DEDICATION

For a university to grow toward greatness, it requires more than just a faculty of academic excellence. It also requires equal excellence in the men guiding this complex entity into the future.

The last four years have been years of unparalleled growth for Lehigh. We have seen the construction of three new academic buildings, a new power house, four new fraternity houses, and now the construction of a new residence hall complex.

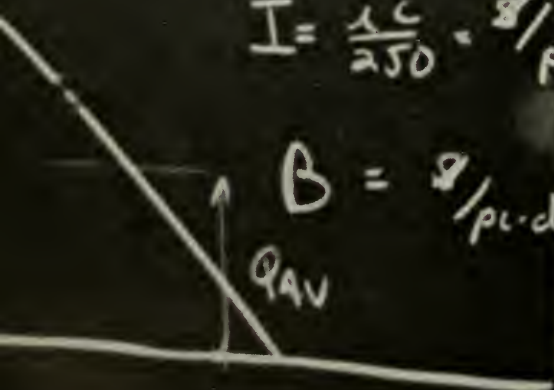

The dynamic leadership necessary to make all this possible has come from a man who has always had a strong attachment for Lehigh. Following his graduation from Lehigh with a B.S. in Business in 1944, he joined the admission's office. Over the years, he has also served as assistant to both Lehigh's treasurer and president before assuming his present position in 1962. For his work, he has been honored as a winner of the Alfred Noble Robinson Award for outstanding service to Lehigh by a member of the staff under thirty-five.

His spirit, his optimism, and his love for Lehigh make him a man truly worthy of our emulation. It is indeed a great honor to dedicate the 1971 Epitome to Paul J. Franz, Jr., Vice-President for Development & Public Relations.

I vaguely remember my first day, my first week, as a Lehigh freshman. Staring at mimeographed notices shoved in my face, meticulously attending the insignificant orientation meetings, anxiously wondering about my roommate and the other guys I would meet, watching Steck scream, shout, dance, and cry, "Seventy-one for fun," trying to obtain beer, waiting two hours in a bookstore line to pay outrageous prices for textbooks, sweating constantly in the hot, overcast, humid Bethlehem air, muttering a quiet good-bye to my father—these images flash through my mind.

Little did I realize then that I was saying good-bye to an old life style and to an old set of values, and saying hello to a new sense of individualism, to a new perception of reality, to a new world of fantasy. Now nearly all has changed!

When comparing my present appearance with the picture on my Lehigh I.D. card, the external change is manifest, the internal change is implied.

And I go to class, study, or read a book, seeking a truth which always eludes me. And at last I must conclude after looking at that which is comprehensible, that it is only the incomprehensible which sheds any light.

As I was exposed to new and different ideas, I found myself reexamining and discarding the traditional beliefs in which I was clothed. And as the four years waned to three and then to two, I began to tailor myself a new set of ideas

and beliefs, for in my nakedness I had glimpsed my own self. And emerging now from this academic cocoon, I feel refreshed in a sense, for life now seems to have taken on a new brilliance.

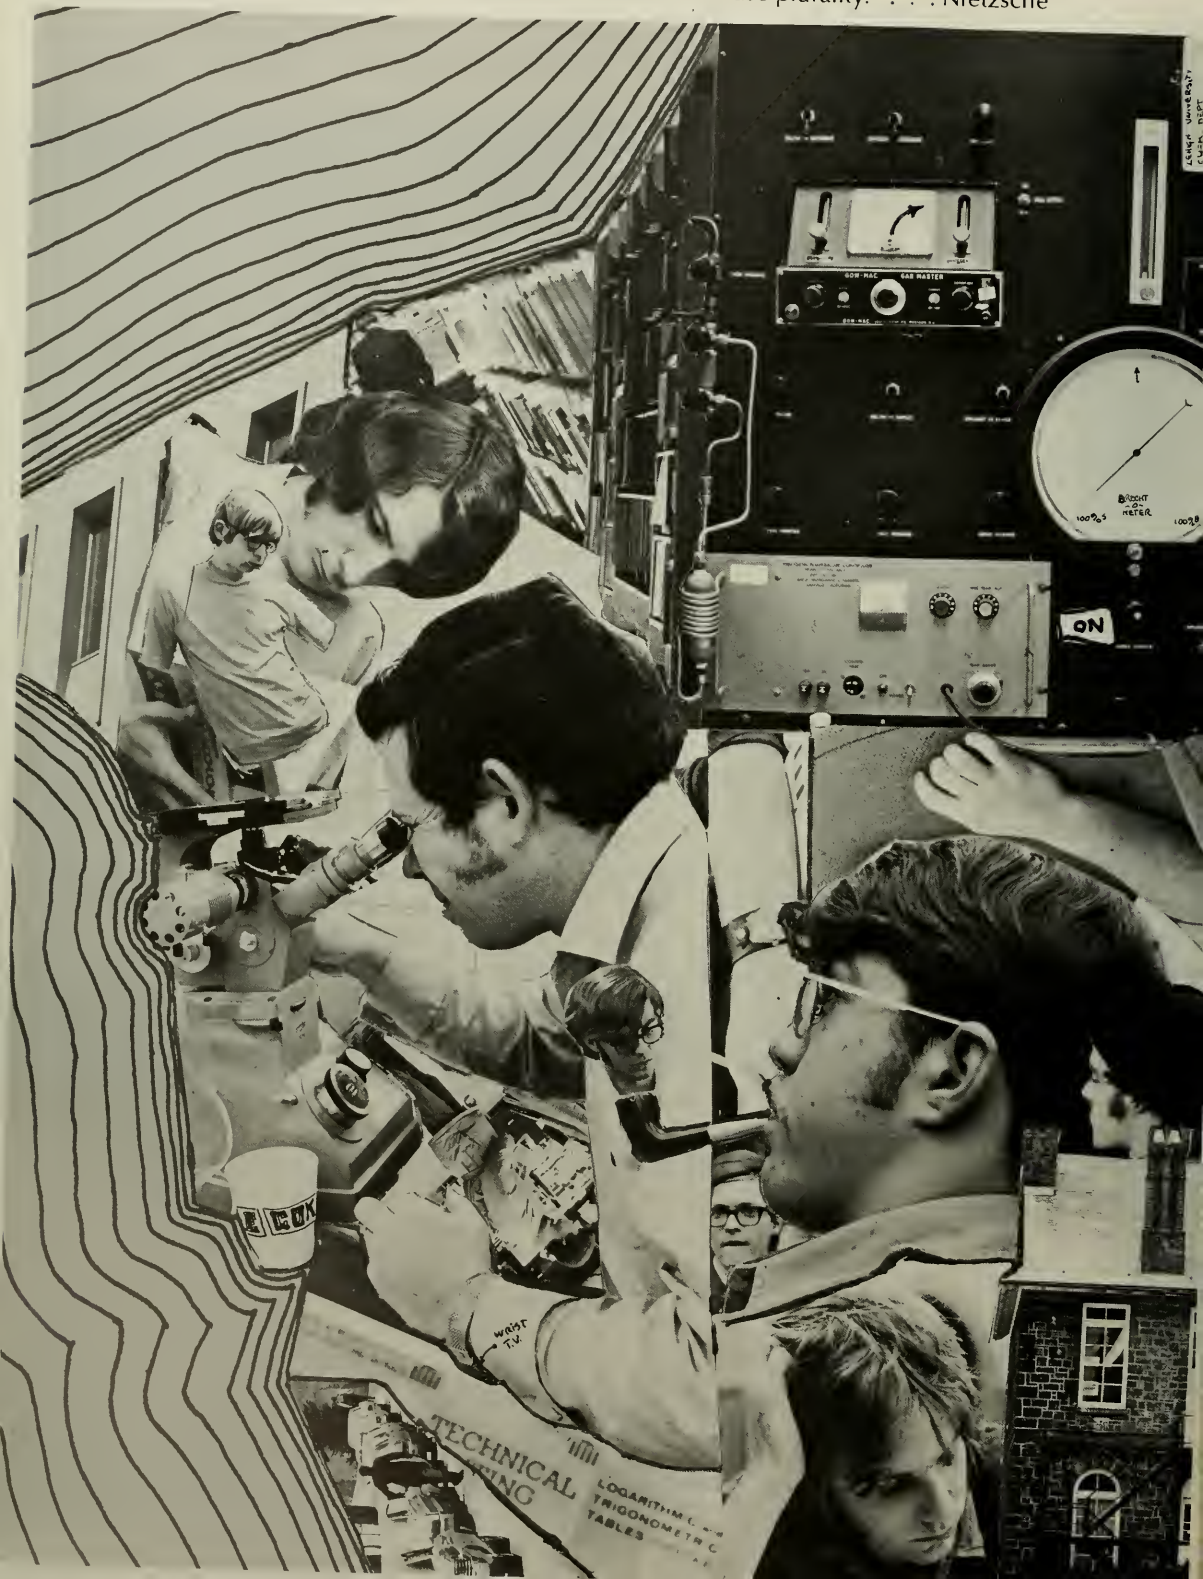

And as I read what Ngo Vinh Long wrote,
"On this land
where each blade of grass is human hair
each foot of soil is human flesh
where it rains blood
hails bones
life must flower."

I realize that it is up to me and all human beings to try and make life flower, for the options open are very few—trying or dying.

"At the bottom, every human being knows very well he is in this world just once, as something unique, and that no accident, however strange, will throw together a second time into a unity such a curious and diffuse plurality." . . . Nietzsche

All have felt love, even if its form was the contact comfort from mother after emerging from the womb. We conceptualize our ideal of love and the love object, and then travel in our fantasy/reality world until we stumble upon the fulfillment of this conceptualization. Probably most often reality does not deliver to us a "perfect" fulfillment, but rather we modify this conceptualization to fit the finally-found love object and allow fantasy to supply the equivalent ecstasy of perfect fulfillment.

Love is fantasy. Love is not the empty, physical pursuit of sex as portrayed in the mass media. Love is awakening in the darkness and feeling lips burrowed innocently and sleepily against your neck, and an arm draped tenderly across your chest.

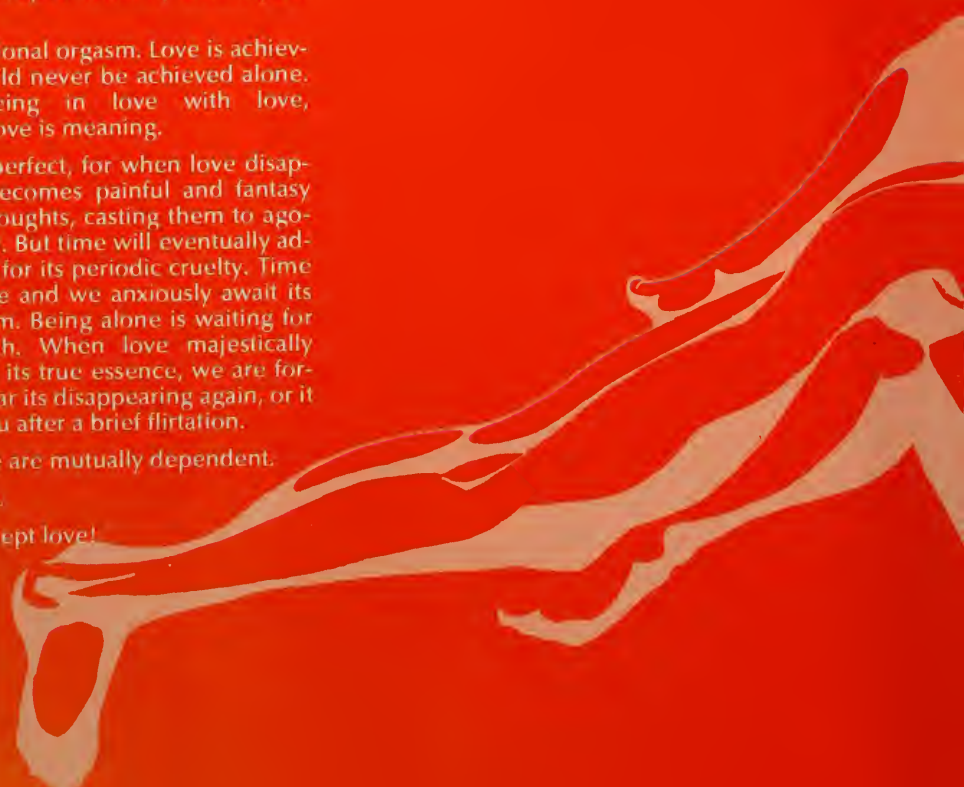

Love is emotional orgasm. Love is achieving what could never be achieved alone. Love is being in love with love, mythically. Love is meaning.

Love is not perfect, for when love disappears, life becomes painful and fantasy rejects all thoughts, casting them to agonizing reality. But time will eventually admonish love for its periodic cruelty. Time fertilizes love and we anxiously await its fresh blossom. Being alone is waiting for love's rebirth. When love majestically reappears in its true essence, we are forbidden to fear its disappearing again, or it will bid adieu after a brief flirtation.

Love and life are mutually dependent.

Love is unity.

Be love! Accept love!

An era has passed, a world has passed, in which love meant children, and many of them. We are pioneers of a sort, seeking a love which is stronger and somehow different than the love of yesterday. "Zero Population

Growth," the world decrees, and we realize we must heed the call or die. Perhaps our morals will change in the process; but they never really were written down, were they?

Lehigh's today is radically different from Lehigh's yesterday. Drugs account for a large part of this change. The usage of drugs by numerous students has become an actuality for a diversity of reasons—to study, to laugh, to experiment, to socialize, to experience, to be.

Dexedrine, Benzedrene, Marijuana, Hashish, Mescaline, Psilocybin, THC, LSD, Methadrine are obtained with little difficulty. Beer is no longer the unchallenged king on a Saturday night.

