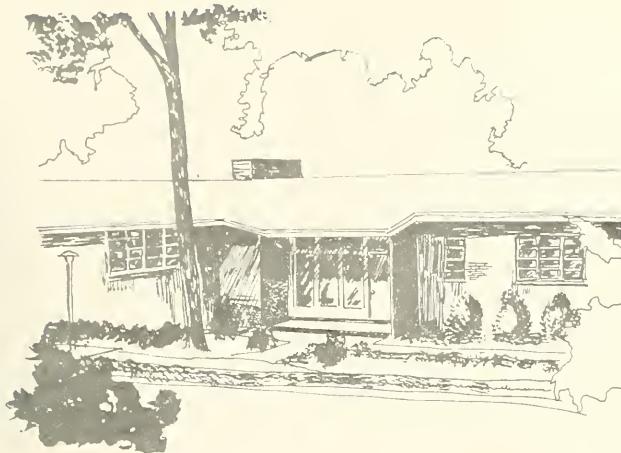

*First row: Turner, Szegda, Dorer, Zane, Orr, Bergman, Bolger, Kyler, Groff, Reilly. Second row: Beane, President; Harrison, Horn, Wustefeld, Shraga, Larson, Schwartz, Saari, Confair. Third row: VanCleve, Carter, Mull, Stalowicz, Diehl, Uhle. Fourth row: Jung, Elder, Fittipaldi, Csanadi, Hutchinson. Fifth row: Kreitler, Baiz, McGuffin.*

Before the Psi Upsilon house was built at the head of Brodhead Avenue, this was the site of a tavern where the 19th century Lehigh men escaped to smoke and drink, away from the watchful eyes of University officials.

One cause of all the moving around the early houses had to go through can be blamed on an early vice president of the Bethlehem Steel Co. In the early 1920's, Theta Xi's only neighbor was this VIP. Apparently it was too much for the man, because he bought the Theta Xi house, forcing them to relocate.

## SIGMA PHI EPSILON

*First row: Cameron, Barr, Dunham, Wood. Second row: Swartz, Eustice, Bufton, Mannik, Hartzell, Powers, Steele. Third row: Haight, Gross. Fourth row: Heal, Locke, Weiksner, Kercher, Gili, Yahres, Kurian, Gutzwiller, Anselmo. Fifth row: R. Johnson, W. Johnson, Ulle, Nies, Voorhees, McLean.*

First row: Heutlinger, *Pledge Master*; Pierce, *Treasurer*; Harvey, *President*; Hendrix, *House Manager*; R. Jacobs, *Secretary*; Shapiro. Second row: Wilson, Sohcot, P. Jacobs, Greenburg, Laveson. Third row: Fishman, Hydusik, Kabot, Eugley, Mendelsohn. Fourth row: O'Brien, Jacob, Schell, Gotthelf, Hand, Myers, Davis. Fifth row: Johnson, Prager, Picker, Feinberg, Campbell, Bevilacqua. Sixth row: Glascock, Matig.

## TAU ALPHA KAPPA

## TAU DELTA PHI

Paris, Fullilove, Fox, Schreiber, Borger, Rothschild, Stern, Squire, York, Danzig, Sirota, Greenfield, Fromer, Greiff, Rothenberg, Brumberg, Rosenfeld, Meyers, Levy, *President*; Malimson, Kanner, Poscover, Lookofsky, Kishel, Siegel, Inber.

*First row:* Smith, Young, Dietrich, Kaphan, Lewis, Lee, Geoghegan, Fuller, Schmidt, Collopy, Roca, Skillman, Hall, Roe, Hilborn, Tilles, Brainerd, Crosley, Ackerman, Berman, Hoffheins, Ikeda, Hull, Tompkins, Barnes. *Second row:* Eisenstaedt, Hopkins, Miller, Irwin, Breton, Schuyler, Body, Devoluy, Bowman, Levy, Nelson, Loch, Martucci, Fowler, Mura, Jordan, Morris, Edwards.