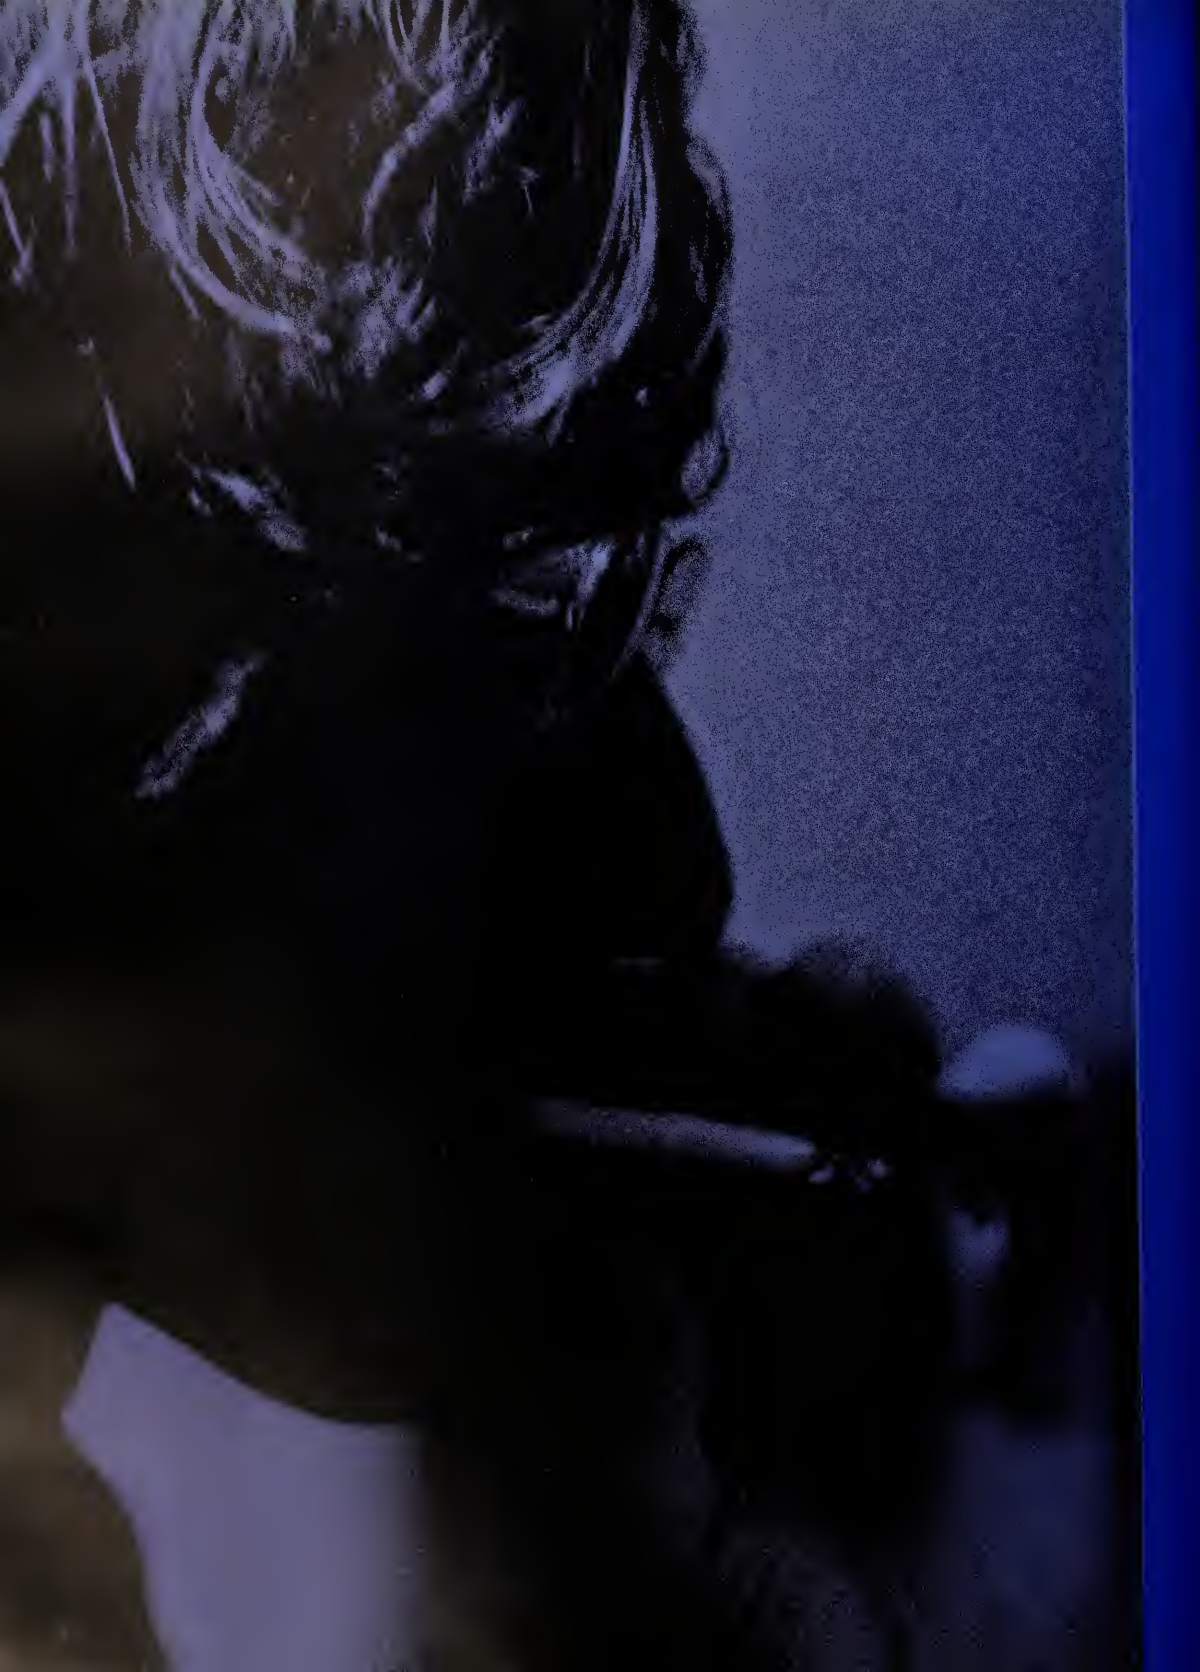

The personality of the typical college student partially accounts for the phenome-

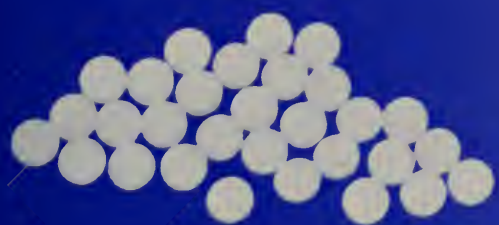

non of drugs on Lehigh's campus, or any college campus. The college student by nature should be precocious, curious, and open-minded. He yearns to view reality from different perspectives, to open his mind to new avenues of perception, and to expand his mental experiences. Experience is probably the key in explaining the ubiquitous encroachment of drugs into the dormitory, the fraternity, or the apartment.

But our parents might claim that they, too, seek different experiences, and that the use of drugs is an unacceptable means of achieving this experience. Our generation, though, has redefined what "acceptable or unacceptable" is. Various inhibitions are disappearing, peer influence is attaining primacy, and drugs have merged into our generational subculture. The experience of drugs is becoming as much a part of our American youth as are hamburgers, french fries, and cokes.

CLEARANCE

[illegible]

As we well know, though, man is by no means perfect. He does make errors: "Wednesday's classes will meet Monday. Thursday's will meet Tuesday. Friday's classes are on Wednesday. Monday's are Thursday's. Tuesday's classes will meet on Friday. And courses scheduled for Saturday will meet Wednesday night . . ."

At least the Forum did manage to eliminate Saturday classes. Maybe the University Forum is no more effective than the student government it replaced; but at least reforms are being enacted now, and the University is beginning to move in a positive direction. Apathy is a barricade to meaningful reform in the Forum as it is to reform in the country. Acknowledging the existence of this apathy is not enough, though, for it must be overcome.

1967

Lynn Havach, left, editor of the Lehigh Torch cadet newspaper, discusses cartoon with Carlet Gene Mater.

"...AND NOW, CONCLUDING THE 4TH YEAR OF GREMLIN VILLAGE, I'D LIKE TO OFFER A TRIBUTE TO THOSE WHO HAVE PUT UP WITH, DISAGREED WITH, OR OTHERWISE ENCOURAGED THE PROLIFERATION OF GREMLINS: TO YOU I OFFER THESE PAGES OF MORE GREMLINS; BAD ENUFF THE FIRST TIME, THEY ARE TWICE AS OFFENSIVE APPEARING AS RE-RUNS!

"...AND APOLOGIES ~ I OWE A FEW. OFTEN SCRIBBLING CARTOONS WITH TEMPER SHORT AND TACT NON-EXISTENT, I STILL MANAGED TO MISS A FEW WELL-DESERVED POTENTIAL SUBJECTS. LIKE THIS PHYSICS 4 PROF WHO RUNS HIS LECTURES UNDER MARTIAL LAW" TO YOU AND THE OTHERS I MISSED, I'M SORRY (BUT SOMEONE'S BOUND TO GETCHA SOMETIME)!"

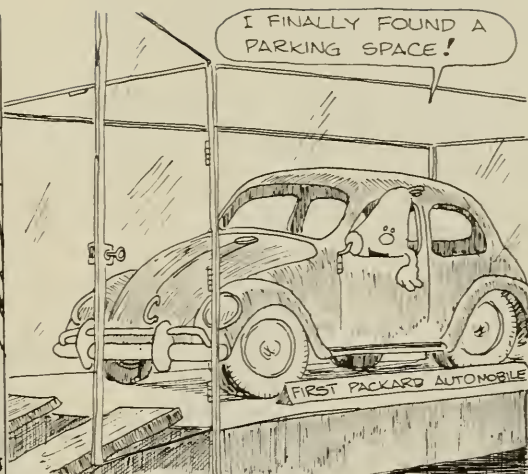

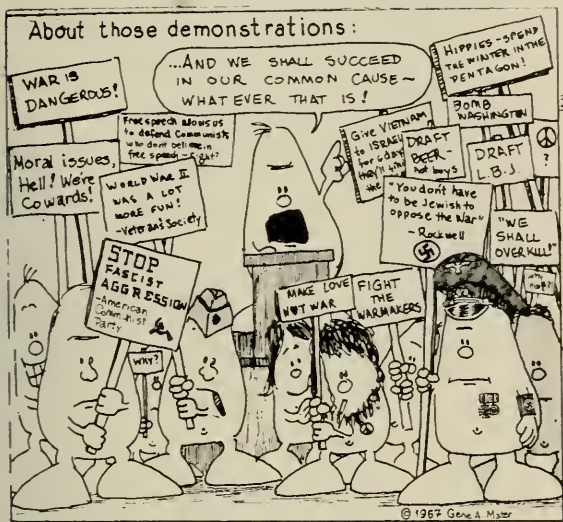

* * *

SEPTEMBER, 1967 ~ THE FIRST GREMLIN APPEARED IN THE BROWN & WHITE. A LOT OF US WERE A LOT DIFFERENT THEN. OBVIOUSLY. AND A LOT OF US HAVE COME A LONG WAY SINCE THEN. THANKFULLY. THE CLASS OF '71 WAS THE LAST OF 95% "STRAIGHT" FROSH "BOOZIN' IT UP ON SATURDAY NIGHTS - OR TELLING OUR NEIGHBOR THAT IT WAS INCENSE HE WAS SMELLING" AND ONLY THOSE WHO DIDN'T MAKE THE FRATS LIVED IN APARTMENTS" AND THE LOCAL SDS WAS SOMETHIN' TO LAFF AT; WE IN ROTC DIDN'T KNOW THE MEANING OF "WAR" ""

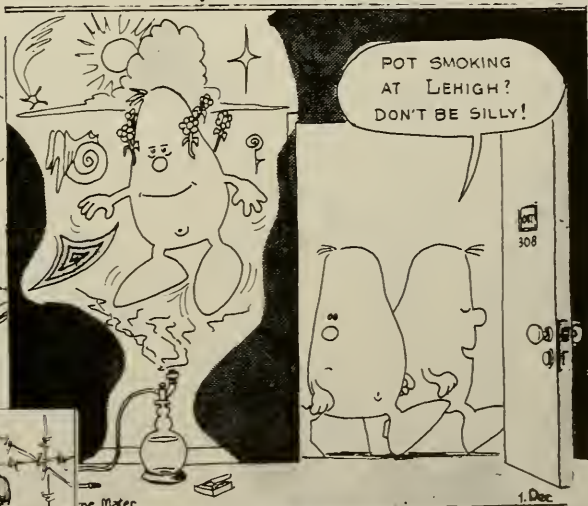

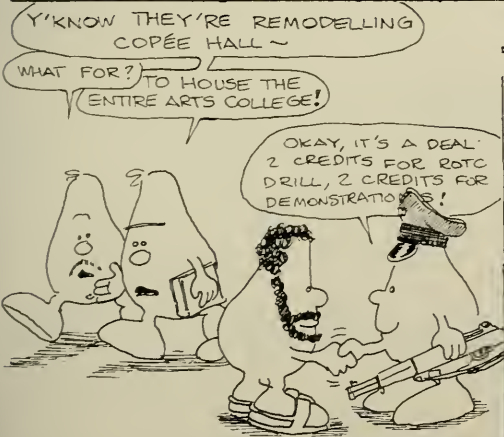

* * *

THE CLASS OF '71 HAS LIVED THE PHENOMENON OF LEHIGH'S EMERGENCE FROM ITS OWN DARK AGE ~ WHICH IS NOT TO SUGGEST THAT L.U. HAS MADE IT, FOR IT HASN'T, NOT BY A LONG SHOT! BUT THERE'S BEEN A START ~ AND WE WERE PART OF THOSE FIRST FUMBLING STEPS INTO THE DAYLIGHT ""

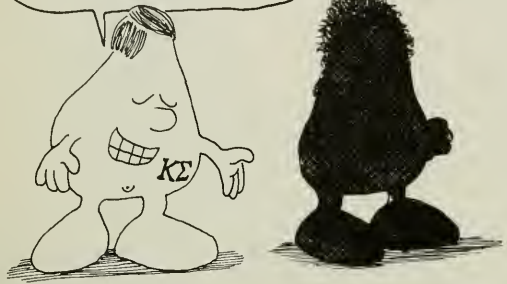

1967~68

1968-69

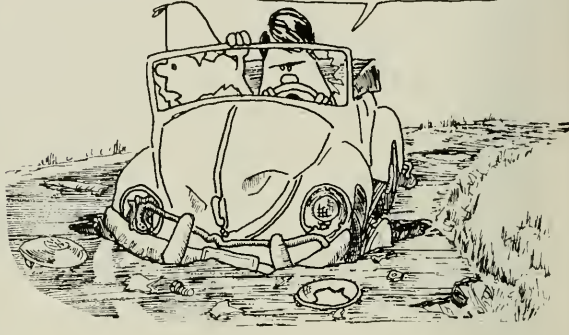

WE DOUBLED THE NUMBER OF OUR BLACK PLEDGES, IN KEEPING WITH OUR SECOND WHITE DOG!!!

YEA, BUT TWO TIMES ZERO IS STILL ZERO!

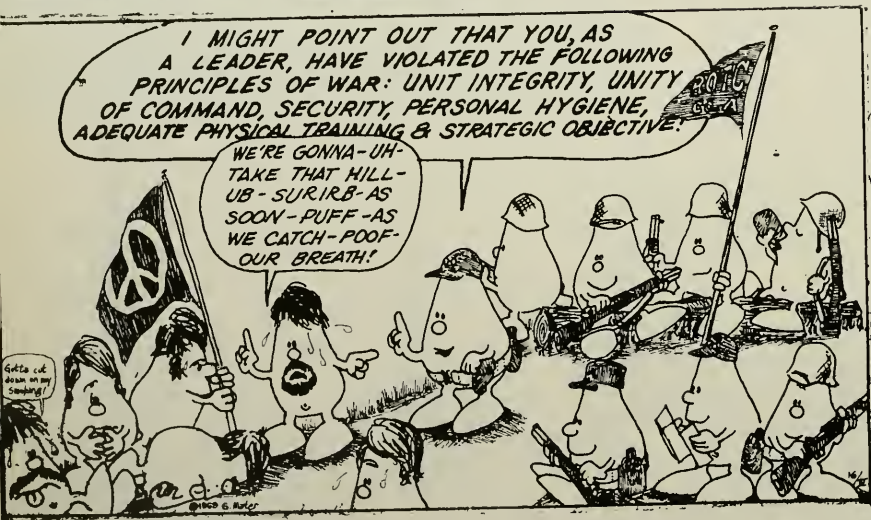

ONLY A MINOR POTHOLE~ THE MAINTENANCE PEOPLE HAVEN'T YET HAD TIME TO ENLARGE IT!

MY GOD! WHAT WAS THAT?

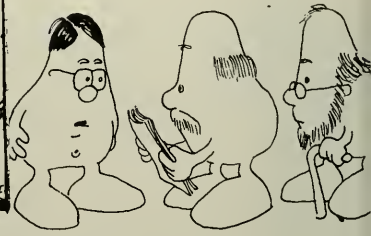

I MIGHT POINT OUT THAT YOU, AS A LEADER, HAVE VIOLATED THE FOLLOWING PRINCIPLES OF WAR: UNIT INTEGRITY, UNITY OF COMMAND, SECURITY, PERSONAL HYGIENE, ADEQUATE PHYSICAL TRAINING & STRATEGIC OBJECTIVE.

WE'RE GONNA-UH-TAKE THAT HILL-UB-SURIRB-AS SOON-PUFF-AS WE CATCH-POOF-OUR BREATH!

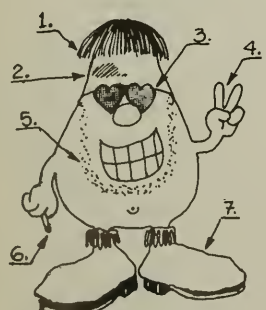

WELL, MR. PARSONS, WE'RE THE 1923 ARCADIA SUBCOMMITTEE ON COED; WE'RE MAKING A PROGRESS REPORT!

WHO ARE YOU?

Agentus narcotica

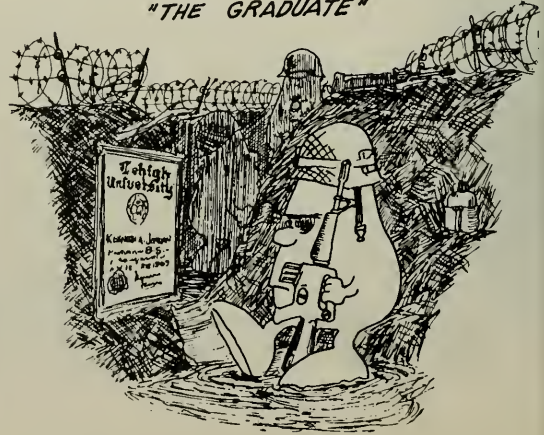

1. Beatle wig [c. 1964]
2. simulated police bruise.
3. Hippie Luv glasses.
4. Milhouse-victory sign.
5. self-adhesive "nubs."
6. Tootsie. Roll joint.
7. Honey Bunch (c. 1968) (Shim Bhr. FBI chn)

Local nomenclature varies, commonly known as "fed.", "fuzz" or "Narc." Hopelessly addicted to chromozone-damaging Appull Py, the Agentus follows the orders of his Juncque [Hoovah Eggard] in a misguided effort to stamp out new cultural strains. He is often the carrier of the crippling disease, "20-anno bustus," by which he tries to guarantee the Oldordur. It is thought that a propaganda drug [Launnorder] is the cause of this strange behavior.

The Howard Frisch Memorial "Spwahtz Kahtoon"

HOWIE! SAY IT AN'T TRUE! TELL ME THE FORUM AN'T DOIN' AWAY WIT' INTERCOLLEGIATE MARBLES?

ROLLING ON

The Lehigh University marble team under captain Gene Mater recently concluded a disastrous 0-24 season with a 54-32 pasting at the hands of Cedar Crest. "We wuz robbed," said Mater's assistant Alfred Gremth within characteristic insight. Mater's marblers plan to keep in shape

FOR 3 YEARS, SPORTS WRITER/EDITOR HOWIE FRISCH DEMANDED CAJOLED AND BEGGED FOR A "SPWAHTZ KAHTOON" WHICH HE FINALLY GOT! UNWARE THAT I'VE WAITED 4 YEARS TO GET ON THE SPORTS PAGE, HOWIE RETALIATED! (←)

[AT LAST DEPORT HOWIE WAS STILL TAKING MEMORIAL ENGLISH COURSES!]

the Railway Engineers of America

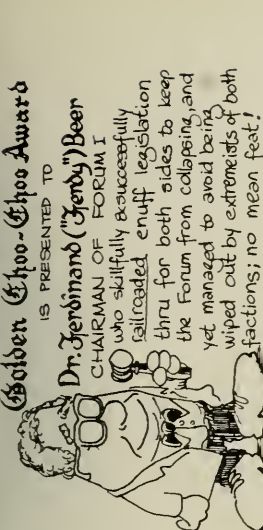

Golden Choo-Choo Award

IS PRESENTED TO

Dr. Tervinand ("Zandy") Beer

CHAIRMAN OF FORUM I

who skillfully successfully saileded enuff legislation thru for both sides to keep the Forum from collapsing, and yet managed to avoid being wiped out by extremists of both factions; no mean feat!

~ ANNOUNCING THE ~

Clarence B. ("I've smoked my share of Pot") Campbell Award

WHO WAS THAT MAN, MASKED IN A CLOUD OF CONFUSION?

oh? he is the GREAT CONSERVATIVE HOPE!

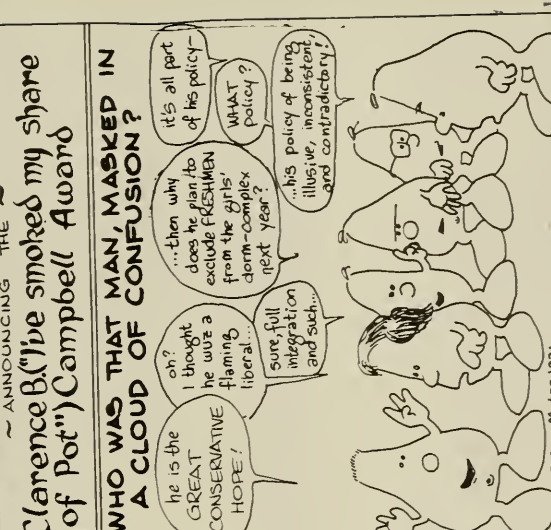

I thought he wuz a flaming liberal...

...then why does he plan to exclude FRESHMEN from the girls' dorm-complex next year?

it's all part of the policy - WHAT policy?

...his policy of being illusive, inconsistent and contradictory!

sure full integration and such...

BUT MAYOR, WE ARE INVOLVED IN THE SOCIO-ECONOMIC DEVELOPMENT OF THE SOUTH SIDE. WHY WE'RE PLANNING TO WIPE AN ENTIRE BLOCK OF UGLY OLD HOMES TO BUILD A GREAT BIG BEAUTIFUL BRAND NEW PARKING LOT IN ITS PLACE!

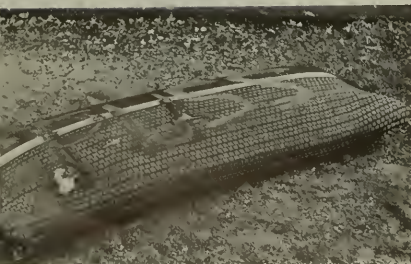

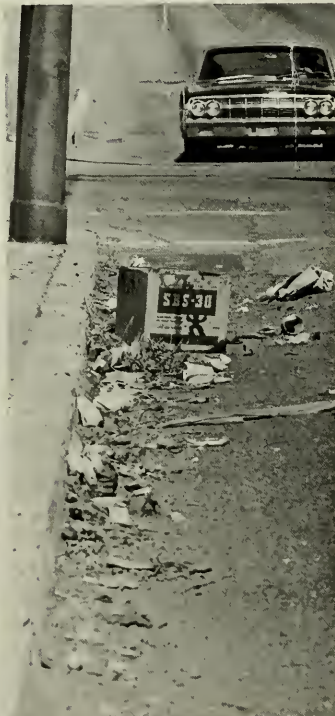

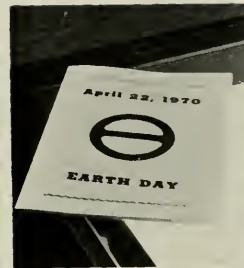

A web of wires overhanging a crumbling metropolis; faces etched with work, worry, smog, and maybe a glint of hope; this is Lehigh's doorstep, and we refuse to acknowledge its presence. Hang-up House failed, not because it was not a good idea, but because the Lehigh community didn't give a damn. In adding impressive contemporary structures below Packer Avenue, the University has contributed to South Bethlehem renewal, but the cost has been the exacerbation of a low-income housing shortage and the dislocation of many old-line families. Muggings are merely the result of this arrogance and apathy.

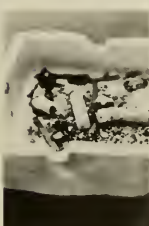

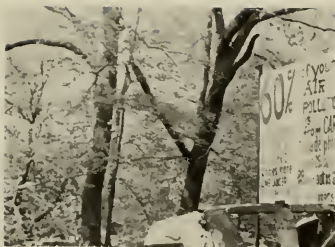

What can you say to a three to five billion year-old lady who is dying and few really care? Mother Nature, we love you! We have raped your forests, defiled your waters, smothered your fresh breath, decimated your animals and fish, and hastened your death.

EdMOB; The UPI report

for Thursday afternoon papers includes

✓ **IND** Saigon-Americans involved in only light and scattered action, but Communist forces launch heavy mortar barrage against South Vietnamese troops. May be led.

✓ **GENERAL** Washington -

The case of a general accused of killing six Vietnamese civilians likely to bring legal debate over policy which allows air crews to shoot at people on the ground in the war zone. Should stand.

✓ **DRAFT** Washington-Anti-

war demonstrators lobby ton- rists outside the Capitol as Senate debate on draft extension drowns in to its fifth week today. May be led.

✓ **ARREST** Washington-Jus-

tice department's No. 2 man says Mayday arrests were legal, constitutional and essential to control a "vicious and wanton mob attack on Washington. Should stand.

✓ **NATO** Lisbon-Western of-

ficials say the United States and its principal allies in Europe are "cautiously optimistic" about Berlin agreement with Soviets before year ends. May be led.

We find out more than we want to know about more things than we care about at a rate that makes it meaningless to care. We no longer react to war, murder, hunger, and even a "My Lai" becomes commonplace . . . and we await the big-ger shock next time.

LEHIGH UNIVERSITY **Brown and White**

Vol. 82 - No. 41

BETHLEHEM, PA. TUESDAY, MARCH 25, 1969

844-8331

Most Favor Coeds in Poll

In a poll conducted by the class of '70 Council that asked University students, "Do you favor coeducation at Lehigh?" 70 per cent of the 3,055 men contacted answered, "Yes." Twenty-seven per cent of the students were not in favor of coeducation and three per cent were undecided.

This contradicts a poll taken by the Brown and White in November in which 1,653 students voted 49 per cent against coeducation, 40 per cent in favor of it, and 11 per cent were undecided.

Working over the past several weeks, the '70 Council polled residence hall members as they came through the dinner line at the UC cafeteria and conducted dinner time polls in 30 of the University's 31 fraternities.

Of the 1,164 residence hall men contacted, 800 (76 per cent) voted in favor of coeducation, 213 (18 per cent) voted against it, and 71 (6 per cent) were undecided. In the fraternities, 871 men voted, 541 (62 per cent) in favor, 314 (36 per cent)

in the Brown and White poll students voted against coeducation 396 to 328 in residence halls and 414 to 337 in fraternities.

In a poll taken and released in October by the local chapter of the American Association of University Professors

(AAUP) 76.8 per cent of the faculty favored coeducation. Twenty per cent opposed it and three per cent were undecided.

In the same poll, 20 administration members voted 60 per cent for coeds, 35 per cent opposed and 5 per cent undecided.

Student Government Heads In Favor of Proposed Fee

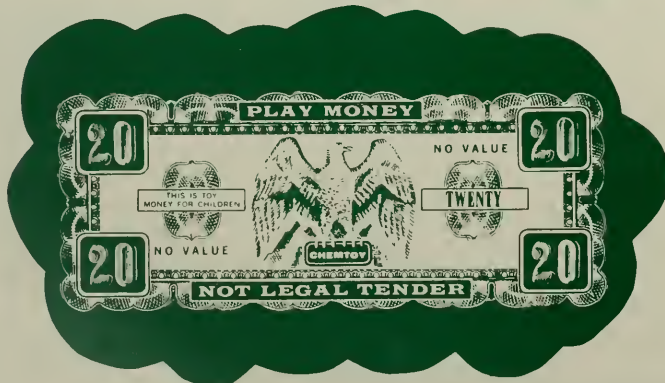

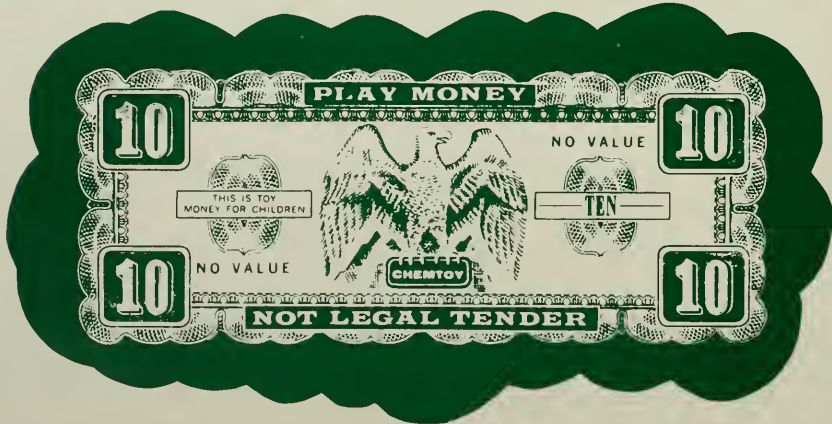

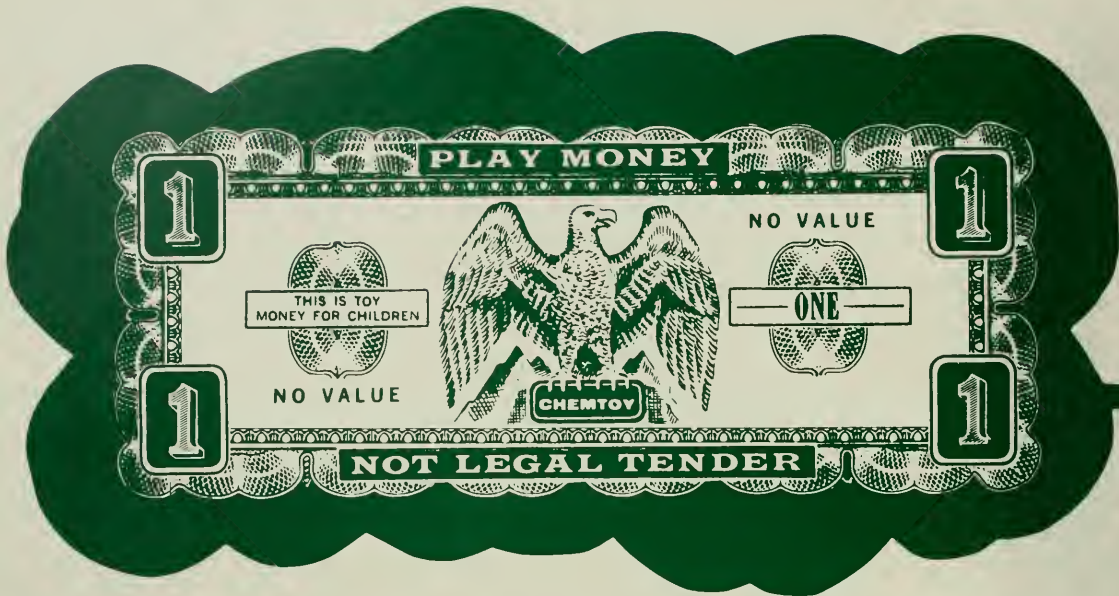

By BILL CHASTAIN

The 210 student fee proposed at last week's Arcadia meeting is the subject of considerable debate within both Arcadia and the student body.

Bruce Bardin, Arcadia secretary and chairman of the Finance and Calendar Committee, proposed the fee as a means of improving the cultural aspects of

the fee money would be used to provide more (and better) concerts, more lectures, films and other cultural and social affairs.

Bardin's proposal met some strongly divided opinion in Arcadia, and it is likely to meet even more opposition from the student body. The organizations most affected by the fee are the class officers, which organize and sponsor University

MEETING

ECONOMY

The government can employ inflationary monetary and fiscal policies to stimulate the economy and consequently lower the level of unemployment; or the government can employ deflationary monetary and fiscal policies to depress the economy and consequently curb unhealthy inflation; or the nation could, and did, elect Richard Nixon whose economic policies tragically increase the level of unemployment while at the same time fail to overcome the inflationary trends.

Nixon may have had trouble "turning the profit picture around" for the economy, but he did meet relative success in economy-related areas—in directing his lackey economist to keep undisclosed the CPI so as not to discourage business optimism, in relieving an environmental expert from his duties before he indicts General Motors for pollution offenses, in declining to impose wage controls on his hard-hat friends of the inflationary construction industry, in sending vice-lackey Agnew, business luncheon expert, to placate businessmen. Many states in the Northeast face imminent bankruptcy and our major cities are in dire financial difficulty. Economic difficulties require that vital state and municipal services be curtailed.

Bringing the economic reality back to Lehigh, there were fewer companies recruiting on campus this year and drastically fewer job offers. Remember those who graduated before us relating tales of the traumatic dilemmas involved in choosing one of four five-figure job offers. This year certain good-fortuned individuals received one job offer and the only decision was to accept that offer or reject it.

Imagine the hopeful senior with his dark, stylish, dust-free suit, his sparkling white shirt, his conservative tie strapped around his neck, and his neat, well-trimmed haircut entering the interview cubicle, eagerly shaking hands and smiling, and then being told frankly that the company really had no openings but only kept the recruitment date to maintain good relations with the Lehigh Placement Office. The seeds of the American dream were planted and maintained by the senior's upward mobility-oriented parents and reinforced by his college preparatory high school teachers. Suddenly his fantasy world of security collapses because his four years of college training can find no response in the job market and because he has no manual skills.

Graduation in this reality only means the end of security. The future is not as hopeless as the above would seem, however, for graduate school is still a viable possibility as is the possibility of joining with others in cynicism and contempt of the establishment.

The draft is seemingly the last remnant of involuntary servitude existing in our culture. It is a mocking reminder that the United States has failed to ultimately achieve the democratic ideals of the Declaration of Independence, of the Constitution, and of our country's founders. The right to freedom, liberty, and the pursuit of happiness are hollow words to the GI who presently is enduring the demeaning experience of Army life, or crawling frightened on his stomach.