## THETA CHI

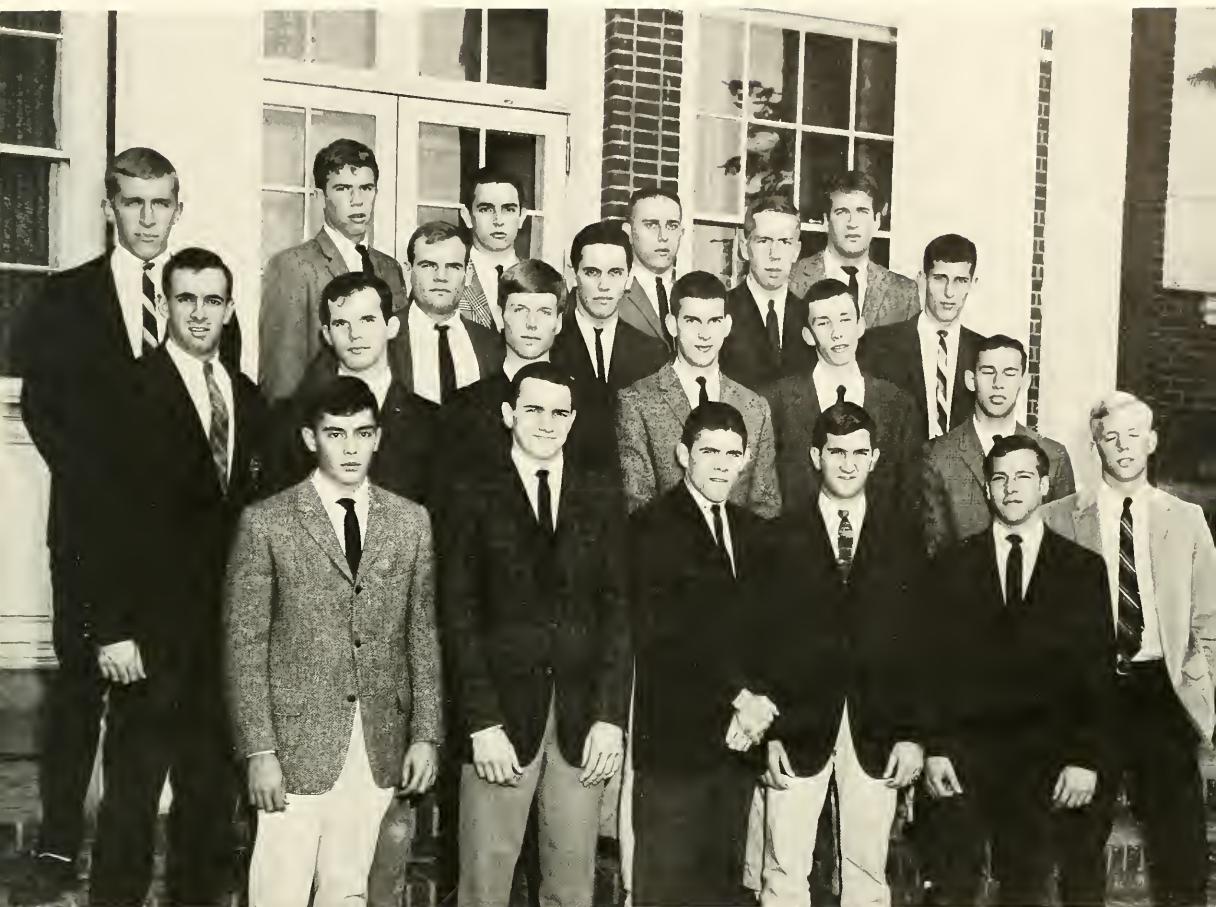

During these 94 years, the fraternities have become more than what they obviously are—a place for lodging, meals and sociability. Their less tangible virtues have become their most important ones: helping each member improve his personality; encouraging him to achieve his best, and inculcating into each man the tolerance necessary for living and working with others.