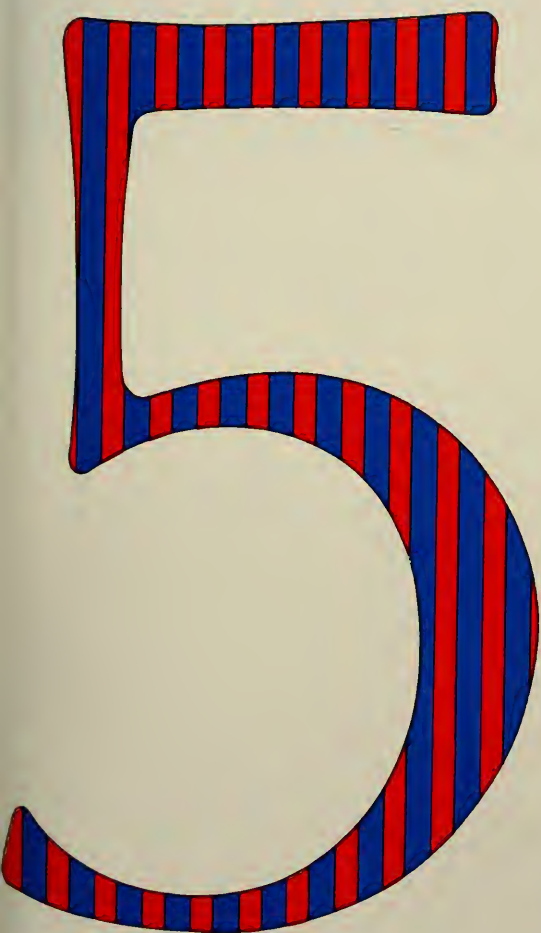

To draft is detestable, to draft for the Vietnamese War is repugnant, insidious, vile, and perverted. The Viet Nam War is the culmination of American prejudice toward Asiatic peoples; it is the tragic consequence of the naivete of Roosevelt, Eisenhower, Kennedy, Johnson, and Nixon; the War is a continuation of a racist war against the yellow race; and it is America's most depraved undertaking. The existence of the draft makes Vietnamese Wars possible.

The old selective Service method of selection was inequitable and inconsistent. The new lottery system is fairer, but only to those individuals with high numbers. The only alternatives to the draft are conscientious objection, voluntary incarceration in a federal jail, or escape to Canada. Canada opens its doors to political exiles—I remember a time when the United States was viewed as a haven for the political exiles of the world.

Fighting for our country today lacks the same connotations it possessed during World War II. The fighting soldier of today is a member of a minority, struggling and dying while most others of his age pursue a normal existence. Often it seems that the country regards the war reality as an innocuous fantasy . . . as an old John Wayne war movie.

When the Viet Nam veteran returns to civilian life, few people, if any, greet him or cheer him at the airport, train, or bus station. No brass bands. And, now, he probably has little chance of finding employment.

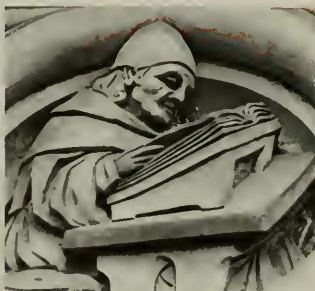

Three broad classifications of housing exist at Lehigh, the residence halls, fraternities, and town houses or apartments. All are pretty much the same in terms of satisfying the desire to eat, sleep, and excrete. And the decision to live in one of these types of housing as opposed to another is a strictly personal decision. It is because of the nature of one's choice that any comparison between the three is foolish and impossible, for this choice is made through the consideration of the types of people with whom one chooses to live, one's own definition and limitations of freedom, and one's social and cultural desires with respect to the prospective environment.

Lehigh University
STUDENT I.D. CARD
NON-TRANSFERABLE

This card, when properly validated, entitles the student named hereon to privileges specified on the reverse side.

In case of loss, immediately notify the Office of the Dean of Students or you will be held responsible for any fraudulent use and bookstore charges.

If the holder of this card withdraws from the University before the end of the designated year, he MUST return this card to the Office of the Dean of Students.

Charles W. Brennan
Dean of Students

A long standing tradition has been shattered. Come September, girls will become a permanent part of undergraduate life. They certainly won't overpopulate the campus, but the hundred and fifty or so who will arrive in the Fall signify the end of an era in Lehigh's history, and the beginning of another. Few areas of Lehigh life, as we know it, will remain unaffected.

THE FACULTY SPEAKS . . .

Andrew R. Weintraub
Leo F. Van Hoey
Nathan W. Harris
John D. Wood
Charles F. Vihon
Leonard A. Wenzel
Eli Schwartz

I often quote Milton Friedman because I think he is the most articulate contemporary spokesman for the philosophy of individual freedom.

Maximizing the degree of individual freedom does not imply total anarchy—although I'd prefer anarchy to totalitarianism. Certainly the rights of the individual must be protected, and this is the basic duty of the government. Reality must be respected, and this is the function of the market, which, in its quiet and impersonal way, tells us what we can or cannot have. Many modern "liberals", with their enthusiasm for eliminating poverty, pollution, and other social ills, disregard individual freedom as an important social objective. But the interesting thing is that when the maximum degree of individual freedom is used as a benchmark for analyzing social and economic problems, the solutions suggested usually satisfy other generally accepted social and economic criteria such as maximizing employment or welfare, or minimizing pollution or discrimination.

Moreover, I'm annoyed with many liberals' attitudes that most people wouldn't know what to do with complete freedom if they had it, the implication being that they do! This is intellectual pride of the worst sort. If people with this attitude gain any kind of political power or office, they usually serve to give credence to the time honored cliché, "That government is best which governs least."

Andrew R. Weintraub
Economics

The evaluation of the various "social" programs and "social" solutions should be systematically done. This is the major condition under which a society can learn from its own experience, and is precisely the major objective of the social scientist. In the larger scheme of things, but starting right here on this campus, this involves taking up a dialogue with our engineers and material scientists, and the creation of a situation where we learn from each other, and learn to work with one another. At the university you may hear that phrase, once in a while, but what it comes actually down to then is the expectation that the social scientist should learn the language of the engineer. This is looking at the wrong end of the stick. It is rather the engineers who must learn to understand and speak a social language. The whole world is turning toward an increasing awareness of socially responsible decisions, and that includes socially responsible science.

One of the things we have to get out of is the pigeon-holing of the various disciplines, or we will continue the ludicrous situation where we have sociologists who never once think of say the financial constraints on people "because that is the realm of the economist," or the legal constraints "because" that is someone else's expertise. In fact, there is a shift within each of the disciplines, so that you have in each discipline people who communicate more easily with people from other disciplines than with colleagues in their own school or department, and that is a promising development—the arrow into the future, so to speak!

Leo F. Van Hoey
Urban Studies

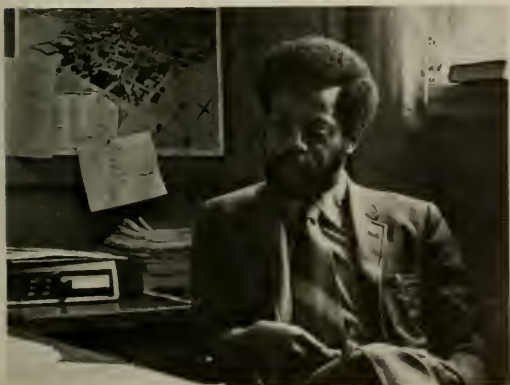

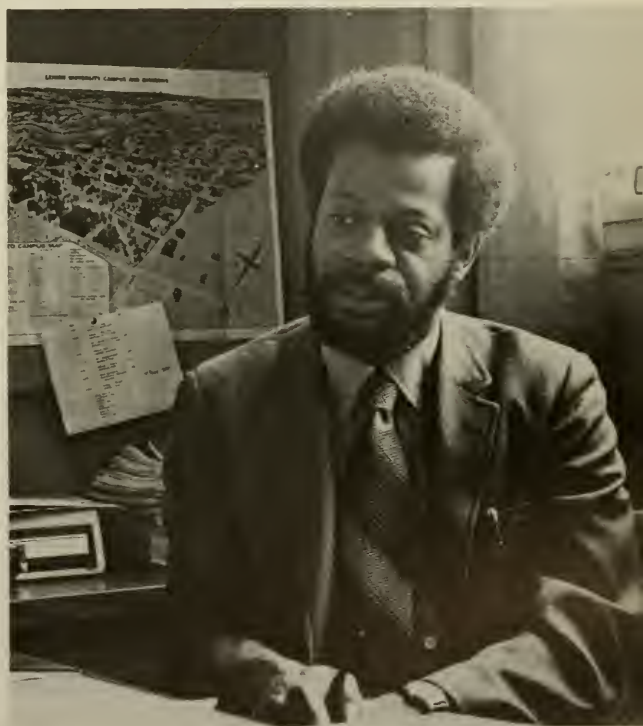

Very few, if any, educational institutions approach perfection. The best faculty supported by unlimited resources would not produce "the" university. As difficult as it may be, we must live with the reality that there will always be some degree of dissatisfaction.

Recognition of this fact should not be used as an excuse for not doing anything. Lehigh students must recognize that not only have changes taken place, but changes must take place. Tradition has its place, and tradition should not be allowed to perpetuate at the expense of progress.

Students should not only point out the faults in the system, they should also be able to offer realistic alternatives. Some of the vast amount of time spent criticizing and tearing down could be very well utilized correcting many of the wrongs. Admittedly, a student's time is very limited. However, genuinely concerned individuals find the time to do those things which are meaningful to them.

Nathan W. Harris
Asst. Dean of Student Life

I think this past year has been one of the most frustrating years that I've had at Lehigh because there are many extremely important problems facing society and for some reason, the students seem to be totally apathetic. I feel that society has to change drastically in order to solve its problems. Where are all the new young faces to fight these battles that will need to be fought? This is particularly true in the engineering field.

During this year many important pieces of legislation have come up such as attempts to end the draft, disengagement from Vietnam, and attempts to reduce the military budget. As far as I've been able to see on campus, there has been almost no interest in these issues which will affect everyone's lives. I wonder where our student activists have been in connection with these matters. Or is Lehigh a tower in itself and not concerned with the local and national community in which it lives?

John D. Wood
Metallurgy and Materials Science

In the course of general conversation both with students and with faculty, I perceive what might be characterized as an inferiority complex, a kind of self-effacement. This may stem in part from the fact that most of us who are here, be we student or faculty, when we were looking for a school to attend or a place to teach selected Lehigh after another . . . Lehigh was not our first choice. We have created as a result for ourselves what I call a second-class-ethic . . . about who we are, what we are, and, therefore, also what we have the potential to become. This I find to be denigrating and demoralizing.

Lehigh is an exceptionally fine university . . . it has many more advantages than we are willing to give ourselves credit for . . . we tend to be caught up in a melancholy delusion of being not "where it's really at". In fact, we spend so damn much time regurgitating and reminating in this fashion that it's no wonder there is any, if there is any, time or emotion left to develop an esprit.

All right, so we may have to play at Pollyanna. But even so . . . and I'm not willing to cede that it is Pollyanna . . . if we direct our energies to development instead of destruction, to progress instead of protection, we might find that our capabilities and, therefore, our characteristics are much more than we have heretofore been willing to admit, recognize, or even hint at.

Charles F. Vihon
Finance

You can't get a Lehigh student to speak kindly of a teaching assistant. He is universally maligned. I wonder if the students realize the facts of life that make them feel the way they do about teaching assistants. My feeling is that the TA is given those positions and courses where no faculty man would be caught dead. So you have a young man with very little training who is put in a position of teaching those laboratories that are repetitive and those recitation sections where nothing much goes on at the first level of instruction. If a faculty man were asked to do the things the TA does, he would lose interest quickly. He probably would not be able to appreciate the difficulties of the students and therefore would have little sympathy for them. Because of this my feeling is that the students are better served by having the teaching assistant than they would be by having one of our most erudite and famous instructors.

Leonard A. Wenzel
Chemical Engineering

There's no reason why tenure should build deadwood into a faculty. In fact, a good tenure system should result in a better faculty than a non-tenure system. This comes about because at some point in a man's career, there is a real review of his potential both as a teacher and continuing scholar. If the students would look into their complaints about the deadwood faculty, they would find that many of their professors came in before we had a tenure system at Lehigh.

Certainly, it is of great importance that teaching be considered along with scholarship in deciding on tenure, but I think that student inputs in this regard have actually been there for some time now. One of the problems, or course, is that teaching ability varies. If you had a school of all great teachers, then just like in the current system, there would still be 25% of the faculty who would not be as good as the rest, and the students would complain about that. In addition, I feel that there should be room for a man who exhibits great scholarly promise but is not a good teacher. I think that a university that is a repository of knowledge simply has to make room for a few people who are just simply scholars.

Education is an imperfect process at best. If as a student at a university one out of every four of your instructors was very good, and 25% of your courses really gave you something, you have had a very good educational experience.

Eli Schwartz

COLLEGE OF ARTS & SCIENCES

W. Ross Yates, Dean.

A black and white portrait of a middle-aged man with short, dark hair, wearing thick-rimmed glasses, a dark suit jacket, a light-colored shirt, and a dark tie. He is seated at a desk, looking directly at the camera with a neutral expression. Behind him are two shelves filled with books. The book on the far right of the top shelf is clearly labeled 'JANUARY 1960'. The lighting is soft, coming from the front, casting a slight shadow on his face. The overall tone is formal and professional.

KAPPA ALPHA

... it was another swinging year ... Riley got fastest fall, pinned within minutes of initiation ... Van's car was a grave scene (BFD) ... for \$50 I will ... Stonehead had a date ... if God didn't want your name to be Ollie, they wouldn't have put the "O" under your picture ... the tree of life ... you can't get hurt boxing ... Narcissaurus got it, often ... Bodine was burning his candle at both ends ... Zita and Cheetah ... Pandi Rescek likes carrots ... Bullet Bob still leaves at a quarter after and makes it to class on time ... Homer Schlenker and the Banjo Four ... Teshie, oh Teshie ... Scharff almost went to nationals, whew! ... Jay, John, and Stan: the eternal triangle ... KA in glee club ... Day Vow let his hair grow, got wire-rims, drove a hot car, and remained unnoticed for two months ... Reeser didn't get wire-rims ... Clements had a "heavy" date ... KAY YAY AH LUV YEW ... Bruder bought a ladies' wig ... mind, cocoa, mind, mind, mind ... the cola and the un-cola mixup ... there are three softballs in my room ... BVD? ... Hank, why are those guys saying "I can't breedth"? ... hey, Tom, your car's in the party room! ... Kappa Alpha Leeaye ... who put salt in Reston's coffee? ... it's 5:00 and the tails game's over! ... look, all the Coke is tilted! ... KA in ML ... Wally had a date ... take it to the lower dorm, guys ... we don't want to give our opponents any advantage ... Jake was "an actor man, not a promise man" ... Coad's pinmate had a misconception about the Willy Award ... wow, I didn't know this was a closet! ...

First row: Jack Krupicka, Dick Van Zandt, Larry Clemens, Andy Knoll, John Riley. Second row: Bob Carter, Bob Coad, Al Edwards, Tom Stoneback, Tom Mueller. Third row: Lane Stebbins, Dave Reese, Jules Jodko, Marc Jacobs, Walt Clevensine. Fourth row: Glenn William, Richard Bodine, Rich Van Schoick, Bob Anthony, Vern Summer, John Zapf.

KAPPA SIGMA

1st Row: Cordy Brandon, Bob Abadessa, Arthur Hughes, Michael Duguid, Harry Mamaux, Blange, Richard Junker, Robert Sturgis. 2nd Row: Tim Zettlemoyer, Bill Buskirk, Bruce Morrison, Bryan Morrison, Bryan Kiefer, Harry Shimp, Bruce Barkhorn, Bruce Van Nimwegen, Greg Cram, Richard Winkler, Bob Vitale, Doub Biro, John Blakeslee, Bill O'Donnell, Ed Petrozelli, Tom Bedwell, John Stupp, Andy Wulf, Charles Carter, Jay Gleitsmann, Rich Paul.

. . . Braff—Hum Schwantz . . . its Monty let's make a pit . . .
 freeze go for 18,000 pit points . . . Oh boy Farf let's play with the
 football . . . who's the steward? . . . this wins the Zackly award
 . . . all right you cogs . . . hey Mr. Eich I hear the bag pipes,
 where's the caber . . . McMartin and McGare a day without hum is
 like a day without sunshine . . . throw Bird in the shower . . .
 Mary Mary quite contrary how does your garden grow? . . . where
 have you gone Shelley? . . . Siggers have hoopla, huh Mike? . . .
 hey lightning it's too late now . . . let's go get a cram sandwich
 . . . where's snake, maybe he has gremlin's woman now . . . sen-
 sitive Italians not Vito-Aba-and-Petro . . . B.S. those ceiling tiles
 don't line up and tell Crotton not to make waves . . . the rotten
 scar or should I say score . . . Bag have you been punching out
 cameras lately . . . Brian was that a snake or a camel you said
 . . . Desi you got a phone call . . . no dogs this year Waffel
 . . . Barky . . . O.D. . . . D.J. Greg . . . Charlie? Nope
 haven't seen 'em . . . you stupid toad . . .