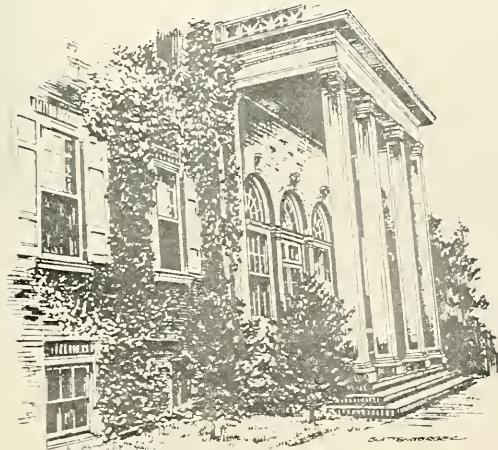

# THETA DELTA CHI

*First row: Gould, Cavicchi. Corresponding Secretary; Stevens, President; Harlow, Recording Secretary; Berg, Faber. Second row: Ardern, Lane, O'Neil, Haskell, McEvoy, Smith. Third row: Van Buren, Weseman, Klose, Lowman, Phelps. Fourth row: Miller, Reilly, Balliet, Barrows.*

What's in the future for Lehigh fraternities? Will they revert to dining clubs under a Dartmouth-like plan? Will they become stronger and more numerous in the next hundred years? No one knows the future, but as Assistant Dean of Student Life William L. Quay says, "Regardless of their specific characteristics in the future, I am confident that fraternal societies of Lehigh men will continue to serve the University in the future as they have done in the past."

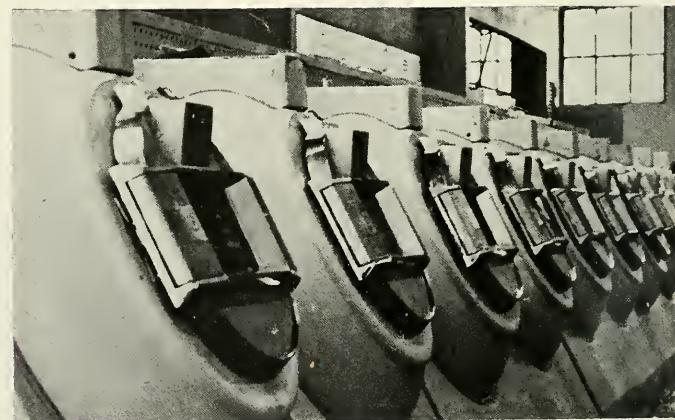

*First row: Gallo, Luley, Musser, Hutchinson, Tammy, Gordon, Hone, Rutherford, Tanner. Second row: Roe, Shrom, Young, Toothman, Poindexter, Bynon, Migdal, Sanner. Third row: Noonan, Innes, Gilbert, DeVincenzo, Parsons, Lukes, Barth, Wandrisco. Fourth row: Spivak, Kleintop, Erhard, Fitz, Brown, Nordt, Ramig, Wood, Eckert, Schneider, Zimmerman, Miller, Peiffer. Fifth row: Voelecker, Darkoch, Comstock, Schroeder, Jackson, Delbridge, Iden, Young, Reinert, Bankert.*

## THETA XI

OPEN TIL

## COMMUNITY

For the carefully maturing young man, there is much to learn outside the classroom. By keeping his eyes open, he will learn of the world he lives and dies in and of the world he may someday write about.

The firms of the Lehigh Valley represent a view of life and way of existence which is invaluable training. Construction for progress have been the key words for Bethlehem, and under the direction of Mayor Payrow, many goals have been achieved.

From the very largest, Bethlehem Steel, to the smaller and humbler places of business, the pageant of the Lehigh Valley business world supplies residents of the immediate area with machinery of day-to-day living and the young students with insight and understanding.

# 100 YEARS ON THE FRONTIERS OF KNOWLEDGE

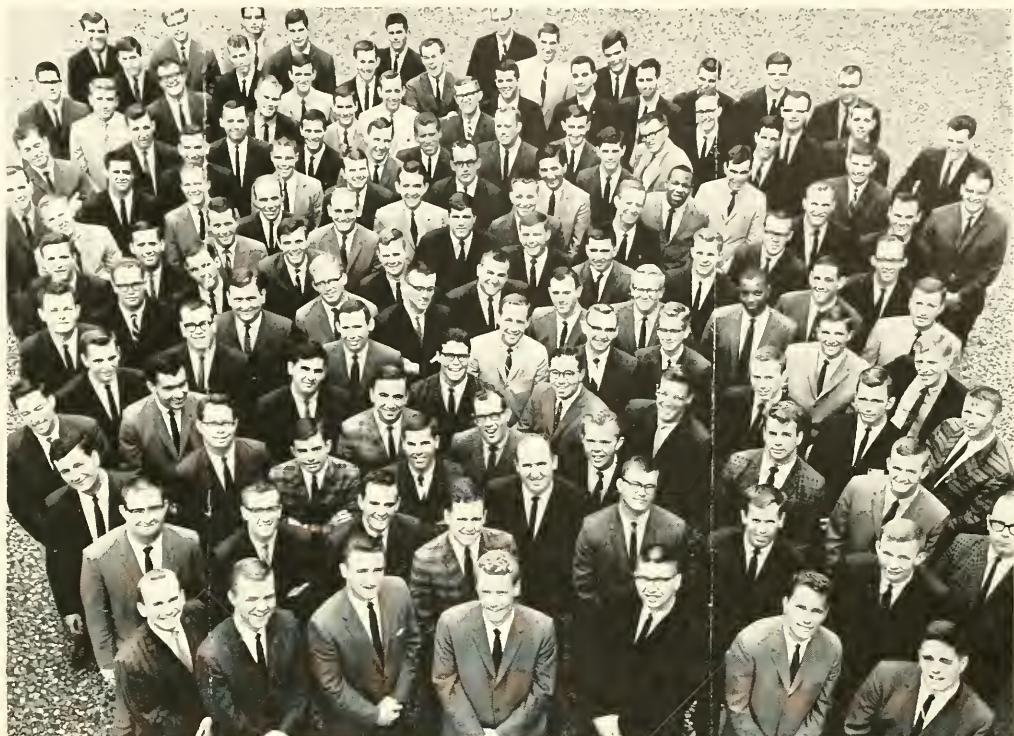

Lehigh University has observed its 100th Anniversary during the 1965-66 Academic Year. It has been a century of service to higher education, unprecedented in the pioneering aspects of its beginning and one which spanned the very beginning of the "technology age" in the U. S. to the present "space age" of the world.

A century ago, education of engineers at the University level in the U. S. was virtually a new idea. And as envisioned by the almost unique foresight of the University's founder, Asa Packer, it was to be launched on a different and surprisingly modern course for the mid-nineteenth century.

The principal result of this foresight was the unusual combination of programs in the liberal arts with programs in engineering and science, which set the hallmark of engineering education increasingly adopted at other colleges and universities in the U. S.

In September, 1966 Lehigh begins its second century of service.

## MEET THE CLASS OF '65

They're members of Bethlehem Steel's 1965 Loop Course — graduates of colleges and universities from coast to coast.

What is the Loop Course? Since 1922, Bethlehem has conducted this Course for training college graduates for careers in Bethlehem's management. Hundreds of men at all levels of Bethlehem management, including our Chairman, started their careers as loopers.

The '65 Loop convened at our general offices in Bethlehem, Pa., early in July. After five weeks of thorough indoctrination, many of these men were assigned to facilities throughout the country for further brief training at the operations before undertaking their first job assignments. Others, such as sales and accounting trainees, may remain at the general offices for some months before

being assigned.

### *Most Loopers Have Technical Degrees*

Our primary need is for engineering and other technical graduates. Such men have many fine opportunities in all phases of steelmaking, as well as in research, sales, mining, fabricated steel construction, and shipbuilding. Also, both technical and non-technical graduates are needed for other important activities including accounting, sales, purchasing, traffic, finance and law, industrial and public relations, and general services.

You'll find a great deal more information in our booklet, "Careers with Bethlehem Steel and the Loop Course." You can obtain a copy at your Placement Office, or drop a postcard to Personnel Division, Industrial and Public Relations Department, Bethlehem, Pa. 18016.