LAMBDA CHI ALPHA

The circus comes to Lambda Chi Alpha . . . P.B.'s, anyone? . . . All I want is a recap of the score . . . The spirit of the Beta Chi Chapter of Phi Gamma Delta can best be represented by our two house mascots Hughie and Big Dan. Hubert and Danny are often seen romping over the campus, playing in the garbage, and antagonizing the other dogs. Hubert and Danny are muts reflective of the constant interaction of the Gams with town elements and nearby area colleges. However, each dog has his own character—they eat out of different bowls and go to the bathroom on different trees. It should be noted that their bowls are next to each other and the trees are in the same forest.

PI KAPPA ALPHA

First row: Doug Miller, Wendall Wilk, John Thorsen, Jim Camber, Rod Reardon. Second row: Pat Kenny, Rich Lee, Chuck Metter, Joan Tufts, Rick Laird, Pete Anderson, Harry Sinclair, Marlon Woodruff. Third row: J. Wick Havens, Glenn Higbie, John Grenko, Pat Kenny

A house in perspective: PI KAPPA ALPHA

It has been the current trend for university students to steer away from fraternal living, and it would seem that this, coupled with the fact that PIKE is located off campus, should cause a decline in the membership of the house. In actuality, Pi Kappa Alpha has not only maintained its strength among the other Lehigh fraternities, but in the past rush season has even strengthened its membership with an outstanding pledge class.

The 1970-71 academic year has seen many improvements to the house and its furnishings including a new room for expansion, all of which indicate the strong financial support of the GAMMA LAMBDA Corporation.

While the house may not be first among Lehigh fraternities in cumulative standing, it is far from last. The brothers at Pi Kappa Alpha combine their scholastic responsibilities with the relaxed atmosphere afforded by their house to plan and execute a year rewarding both academically and socially. Being entirely self-owned, PIKE is able to have an active social schedule throughout the year while keeping unnecessary administrative costs to a minimum.

The off-campus location of PIKE completes this fraternity's unique character by providing a residential environment and a resulting individuality not possible to a house located within the university boundaries—a quality which is represented also, by the members of the house.

PI LAMBDA PHI

Dormies become frat-rats . . . year starts with massive cleanup . . . one JB continues his 3 year assault on TV while another fights to keep his body unscathed by physical labor . . . Barker meets his destiny—will he or won't he . . . the house solves the controversy of buying a dog with a compromise—Princess . . . Princess likes Stud's bed, but makes Millie change Stud's sheets before she'll climb on . . . Jacque's record of least dates during sophomore year appears to be broken by 4 sophomores, although cries of "Eunichism" have yet to be satisfactorily answered . . . I will not, no matter how much you pay me, I will not—— the dog . . . everybody should have a Marmon of his own . . . Wizard finds world's largest mailbox . . . toga party leads to one of grossest recordings ever . . . GG's daily routine establishes himself as a human clock . . . while Grabel holds down the Mart, Moore is keeping it up in the guest room . . . Kratzer finds a date with nice hair but a stick figure . . . one-third of the house is either pinned or engaged . . . our most productive sports year ever . . . we win track meet, track relays, turkey trot, and volleyball . . . third consecutive President's Cup shows that the "spirit of the Dormies" is still strong . . .

SIGMA ALPHA MU

Tribute to 1971 Graduating Seniors of SAM

David H. Dickstein, Scranton, Pa., alias "Honest Dave," denies the existence of coal mines in his home town. This year, Dave became the first SAM to open a department store in his room. Other than sales, Dave worked as Prior, Janitor, Waiter, and Dish-washer. Anyone need an "imaginary engineer"?

Steven J. Goldin, West Hempstead, N.Y., alias "Goldyne," known for his handling of SAM cash and kitchen. 1970-71 took Steve to Boot Camp and Ithaca College, to the placement bureau, and to classes in between.

William A. Ehrman, Hewlett, N.Y., alias "BB," business whizz, stockmarket expert, and economist's advisor. This year brought Bill additional tennis fame. Bill will be remembered for adding "spice" to many drab SAM House meetings.

William J. Waskewich, Westbury, N.Y., alias "Wasko," alto-bum known by his followers as "King of the Sweat Hogs." Ac-cording to Bill, the best way to skip finals is to break a collarbone, wrist, or just get an exemption. Simple!!

Steven D. Farer, "the Brooklyn Kid," also alias "Birdman" and "Farina," has mostly been seen carrying mung bean plants, followed by any number of parakeets, gerbils, sea monkeys, or other pets.

Arnold I. Bramow, Bethesda, Md., alias "champ", may be recognized by his wintertime attire—shirt opened and bare feet. Hero of the L.U. grovelers, Arnie is hard to pin down—although he has been known to frequent Grace Hall and Taylor Gym. Next season Arnie will be on the road with a new team—P. T. Barnum Co.

SIGMA CHI

... the old jock house reached new heights this year ... the silver bullet was tarnished ... Robb decided it was priesthood or bust ... meanwhile Toot was constipated and Fat Huz camped out in the head after a great batch of brownies ... thanks pledges ... the Duke lost his tube team membership for spending his nights in town ... Herr-Herr joined Peanut Butter Anonymous ... Coach Wally led his teams to one IM championship after another ... Clayton had a date ... somewhere ... and a dollar ... the lab was shut down for much needed repairs as Dr. Vito went to England in search of new specimens, and Dr. Joe stayed home reading medical journals ... Mr. Natural got his crew up for the weekends ... Hoople became the world's fattest skinny kid ... Snitch found a true love in Florida ... Gal forgot or lost everything ... Little Scotty grew ... Zuke got pinned ... Ivey lost his at sweetheart ... and whale was told to hand it over ... a prof, when asked about John Margo, replied, "Who?" ... Jethro was elected magister by a chin ... Beible became known as "Camp Hill Fats" ... McJAMES went from Nag to Coke King ... John Heil became the highest officer in the house ... meanwhile, Timmy had a little lunch in the UCD ... "X" kicked his way to glory in "The Story of Pete" ... Dirt-man became the freakiest hard-core jock on campus ... Strocker decided to take school seriously, so he stuck around for a week ... Slim said he wanted to be an engineer ... so they got him a job with Penn Central ... Oscar was arrested by the LCD protective association on suspicion of being a Puerto Rican ... Phantom divorced himself from townies ... the kids got thrown out of the living room, so they did it in the bar ... and the Sumo got stuck writing this ...

THETA DELTA CHI

Theta Delt is known to most solely as a basketball jock house; but it is in fact much more. Although nearly everyone in the house is athletically inclined and enjoys sports, we have no one whose life rotates around a gym suit. So the vision that many have of the Theta Delt basketball machine being constantly on the court grinding away is entirely distorted; there is not a great number of team participants and organized practices are almost non-existent.

Rather than being a close-knit, loyal Theta Delta Chi brotherhood, this house is more a group of guys living and working together. The word "brotherhood" upon which the fraternity was founded is a term rarely used, for the numerous friendships which have developed here have resulted from compatibility, and not from the fact that we are all brothers. We live and work together, but the house is not merely a body of Theta Delt's; it is a blend of interests and personalities joined by something invisible, all contained under one roof.

First row: Pete Shelley, R. Bruce Dructor, Tim O'Neil, Gary Downey, Bill Charlton, Bob Siegel. Second row: Gary Scheib, Dave Meehan, Steve Metcalf, Paul Shelley, Henry Wisniewski, Harry Miller, Jim Alexander, Kevin Simons. Third row: Bob Duncan, John Keating, Pete Ellis, Gordon Rhames, Douglass Carpenter, Glenn Neumann, Orvin Meyers, Greg Falkenbach, Bill Roper, Edwin Carter.

THETA XI

Chinese sandwiches for breakfast, lunch, and dinner . . .
 Not your Germany trip again Deinz . . . Ken (my friends call
 me Ben Miller) Schiller . . . Gress—Does he, or doesn't he
 . . . Does a wild bear . . . Red (I wish I were big) Meat
 . . . Fred (Hi Ya) Hyle . . . Hyime gets his own black car
 . . . No not Flash and Hands on the same waiting crew
 . . . Big (I do not mumble the word cah) Z . . . I'm in
 love again, but I'm not going home to change my oil . . . Bill
 (I don't do it in my VW) Jameson . . . Personalized nurse
 services for a drunk . . . Bruce (YO-YO the second) Smith
 . . . It's about time to change your rag Sop, and get your
 little brother to do the same . . . Casey's "Lend a date"
 . . . Senator (I am the President) Bayer . . . YO (Can I
 bum a drink and a cigarette) YO . . . John (Well it's time to
 count the shekels again) Espenschade . . . Mouth and the
 eternal struggle to prove he can stop talking . . . It's a small
 thing, but you're wrong . . . We've already told you three
 times Tex . . . No more road races with the vacuum cleaner
 . . . Sure that was a knitted nose warmer . . . Trans Am
 forever (Trouble) . . . Gaylord Van Houser skis to scholar-
 ship . . . PCH—Double header with obnoxious Stag and
 Waiter awards . . . Wild (I never knew there was a corner
 there) Man . . . TKV and DMN—Big Dean . . . Look out
 for flying pie cutters . . . The Reverend tried to make Cardi-
 nal, but only got Nun . . . What's a Fegley . . . Please
 don't pet the Piranha . . . Coco (I just slipped past the
 goalie) Bean . . . Mike (My parents couldn't think of one)
 Kowalski . . . Yooo nevir kaul awn meee . . . Two cars and
 five motor cycles nobody owns . . . RIGHT—right rightright
 right—RIGHT!

M&M B-2

In order of appearance: Terry Baker, Brad Utz, Dave Cash, Tom Davis, Walt Ryan, John Lawson, Dave Hesson, Rick Lusignea, Bill Milarcyk, Mike Mathews, George Kuczynski, Garry Torres, Jeff Haag, Bob Johnson, Frank Benson, Roy Taylor, Jeff Stegman, Alvin "Big O" Hayes, Charlie Albitz, Joe Boka, Richard Cupp, Jack Leichter, Larry Kulchar.

The season started out with the section not knowing whether Kartzman was real or a figment of their imagination. He turned out only to be a figment of Gary Torres' imagination, as was Gary . . . By the way, what was Stegman's room number? . . . The section developed its early unity by going on a trip together, with Call-Me-Mike supplying the vehicle, Stein providing the stereo, the Airplane supplying the music, and the B-Z study lounge providing the spaceship . . . Our resident spaceman, Doug Freyberger, would like to have stayed around longer but they didn't call him "sticky-fingers" for nothing . . . Anyone up for P-G? . . . Speaking about ups . . . We had a gryphon once, then came Kachel . . . We figured out that somebody must have hid a computer in the Walters-Uhle room, possibly under the bed. That must be Reed's secret girl friend . . . Would you send Lew Clewall to defend **your** country? . . . Richard Kupp—true or false? . . . The Jack Leichter—Margie Rosemont engagement has been postponed indefinitely, again . . . However, the Kulchar-Cosgrove wedding will take place as planned, and the honeymooners will reside in the Tom David Boarding House for Wayward Drifters and Homeless Heads . . . (Hi, Gary. Not really. Wacha doing? Oh, about half a gram) . . . And so we leave you with these final piercing questions: Will Stegman graduate? Will Stein win at Beta? Will Roy Taylor ever find true love and happiness? Find out next year in RH-10. P.S. It has been rumored around B-2 and eastern Pennsylvania that STEIN DEALS THE BIGGIES!!

CONGDON

First row: Jim Herget. Second row: Steve Gross, Jay Calhoun, Tom Newman, F. Scott, Tom Kinson, Bill Osborn, Jim Bearer. Third row: Al Lowe, Len Horey, John Fields, Lance Deutch, Dave Davidson, Bob Lustuca. Fourth row: Don Welsh, Kurt Ackley, Burt Rosenberg, Bob Le Bar, John Witman, Phil Weber, Charles Ermert.

LEHIGH UNIVERSITY.

SOUTH BETHLEHEM PA
1804.

SPORTS

Lehigh football fans came to expect the unexpected in 1970. Some alumni called it the most satisfying season since Fred Dunlap arrived on the scene in 1965. Others called it the most frustrating. One thing for sure, everyone had something to say about the coach and his troops in the University's 87th season of play.

Even *Sports Illustrated* jumped into the act in its October 5th issue. While featuring the ineptness of pro football's Philadelphia Eagles, author Robert F. Jones let go with this bombshell, "There must be worse teams in football. Like uh, well, would you believe Lehigh?"

Dunlap was steamed up. "That's sheer ignorance," he commented. "It's obvious he (Jones) doesn't know a damn thing. He doesn't know whether the football is blown up or stuffed."

The Alumni Association published an open letter in its *South Mountaineer* decrying the bad publicity. However, few on campus could get as worked up. Why? The Engineers had been shutout a week earlier by Penn, 24-0.

One week later Cornell's All-American half-back Ed Marinaro sliced through Lehigh's defense for 260 yards in 32 carries and four touchdowns—all in three quarters of play—as the Big Red romped 41-14. Marinaro finished the season as the nation's leading rusher.

Meanwhile, the Sports Illustrated quote was looking bigger and bigger. A Penn recruiter added fuel to the fire when he said in the Philadelphia Inquirer, "It's an insult to your integrity to play Lafayette and Lehigh. It hurts your recruiting."

One month later Lehigh silenced all critics with its most prestigious victory of the last ten years—possibly in its history.

On a crisp, sunlit, November afternoon the Blue Hens of Delaware rode into Taylor Stadium. The past two seasons they had won the Lambert Cup, symbolic of Eastern supremacy among middle-sized colleges. In 1970 they would make it three in a row.

In fact, the week before the Lehigh game, Temple coach Wayne Hardin called Delaware the juggernaut of the East and compared its backfield to the Notre Dame's legendary four horsemen.

Under the pressure of a dynamic Lehigh attack, the juggernaut went flat in Bethlehem. The final score read Lehigh 36, Delaware 13.

"We knew we had a good squad," defensive co-captain George Nicholson said afterwards. "We were about due to put everything together and we did just that today."

Nicholson and his mates Mike Ellis, Mike Impink, and Tom Shaughnessy led a defensive tidal wave that swamped the Blue Hen attack. As an example, Delaware's all-time leading rusher, fullback Chuck Hall, who had come into the game with over 700 yards on the season was limited to 22 yards in nine carries. The Hen offense that had averaged 438 yards per game rushing managed only 131.

Meanwhile the Engineer offense came up with its most spectacular display in years. Early in the season, 5-foot, 6-inch, senior signal-caller, Gerry Berger had been called a midget in the Brown and White. Against Delaware he loomed larger than the Jolly Green Giant.

Berger executed the quarterback option series perfectly, first spreading out the Delaware defense, then coming back with quick hitters to runners Jack Paget, Jack Rizzo, Don Diorio and Eric Waldman. The strategy resulted in gains of nine, 10 and 11 yards at a crack and three touchdowns in the first half.

Carried by a deafening psyche, Lehigh poured it on in the second half. Cornerback Gary Schieb returned a punt 53 yards early in the fourth quarter to set up the first of two Ron Shattenberg field goals. Six minutes later linebacker Mike Barth dropped the Hen quarterback in his own endzone for a safety. After the free kick, Paget outran the secondary 48 yards for another score.

Now the press was singing a different tune. The Inquirer wrote, "People were so surprised you'd have thought the Taylor Stadium scoreboard read, Christians 36, Lions 13. Or Eagles 36, Anybody 13."

The following week, a Philadelphia high school coach used the Lehigh win as basis for his halftime pep talk. No longer were people calling Lehigh "worse than the Eagles" but were pointing to the Engineers' first winning season in nine years.

The bubble burst one week later when Bucknell held off a game University comeback to win 24-20. The Bisons exploded for 17 points in the second quarter but Lehigh whittled away at the lead until Jack Rizzo made a fantastic tumbling catch in the endzone early in the fourth quarter to send the Engineers ahead by three.

With 30 seconds left in the game Bison fullback Mitch Farstein rammed over from in close to win it for the visitors.