# BETHLEHEM STEEL

*An equal opportunity employer in the Plans for Progress Program*

*Central Plumbing and Heating Co. has an important role in the building of Lehigh's new residence halls.*

*The Tau Delta Phi and Pi Lambda Phi fraternity houses were among much of the construction done recently on campus by Earl W. Ecker, Inc.*

*Freeman's Dairy supplies the milk used by the Lehigh Dining Service.*

The *Hajoca Corporation* of Bethlehem supplies much of the plumbing and heating equipment for Lehigh's fraternities, dormitories and public buildings.

The quality meats served in many of Lehigh's fraternities are supplied by *Evans and Heeps* of Allentown.

Charles Eisenhart rarely finds time to rest from his duties as guardian of the huge Lehigh plumbing system.

THIS  
IS THE  
CAN  
TO  
LOOK  
FOR

Whether you are painting the living room or the garden arbor, we can give you the exact color you want. You can pick paint colors that match or blend with your decor in your own home. We'll be glad to lend you the Allentown Paint Color Harmony Book. The colors you choose can be mixed in minutes. Whenever you paint, use Allentown paints. You'll find they are easy to apply, a little goes a long way, and your paint job will look good for years. That's the economy of quality!

## Brown-Borhek Company

3309 Easton Avenue

Lumber—Plywood—Stock Millwork

*Serving Lehigh Since 1865  
Serving Lehigh Valley Since 1820*

Poultry and other farm products are shipped daily to the University Center by the trucks of Sanbrook Farms.

Paper products of all kinds are supplied to the University by the *Miller Wholesale Co.*

No matter what kind of car you have, if it is in this shape, you need *Kresge Auto Repairs*.

For those delicious sundaes at the Snack Bar, *Sealtest Ice Cream* is the prime ingredient.

When a Lehigh man takes a study break, *Seven-Up* is usually the pause that refreshes.

One of the most popular barbers in the Lehigh community is the master of the *New Merchant's Barber Shop* specializing in personal service.

Heating units installed by *Reber-Korn Co. Inc.* keep the University Library and other campus buildings warm during the worst winters.

For the past years, *Merin Studios* of Philadelphia have done most of the photography in the yearbook and have been a great help to many an editor.

*M. W. Wood Dining Service* operates the popular snack bar as well as the University dining halls with high quality foods and services.

One of the favorite traditional night spots for the dry students of Lehigh is the famous *Tally Ho*.

For that luxurious Sunday meal or for a wonderful dinner, the Lehigh man goes to *Walp's*.

# ACKNOWLEDGEMENTS

for making this book possible, we extend our thanks . . .

To Business Manager *Sandy Miller*, who kept the accounts and made ends meet.

To Sales Managers *Mark Troubh* and *Larry Post*, who helped keep us in the black by selling more books than had ever been sold before.

To Scheduling Editor *Larry Carapellotti*, who scheduled, and sometimes rescheduled, and rounded up the many groups whose pictures appear in the book.

To Photography Editor *Jack Laveson*, who helped capture the many faces of Lehigh.

To Identification Editor *James Zachary*, who found out who was who.

To Literary Editor *Brian Kanes*, who helped us make sure that the book had something to say.

To Sports Editor *Jay Hammond*, who took care of the fine sports section.

To Senior Editor *Tom Baumgartner*, who not only headed the Senior section but also aided in many other areas of the book.

To Journalism Division secretary *Susan Dow*, who gave us a chance to study by doing much of the typing.

To the combined Photography staffs of the *Epitome* and *Brown and White*, who took many of the fine pictures in the book.

To advisor *Robert J. Sullivan*, who was always willing to lend a hand and reassure us that all was not in vain.

To Publisher's Representative *Carl Peterson*, who always gave advice on the technical aspects of the book.

To all members of the staff, who labored for no reward other than knowing that they were doing a service to Lehigh.

## EPITOME 1966 . . . bringing the year into focus.