The Engineers put themselves in a deeper hole on the final Saturday of the season in the 106th renewal of the arch-rivalry with Lafayette.

With 11:28 left in the game the Leopards held a commanding 28-14 lead. Still Coach Dunlap's crew would not quit. Quarterback Berger pitched back to Paget who stunned

the house by firing a long strike downfield to wideopen receiver Bill Howard. The option went for 54 yards and Lehigh's third score. Suddenly it was 28-21.

Twelve seconds later the Lehigh side exploded when defensive halfback Schieb picked off a Lafayette pass and raced untouched down the near sideline to tie the game at 28 all.

The two teams clawed at each other until 70 seconds remained. Pard senior Rick Nowell then banged home a 28-yard field goal to give Lafayette its first win over Lehigh in three years and end the Engineers' season at 4-6.

It had been a year of amazing contrasts. On opening day Lehigh's eleven gained its first shutout in nine years by blanking C.W. Post 7-0. Three weeks later the Engineers matched the effort by stopping revenge-minded Rutgers. Out of Gettysburg the offense had a field day in routing the Bullets, 34-15.

But a disappointing 21-12 loss to Colgate and a heartbreaking 6-0 defeat at the hands of Drexel cost the University a winning season. Still victories over Rutgers and Delaware showed everyone that on certain Saturdays Lehigh could beat the best. Now the diehards ask, can the Engineers win consistently over the long haul? That will be the big question in 1971.

While the gridders were receiving lots of "ink" both good and bad, coach John Covert's cross-country team was quietly completing another fantastic season. Blemished only by an opening meet defeat at Pennsylvania, the harriers swept their next 11 duals and ran away with both the IC4A and MAC crowns.

The squad was led by the remarkable running of Tim Steele. Steele broke the course record at Fairmount Park in Philadelphia on his way to the Middle Atlantic Conference title, beating out Lafayette's fine runner, Dale Keenan.

Steele and Keenan developed quite a rivalry in 1970. They first met in the dual meet at Lafayette and despite the

rankings of Lafayette students shouting from dormitory windows, Steele coasted home to an easy victory of 25:26, nine seconds better than Keenan's effort. Steele's victory paced the runners to a clutch 20-35 win over the arch-rivals.

However, as was demonstrated at the IC4A's, Steele was only a part of a total team effort in 1970. The finish at Van Cortland Park almost seemed like the end of a regular Lehigh workout. Behind Steele who was second, John Heil placed fifth, Scott Nicholas, seventh, Mike Strockbine, eighth, and Bob Detrick was tenth.

At the MAC's it was almost the same story as the Engineers coasted to the title. After Steele's first, Roger Jackucewicz placed third, Heil was seventh and Nicholas was tenth.

During the regular season the runners captured the Canisius Invitational, the C.W. Post quadrangular and at one point had a string of four consecutive shutout victories.

Another University team gained a winning season in the fall—but for coach Tom Fleck and his soccer squad, the mark of 6-5-1 didn't come easily.

With a solid nucleus of lettermen returning, the booters were thought to be one of the teams to beat in the MAC West. However, a disastrous start of four losses in five starts eliminated Lehigh's chances of a soccer championship in 1970.

Still the season was not without its high points. At midseason the University reeled off four consecutive wins to reach 6-4-1. The victories came over Fordham, Lafayette, Swarthmore, and Rutgers.

Against the Leopards, Eric Gerhart led the attack with two goals. Tom Klonick, Simon Newton, and Paul Lowenberg each added one goal as the booters dominated the Pards in soggy weather at Saucon Valley.

Three days later Klonick and Gehart again sparked the offense with scores as the University erased a 1-0 deficit to defeat highly-regarded Swarthmore.

Saving the win in the nets was goalie Joe Strickland. The rugged Lehigh netminder had a fine season overall and for his efforts was named as the top goalie in the MAC West at year's end. Also placed on the all-star team were Engineers Simon Newton and Frank Gaughen. Other booters who made big contributions to the team's winning season were Mike Perlow, Stu Bayne, Paul Degen and Chuck Fettes.

He had cautioned that "it would take time." Yet in just one year, rookie coach Thad Turner took Lehigh from no EIWA champs and a third place at Easterns, to two EIWA champs, a sweep of Districts and a seventh at Nationals. No doubt, 1970-71 was one of the most amazing reversals in the long and glorious history of Lehigh wrestling.

It all didn't happen overnight. The University grapplers started out the first week of December in the hostile surroundings of Lock Haven State College and eeked out a 19-17 victory.

Steve Shields and Scott Christie, two seniors who came up with even bigger performances as the season progressed, had

back-to-back pins at 167 and 177 to keep the Engineers close. Then a newcomer, Bobby Lustica, a transfer student from Bucks County, silenced the capacity Lock Haven crowd by blanking the Eagle heavyweight, 5-0, to give Lehigh the thrilling opening-meet win.

Lustica was also instrumental in two other Engineer victories during the dual meet season. Before a screaming Snakepit crowd in February, he faced Princeton's highly-regarded heavyweight, Chuck Dressel, with Lehigh holding a slim 15-14 lead. Trailing 8-2 in the final period, Lustica displayed incredible psyche as he came up with four points and riding time to tie the Tiger heavy, 8-8, and preserve the Engineers' 17-16 win.

Just three days later at Army, the quiet Lehigh sophomore was thrown into the pressure cooker again. Leading 15-14 going into the final bout, Turner called on Lustica to beat West Point's Dale Morgan and save the victory. Lustica was more than up to the assignment as he handled the cadet, 7-4, giving Lehigh an 18-14 triumph.

However, in what was regarded as the most important duals of the season, Iowa State, Navy and Penn State, both Lustica and Lehigh came out on the short end.

Early in January the grapplers stayed even with the defending national champions from Iowa through 177, but faltered in the upper weights and were defeated

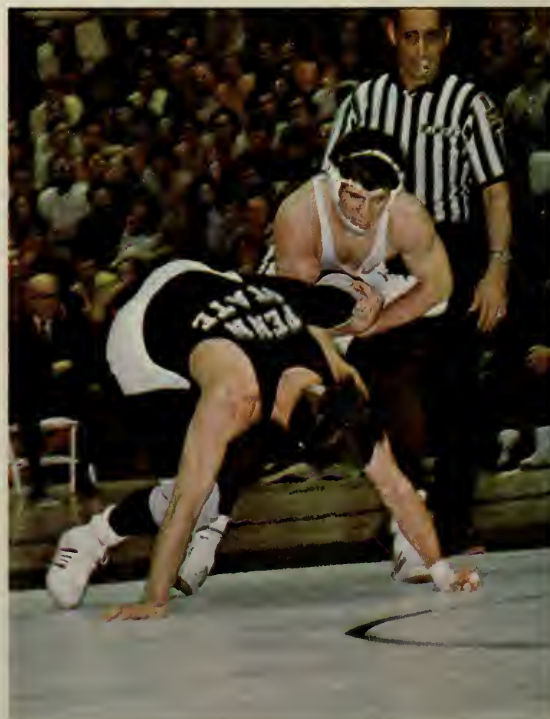

20-12. One month later three-time EIWA champion Navy invaded Grace Hall and left with a 23-14 win.

The turning point of the meet came in the 126-pound bout. Trailing 4-1 in the third period, University sophomore Greg Surenian reversed defending Eastern champ Lew Mason and then drove furiously for pinning points. But Mason, settling for a draw, stuck fast to his stomach over the final 90 seconds.

The buzzer sounded and Surenian, a bit disgusted, arose and flipped his headgear toward the Lehigh bench. Upon seeing this, referee Pascal Perri, who had not even warned Mason for stalling, shocked the capacity Snakepit crowd by penalizing Surenian for misconduct, giving Mason the bout, 5-4.

On the Monday following the dual, Perri reread the rulebook and took the misconduct away from Surenian, penalizing the team instead. By that time, however, the reversed ruling offered little solace to Lehigh fans.

Perri's original call had given the Middies the all-important psychological edge to carry them past the Engineers.

Seeking revenge, the determined wrestlers journeyed to University Park, two weeks later, hoping to knock off undefeated Penn State. Even normally conservative Coach Turner was going all out. He juggled his set lineup by moving Herb Campbell and Tom Hutchinson down, while switching Scott Christie to 190.

The strategy backfired, however, as the Lions surprised the visitors by capturing 126 and 142 and drawing at 134. By the time Steve Shields went out for the 177-pound bout, the Lions had already locked up the dual in front of its second largest crowd in history. The final read: Penn State 26, Lehigh 9.

After the meet the Brown and White reported the comment of one frustrated University fan who had made the long trek to University Park. He said, "It looks to me like the program is starting to panic."

The wrestlers weren't about to give up. "Wait till the tournaments," they said. "We're peaking for them."

They turned out to be so right. After the annual senior farewell blitz over Rutgers, the grapplers headed South for Annapolis and the Easterns.

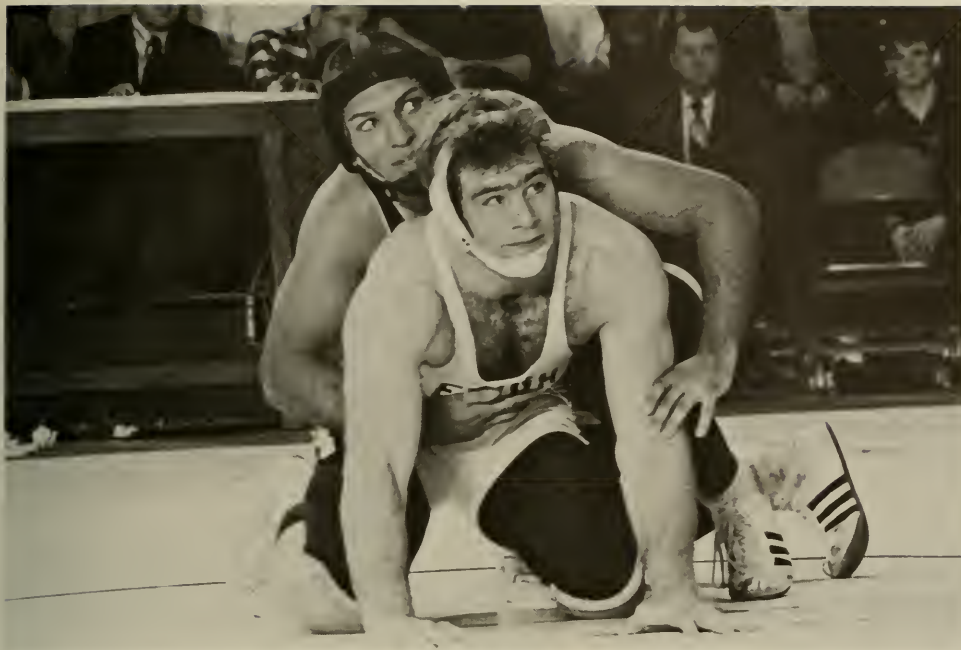

Penn State won the team title with 89 points to Navy's 85 and Lehigh's 67. However, to many fans on hand, two Lehigh wrestlers stole the show.

First there was Scott Christie, champion at 177. In the finals Christie decisioned Navy's Tom Jones, 3-1, to end the Middies' team domination of Easterns. In what some Engineer fans took as a backhanded compliment to the Lehigh senior, the entire corps of Midshipmen walked out of the fieldhouse after Jones' defeat. In an academy obsessed with winning, Navy had finally lost.

Then there was Tom Hutchinson. His story was the most improbable of all. Exactly one year earlier to the day, he had won Lehigh's intramural title at 185. He came out for the varsity for the first time as a senior and didn't break into the lineup until midseason.

Yet, his performance in the 190-pound weightclass was the talk of the tournament. He separated the shoulder of Princeton's Emil

Deliere on Friday and then handled Penn State's Jim Crowther, Saturday, to win the championship.

Other places in the tourney went to Dave Waters, fourth at 134, and to Rich Bacastow, who came alive in the consolations to finish third at 158.

The Easterns also provided the setting for the first of the "classic confrontations" between two of the country's finest 167-pounders, Lehigh's Steve Shields and Penn State's Andy Matter. In this first meeting Shields jumped out to a 3-1 lead with a takedown in the second period and then added riding time to lead 4-3 with only 30 seconds left. The Lion junior then stunned Shields with a single leg takedown to win the bout and the championship, 5-3. The Lehigh senior had to settle for a second.

A week later at Regionals, Shields got his chance for revenge. Once again he jumped ahead of Matter in the third period. But this time there was no letting up. Matter tried a desperate double underhook in the final seconds but Shields countered to the thunderous roar of the capacity house to win, 5-2.

Shields' tremendous victory highlighted a Lehigh explosion in the tournament. Once again Christie beat Jones to place first at 177. Surenian, Waters, Campbell, Bacastow and Hutchinson all placed in the top five to qualify for Nationals. In fact, if a team title had been kept (it wasn't because the tourney was used only as a qualification event for the NCAA's) Lehigh would have won with 83 points compared to Navy's 70 and Penn State's 62. The program which less than a month earlier had been labeled as "panicking" at Penn State was back on top at last.

Two weeks later the amazing season ended at Auburn University, site of the 41st annual Nationals. Strong showings by Surenian (third at 126), Hutch (sixth at 190) and Shields (second at 167) helped give Lehigh 32 points and seventh place, its best finish since Mike Caruso's last year, 1967.

Like the fabled Caruso, Shields reached the hallowed NCAA finals against his old nemesis—Matter. The two were so evenly matched that neither could score on the other. Both were overly cautious. So much so, that the referee penalized each wrestler four points for stalling in regulation time.

In overtime both wrestlers grimly held onto the other for full minute rides. Still no score. The ultimate decision was left to the referees. It went to Matter by the slimmest of margins.

Although Lehigh failed in its bid for a national champion, fans still could point to the incredible comeback the Engineers staged in less than one year's time. Pessimists shrugged that Shields and Christie would be graduating. So too would be Waters, who was practically untouchable in the dual meet season; Bacastow, who came alive in the tournaments; and captain Dave Icenhower, a hard-luck wrestler who had provided the team with capable leadership throughout the campaign.

Optimists pointed out that new co-captains Campbell and Hutchinson will help form a solid nucleus in 1971-72. Returning also will be national placewinner Surenian and a host of promising newcomers. All agreed, however, that with the return of one key figure, Lehigh wrestling would always be in good hands. That figure is Thad Turner, whose program of dedication and conditioning began a new era in University wrestling.

You couldn't blame varsity basketball coach Roy Heckman for developing gray hair in 1970-71. His cagers suffered through one of the most frustrating seasons in years enroute to a 10-16 record.

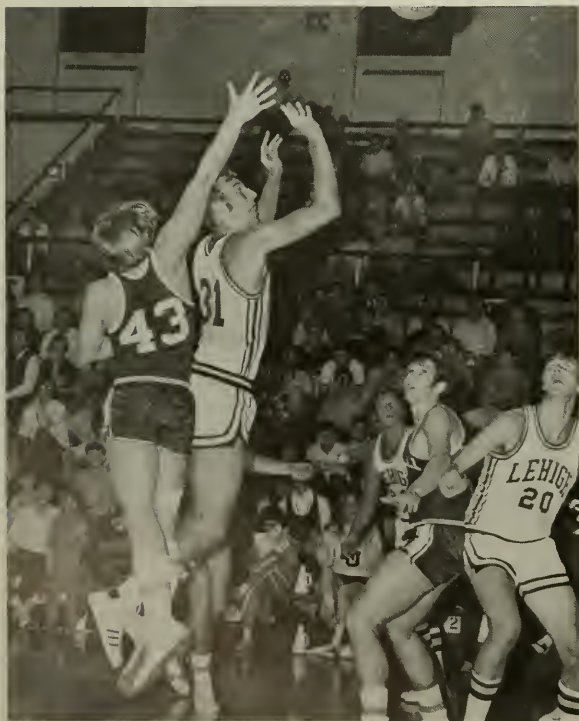

Coming off the strong 1969-70 finish against Lafayette and at the Palestra, the Engineers were picked as top contenders in the MAC West. But the hopes never materialized as the squad suffered some agonizing contests.

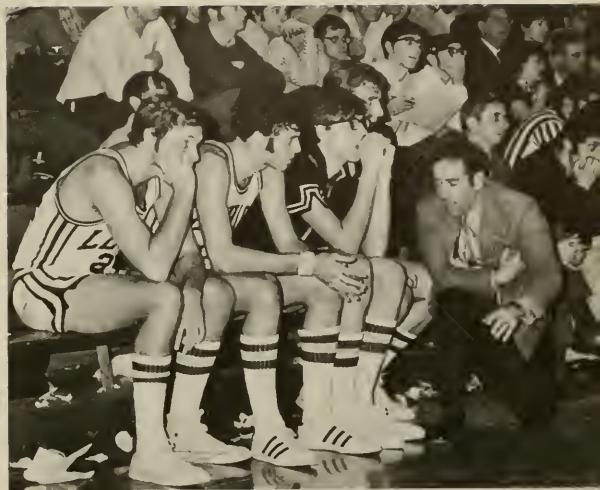

Early in the campaign a layup in the final four seconds beat them at Delaware; a walking violation and subsequent technical foul in the final 30 seconds lost the Rider game; and an intercepted cross-court pass in the final 18 seconds gave Albright a victory.

It was that kind of season.

At first, even the wins didn't come easily. The Bucknell game was the classic case in point.

Tied after regulation play, 51-51, the two teams battled for three overtimes until the Bisons opened up a seemingly insurmountable 71-64 lead with only 70 seconds left.

Then 6-8 sophomore center Hank Wisniewski got free inside to reduce the deficit to five points. Ace scoring guard John Waters stole the inbounds pass and pumped home a 25-footer to make it 71-68.

Still the Bisons looked to be in good shape. Only 30 seconds remained when Bucknell missed an attempt and Waters brought the ball downcourt for Lehigh. The blond-haired senior was then fouled attempting to drive and was given two free throws.

Waters converted the first, but missed the second. A wild scramble ensued under the boards. Wisniewski wound up with the ball underneath and laid it in to knot the score at 71. Pandomonium broke out in Grace Hall.

Fifteen seconds remained in the third overtime period. Would it go to four? No. Trying to set up a play, a Bison guard flipped the ball out of bounds giving Lehigh possession with six seconds left.

Now steady "super-sub" guards Rick and Ken Etra went into their last-second heroics. Rick took the ball out of bounds and set up a special play that the twins had created back in high school. Suddenly Ken broke out of the pack and laid the ball up too hard against the backboard.

Then out of nowhere came that man Wisniewski to ram the ball through and give the Engineers a heart-thumping 73-71 victory.

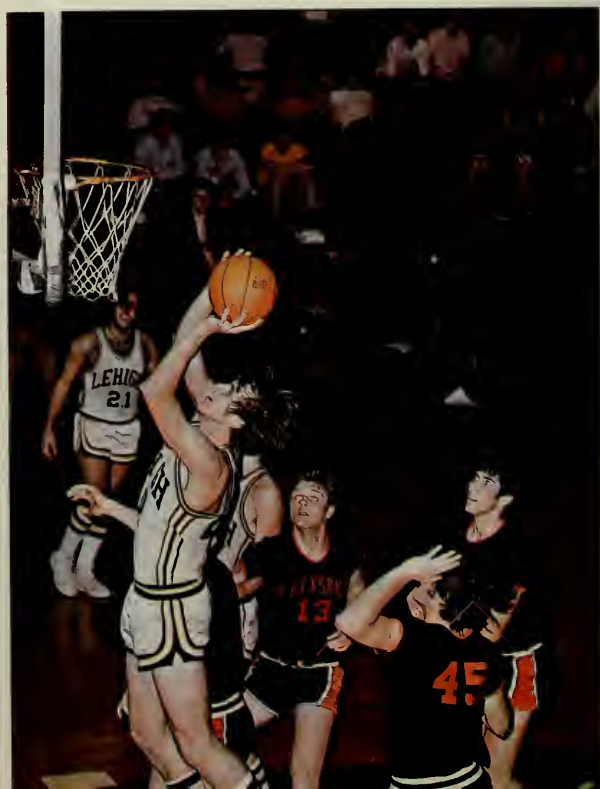

The cagers managed to carry the momentum into a Christmas tournament at Fort Eustis, Va., where they finished second against three of the top small college teams in the South.

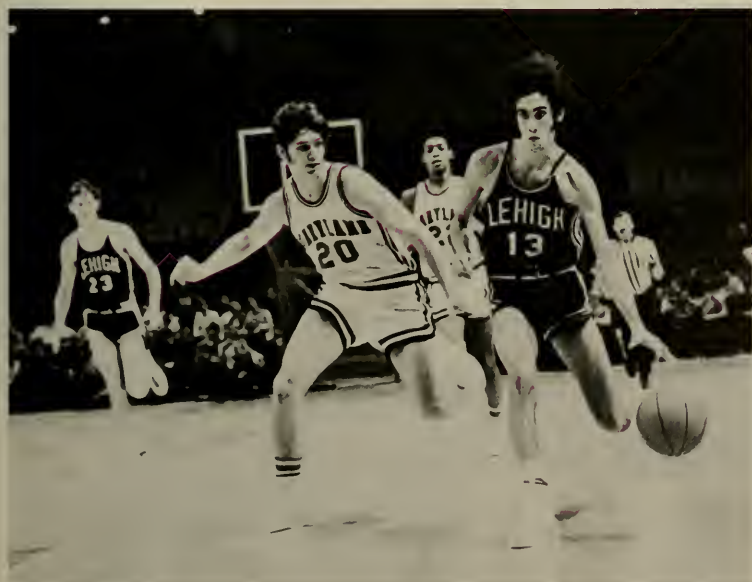

After vacation the squad ran into those close-game miseries and also lost playmaking guard Scott Beeten through midyear graduation.

Finally in the last few weeks of the season the cagers started to show the potential that had been predicted in pre-season. The team won four of the last five including a dramatic 46-point win over Rochester.

Waters finished the season as the leading scorer, averaging 16.4 points per game. During his three-year varsity career, John totaled 1,099 points to rank as Lehigh's third all-time shooter and only the fourth to break the 1,000 mark.

In rebounding, Greg Falkenbach was among the league leaders all season and finished with a total of 316 bounds.

Coach Bob Kennedy's freshman completed another winning season at 12-7. The team was led by one of Lehigh's most fascinating athletes in 1970-71—no. 13, Dave Kramer. The quiet, seemingly awkward, 6-2 freshman was a benchwarmer at the beginning of the season but came on in second semester to average over 30 points a game. In the finale against NYU he hooped 34.

Later that same night the varsity ended its season by defeating the NYU varsity, 78-72. Soon afterwards, the NYU coach resigned and the school dropped its entire basketball program. There must be a moral there somewhere.

There was some talk too in second semester of dropping certain minor sports at Lehigh—among them hockey and swimming.

One wonders, though, how much more cutting the athletic department can do. Early in the season the team's rink, Albeth Arena, broke down and the skaters were forced to practice outdoors—that is when it didn't rain, sleet or snow.

Games had to be scheduled anytime when indoor ice was available. Like, uh, Sunday morning at 9 a.m. in Lawrenceville, N.J. That was the starting time for the opener which New Haven College won, 4-1.

Said coach Jim Todaro afterwards, "We did everything right except put the puck in the net." That's OK guys. Most other students would have trouble walking, never mind skating, at 9 o'clock on a Sunday morning.

When the team got to play under more normal conditions, its performance was more impres-

Phil Hogan stunned the audience at the MAC's at Temple with a breathtaking time of 52.4 seconds to set a new conference record in the 100-yard butterfly. Hogan also set a school record of 21.5 in the 50-yard freestyle.

Both Hogan and MacGregor were supported by top performances from Tom Sine and Ken LeFevre to set a school record in the 400-yard medley relay at the tournament. Other Lehigh firsts went to Tom Nagy in the 200-yard butterfly and to Sine who won the 200-yard backstroke.

Unfortunately, the University couldn't overcome a super first day showing by Bucknell. The Bisons then coasted to a final 143-point total to Lehigh's 113 for the team championship.

The Engineers' dual meet season was highlighted by a 73-38 trouncing over Colgate. It was the first time in 17 years that Lehigh had beaten the powerful Red Raiders. Equally convincing was a 64-49 whitewash of Lafayette. In that one freshman Charles O'Loughlin was outstanding as Lehigh captured all but two events.

sive. Lehigh clobbered Villanova, 13-2, in one game, whipped West Chester, 8-1, in another and stopped Lafayette twice, 5-0 and 6-5.

Leading the skaters throughout the campaign were Steve Hoerner, Pete DesMeules and Bill McCarthy. Hoerner had 16 goals and 13 assists for a pacesetter 29 points. DesMeules had 26 points, including 10 goals in league play to lead the MAHL. McCarthy followed with 23 points.

Other top performers included Dave Ball, Arnie Jarmak, Jeff Frey, Jack Paget and Pete Gadkowski. Senior Marty Matijasich had a fine year in the goal grabbing 408 saves.

Records continued to fall in Lehigh swimming in 1970-71. The number one record smasher was sophomore Al MacGregor. MacGregor set new school marks in the 1000-yard freestyle (10:56.6), 200-yard freestyle (1:49.5), 200-yard butterfly (2:02.9), and 500-yard freestyle (5:01.9).

Although the swimming team's victory over Lafayette was certainly impressive, it was nothing compared to what Lehigh's rugby team did to the Pards. Behind the powerful scoring of the club's president Mike Katz and it's captain John Bainbridge, the Ruffians demolished the Leopards, 43-0, in the fall.

Then in the spring under the leadership of captain Joe Watkins, the squad wiped out the Pards 24-0 and 16-6. Key performers for "Watkins' Bullies" included Vince Pietron, Mason Pope and Steve Elchenko.

It used to be that many fleet-footed girls could outrun Lehigh trackmen—but no more. Stunning victories over Rutgers and West Chester helped give the cindermen a 7-0 season, their first undefeated campaign since 1932.

John Hill was one of the big guns on the team. Each week he set a new school record in the shotput. In fact, coming into the season the Lehigh mark was under 55-feet. By the end of the spring against Rutgers, Hill was tossing

consistently over 56-feet and had the school mark at 57-feet, one-inch.

Long distance runners Tim Steele and Mike Strockbine led the cindermen out on the track. At Rutgers they ran one-two to sweep the mile event. Hurdler Neil Tarulli and sprinters Jack Rizzo and Glen Clark also figured prominently in the team's success.

However, it was the unsung fieldmen who sparked the squad's greatest victory—a 83-65 blitzing of defending MAC champ West Chester. Afterwards ecstatic Lehigh coach John Covert labeled the win as "the high point in Lehigh track history."

With Steele and Clark out of the lineup due to injuries, the Engineers needed top performances in the field events. Hill,

Price Gielen and Ed Resch responded by sweeping the discus; Dave McCartney and Orrin Meyers finished one-two in the triple jump, and Jack Doney placed second in the high jump.

How far has University track come under John Covert? The coach hinted the answer himself after the win over the Scarlet Knights. "I really enjoyed beating Rutgers," he said. "The loss must have been a traumatic shock for them. They used to run their JV and second string against us."

"What?! They're not rehiring Jake? Oh brother, that's the last straw," remarked one exasperated lacrossman when it was announced that first-year coach Steve Jacobson would not get an offer to coach next year.

Jacobson, a graduate student at the University, receiving free tuition for his wife and himself to coach lacrosse, took the stickmen to new heights before they leveled off late in the season.

The squad opened the season against two of the East's best teams, Bucknell and Delaware, and beat them both. Against the defending MAC champion Blue Hens, sophomore John Bassini sparked the attack with three goals. Ken Scott and John Thompson each added scores for the 5-4 win.

Out at Lewisberg, the hotheaded Bassini topped his Delaware effort with four goals. Kevin Stelljes added two more and captain Jeff Curtis scored once to give the Engineers the 7-6 upset.

Suddenly, the stickmen were flying high; the Baltimore Sun poll ranked them among the top ten teams in the country. A loss to Drexel brought them down a bit but wins over Swarthmore and Gettysburg kept hopes alive for the MAC tourney and a spot in the NCAA's.

Then word leaked out that Jacobson would not be back. A coach from Hofstra had been chosen to coach both football and lacrosse next year at Lehigh.

Two days later the lacrossemen were handled by Rutgers, 17-1, and hopes for the NCAA berth were gone. Two weeks later little F&M upset the Engineers, 6-3, to ruin chances for the MAC crown.

Not to be denied of some recognition, seniors Dan Hoerig, Jeff Curtis and Dan Smith combined to power the team over Lebanon Valley, 10-6. The win was good for the Central Atlantic Coast title and an 8-3 season overall.

As it turned out, that new coach, Tom Gilburg, led his nationally-ranked Hofstra team

to a 12-0 win over Rutgers and took it to the NCAA quarterfinals before losing to Army. It was also released that Gilburg had been an All-American honorable mention lineman at Syracuse and had played with the Baltimore Colts for five years.

The University baseball team also came a long way in 1970-71. For the first time ever, the Engineers competed in a post-season playoff after tying for first at the end of the regular season in the MAC West.

The playoff game came about in dramatic fashion. The Engineers needed a doubleheader sweep over Rider on the final day of the season to catch Lafayette. The Pards had swept two from Delaware to finish 8-2.

In the first game clutch hits by Rich Revta, Jack Paget and Bob Van Etten gave Joel Menzozpane all the support he needed en route to a 6-1 win. Menzo ended the season as Lehigh's best hurler with a record of 7-2. He was also among the top pitchers in the conference with an ERA of 2.32.

The second game was a classic pitcher's duel between Engineer John Von Thaden and Rider's tough Dennis Rowley. Charlie Sieger broke a scoreless

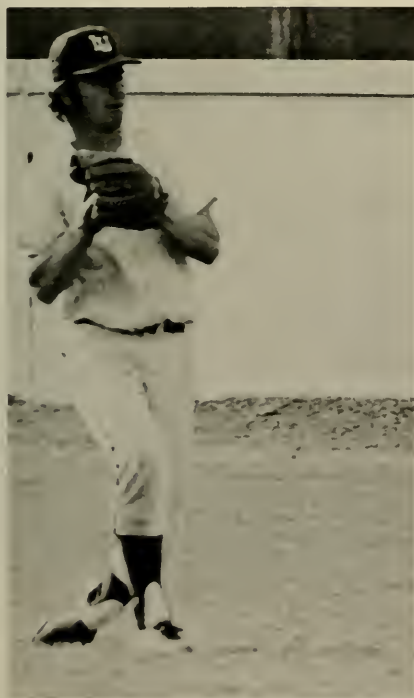

deadlock in the seventh inning with a single driving in Revta with the winning run.

The playoff game was held just two days later at Lafayette, and Coach Stan Schultz had to dig deep into his mound corps. As it turned out, it made little difference who got the call as the Pard bats ripped four Lehigh pitchers for 17 hits to win 18-2.

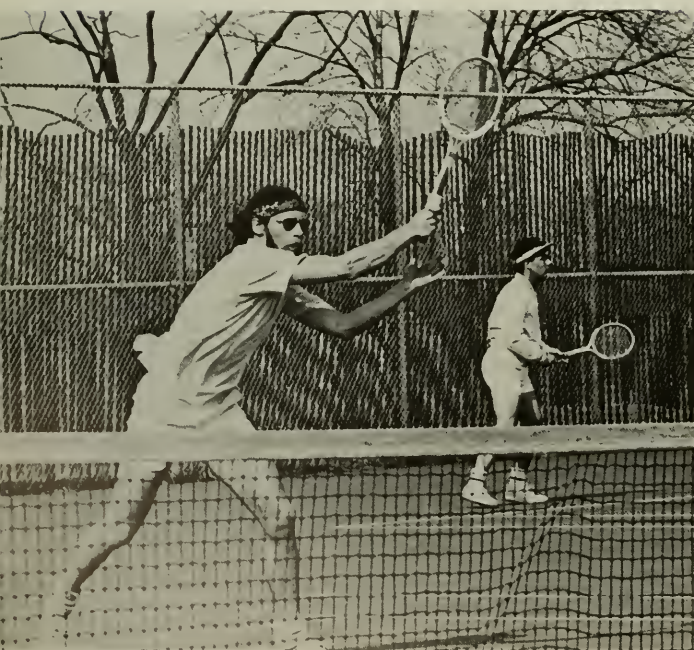

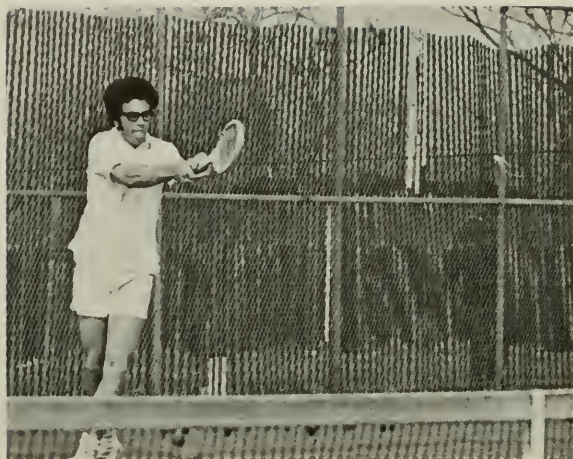

Still, coach Schultz and his assistant Craig Anderson could not be too despondent. Both Menzopane and Von Thaden will return next year plus a number of hardthrowers coming up from the JV's. Returning at the plate will be pro prospect Frank Zawatski, all-league second-baseman Ron Wilsker, and this year's freshman phenom, Rich Dempsey.

Senior Rich Revta led the team in hitting in 1971 at .334. The powerful catcher also had five homeruns to finish second in the MAC. Revta's accomplishments were followed closely by scouts in the spring, and he is expected to receive a pro offer this summer.

Ralston Merchant may be no Arnold Palmer but his clutch play helped the golf team to some surprising victories and a 7-8 season. Merchant's best round of the year, a 73, helped the Engineers knock off Delaware, 5-2. The Hens had come into the meet at 15-1.

Two freshmen and a sophomore made key contributions in the team's other big victory—a 413-416 triumph over Penn. The Quakers went on to finish third in the East but couldn't cope with soph Al Beeken's 79, and rounds of 80 and 82 by frosh Tom Sine and Al Yurko in a meet at Saucon Valley.

Netside, Sandy Salam came up with the most controversial quote of the spring. After his varsity tennis team had dropped its first four meets, the coach remarked, "We'll definitely be improved by the end of the season."

Play by Rick Silfen, Jeff Reuben, Al Wroe, Jerry McClune, John Finn seemed to bear out Salam's daring prediction. The squad won four of its next six matches. Next year all of the players except Silfen, will be back.

A funny thing happened to Lehigh's rifle team

this year—it lost a meet. The defeat came at the guns of Penn State and was only the shooters' fifth in the last four years.

However, the league campaign went as usual. The riflemen finished 12-0 in the Eastern Pennsylvania Intercollegiate Rifle League and now are 32-0 over the last three years.

Doug Loewer was the top shooter in the league with an average of 267. Other high scorers were Flip Bodine, team captain Larry Clements, Walt Clevenstine, Dave Harwood, and Steve Wenrich.

Miffed about that one defeat, one team member looked to next year's coeds as possible recruits to bolster the squad. "There is no difference between a woman, with a rifle in her hands, and a man," he pointed out, showing just how effective that all-male Lehigh education used to be.

So track and cross country aren't the two most popular sports at Lehigh. But they are the two most successful. Consider these facts. During the 1970-71 year the runners streaked to 10-1 (cross country), 5-1 (indoor track), and 7-0 (spring track) records. En route the harriers successfully defended their MAC and IC4A championships while the cindermen scoured to their first undefeated season since 1932 and were bonafide MAC challengers for the first time ever.

The picture was not always so bright for Lehigh's runners. In the eight years before 1967, the cross country team could muster only a lowly 18-35 record. The 1970 spring track team (5-3) boasted its first winning season since 1962. Three years ago, there was no such entity as the Lehigh indoor track team.

Why the change? It would be hard to attribute the dramatic turnabout in Lehigh's track program to anyone else but the coach—John Covert.

Covert came to Lehigh in 1967 with some remarkable high school credentials. At Gowanda, N.Y., Central High School, where there wasn't even a cross country program, he led a previously unheralded track team to a sectional championship in one year. The following 11 years, Covert spent dominating New York track and cross country at Ossining Central High. During that time his cross country teams copped ten sectional championships, seven state titles (including six consecutively) and was twice named the best high school team in the nation by the "bible," "The Track and Field News." Unfortunately, his track teams could "only" manage nine

league and eight sectional titles. There are no state championships in track.

Covert accepted the coaching post at Lehigh in 1967 partly because he wanted to coach at the college level, partly because prospects at such nationally prominent track schools as San Diego State fell through and partly because he enjoyed the challenge of building up a track program "which had never been anywhere."

His first task was to change (or evolve as he would put it) the team's attitude. "Cross country had pretty good talent and attitude," recalls Covert, "but they lacked confidence in themselves. At the end of the first year they began to believe in themselves—an attitude which is highly contagious." With that attitude established and quickly spreading, Covert guided the harriers from a 5-5 season the year before he came, to 8-3 mark in 1967, a 12-2 MAC championship year in 1968—all with basically the same personnel. In the past two years, the distance runners have been so good that shutouts and seven way ties for first have become commonplace.

Track, on the other hand, was a different story. Unlike cross country the cinderman did not even have the framework of a winning team in 1967. Said Covert, "Track left a lot to be desired. The team severely lacked manpower. Because of Lehigh's "spring syndrome" a number of talented athletes did not come out for the team. Even those on the team had a disturbing "If I can't be best then I don't want to contribute" attitude. It was a highly individualistic, selfish attitude. Slowly, the track

COVERT'S COACHING RECORD

	CROSS COUNTRY		
	CROSS COUNTRY	INDOOR TRACK	SPRING TRACK
1967-68	8-3		3-6
1968-69	12-2		1-7
1969-70	10-1	5-2	5-3
1970-71	11-1	5-1	7-0
TOTALS	41-7	10-3	16-16

program began to change. With only a skeletal team, the trackster's struggled through two dismal seasons under Covert. However, two outstanding recruiting years, the institution of an indoor track program, and the evolution of a winning attitude resulted in a winning season in 1970, and culminated in this year's undefeated squad.

Now that Covert's teams are winners (they have an aggregate record of 67-26), one naturally asks, where does Lehigh go from here. In cross country, there seems little left to accomplish. An undefeated season (the past two years have seen losses only to Penn) and cracking the NCAA's top ten remain as realistic goals. In track, there is of course the MAC title that eluded them this year and equal stature with the Ivies. However, given Lehigh's limited budget, size, and facilities, it seems that the track program has gone as far as it can go.

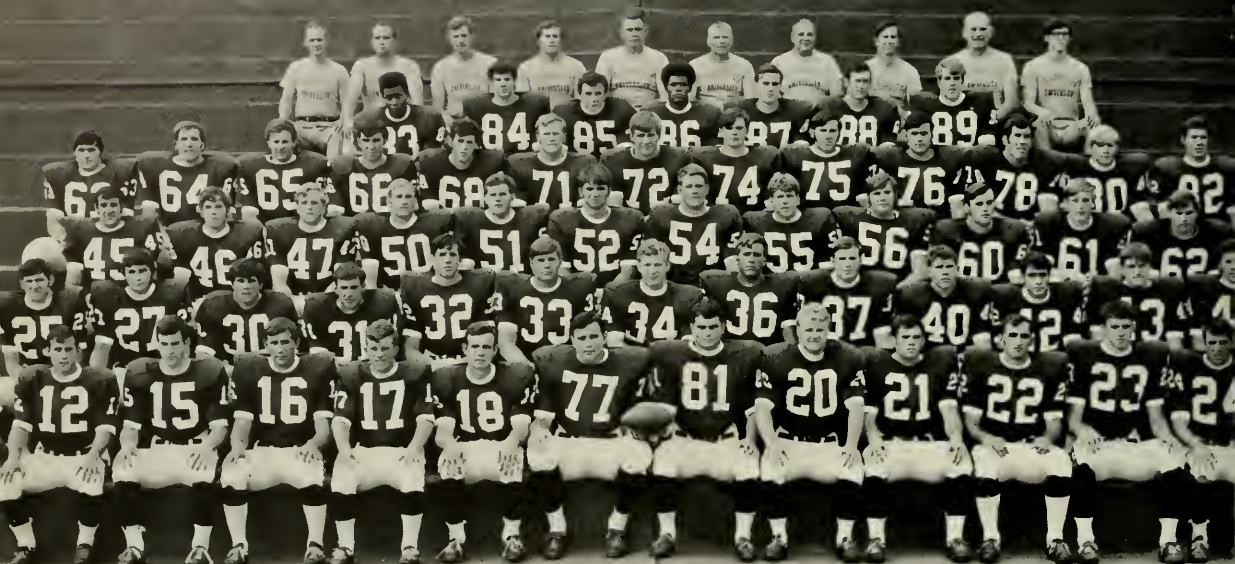

"Now that we're on top our task is doubly hard," says Covert. "We have to stay there."

LEHIGH UNIVERSITY Brown and White

Vol. 82 - No. 39

BETHLEHEM, PA., FRIDAY, MARCH 26, 1971

866-0331

TAYLOR DORM was originally scheduled to be renovated next year in P '76. However, a freshman class of 1050 makes Taylor indispensable to housing and unavailable to renovation.

Residence Hall plan 'in limbo' according to Dean Campbell

By DONALD SUSS

The status of Projection '76, a report prepared by Dean of Residence Clarence B. Campbell to outline the University's residence needs over a six-year-span, appears to be "in limbo" according to Campbell.

P-76 was adopted in principle by a subcommittee on residence and in that way is still valid and still stands. Campbell noted that the basic philosophy set forth

more squeeze comes as a result of the fact that sophomores receive the lowest priority of all people in the residence system and not all sophomores who desire housing receive it.

Two unexpected events have added to the problems of sophomore squeeze and providing housing for all undergraduates who desire it. First, Campbell noted that co-education was an unexpected added element. Originally RH-10 was planned to

No reduced language despite student support

Despite overwhelming student support for its adoption, a motion that would have reduced the language requirement in the Bachelor of Arts program to second-year proficiency was defeated yesterday afternoon in a close vote by the Arts College faculty. Two recounts of the vote were required before the motion was defeated.

The motion as presented last week by Dr. Norman Melchert, Professor of Philosophy, read as follows: "Each student in the B.A. program is required to achieve second-year proficiency in one language other than English. . . For those languages offered in a 5-5-4-3 sequence, second-year proficiency is understood to mean completion of the first 10 hours or its equivalent." An amendment passed yesterday to this motion added that "Courses taken under this requirement may be taken on a pass-fail basis."

The proposal was originally passed overwhelmingly by an oral vote of the combined students and faculty attending the Arts Forum meeting. However, in order for the motion to officially pass the forum it was subject to the approval of the faculty alone. On the third vote of the faculty the proposal was finally lost by a 17-20 vote.

The advent of three votes being necessary to decide the issue was indicative of the closeness of the faculty opinion. The first vote of the faculty resulted in a 17-17 tie. A recount was then taken that again revealed a split vote, this time by an 18-18 count. The final vote was a surprising victory for those against the motion. Following the second faculty vote Melchert, who had originally proposed the motion, arrived late at the meeting.

See: PASS-FAIL, Page 6

Chicago 7 Trial co-defendant to speak Monday

by 1976. As a result, different steps will probably have to be taken in order to arrive at the same point place as was originally set forth in P-76.

Two major points of P-76 that were considered essential to help eliminate overcrowding and will not occur are the full renovation of Taylor Hall and the building of new undergraduate dormitories by 1972. As a result, overcrowding will continue and may become more acute as larger freshmen classes and women students are admitted and the amount of housing available remains stable.

Originally it had been hoped that the number of freshmen housed in the freshmen buildings would be reduced by 1972-73. Campbell noted that this plan also is now in limbo and the present situation must continue until a new building is erected. Plans now call for a new building by 1976 and present planning is proceeding on this assumption. He added, however, that any new buildings will be "dramatically different" from the present structures.

According to Campbell instead of a full renovation of Taylor Hall, the building will be rejuvenated over the summer and open for housing next fall. This rejuvenation will probably take the form of patching up the building and could run into \$100,000 in repairs.

Campbell stated that the housing situation will probably remain for the next three years about what it has been in the

duction of women the number of spaces available for upperclassmen will now diminish by approximately the number of women admitted.

A second problem is the present higher rate of attrition at the University. This relates to residence difficulties in that in order to offset the financial loss sustained it has become necessary to admit larger freshmen classes. Since all freshmen are guaranteed housing this reduces the number of spaces available to upperclassmen.

Campbell noted that if planning had gone into effect when P-76 was originally drawn up, the University could have had new

that a factory is presently being built in New Jersey that will be capable of stacking apartments on a site within six months. These facilities, which have been used in the past, are constructed of poured concrete and meet HEW housing standards.

WEIGHTED BALLOTS

Both Forum and SAC elections will be conducted on the weighted ballot system. You vote for any number of candidates in order of preference. Registering second place vote will hurt your first choice.

Undergrad elections begin this Monday

Elections for undergraduate members of the Forum will be held Monday and Tuesday. Eighty of the 125-member body's seats will become vacant due to graduation or the normal expiration of a member's term.

Of those 80, 44 are undergraduates. To fill these seats 116 have been nominated; 37 from the College of Engineering (for 17 seats), 24 from the College of Business Administration (for 6 seats), 23 from the College of Arts and Sciences (for 11 seats), and 32 at-large (for 10 seats).

There are 16 graduate seats to fill. Five will be from the College of Arts and Sciences and will be voted on at the same time as the undergraduate elections.

Elections for the four graduate seats from the College of Engineering will be held

he appearing at Grace Hall on March 29 at 8 p.m. Dellinger's talk, sponsored by the Forum for Visiting Lecturers Committee (FVLC), is entitled "The Price of Dissent," and is open to the public free of charge.

Although he is primarily known for his participation in the Conspiracy Trail, Dave Dellinger has been a nonviolent revolutionary and pacifist since the 1940's. Born in Wakefield, Mass., he earned a degree in Economics at Yale University and was elected to Phi Beta Kappa.

He was awarded the Henry Fellowship and attended New College at Oxford University, England. He also studied at Union Theological Seminary in New York City.

Although he could have had a draft exemption as a military student, he refused to register for the draft. Dellinger was promptly jailed for this in 1940 and

COMMUNITY

Albert B. Maginnes Hall of Liberal Arts Dedicated

(Seated left to right): Dr. W. Deming Lewis, President; The Rt. Rev. Dean T. Stevenson, Trustee; Edward A. Curtis, Trustee; and Frank C. Rabold, Trustee. Speaking is Jeffrey R. Collmann, Class of 1971, who represented the students at the program.

The Albert B. Maginnes Hall of Liberal Arts was formally dedicated at Lehigh University on Friday, June 4 as a special feature of the 1971 Alumni Reunion Weekend.

The dedicatory plaque reads:

"Mr. Maginnes excelled in many fields: the law, athletics, music, and the fine arts. His life was one of integrity and service. His love of man, his gentleness and warmth of personality enriched those whose lives he touched.

"He enabled many men to come to Lehigh. He advised them to the life of inquiry and truth which was his own."

The new building honors and perpetuates the name of the late Mr. Maginnes, Lehigh alumnus and trustee who during his lifetime was a prominent New York attorney. He was graduated from the University in 1921 with a B.A. degree and received his law degree from Harvard. Lehigh conferred the honorary doctor of laws degree on him in 1965. Among his many activities he was a trustee of the Surdna Foundation, a major contributor to the new hall of liberal arts building.

Go, gourmets, go (to Hotel Bethlehem)

New CONTINENTAL ROOM. Quiet elegance. Superb cuisine and wines. Attentive service. The dinner menu is mainly French in spirit, from the escargots to the crêpes, Suzette, with a soupçon of Italian. Entertainment nightly, except Sunday. Dinner reservations, please.

New PIONEER ROOM. Excellent selection of luncheon and dinner fare, featuring several items of local heritage. An intimate dining room with an early-Moravian decorative theme, enhanced by the noted George Gray's historic murals of the founding and growth of Bethlehem.

New COCKTAIL BAR. One of the area's most popular meeting places for a relaxing libation. For those who fancy beer, we've got light and dark Lowenbrau on draft... and we serve it to you in a chilled pewter mug. Please do nibble on our imported cheese, crackers, and other tidbits.

 Manager; '71 Freshman Class Cabinet; Interfraternity Council, Rush
 Committee; I.E.E.E.; Mustard and Cheese, President, Head Lighting
 Technician; Freshman Engineering Counsellor.

HERE LIES
CLARENCE
DIED MAY 31, 1923
AGED 16 YRS.

UNIVERSITY OF MICHIGAN

FOR 14 YRS.

On the lower bank in front of Taylor Hall lies a cracked marble slab honoring a dog named Clarence who had served as Lehigh's mascot for fourteen years. However, with time university mascots have gone out of style at Lehigh, and Clarence has slowly faded into obscurity. This year the Epitome nearly came of the same fate. I am grateful to those of you who supported us and gave us the opportunity to create this book.
K.P.F.
